#### REPORT ON

#### 7<sup>th</sup> SEMESTER ORIENTATION SESSION

Orientation session for 7<sup>th</sup> semester of 2020 batch was conducted by the department of Computer Science & Technology on 16<sup>th</sup> August 2023. The Session Began with a warm welcome from the department chairperson Dr M Shahina Parveen and the faculty members. Dr. M Shahina Parveen began the session by explaining the purpose of the orientation, emphasising the significance of the seventh semester and the opportunities it provides. The academic aspect was highlighted, including details about the courses, syllabus, attendance, grading system, and examination. Discussed about the selection of elective course through ERP, professional elective course and core courses. Students are instructed to follow the rules and regulation of the department and SOE. Students are informed that if they ever encounter any concerns, grievances, or challenges during their time at the institution, please know that we are here to support you. We encourage open communication and value your feedback. Also addressed about gender equality, code of conduct like behaviour, discipline, dress code and related to academic activities and about their career growth. The students were provided with information about upcoming placement drives, recruitment trends, and strategies for preparing for interviews. Students were given detailed explanation about their project to be carried out and enhance their technical skills to showcase their ability to tackle real-world challenges. Students were encouraged to make the most of their final semester, engage actively in both academics and extracurricular activities, and prepare themselves for the transition into their professional lives. Prof. Baskar Venugopala has also given detailed explanation about the project, placement drives, placement trainings, some tips and suggestions for the students.
