First activity of as part of one semester upskill programme

**HOUSE OF
CODERS**
Upskill On Industry
standards
28th Jan 2023

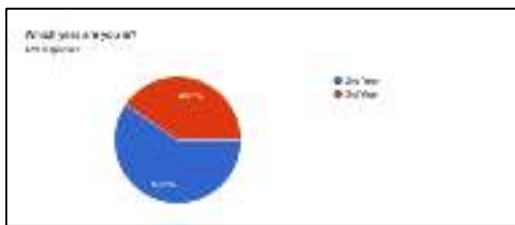

About 439 Students
Registrations from 2nd 3rd Year
Staff Coordinators of the club

Dr Girisha G S
Dr Basavaraj N Hiremath
Dr Pramod Naik and final Year
Student Mentors started the
first session

DAV
Club

Selection Process:

Registrations crossed on 439 students from 3rd and 2nd year batches.

To be able to level with the competitions, we have categorised 3 tiers,

Tire 1 , Tier 2 and Tier 3 – As 1 and 2 levels distinguish concepts clear subject to high level design coding, level 3 is having deep dive understanding of the code with a touch of Algorithm- Syntax skills.

In the final selections about 33 students stand high in the tier 3, where we have planned to meet in person class on Saturday weekly to handhold them for finer upskill with a touch of;

- Industry best practice coding skills.
- Writing code with a well design data structure and rules of algorithm with balance syntax to get the required solution.
- By this exercise we got to know the interest and attitude is at high level.

Mentors are from student coordinators of 8th sem, of the club who got placed and holding the dream offer of their career.

We thank for their interest and their nature to train youngsters to compete.

The Students team:

Abhishek Krishna T M

Abhay V R

Akshay V R

Aaroodh L

Sayantan Kumar

Yash Raj Ojha

Volunteers:

Bhagyalaxmi Kulkarni

Kavya M B

The event continues on every working Saturday till the semester end.

We will update on the updates.
