About DSU

A Place to Grow, Excel, Invent & Innovate!

Dayananda Sagar Institutions founded in the 60's by a visionary, Late Sri. R. Dayananda Sagar (Barrister-at-Law) committed to take knowledge to the people, transforms today's students into responsible citizens and professional leaders of tomorrow. Dayananda Sagar University created by an Act of the Karnataka State in 2014, built on this adorable legacy and inspired by its own milestones, meeting the needs of quality higher education in this part of the world.

This main campus is thoughtfully planned on 130 acres, with a picturesque site and a blossoming green environment, making it free from city crowds and pollution. Being a completely self-contained campus adjacent to Harohalli Kanakapura Road, Bengaluru South District, it is equipped with all the modern state-of-the-art infrastructure, creating a conducive environment for progressive experiential learning and transforming you into next-generation innovators, explorers, leaders, and researchers.

About The College Of Nursing Sciences

Established in 2002, the College of Nursing Sciences at Dayananda Sagar University has grown into a distinguished institution known for excellence in nursing education. It offers a complete spectrum of academic programmes, including undergraduate, postgraduate, and doctoral (Ph.D.) studies in Nursing, ensuring a seamless progression for students aspiring to build advanced careers in the field. As part of the DSU School of Health Sciences, the college benefits from a strong academic framework, experienced faculty, and an environment that encourages research, innovation, and holistic learning. The College of Nursing Sciences is attached to CDSIMER Hospital, the university's parent multi-speciality teaching hospital, which provides extensive hands-on clinical exposure. This integrated clinical training strengthens students' competencies, enhances their confidence, and equips them to meet the demands of modern healthcare settings with professionalism and compassion.

Pass in 10+2, A Level, IB, American 12th grade or equivalent with Physics, Chemistry, Biology and English and a minimum of 50% marks in Physics, Chemistry, Biology and English. Eligibility shall be 45% for SC, ST and OBC candidates.

Program Unique Features

College is attached with the Parent Hospital.

Clinical Facilities with Parent Hospitals for clinical training (CDSIMER Hospital) .The students get hands-on clinical experience, direct patient care and real world hospital environment .This immersive learning can enhance nursing skill, and knowledge, preparing for a successful career

Hands on Experience

- ◆ Students are able to pursue practical learning aspects with ease of scheduling. CDSIMER hospital offers a variety of specialties and Super specialties in which the students practice their profession before attaining degree.
- ◆ The placement opportunities are high as they have personal knowledge of the hospital.
- ◆ OSCE & OSPE modules are practiced before entering the clinical area.
- ◆ Interactive sessions with online scoring are being done

Assumption of social responsibility

Teamwork and collaboration occurs when the students work in the clinical environment.

Humanitarian Approach

- ◆ The students develop compassion, concern and patience in dealing with patients directly Pre-inquisitive learning takes place within the clinical area.
- ◆ Inquiry Based Learning and problem solving are highly enhanced.

Community learning

The community serves as an area for practice and innovation. The real-life preventive aspects are learnt in the villages.

Career Opportunities

The B.Sc. in nursing is a 4-year full time degree program from College of Nursing Sciences,- Dayananda Sagar University is one of the most respected courses in healthcare and equips students with the knowledge, skills and attitude to deliver in the highly demanding essential care space. The college has world class infrastructure and facilities backed by experienced faculty. The comprehensive curriculum provides a good understanding of the concepts and skills required to deliver in competitive environments. We have an affiliation to various government hospitals such as Victoria, Vani Vilas, Kidwai Cancer Institute and Indira Gandhi Institute of Child Health and NIMHANS. We also have an MOU with our partner institutions in Malaysia and students also have access to facilities for clinical training at our parent hospitals. This gives students a distinct edge when it comes to placements. Successful students are assured of placements in CDSIMER Hospital and Sagar Hospital, Tilak Nagar, among the region's premier multi-specialty hospitals. This gives students a jump start in their careers giving them exposure to some of the most advanced environments in healthcare.

Job Roles and Descriptions

Teacher of Nursing: Educates students pursuing nursing degrees, providing instruction in various nursing-related subjects. Develops lesson plans, conducts lectures, and facilitates discussions and hands-on learning activities.

Staff Nurse: Provides direct patient care in various healthcare settings, including hospitals, clinics, and long-term care facilities. Administers medications, performs treatments, and assists with procedures as prescribed by healthcare providers.

Nursing Service Administrators: Manages the administrative aspects of nursing services within a healthcare facility. Oversees staffing, scheduling, and budgeting for nursing departments.

Military Nurse: Provides healthcare services to military personnel, their families, and veterans. Military healthcare facilities deliver primary, emergency, and preventive health services.

Assistant Nursing Superintendent: Assists the nursing superintendent in managing the nursing staff and operations within a healthcare facility. Provides leadership and support to nursing staff, including scheduling, training, and performance management.

Industrial Nurse: Provides healthcare services to employees within industrial settings such as factories, manufacturing plants, and construction sites. Addresses work-related injuries, illnesses, and health concerns.

Nursing Superintendent: Oversees the nursing staff and operations within a healthcare facility. Provides leadership, direction, and support to nursing personnel.

Community Health Nurse (CHN): Provides healthcare services to individuals, families, and communities in various community settings. Focuses on health promotion, disease prevention and wellness education.

Public Health Educator: Educators develop and implement programs to promote public health and prevent disease. They may work in communities, schools, or healthcare organisations to educate people about healthy behaviours and disease prevention strategies.

Clinical Nurse Specialist (CNS): Clinical Nurse Specialists are advanced practice nurses specialising in a particular healthcare area, such as oncology, paediatrics, or mental health. They provide expert clinical care research and educate staff on best practices.

Community Health Worker: Community Health Workers provide outreach and support services to individuals and communities to promote health and wellness. They may conduct home visits, organise health fairs, and connect people with resources and services.

Nursing Supervisor: Provides leadership and oversight to nursing staff within a healthcare facility. Coordinates staffing, scheduling, and workflow to ensure adequate coverage and efficient operation of nursing units.
