Rules and Regulations

{P@rt!cular\$}

- Team Size: 2-3 members
- Time Limit: 180 minutes
- Eligibility: Open to all students regardless of semester or field of study.
- Registration Fee: ₹50 per team.

{5kiLl-Req!rEMent\$}

- Engage in Reverse Engineering, Forensics, and web exploitation challenges.
- Usage of Google is allowed for competition and preparation, and is highly encouraged.
- NO PRIOR EXPERIENCE REQUIRED!

{ScOR!ng-\$ysteM}

- Challenges grant points, tallied on a scoreboard.
- Winners based on total earned points, tiebreaker included.
- Watch for website updates during the event.

{T00l-L!mit@ti0n\$}

- Usage of Google is allowed for competition and preparation, and is highly encouraged.
- No restrictions on strategies to obtain the flag.

{Pr0Hib!teD-aCti0n\$}

- No DDoS or server disruption attempts allowed.
- Avoid attempting to brute force flags; each question restricts attempts to 10 per minute to prevent repetitive tries

FAQs

{Wh@T-I\$-@-CTF?}

In the world of computer security, a Capture the Flag (CTF) competition involves participants' efforts to locate concealed text strings, known as "flags," embedded within intentionally vulnerable software or websites for discovery.

{h0w-d0E\$-ThE-Ev<nT-W0rk?}

- **Flag Extraction:** Search creatively for flags hidden in diverse file formats.
- **Flag Submission:** Use the format `dctf{flag}` to submit discovered flags for points.

For more details or assistance, refer to the contact information provided. Stay updated on any last-minute changes through official channels. Best of luck in the competition!
