

Soft Skill Training Cell

**Soft skill training in DSU is conducted through our centralized CIL
(Centre for Innovation & Leadership)**

About Centre for Innovation & Leadership

CIL - is established in the year 2006 under the banner of DSI to bridge the gap between pure academics and the corporate realities. The Centre aims to impart innovative soft skill training programs to enable individuals to become champion leaders in their endeavor, and to sustain a high level of performance at the individual and the organizational level.

CIL recognizes the challenge of unleashing the potential of individuals to transform them to achieve excellence. To face the challenge, CIL is armed with eminent Academicians, Coaches, Mentors and Thinkers with hands on experience in the corporate world to design high quality training modules. The primary aim of all the training modules would be to allow individuals to take control of their lives by re-discovering their potential.

Vision

Create Champion Leaders to face Global Corporate Challenges.

Mission

To continuously strive to deliver high quality training programs, enabling individuals to achieve excellence in their field of endeavor.

Soft Skills

In order to be versatile and successful in today's dynamic business environment, one need to have good credentials with the realization those academics is just one face of

the coin. There is a growing need to learn various Soft Skills, which form an integral part of one's overall personality to improve one's own effectiveness. These additional skills sets are highly useful in the long run to build effective teams. By augmenting the existing academic knowledge, one will be able to gain significant advantage to gain a clear edge in the market place.

Induction

Induction training is an innovative device, which helps to make the students to get familiarize with the institution's culture. Every new inductee needs to be in tune with the institution culture and the training provided to him/ her needs to be more so aligned with the course needs.

Continuous Soft Skills

This Centre aims to give high quality Soft skills training program keeping in view the globalization process and is scheduled throughout the course of various disciplines such as - Engineering, Management, Pharmacy, Bio Sciences and Information technology of DSU. Every semester various modules are delivered by our expert trainers.

Pre - Placement & Placement Training

Placement training plays a key role in a student's career. In order to stand out in the present competitive world, students require excellent functional skills, Leadership and Managerial skills and an exceptional outlook. In today's vibrant job market, organizations seek talents who have both technical and interpersonal skills. Participating in placement training enable the students to know where they stand and where they need to improve.

Placement Training at DSU during the academic year 2018-19

Every student at DSU both Engineering and Non – Engineering will undergo Training on Soft skills and Engineering students will undergo Specific Technical skills mainly focused to the industry needs.

All the soft skill training programme are conducted by Centre for Innovation and leadership(CIL).
