Report on

Pre Placement Training

CIL Training

Shaping the Future Through Innovation

Date: 6th October, 2023 **Time: 09:00 PM – 4:00 PM**

Resource Person:

Inhouse Training Expert

Organizers:

Prof. Manjula M & Prof. Monish L

Assistant Professor

Dept. of CSE(DS)

Convener:

Dr. Amit Bhatt
Pro-Vice Chancellor, DSU
Dr. Udaya Kumar Reddy KR
Dean, SoE
Dr. Shaila S G
Chairperson, Dept. of CSE (DS)

Target Audiences: 5th Semester students of CSE (DS)

The DataScience@DSU club, Department of Computer Science Engineering (Data Science) has successfully organized a “Pre Placement Training” on 6th October, 2023 organized by Dr. Shaila S G, Professor and Chairperson, Dept. of CSE(Data Science), Prof. Manjula M and Prof. Monish L, Assistant Professor, Dept. of CSE (DS)**.**

The targeted audience was 3rd year students of the Department of CSE (Data Science). The session was organized in offline mode. Around 45+ students were attended the session

The Placement Event held on October 6th aimed to prepare participants for the challenges of job interviews and career development. The event featured a comprehensive program that included informational sessions, motivational talks, and interactive activities.

Event Highlights:
1.Interview Preparation: A key focus of the event was to provide attendees with guidance on how to face interviews confidently. Experienced professionals and HR experts shared valuable tips and strategies for interview success. Participants learned about resume building,email writing ,effective communication, and the do's and don'ts of interviews.

2.Motivational Speeches:Impactful motivational speeches were delivered by inspirational speakers. These talks focused on how to face failures, stay resilient in the face of adversity, and build self-confidence. The speakers emphasized the importance of perseverance and a positive mindset.

3.Interactive Activities:

**Blind Drawing Activity: Participants engaged in a unique activity where they were blindfolded and tasked with drawing shapes based on verbal descriptions. This exercise emphasized effective communication and teamwork.

**Interest and Strengths Assessment: Another interactive activity helped individuals identify their interests and strengths, helping them determine the career domains that align with their passions and abilities.

4.Skills Enhancement: Throughout the event, attendees were exposed to a range of skills essential for successful job placements. These included time management, problem-solving, teamwork, and effective presentation skills..

The Placement Event was an enlightening experience for all students. It provided practical insights into interview preparation, personal development, and career planning. The interactive activities allowed participants to put their learning into practice, fostering a dynamic and engaging atmosphere. The event was an invaluable stepping stone toward future success in the professional world.

Glimpses of the event

Report:

The DataScience@DSU Club, the Department of CSE (Data Science) organized a workshop on **"Ink and Insight: An Art of Crafting Research Papers and Thesis"** held on 4th September 2023 organized by Dr. Kakoli Bora, Associate Professor, Dept. of CSE (Data Science), and Prof. Shahwar Ara Kamal S, Assistant Professor, Dept. of CSE (Data Science).

The Speaker was in house faculty. **Dr. Kakoli Bora** gave an insight on how to write research papers. The session started with an introduction to the different technical documents like scientific paper, user manuals, whitepapers, and about journal and conference papers. The speaker discussed the procedures to be followed and each component of a research paper.

At the end of the event an evaluation was carried out and the students submitted great feedback.

The Takeaways of the event are:

1. Introduced to conference and journal paper publication
2. Got to know different types of technical writing
3. Understood the steps to follow while writing technical papers
4. Introduced to the key components of a technical paper
5. Steps to be followed while submitting a paper

Few glimpses of the event:

Thank You.

First Year Orientation Program of BCA 2023_24 Batch - From 4th to 9th September 2023

The department has conducted an orientation program from 4th to 9th September 2023. In these days various guest speakers: Mr. BalaMurali P on 5th Sep 2023, Ms. Sudha Dipti on 6th Sep 2023, and Mr. Srikanth J on 7th Sep 2023 have given tech talks to the first-year students. Sessions were conducted on Sports, NSS & Mental Health. The talent hunt session made the students showcase their hidden talents. Last days students were taken on a local visit to ISCKON Radhe Krishna Temple, Rajaji Nagar, Bengaluru.

Dayananda Sagar University Bengaluru

ALUMNI TALK

Date- 21/3/2024

On March 21/03/2024, the Department of Computer Application has organised an Alumini Talk by Nilesh Krishna. He is an esteemed alumni of Dayananda Sagar university with over 3 years of experience in supply chain Analytics, delivered a compelling technical talk at our institution. Nilesh Kumar currently serves as an SAP EDI Analyst in Montreal, QC for peerless clothing, showcasing his expertise in the field.

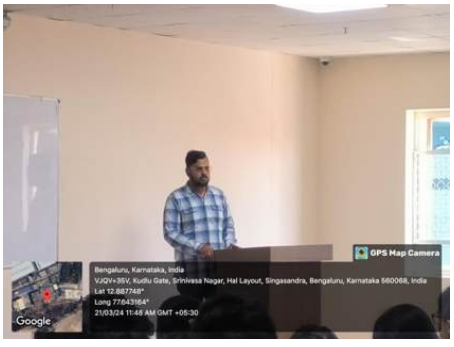

During the talk, Nilesh shared invaluable insights glanced from his past experience at Zycus Infotech Pvt Ltd in Mumbai, where he served as a procurement business Analyst and his current role at peerless clothing. He Shared light on the intricacies of SAP and its role in modern business operations, providing clarity on its functionalities and the significance of his role as an SAP EDI Analyst.

Nilesh Kumar emphasized the importance of continuous learning and skill development, urging students to obtain course completion certificates in Oracle and make use of library facilities for reference learning. He encouraged active participation in lecturing and leveraging platforms like LinkedIn to expand the profile of knowledge we gained and build professional networks.

Moreover, Nilesh Shared Valuable advice on work balance, effective communication and professional development. He emphasized the impastos of being proactive presenters, embracing mistakes as opportunities for growth, and maintaining a grounded attitude toward success.

Attendees were enlightened by Nilesh's comprehensive insights and practical advice gaining valuable knowledge on various aspects of career development and personal growth. The session proved to be an enriching experience, offering attendees a deeper understanding of the dynamics of the industry and practical strategies for success.

Orientation Program to MCA 2nd sem Students

Date: 10th July 2024

School of Computer Applications Dean Dr. Senthil S was introduced to MCA students .

Dr. Senthil warmly welcomed all the MCA students and delivered an inspiring address. He shared details about his professional journey, including his previous work experiences and affiliations with various institutions, giving us insight into his extensive expertise in the field.

He quoted several prominent figures, including Nick Vujicic, and spoke about his two key role models: Dr. A.P.J. Abdul Kalam and Mr. Narayana Murthy of Infosys. Dr. Senthil offered a unique perspective on success and underscored the value of educational institutions, describing them as temples of knowledge.

He also emphasized the crucial role of parents in our lives, reflecting on his mother as his first friend. His speech was filled with wisdom and motivation, making a significant impact on everyone present.

The orientation session led by Dr. Senthil was both memorable and enriching. Students eagerly anticipate more enlightening experiences and guidance under his leadership.

Tips and Tricks of GATE

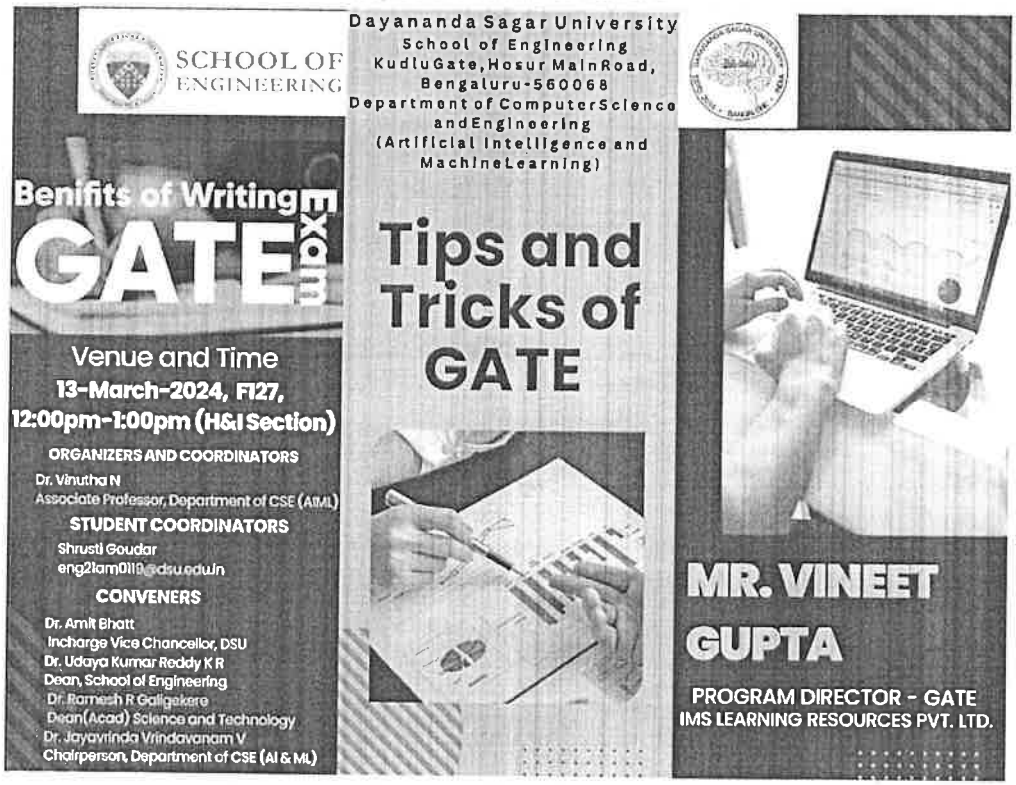

Image 1: Event Poster

The AI & ML department, organized an expert talk on “Tips and Tricks of GATE”. The session on "Career Opportunities with GATE (DS and AI)" hosted by Dayananda Sagar
University offered invaluable insights into the evolving landscape of careers in Data Science (DS) and Artificial Intelligence (AI). By addressing crucial topics such as internships, AI advancements, GATE exam preparation, and industry trends, the session aimed to empower attendees with strategic knowledge for navigating the competitive job market in these fields. This report provides a concise overview of the key discussions and takeaways from the session, highlighting the importance of informed career planning and skill development in the domains of DS and AI.
Mr. Vineet Gupta, was the speaker, he had pursued his Masters from IIITB & JBIMS, B. Tech from SPCE, Mumbai, JE selected at MSEB. And has 15 Years of Expertise. He has successfully guided 30,000+ GATE aspirants towards their IIT/PSU dreams.
The session provided a comprehensive exploration of Data Science and Artificial Intelligence (AI) careers, delving into key elements crucial for attendees' success. It began by emphasizing the pivotal role of internships, elucidating their benefits, search strategies, and the importance of tailored applications. The diverse landscape of AI career paths was unveiled, showcasing the growing demand across various industries and the essential skills needed. Coding's centrality in AI jobs, recession resilience, and insights into the Graduate Aptitude Test in Engineering (GATE) exam were elucidated. Premier institute advantages, PSU job opportunities through GATE, and upskilling avenues for PSU employees were highlighted. The session concluded by reiterating the commitment to nurturing the next generation of professionals, offering valuable insights and strategic guidance for navigating the dynamic landscapes of Data Science and AI careers.

Image 2: Vineet Gupta addressing the students

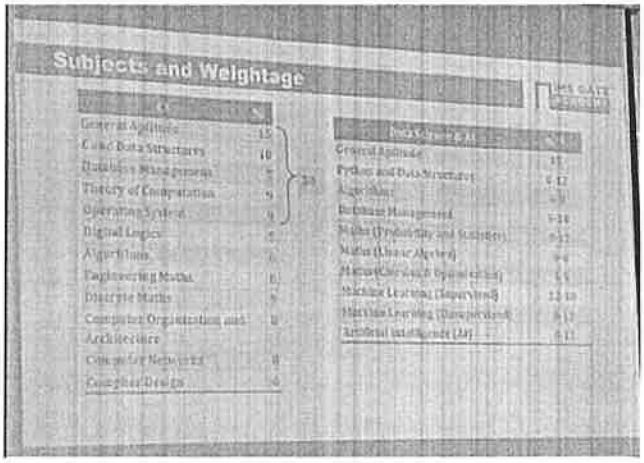

Image 3: List of Subjects for GATE Preparation

Image 4: Addressing the student doubt by the speaker

As the event approached its conclusion, Dr. Vinutha N took the stage to extend heartfelt thanks on behalf of both the organizers and attendees, acknowledging everyone's involvement, contributions, and encouragement throughout the event.

The event then concluded at 1:00 PM, marking the end of a successful and motivative talk.

The participant feedback also underscored the success of the event, with positive responses highlighting various aspects such as the organization, content quality, engagement levels, and overall experience.

Introductory remarks

The session started by welcoming the Resource Person - Dr. Shailesh Kumar, Pro-Vice Chancellor - Dr. Amit Bhatt, Dean - Dr. Uday Kumar Reddy K R, Chairperson - Dr. Jayavrinda and the student Faculty participants by Adnan, 3rd Year Student, Department of CSE(AI&ML). Followed by this Dr. Vinutha N, Associate Professor, Department of CSE(AI&ML) introduced the speaker for the session.

Resource Person:
Dr.Shailesh Kumar,
Chief Data Scientist at the Centre of Excellence in AI/ML
JIO University.

Dr. Shailesh Kumar began his talk by giving introduction about how brain, Mind, Evolution, Quantum and Planet works? The speaker mentioned about the convergence of various technologies in the different domains that are used for formulating business problems and required for the evolution of products used in day-to-day activities, characteristics of complex ecosystem, Development of Ecosystem products for the next decade like smart cities, connectivity, Refineries, Agriculture, Healthcare. He empathised on the Utilization of AI for

performing various cognitive activities. And explained about the Eight Layers of the AI Stack: Digitization, Interpretation, Causality, Prediction, Explanation, Controllability, Simulation. It is utilised for Building the API which are further used for the digitization, Automation, Democratization, Inclusion, Personalisation. He also empathised on the skills required for modern data scientist and discussed about the various Research Problems: Personalisation of Education, Agriculture, Vision Models for Healthcare, Genomics to Phenomics Mapping, Demand Forecasting of Supply of Energy, Climate Change and Sustainability, Universal Personal Assistance. Finally, the resource person addressed the queries raised by the participants. Then the presidential remarks were given Pro-vice-chancellor and Dean. After the presidential remarks, Pro-vice chancellor - Dr. Amit Bhatt felicitated Dr. Shailesh Kumar. The session was concluded with the vote of thanks by Mokshitha, 3rd Year Student of AIML. and the student's feedback was collected at the end of the session.

Student takeaway from the session : Automation, leveraging artificial intelligence (AI) and other technologies, has opened up new possibilities.

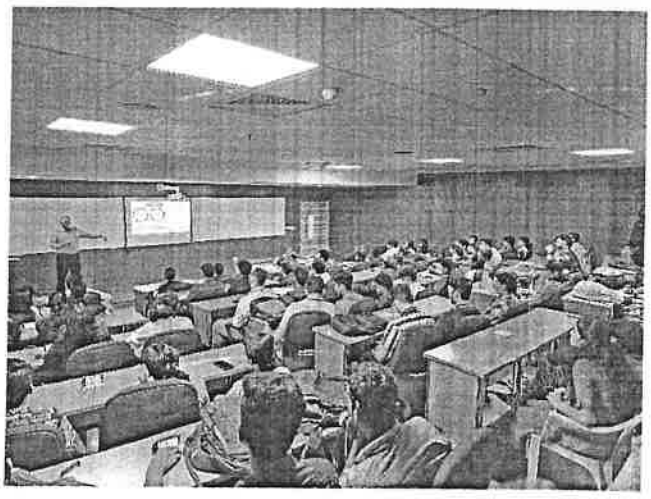

We extend our heartfelt gratitude to Dr. Shailesh Kumar for such an inspirational session and looking forward for more such sessions in the near future.

"IGNITION '23"

SPARKING KNOWLEDGE, CREATIVITY, AND COMMUNITY

Conducted by

AI Works @ DSU Club

DSU X Tempete

20th September 2023

Time: 08:45 AM – 04:15 PM

Convener:

Dr. Jayavrinda Vrindavanam, Professor and Chairperson,

Department of CSE (AI & ML), SoE, DSU- main campus

Faculty Coordinator:

Prof. Pradeep Kumar K, Assistant Professor, Department of CSE (AI & ML)

Prof. Mitha Guru, Assistant Professor, Department of CSE (AI & ML)

Student Coordinators:

Ratan Ravichandran Student, Department of CSE (AI & ML)
Sayli Pankaj Bande Student, Department of CSE (AI & ML)
Sri Bharath Sharma P Student, Department of CSE (AI & ML)
Shubhangee Das Student, Department of CSE (AI & ML)
Shriyans Arkal Student, Department of CSE (AI & ML)
Yudhajit Jana Student, Department of CSE (AI & ML)
Anuj Dwivedi Student, Department of CSE (AI & ML)
Harsh Manalel Student, Department of CSE (AI & ML)
Chirag Anil Student, Department of CSE (AI & ML)
Bhavya Sharma Student, Department of CSE (AI & ML)
Divith BS Student, Department of CSE (AI & ML)
Gaurav Student, Department of CSE (AI & ML)
Adnan Kamran Student, Department of CSE (AI & ML)

IGNITION '23

The AI and ML department organized an event by the AI Works @ DSU club and DSU X tempete club, called IGNITION '23.

About Ignition '23: our annual event dedicated to unleashing the potential and creativity of our 3rd-semester students. Our tagline, "Ignite Your Potential, Unleash Your Creativity, " encapsulates our mission: to provide an inspiring and immersive experience that prepares you for the journey ahead. We've meticulously designed a comprehensive schedule focusing on academic, technical, and personal growth. Our goal is to nurture your talents, spark intellectual curiosity, and create a sense of belonging in our academic community. Join us for an unforgettable day of growth and inspiration!

Three days prior to the event, teams were assigned general themes and required to conduct surface-level research and gather knowledge about the respective domains. These themes were carefully selected to represent emerging backgrounds in E-Commerce, Cybersecurity, and Healthcare.

Formal event was started at 8.50AM sharply, on **20th of September 2023**, the event commenced with a warm **welcome speech** delivered by **Prof. Mary Jasmine E** Assistant Professor, Dept. of CSE (AI&ML),

Opening address by **Dr. Jayavrinda vrindanaman Professor & Chairperson Dept. of CSE (AI&ML)** Dr. Jayavrinda maam has highlighted many key points on introduction to AI&ML Recent trends and Prospects. Dr. Jayavrinda has included about the current trends in the area of Artificial Intelligence, Machine Learning, Deel Learning, Data Science, Natural Language Processing, Health care etc. Maam has also shared her recent Journal Papers on AIML Domain.

During the formal event the department also shown his gratitude by celebrating **Teachers' day & Engineers day.**

Ms. Neha Amin 3rd sem AIML B Section motivated all students by informing about the teacher's day and the vital role of teachers in the field of education.
Mr. Chethan 3rd sem AIML A Section addresses the gathering about the contribution of **Sir M. Visvesvaraya** in the memory of Engineers Day and recall about the hard work carried out by Sir M V during his tenure as Mysuru deewan

To end up with the formal function, **Mr. Ratan Ravichandran Student, Department of CSE (AI & ML) proposed the vote of thanks.**

At 10.05AM Orientation of Department a insight to AIML Department, **Prof. Pradeep Kumar K, Assistant Professor, Dept. of CSE (AI&ML)** briefed about the in and out of

Department explaining the key points on **dress code, discipline, scheme & Syllabus, Department faculty & students' achievements, BoS members, Industrial visit**

After the orientation program, technical activities from the AI Works@ DSU & DSU X Tempete club has been organized in A437 & A438. Team of 5th sem AIML coordinators Ratan Ravichandran, Sayli Pankaj Bande, Sri Bharath Sharma P, Shubhangee Das, Shriyans Arkal, Yudhajit Jana started with the Following events for 3rd sem AIML Students

1. CryptoMath Hunt (Technical): solving the mathematical questions with the help of AI Algorithms.
2. Jeopardy (Technical): an technical quiz on AIML domain was organized
3. Interactive Activities: talk about public speaking, active involvement
4. Aptitude Games: 3rd sem students took keen interest in playing aptitude games.
5. Technical /IQ and Personality Enhancing

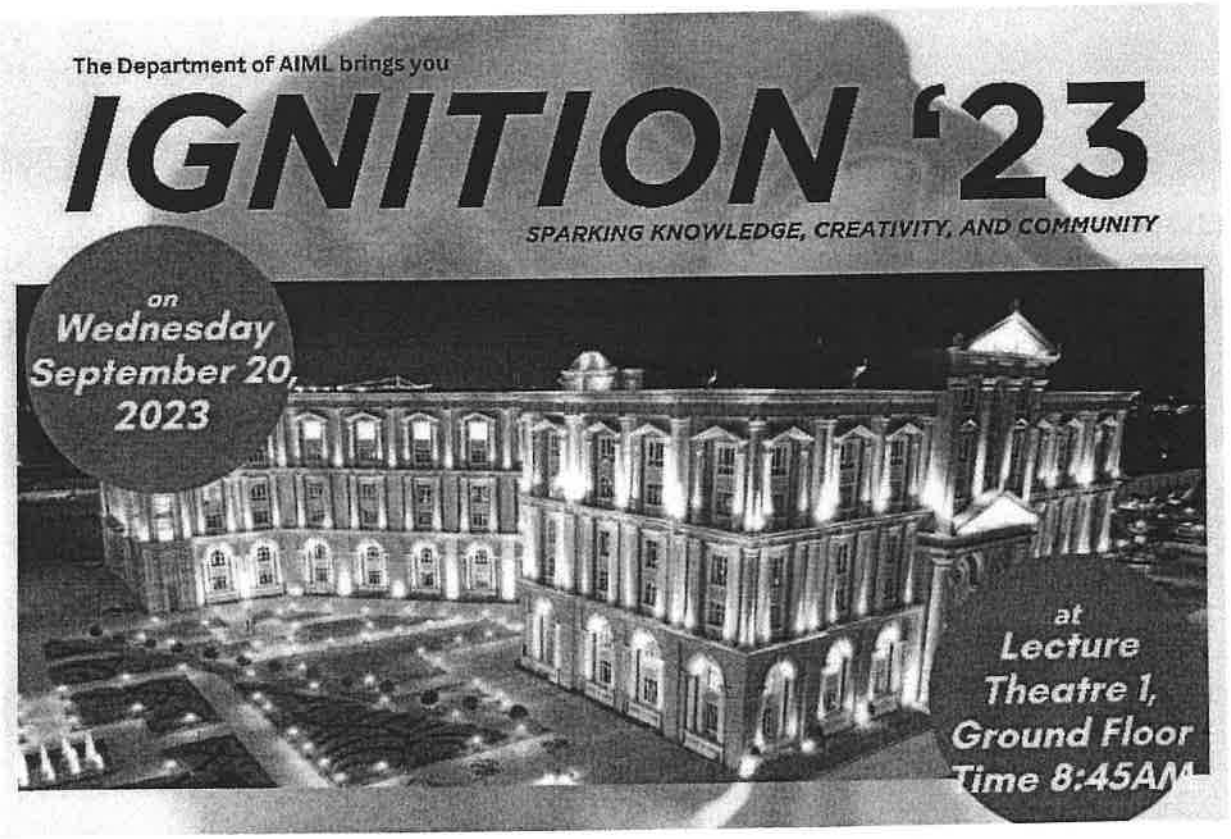

Image1: Invitation for Orientation of 3rd Sem

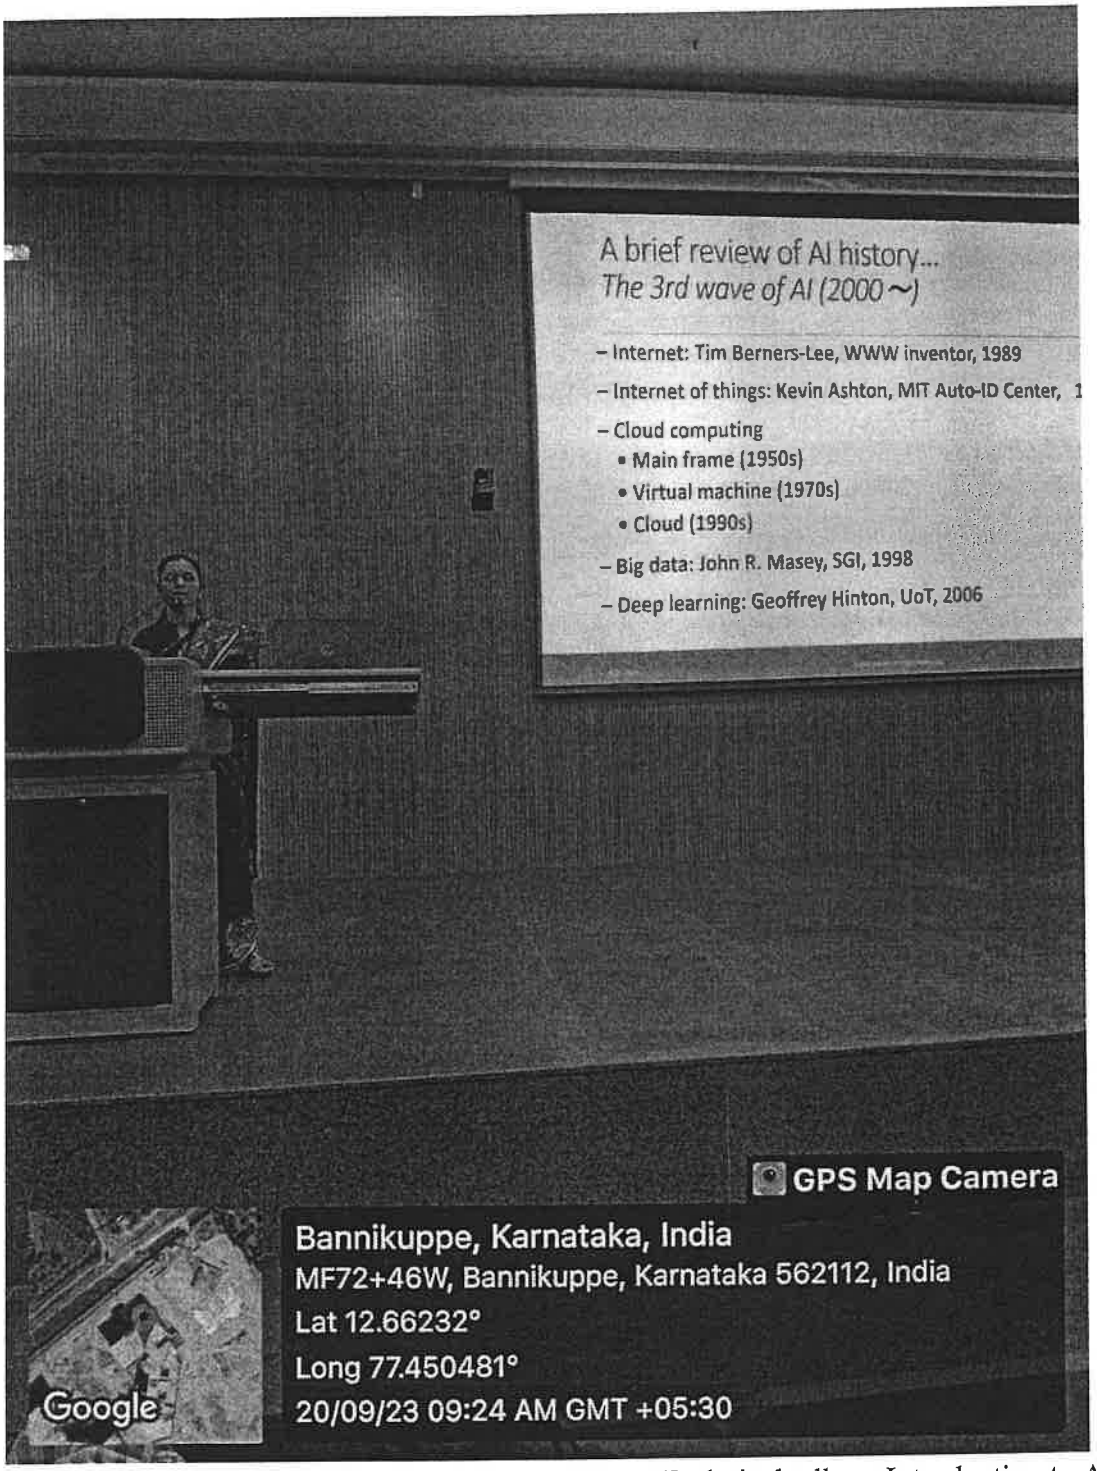

Image2: Dr. Jayavrida V, Professor & chairperson : Technical talk on Introduction to AI&ML Recent trends & prospectus

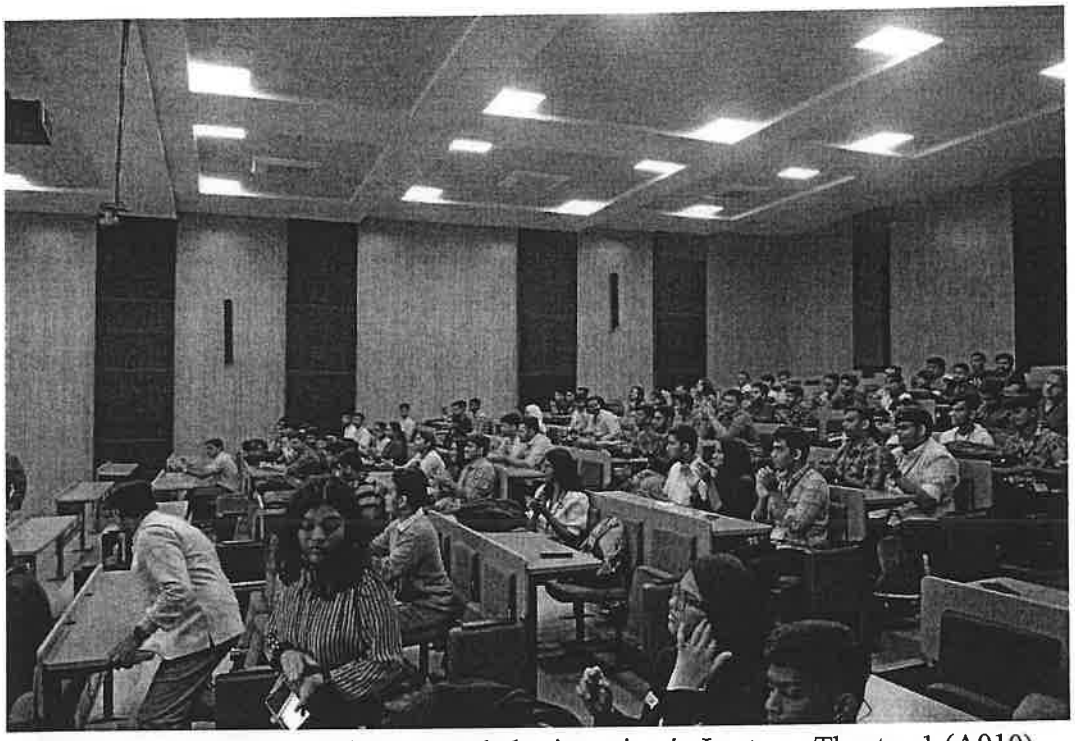

Image3: 3rd sem AIML Students attended orientation in Lecturer Theatre-1 (A010).

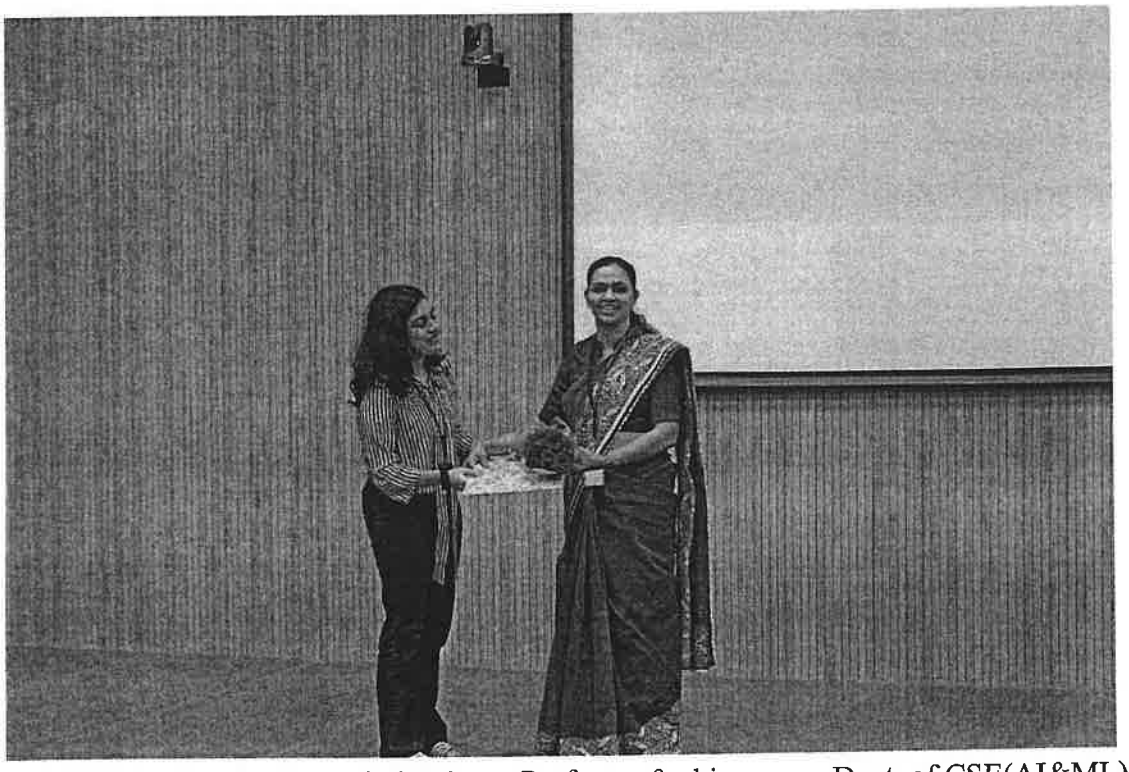

Image4: Greeting Dr. Jayavrinda Maam, Professor & chiarperson Dept. of CSE(AI&ML) for talk on Introduction to Artificial Intelligence & Machine Learning current trends & Prospects.

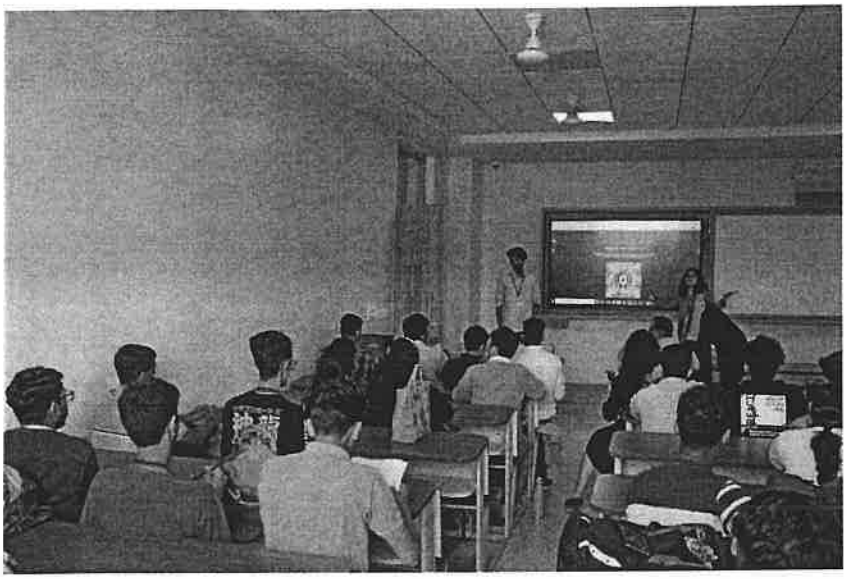

Image5: Classroom activity (A437 & A438) arranged for 3rd sem students CryptoMath hunt

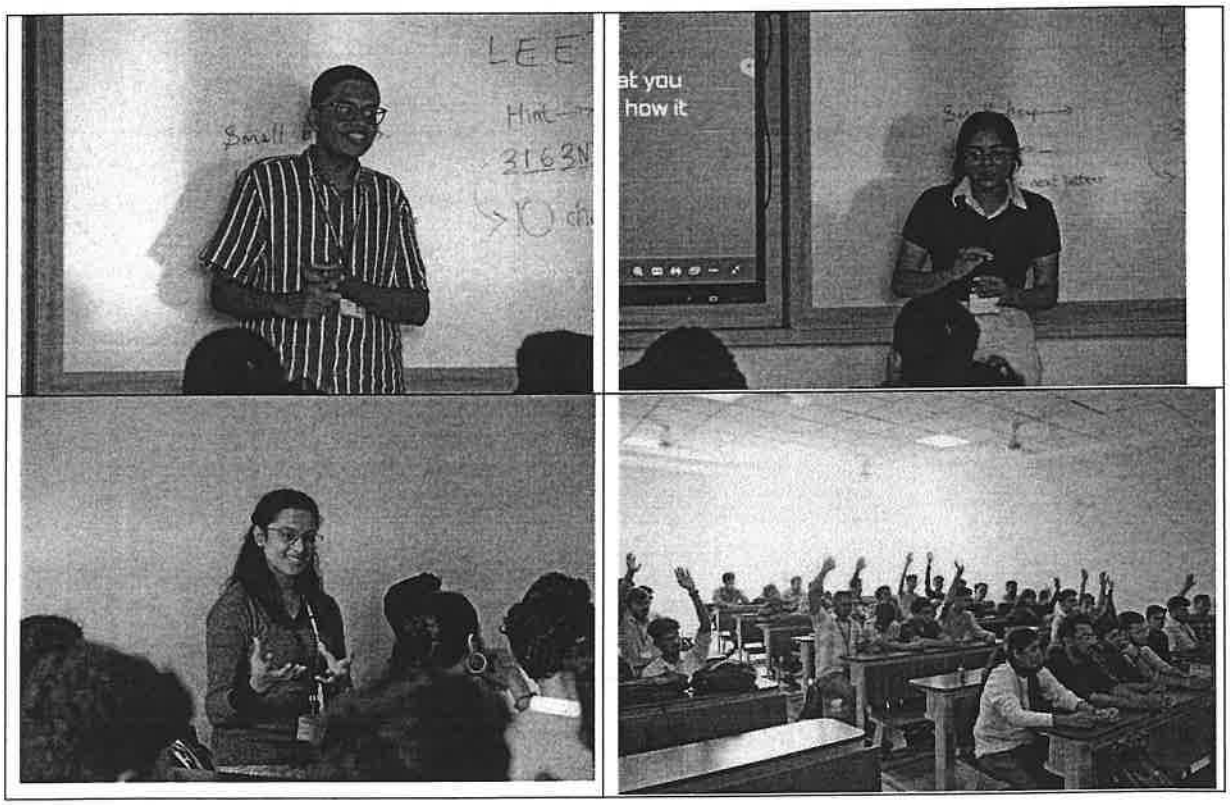

Image6: Student Interaction on events held during orientation day.

Orientation of AIML Department & Technical activities was concluded at 4.15PM and 3rd sem students are allowed to give feed back & asked for the take away from orientation program.

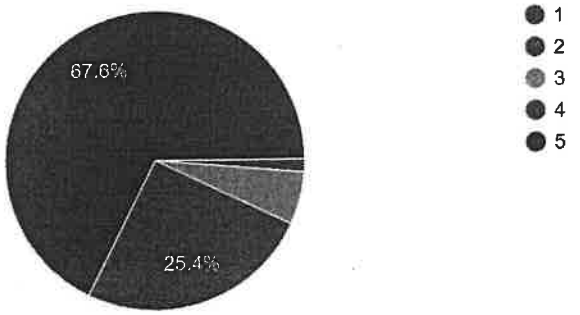

Take aways from Orientation program

1. Do some research
2. Prepare yourself both technically & actively
3. Explore the campus resources
4. Explore the options
5. Be actively social
6. Get to know the community

REPORT ON

"Navigating the Future with NLP: Unraveling the Magic of Natural Language Processing"

Conducted by

AI&ML department on

27th October 2023

Time: 11:00 AM – 01:00 PM

Speaker:

Pooja Aggarwal, Senior Researcher, IBM Research.

Convener:

Dr. Udaya Kumar Reddy K R, Dean, School of Engineering.

Dr. Jayavrinda Vrindavanam, Professor and Chairperson, Department of CSE (AI & ML).

Faculty Coordinator:

Prof. Udayabhaskara N, Assistant Professor, Department of CSE (AI & ML).

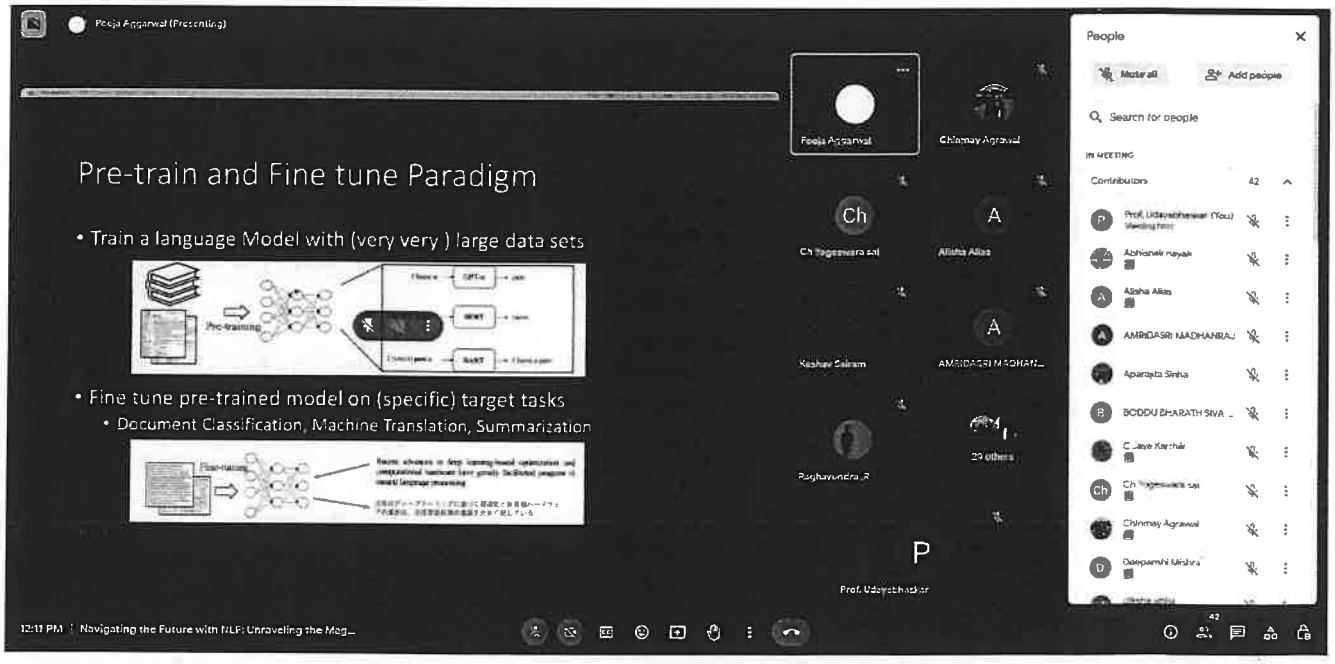

Target Audience:

5th Semester Students, AI & ML Department.

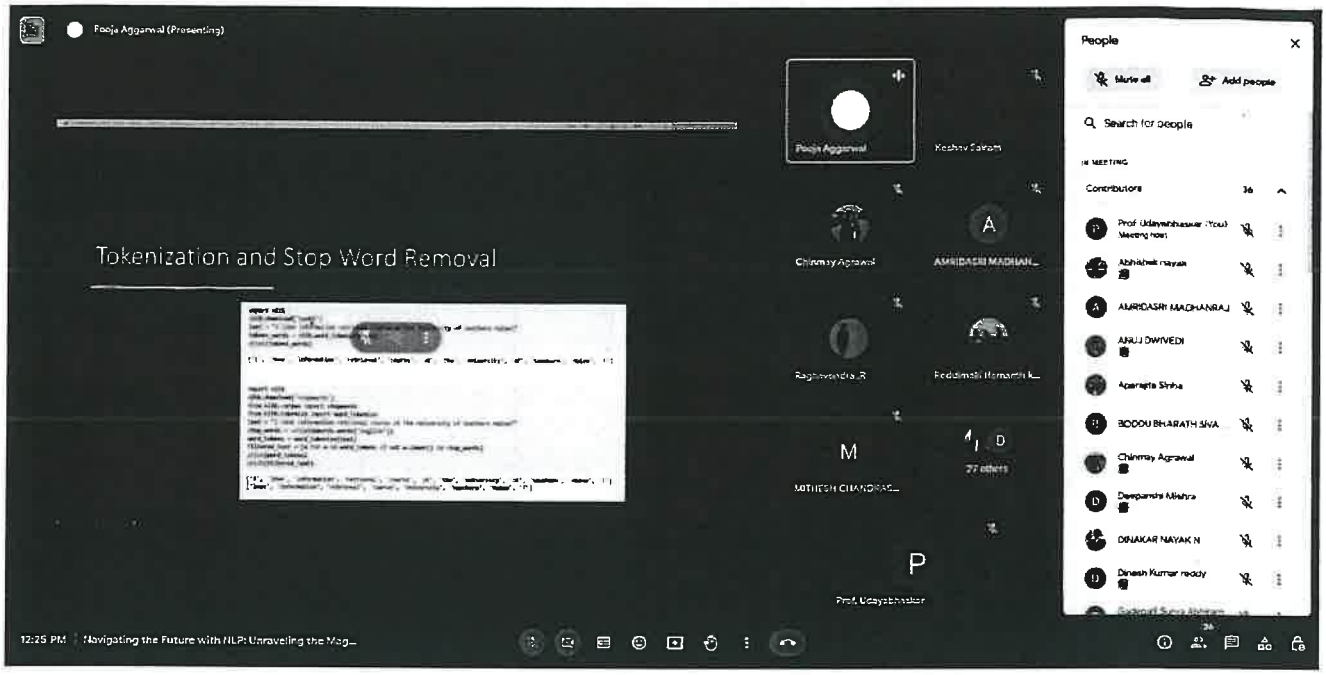

NLP Techniques and Tools

In the second part of the webinar, the speaker delved into the various techniques and tools used in NLP. She discussed the importance of data preprocessing, tokenization, POS tagging, and text classification. Students gained insights into popular NLP libraries and frameworks such as NLTK, spaCy, and TensorFlow, Transfer Learning.

Hands-on Workshop

In the final segment, the resource person demonstrated basic NLTK utilities, such as text preprocessing, including tokenization and stop word removal. This practical session allowed students to apply their newfound knowledge in a practical setting.

Key Takeaways:

Foundational Understanding - Students gained a strong foundational understanding of Natural Language Processing and its importance in the field of AI and machine learning.

Real-World Applications - The session on applications of NLP opened students' eyes to the vast range of real-world use cases for NLP technology.

Ethical Considerations - The discussion on ethical considerations was thought-provoking, prompting students to think critically about the impact of NLP on society.

Q&A Session:

The webinar featured an interactive Q&A session, where students had the chance to ask questions and seek clarifications on NLP concepts, tools, and applications. Pooja Aggarwal expertly addressed their queries, ensuring that all participants left with a clear understanding of the topic.

Report

Day: 17/11/2023 **Time:** 8:45 AM to 02:00 PM

This event was organized to enhance the skills and ideas towards Artificial Intelligence and Robotics for DSU B.Tech Students. Yantrove chapter-1 had a guest lecture by Mr. Harsh Singhal, industry expert. Mr. Harsh shared his knowledge and experience in industry with students. Students had an opportunity to clarify their doubts with Mr. Harsh.

The event was continued by inaugurating Yantrove club and project display by students of AI-ML. Mr. Shaswat Saini explained about his project on hand gesture recognition, followed by Mr. Sujay displayed his non-defensive robotic car, "Jatayu" inspiring students to contribute more projects to Yantrove club.

Students participated in the colloquium on AI and Robotics. Aim of the colloquium was to solve real world problems using Artificial intelligence and robotics. The event concluded with 3 teams being awarded with first, second & third place. Memento along with Certificates were distributed to the winners. An E-certificate was presented to all the participants.

REPORT ON

"CrypToGo- 2023 "

Conducted by

AI Works @ DSU Club

09th November 2023

Time: 09:15 AM – 01:15 PM

CrypToGo-2023

The AI and ML department organized an event by the AI Works @ DSU club, called CrypToGo. On the event day, participants found themselves immersed in a digital world, navigating through webpages filled with cryptic messages and challenging puzzles. With ciphers as the main theme, they tackledd a diverse array of cryptographic challenges. They navigated through four stages of increasingly complex puzzles.

This progressive difficulty not only sharpens their analytical thinking but also encourages creative problem-solving, providing a robust platform for skill development.

The goal was to unravel these puzzles as quick as possible, showcasing their aptitude for cracking codes and deciphering secrets.

At 9:15AM On the 9th of November, the event commenced with a warm welcome speech delivered by Ratan Ravichandran, followed by the opening address by Dr. Vinutha N (Deputy Head of Department- AI & ML). Sayli Bande then explained the rules and regulations of the event to the attentive participants.

The event spanned over 3.5 hours, providing participants with ample opportunities to showcase their cryptographic skills. The atmosphere in the room was electrifying, with participants fully engrossed in the challenges presented, fostering a sense of camaraderie among attendees.

A highlight of the event was the announcement of the winners, which added an element of healthy competition to the mix. They were as follows:

1. **First Place**: Diya Sujil and Disha K.
2. **Second Place**: Padmashree P, Mourya JP, Mokka Hema Sai, and Pavithra
3. **Third Place:** S Bhavani Prasad, Eshwar Reddy M, Ranjith Kumar M, Srinivas K, Abhishek A

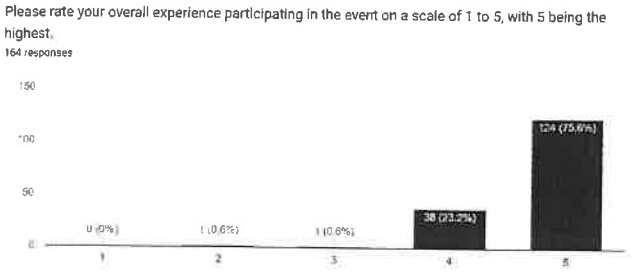

The winners will be recognized with well-deserved cash prizes.

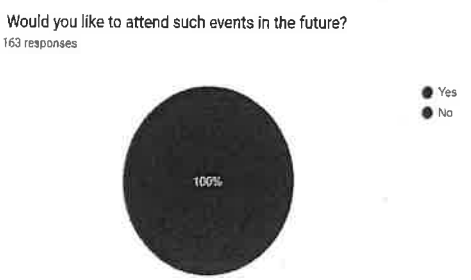

What truly underscored the success of the Cryptography Competition was the overwhelmingly positive feedback received. A staggering 162 participants and observers shared their satisfaction and excitement regarding the event.

REPORT ON

"Future Trends in Augmented Reality and Virtual Reality "

Conducted by

Department of CSE-AI&ML

24th November 2023

Time: 02:00 PM – 04:00 PM

The seminar by Prof. Mohammed Khurram J began with a clear definition of Augmented Reality (AR) and Virtual Reality (VR), establishing the foundation for subsequent discussions on their applications and emerging trends.

Key Seminar Highlights:

- **Applications of AR and VR:**

  To mention a few discussed application:

  Healthcare: Detailed discussions highlighted how AR and VR are revolutionizing healthcare, from surgical simulations to patient treatment and therapy.

  Education: The seminar delved into educational applications, showcasing how AR and VR are transforming traditional classrooms into immersive learning environments.

- **Demos of AR and VR:**

  Engaging demonstrations provided a first-hand experience of the capabilities of AR and VR technologies, emphasizing their potential impact on various sectors.

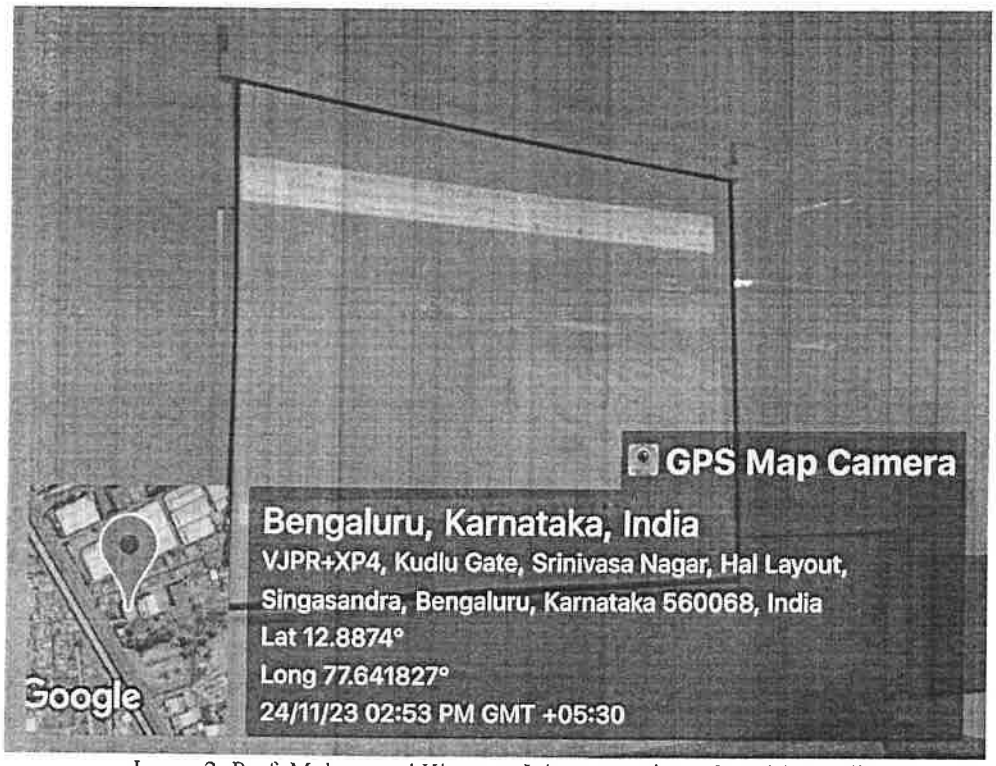

Image 2: Prof. Mohammed Khurram J demonstrating AR and VR online.

- **Subsystems of AR and VR:**

  The presentation explored the underlying subsystems that make AR and VR possible, offering insights into the intricate technologies that power these immersive experiences.

Image 3: Prof. Mohammed Khurram J explains the subsystems of AR and VR.

- **Types of AR:**

  A brief overview of different types of AR, including marker-based and markerless AR, provided a nuanced understanding of the diverse applications within the augmented reality spectrum.

- **How Humans Perceive Depth:**

  Understanding how humans perceive depth is crucial in creating realistic AR and VR experiences. The seminar addressed this aspect, shedding light on the psychology behind depth perception.

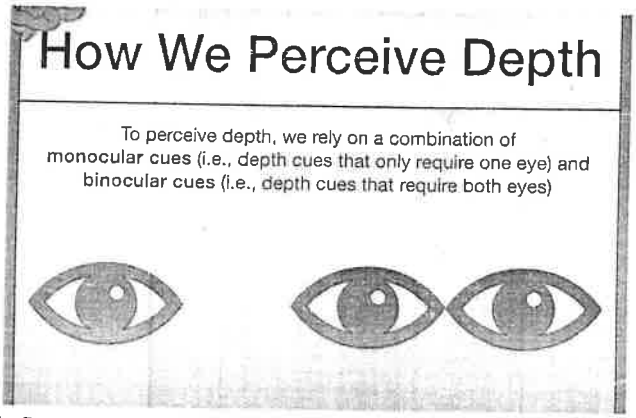

Image 4: Screenshot from the presentation Prof. Mohammed Khurram J used.

The seminar concluded on a high note with a moment of appreciation, as Dr. Vinutha N (Deputy Chairperson, Dept. of AI and ML) presented a token of gratitude to the esteemed speaker. The gesture symbolized the collective acknowledgment of the valuable insights shared during the event and the profound impact they are likely to have on the future of AR and VR technologies.

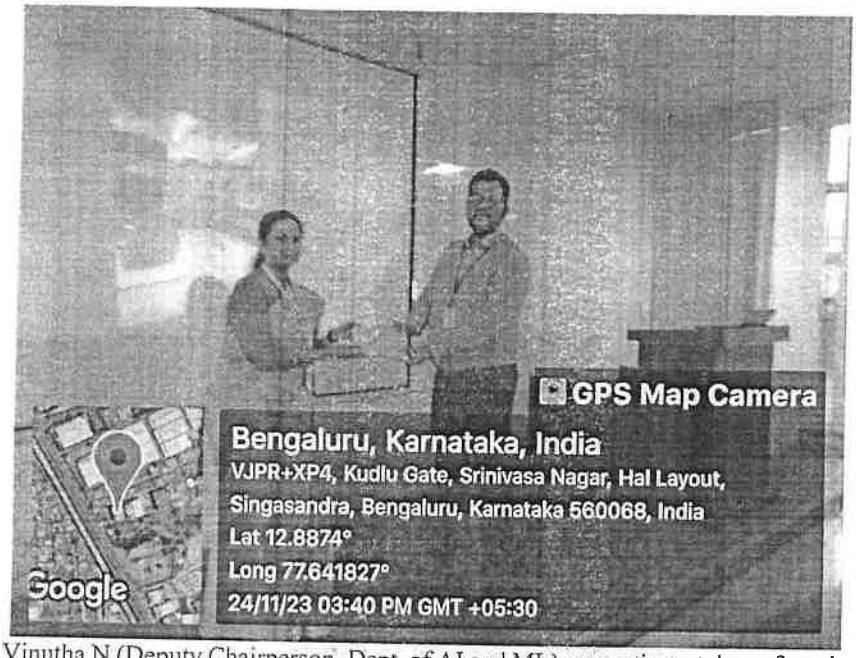

Image 8: Dr. Vinutha N (Deputy Chairperson, Dept. of AI and ML) presenting a token of gratitude to the speaker.

Towards the end of the event, the participants along with the speaker and the faculty gathered for a group picture, capturing the shared enthusiasm and engagement throughout the seminar. This not only marked the end of an intellectually stimulating event but also fostered a sense of community among attendees who shared a common interest in the dynamic field of augmented and virtual reality.

The inaugural ceremony of the "Rapid Tracer" event set a tone of excitement and anticipation as esteemed guests gathered to kick off the proceedings. **Dr. Gopal Sharma Joshi**, renowned for his contributions to the field of robotics, graced the occasion as the Guest of Honor, lending his expertise and encouragement to the participants. Accompanying him were **Dr. Udaya Kumar Reddy K R, Dean, SoE** of the institution, and **Dr. Jayavrinda Vrindavanam V, Chairperson** of the Department, whose presence added prestige to the event. Their collective insight and support underscored the significance of the competition, emphasizing its role in fostering innovation and collaboration within the robotics community.

Figure 2: Dr Gopal Sharma Joshi, Dr Udaya Kumar Reddy and Dr Jayavrinda Vrindavanam at inaugural session.

As the event progressed, the atmosphere buzzed with anticipation and energy, with each round of the competition intensifying the excitement. Line follower robots, meticulously crafted and programmed by their respective teams, took to the arena with precision and determination, navigating through challenging courses with remarkable agility. Ms. Gaana Shree, one of the student coordinators charmed the audience, guiding them through the various segments of the competition with finesse and flair. Dr. Joshuva Arockia Dhanraj, an esteemed Associate Professor, warmly welcomed the gathering, setting the stage for an inspiring and memorable event. With his wealth of knowledge and experience in the field of robotics, Dr. Dhanraj articulated the significance of the "Rapid Tracer" competition, emphasizing its role in nurturing talent and fostering innovation within the realm of engineering and technology. His words of encouragement resonated with participants, instilling a sense of purpose and motivation as they embarked on the challenges ahead.

Dean, Dr. Udaya Kumar Reddy underscored the pivotal role of the "Rapid Tracer" event in nurturing talent and fostering innovation within the realm of engineering and robotics. He emphasized how these competitions serve as crucial platforms for students to showcase their ingenuity and creativity while honing essential technical skills. Dr. Reddy elaborated on how participation in such events cultivates critical thinking, teamwork, and problem-solving abilities, all of which are indispensable in navigating the dynamic and rapidly evolving field of technology. His impassioned address inspired attendees to fully engage in the challenges and opportunities presented by the competition, reinforcing the institution's commitment to excellence and advancement in the field of robotics.

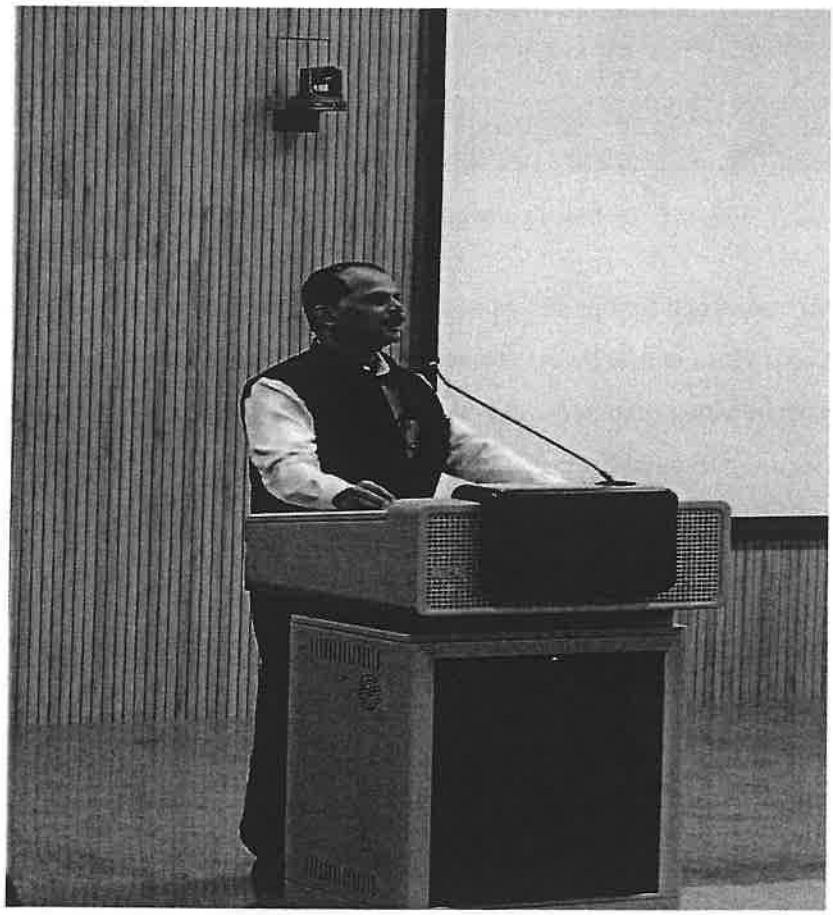

Figure 5: Dr. Udaya Kumar Reddy motivating students.

Dr. Gopal Sharma Joshi, a luminary in the field of robotics, addressed the gathering with wisdom and insight, enriching the atmosphere with his profound understanding of the subject. With a wealth of experience and expertise, Dr. Joshi shared invaluable perspectives on the significance of events like "Rapid Tracer" in fostering innovation and pushing the boundaries of technological advancement. His address resonated deeply with the audience, inspiring them to embrace the challenges of the competition with enthusiasm and determination. Dr. Joshi's words served as a beacon of guidance, encouraging participants to harness their creativity and expertise to drive meaningful change in the realm of robotics.

Part-2 -The Knock-down

Following a short interlude for refreshments, participants returned to the arena, reinvigorated, and ready to resume the competition. With renewed energy and focus, they eagerly awaited the next challenge, poised to showcase their skills and determination.

ROUNDS:

1- Prelims
2- Knock-out part 1
3- Knock-out part 2

The "Rapid Tracer" competition unfolded across three rounds, each utilizing a knockdown format to narrow down the field of competitors. In the opening round, consisting of seven teams, the intensity was palpable as robots navigated through intricate courses. Unfortunately, the challenges proved insurmountable for two teams, leading to their elimination. As the competition progressed into the second round, the remaining teams faced even more demanding tasks. Despite their best efforts, one team faltered, unable to overcome the heightened obstacles. With each round, the stakes grew higher, and the pressure mounted for the remaining participants.

In the climactic third round, the atmosphere crackled with anticipation as the top contenders battled it out for supremacy. The challenges presented in this final round pushed the robots and their operators to their limits, testing their agility, precision, and strategic prowess. After an intense display of skill and determination, the top three teams emerged triumphant, their performance in the third round serving as the decisive factor in their success. With their innovative approaches and flawless execution, these teams secured their places at the pinnacle of the competition, showcasing the culmination of months of preparation and dedication.

RULES:

1. Robots must not possess any external connections for power supply or wiring during the event.
2. A penalty will be imposed if a robot traverses outside the designated track.
3. Calibration of robots is permissible only at the commencement of the traversal.
4. No alterations to the programming of robots are permitted after the map is revealed.
5. It is obligatory for a robot to pass through all primary checkpoints.
6. Secondary checkpoints may only be bypassed after the robot has attempted to traverse them at least twice and failed. Penalties will be applied for each checkpoint skipped.
7. External control or command of robots is strictly prohibited. 8. The judge's decisions are considered final.

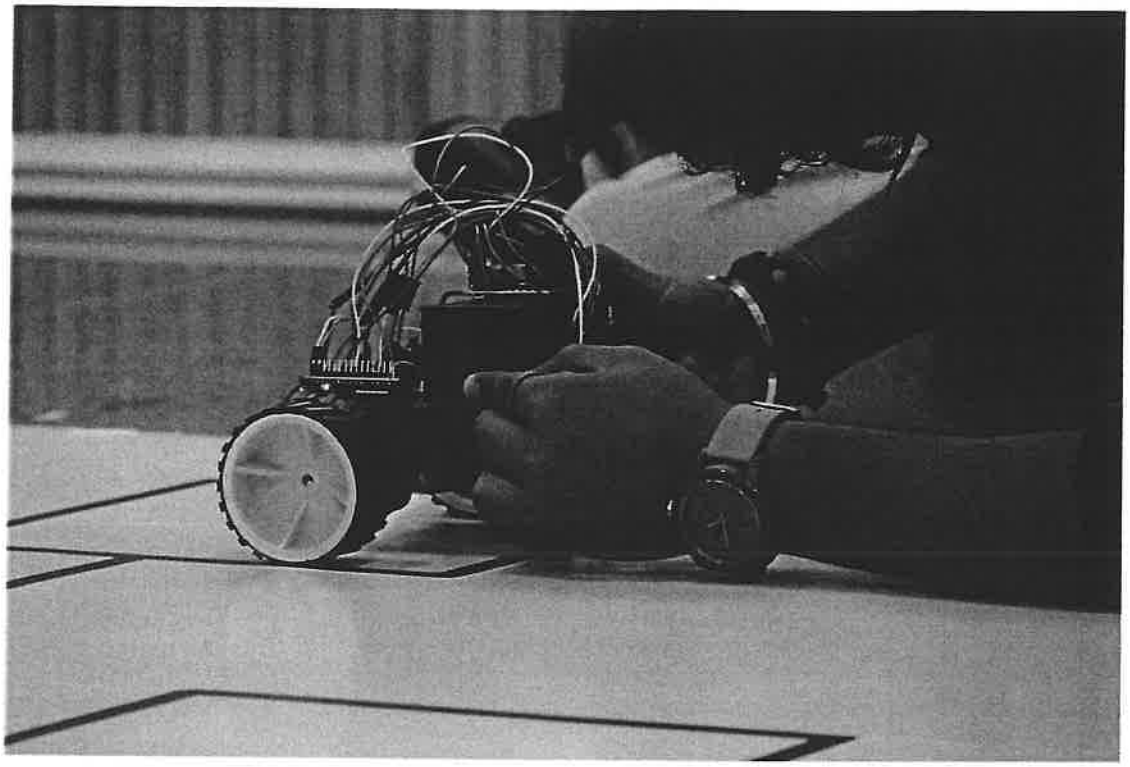

Figure 9: Participants calibrating their robots.

ROUND -2:

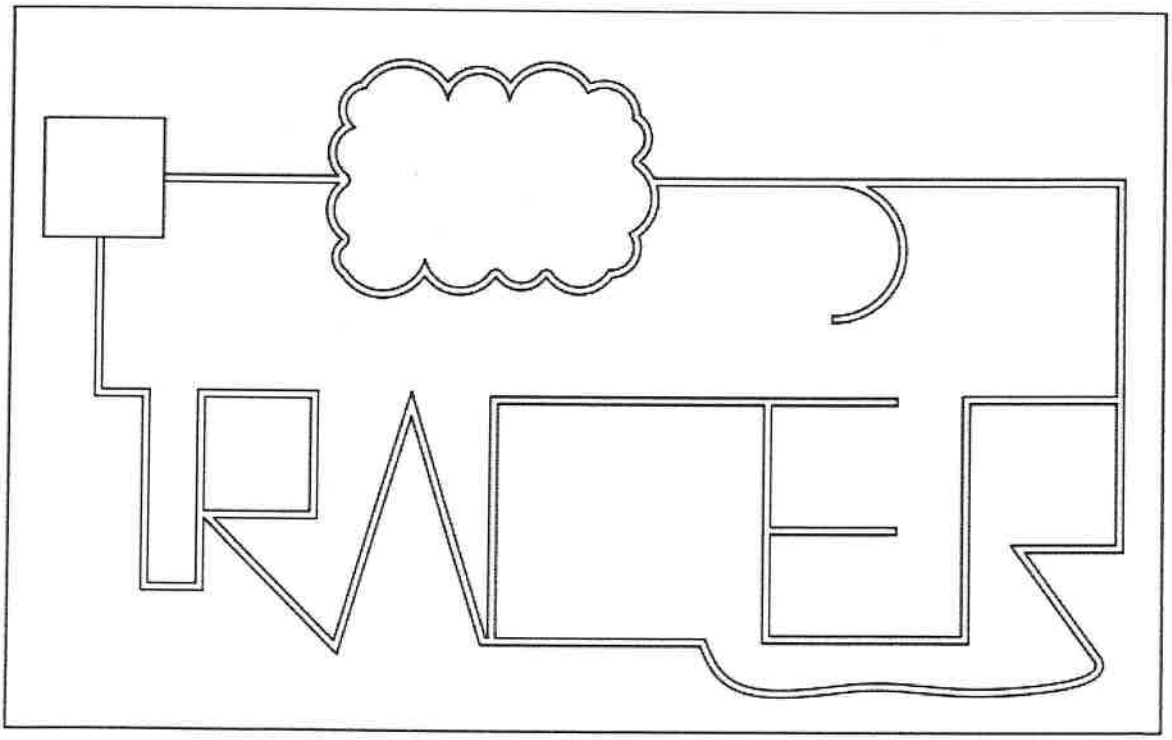

Figure 10: Round 2 Map.

Despite the formidable difficulty level presented in round three, all participants rose to the occasion, demonstrating remarkable skill and perseverance. The challenges in this final round pushed the boundaries of what the robots and their operators could achieve, demanding precise navigation, quick decision-making, and flawless execution. Despite the heightened intensity, each team showcased their expertise and determination, navigating the complex obstacles with grace and ingenuity. The collective performance of all participants in round three was a testament to their dedication and expertise, underscoring the exceptional talent present in the "Rapid Tracer" competition.

Report

Day 1 - 24/04/2024 **Timings: 11:00 am to 12:50pm**

Introduction:

The Copilot Safari event, held on the 24th of April 2024 at Dayananda Sagar University, was a collaborative effort between Microsoft Azure and Reskill, aimed at enlightening students about the revolutionary tool - GitHub Copilot. The event drew a diverse audience, including students from various departments and spanning across different academic years, with notable attendance from 1st and 2nd-year students. The session was expertly coordinated by Prof. Pradeep Kumar K, Assistant Professor in the Department of Computer Science and Engineering, specializing in Artificial Intelligence and Machine Learning. The event was hosted by Ritvik Vasundh and anchored by Neha Amin, both 2nd-year students from the Department of Computer Science and Engineering (Artificial Intelligence and Machine Learning)..

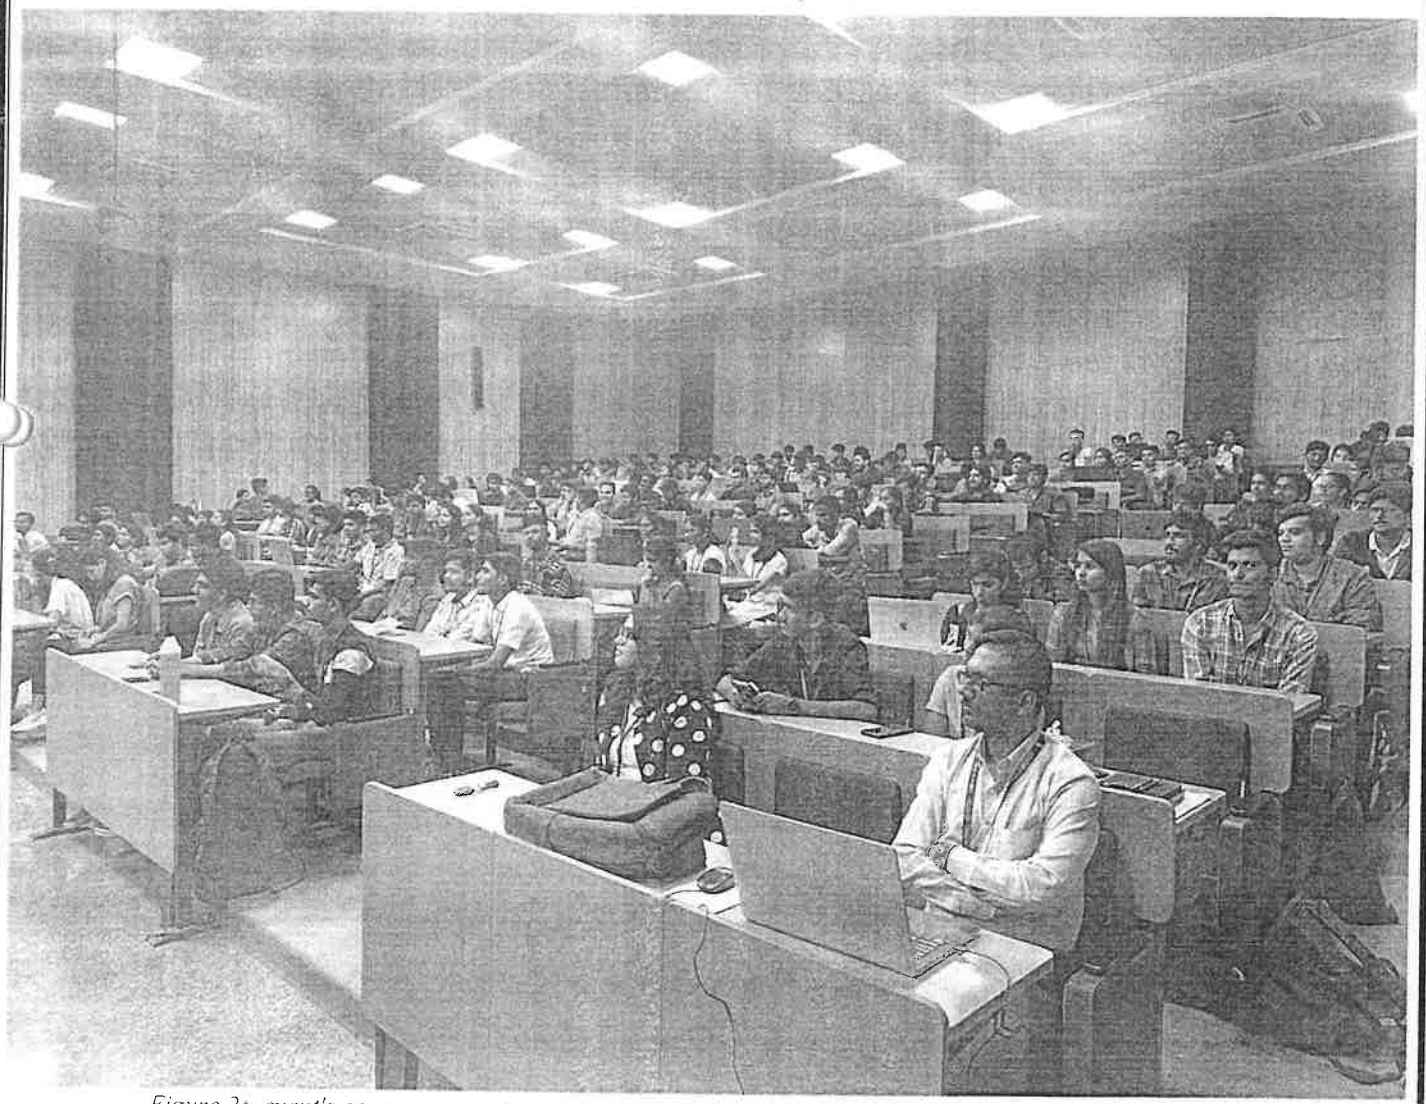

Figure 2: event's commencement.

The Copilot Safari event kicked off with an insightful introduction by Jayavrinda Vrindavana, Head of the Department of Computer Science and Engineering (Artificial Intelligence and Machine Learning), Dayananda Sagar University. She introduced the speaker and emphasized the significance of understanding tools like GitHub Copilot in today's rapidly evolving technological landscape. Following the introduction, Neha Amin, took the stage to introduce the speaker, Shreyan J D Fernandes. She welcomed him and set the tone for the event. The session commenced with a discussion on the domain under which GitHub Copilot falls, highlighting its association with generative AI.

Figure 3: The session begins .

Quizzes on Key Topics:

The quizzes organized during the Copilot Safari event were designed to deepen attendees' understanding of key concepts related to GitHub Copilot and its underlying technologies. These quizzes covered a wide range of topics, including generative AI, machine learning, and the training process of large language models. Attendees were challenged to apply their knowledge to real-world scenarios, demonstrating their understanding of how Copilot fits into the broader landscape of AI-driven development tools.

Furthermore, the quizzes provided attendees with an opportunity to engage actively with the material presented during the event. Through interactive questions and discussions, attendees were able to consolidate their learning and identify areas for further exploration. The quizzes fostered a collaborative learning environment, allowing attendees to exchange ideas and insights with their peers.

Overall, the quizzes served as a valuable component of the Copilot Safari event, reinforcing key concepts and facilitating meaningful dialogue among attendees. By participating in the quizzes, attendees not only tested their knowledge but also gained a deeper appreciation for the capabilities of GitHub Copilot and its potential impact on the future of software developmen

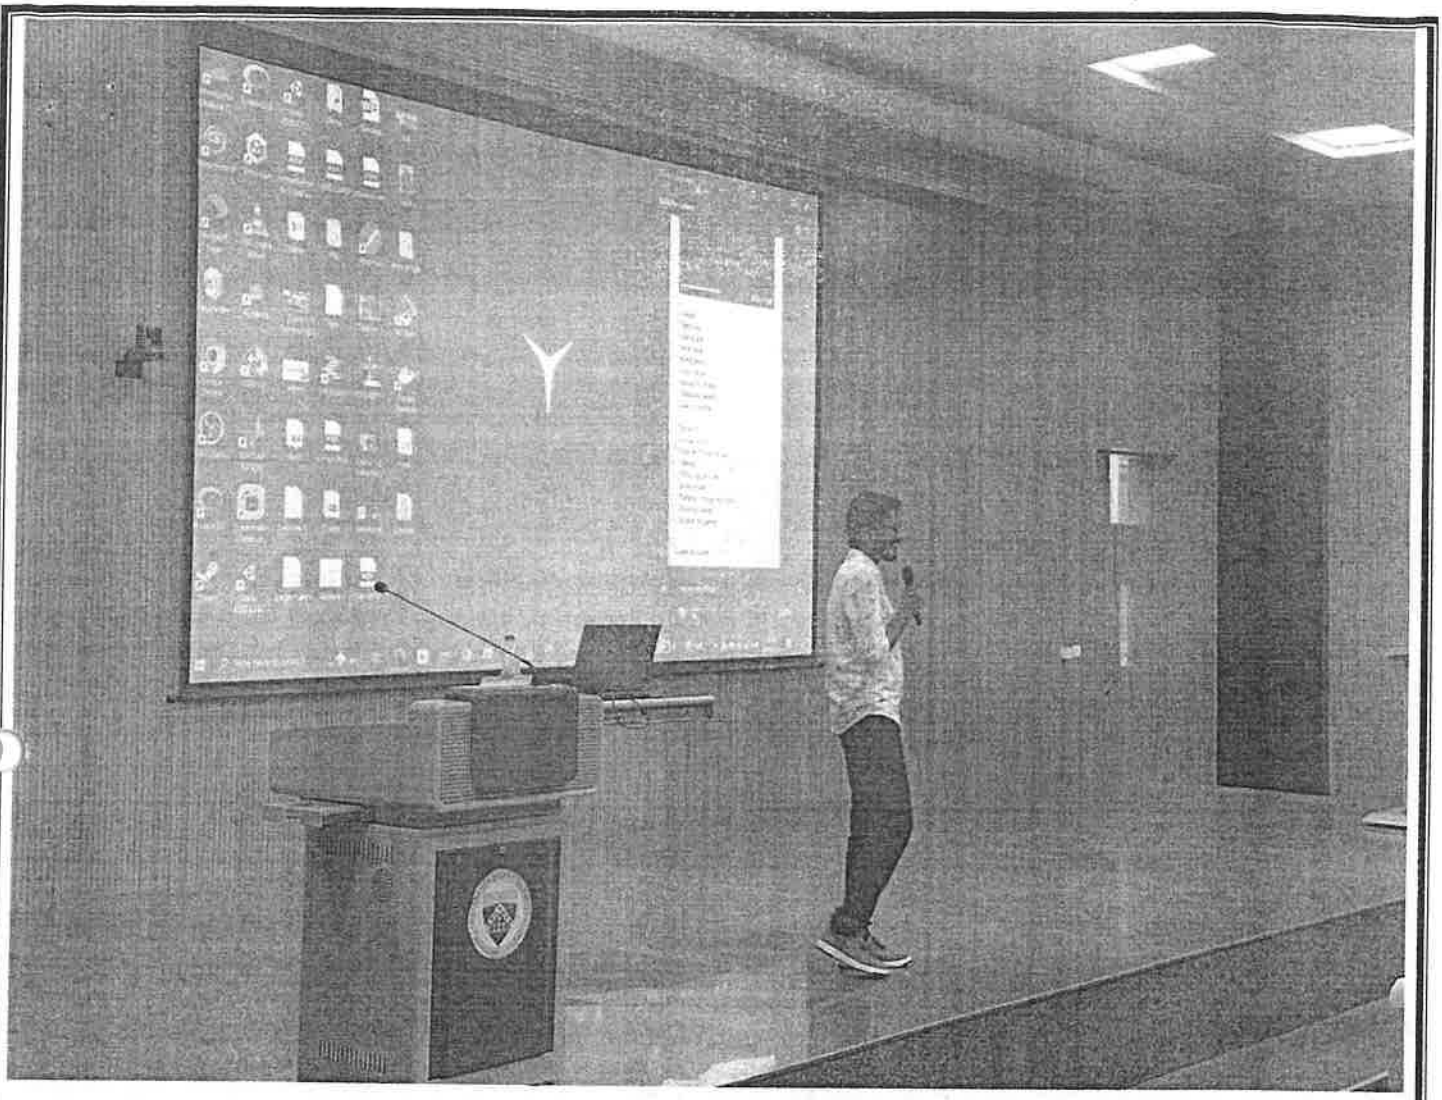

Key Points Covered:

Overview of GitHub Copilot:
Shreyan J D Fernandes, Software Developer Analyst at KPMG India, delivered a comprehensive overview of GitHub Copilot. He elucidated on Copilot's role as an AI pair programmer tool developed by GitHub in collaboration with OpenAI. Attendees gained insights into Copilot's ability to revolutionize code creation by providing intelligent suggestions and completing entire lines or blocks of code based on context.

Advantages and Applications:
Attendees explored the myriad advantages of GitHub Copilot, ranging from increased productivity and code consistency to reduced time spent on coding tasks. Shreyan illustrated practical applications across various domains and industries, demonstrating how Copilot streamlines workflows and enhances productivity in software development. Attendees were particularly intrigued by Copilot's potential to facilitate learning and collaboration among developers.

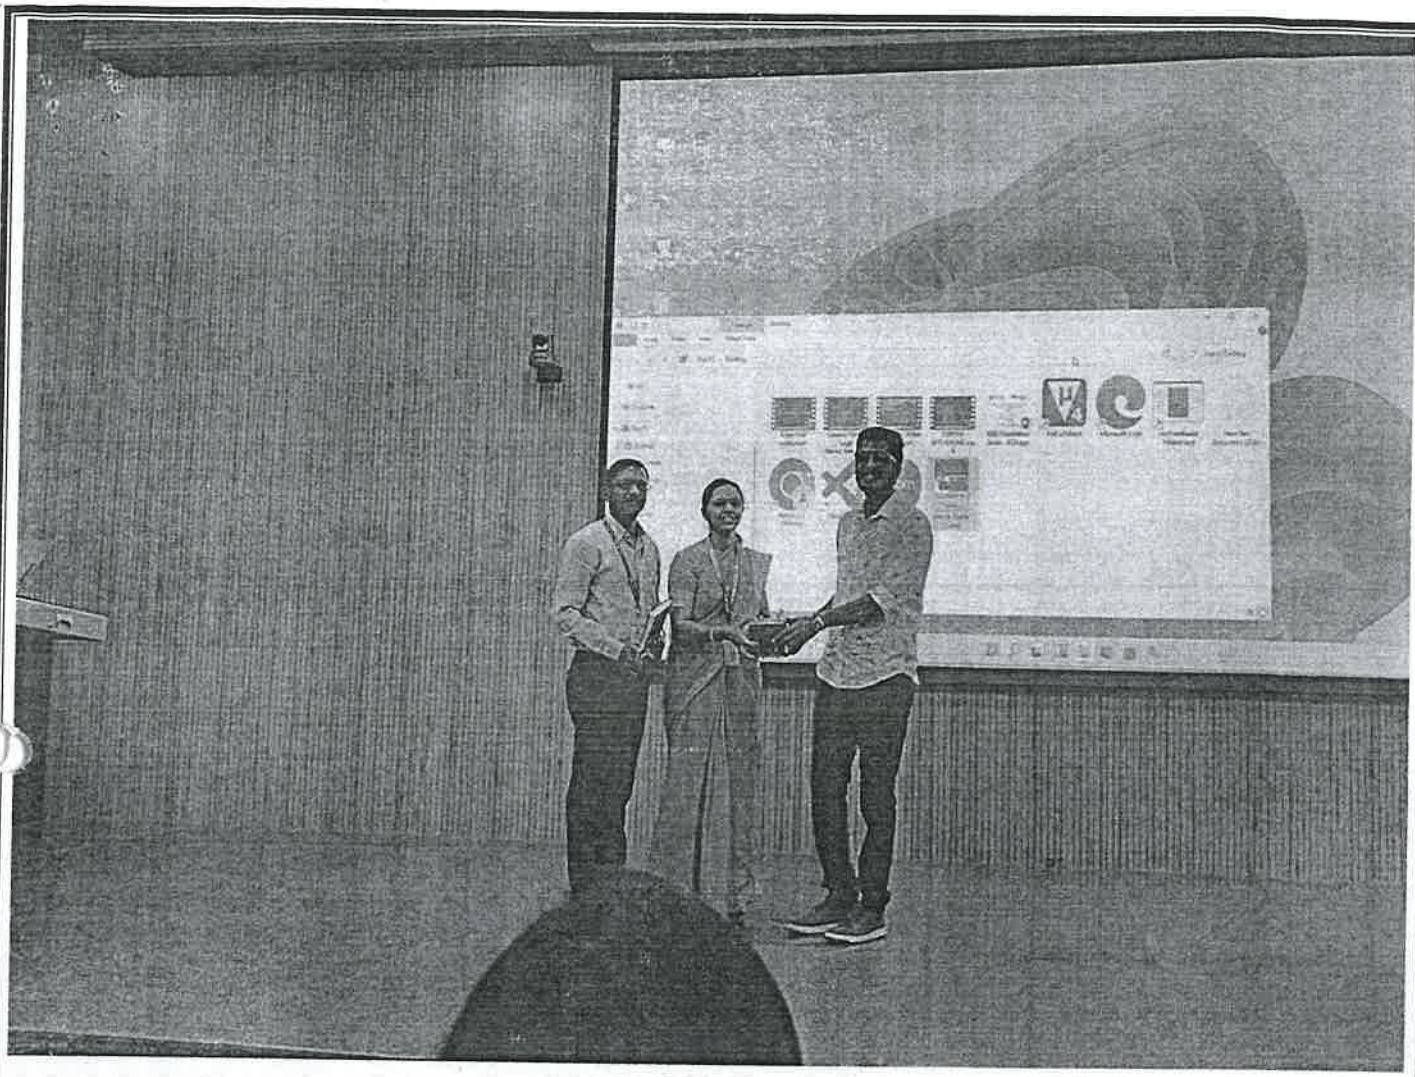

Features and Best Practices:
Shreyan delved into the multifaceted features of GitHub Copilot, providing attendees with a comprehensive understanding of its capabilities. He highlighted Copilot's ability to not only assist in code completion but also to offer intelligent suggestions and generate entire lines or blocks of code based on contextual cues. Attendees learned how Copilot seamlessly integrates with their preferred code editor, allowing for a smooth and efficient coding experience. Moreover, Shreyan emphasized Copilot's adaptability across various programming languages and its support for different development environments, making it a versatile tool for developers of all backgrounds.

Additionally, Shreyan discussed best practices for leveraging Copilot effectively. He stressed the importance of providing clear context when using Copilot, as this enables the tool to generate more accurate and relevant suggestions. Furthermore, he encouraged attendees to review the code generated by Copilot thoroughly, ensuring adherence to coding standards and guidelines. By following these best practices, developers can maximize the benefits of Copilot and enhance their coding workflow.

Conclusion:

The Copilot Safari event proved to be an enlightening and inspiring experience for all attendees. From the insightful introduction by Jayavrinda Vrindavana, setting the stage for the importance of tools like GitHub Copilot, to the engaging presentation by Shreyan J D Fernandes, attendees were immersed in a world of innovative technology and its practical applications. Throughout the event, attendees gained valuable insights into the capabilities of GitHub Copilot and its potential to revolutionize the software development landscape. Shreyan's expertise, coupled with the interactive quizzes and discussions, facilitated a deep understanding of key concepts such as generative AI, machine learning, and the training process of large language models. The event fostered an atmosphere of collaboration, curiosity, and learning, empowering students to embrace emerging technologies with confidence and enthusiasm. As attendees departed, they carried with them not only newfound knowledge but also a sense of excitement for the future of coding and innovation.

Acknowledgments:

We extend our sincere gratitude to all those who contributed to the success of the Copilot Safari event. Special thanks to Microsoft Azure and Reskill for their support and collaboration in organizing this event. We are deeply appreciative of Prof. Pradeep Kumar K for his guidance and coordination throughout the planning process. Our heartfelt thanks to Jayavrinda Vrindavana for her insightful introduction, setting the stage for the event's discussions. We also express our gratitude to Ritvik Vasundh for arranging and hosting the event. We are immensely grateful to Shreyan J D Fernandes for his informative and engaging presentation, which left a lasting impact on all attendees. Additionally, we extend our thanks to all attendees for their active participation, enthusiasm, and curiosity. It is their collective engagement that made the Copilot Safari event a resounding success. As we reflect on this event, we are inspired by the spirit of innovation and collaboration that permeates our community, and we look forward to future endeavors that will continue to push the boundaries of technology and knowledge.

REPORT ON

"ROBOTICS - A PRIMER"

Resource person: Miss Shyni Thomas

Organized by

Department Of Computer Science & Engineering
(Artificial Intelligence & Machine Learning)

In association with
"YANTROVE" Robotics Club & IEEE RAS SBC Society

Dayananda Sagar University
23rd MARCH 2024

Resource person:

Miss. Shyni Thomas,
Senior Scientist, Center for AI and Robotics, DRDO

Conveners:

Dr. AMIT BHATT, In-charge Vice Chancellor, DSU
Dr. PUTTAMADAPPA C, Registrar, DSU
Dr. UDAYA KUMAR REDDY K R, Dean, SoE, DSU
Dr. RAMESH R GALIGEKERE, Dean (Academics), Science & Technology, DSU
Dr. JAYAVRINDA VRINDAVANAM V, Chairperson, and Professor, Department of CSE (AI & ML), DSU

Faculty Coordinators:

Prof. Subhash Mondal, Assistant Professor, Department of CSE (AI & ML)
Prof. Mitha Guru, Assistant Professor, Department of CSE (AI & ML)

of the endless possibilities that this field presents. Overall, Miss Shyni Thomas's technical talk was a resounding success, leaving an indelible impression on the young minds at Dayananda Sagar University and igniting their passion for exploring the fascinating world of robotics.

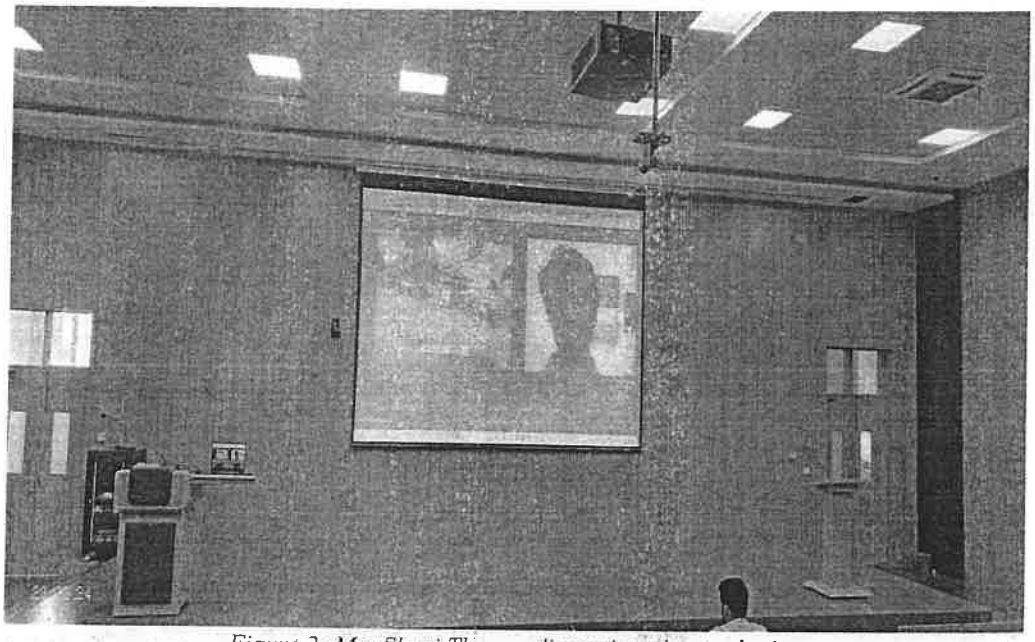

Figure 2: Mrs Shyni Thomas discussing about robotics

Dr. Jayavrinda Vrindavanam, an esteemed figure in the academic landscape, played a crucial role in elucidating the significance of "AI and Robotics " to the students at Dayananda Sagar University. With a keen understanding of the pivotal shifts in technology and the increasing relevance of robotics in modern-day problem-solving, Dr. Jayavrinda Vrindavanam provided a compelling introduction to the workshop, setting the stage for a transformative learning experience.

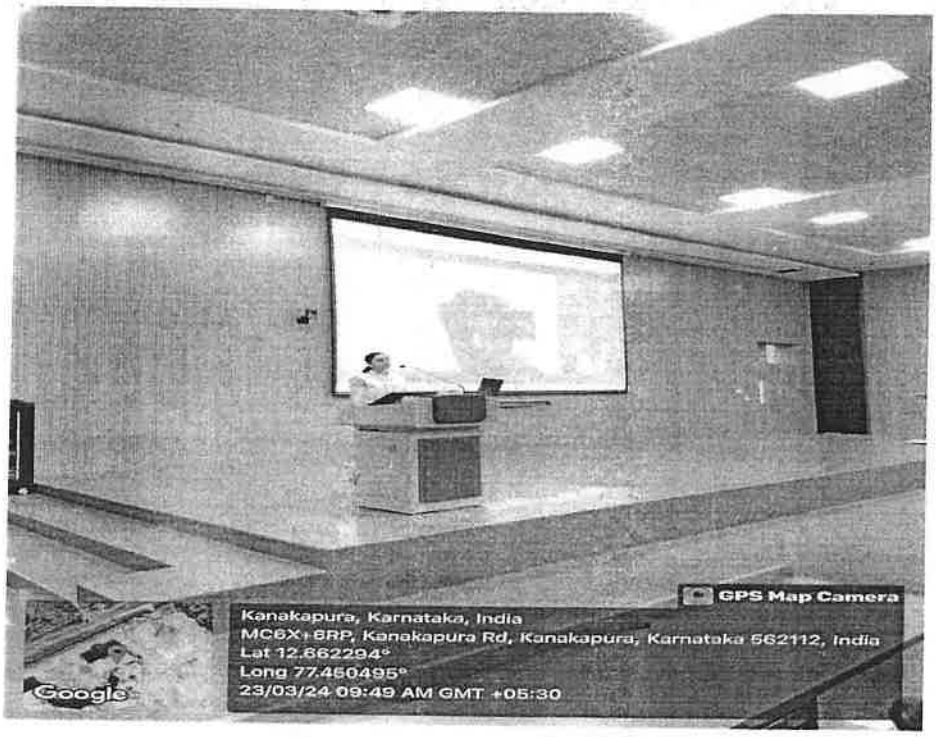

Figure 3: Dr Jayavrinda Vrindavanam welcoming the gathering and Miss Shyni Thomas.

Despite geographical limitations, several students were able to participate in the event remotely via Google Meet (GMeet). Through this online platform, they were able to engage in the workshop sessions alongside their peers, despite physical distance. The integration of GMeet allowed for seamless interaction, enabling remote students to ask questions and contribute to discussions. This inclusive approach ensured that all participants, regardless of their location, could benefit from the knowledge-sharing and collaborative learning opportunities offered by the workshop. Additionally, the utilization of GMeet facilitated the recording of sessions, enabling students to revisit key concepts and materials at their convenience, further enhancing the accessibility and effectiveness of the event.

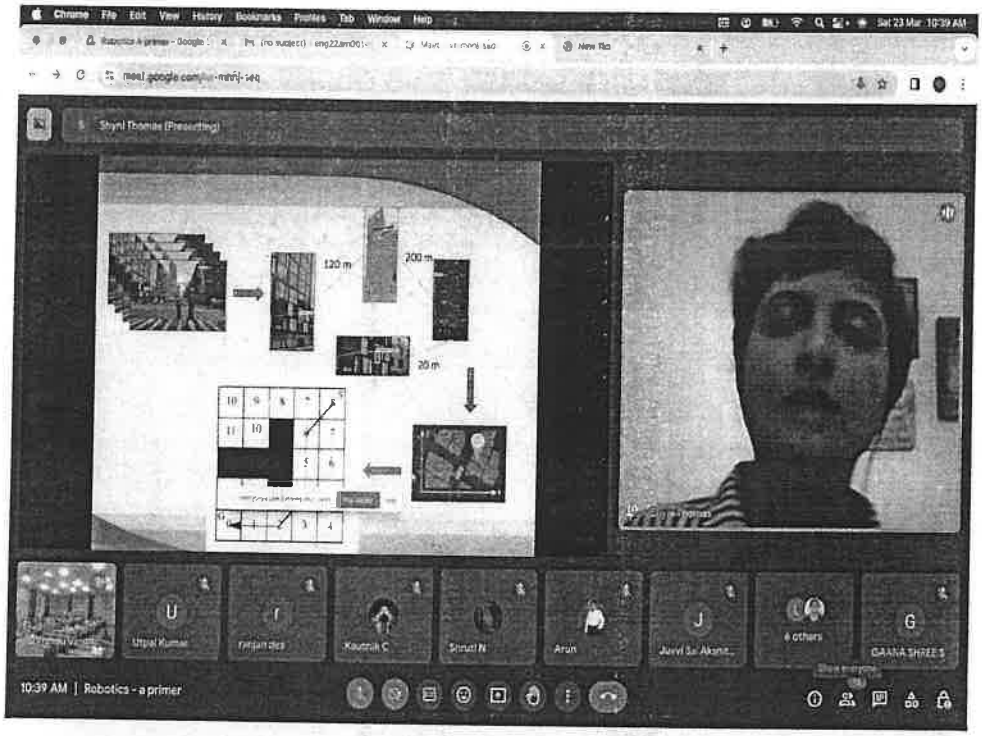

Figure 6: Student participants joined the event through online Google Meet.

Topics discussed during the session: -

- **What are robots?**

  Robots are programmable machines designed to carry out specific tasks autonomously or semi-autonomously. They can be equipped with sensors, actuators, and AI capabilities to interact with their environment and perform various functions, from industrial manufacturing to household chores.

- **Robotics anatomy**

  The anatomy of a robot typically includes a body structure, actuators (such as motors or hydraulics), sensors (like cameras, lidar, or touch sensors), a control system (which can be centralized or distributed), and sometimes an artificial intelligence component for decision-making.

- **Types of robots (based on locomotion)**

  Robots can be categorized based on their locomotion capabilities, including wheeled robots, legged robots (bipedal or quadrupedal), aerial robots (drones), underwater robots

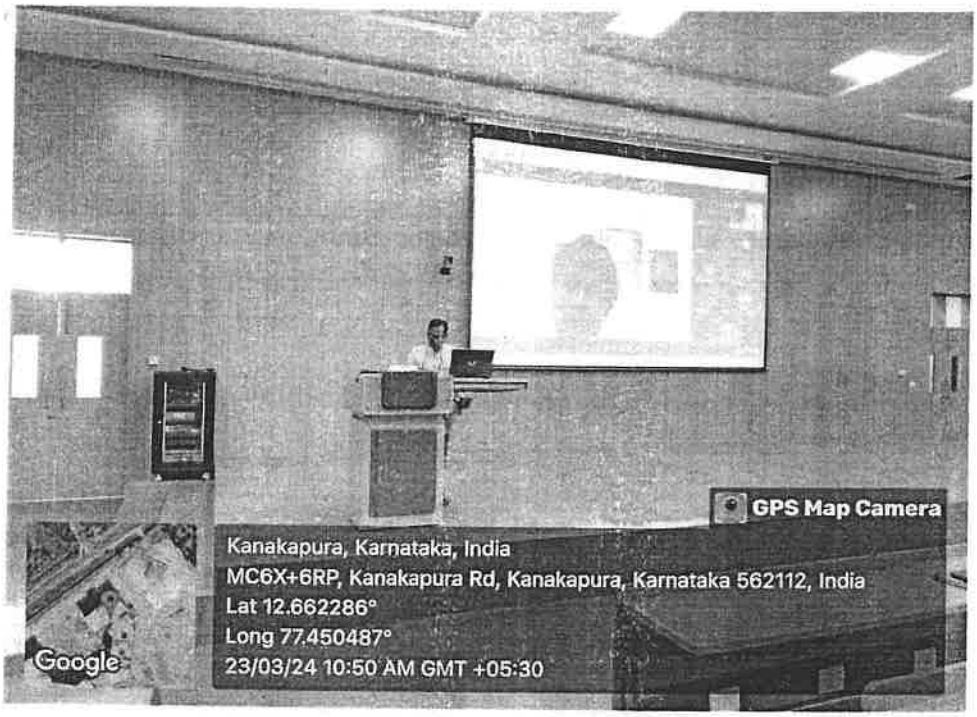

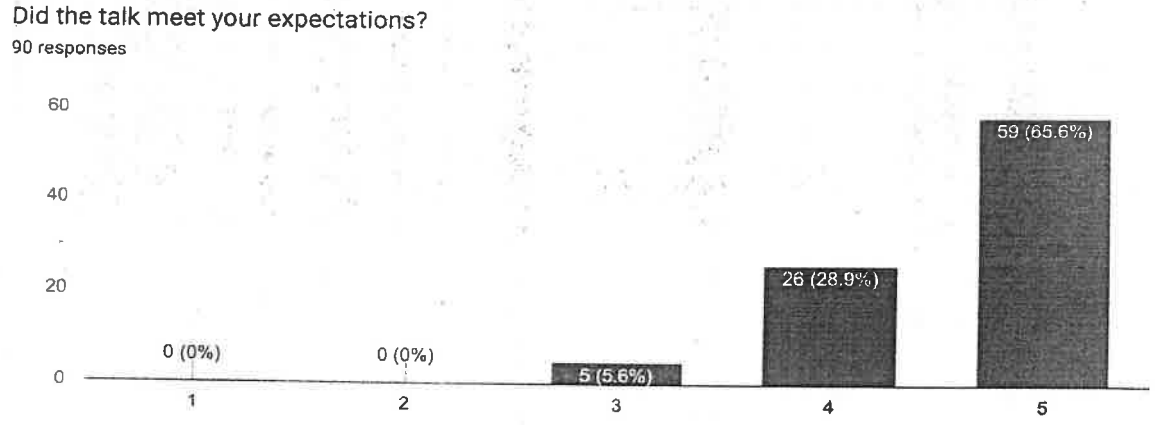

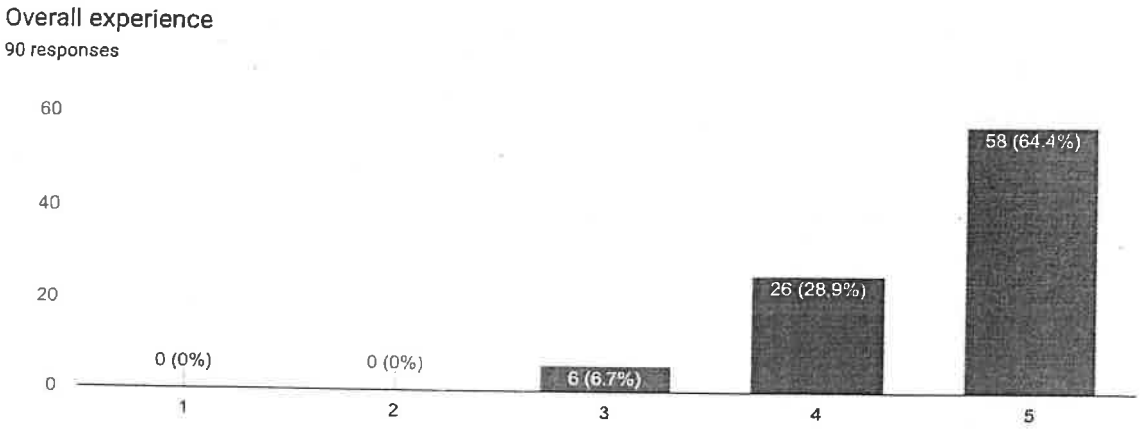

Figure 8: Prof. Subhash Mondal gives a vote of thanks.

3 DAY WORKSHOP

ON BASIC ROBOTICS SIMULATION

BY

यंत्रRove

Topics:

- ✓ Introduction to Tinker CAD
- ✓ Introduction to basic microcontroller programming
- ✓ Software simulations of basic microcontroller projects

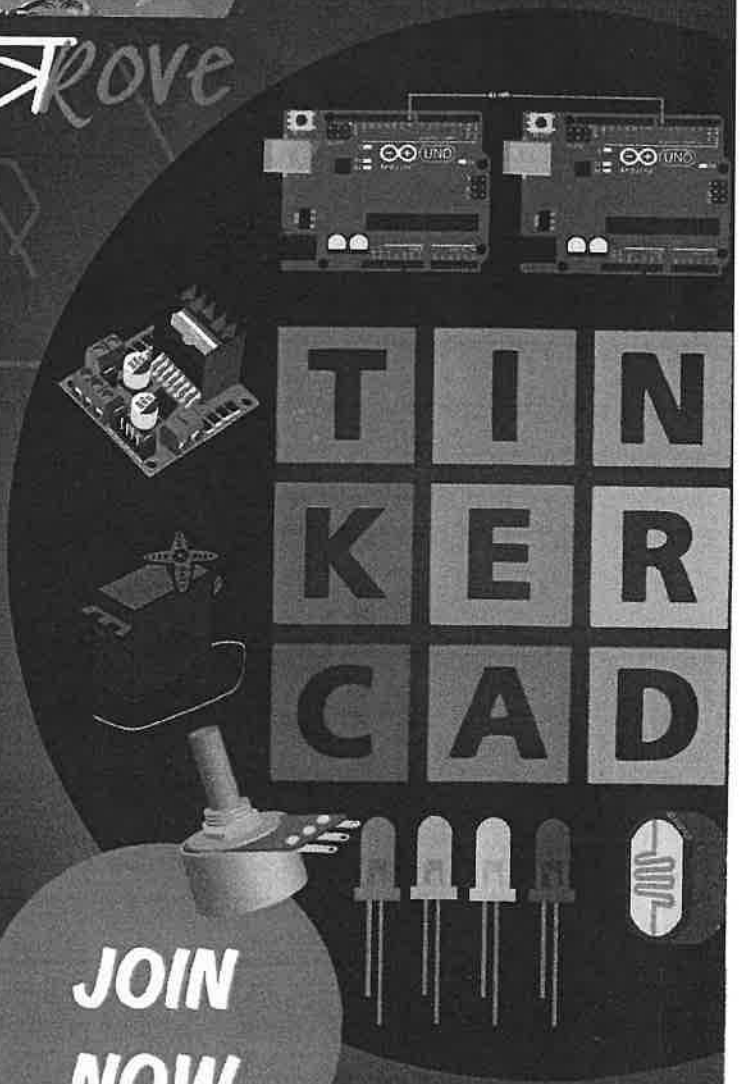

13th–15th March, 2024

1:50pm - 4:30pm

Dive into the world of robotics simulation at our workshop and revolutionize your understanding of innovation!

Prof. Mitha Guru, Assistant Professor, Department. of CSE (AI & ML)

Report

Date: 13/03/2024 Time: 1:50 to 4:30

13/03/2024 marked the beginning of the of the workshop. Prof. Abhinav Karan, Guest lecturer for the day, introduced the students to the Arduino. He talked about Digital Pins, Analog Pins, Brain of Arduino, and Protocols used in Arduino. He continued by informing students about the advantages of simulations. He introduced TinkerCad, an online platform to simulate and learn electronics, and gave an example of a blinking-led program, explaining the components, their connections, and the program.

After a quick refreshment break, students were given a task to design an LED pattern in the simulation. Multiple creative simulations were submitted.

To ignite the interest of the students, Mr. Akshat Agarwal, 4th Semester Student in the Department of CSE (AI & ML), did a project demonstration of his HanuBot. He talked about the challenges he and his team faced while building the bot and how the students could avoid it.

The day ended with a Mentimeter quiz, whose winner was awarded with goodies.

Date: 14/03/2024 Time: 1:50 to 4:30

The day started with a revision of day 1. Prof. Pradeep Kumar K, the Guest lecturer for the day, introduced students to different sensors and actuators. He explained their work, their uses in robotics, and how to use them with Arduino boards. Hardware was arranged for students to try and learn the discussed topics. Simulation in Tinkercad was also used in the discussion.

A project namely "Spyder Bot", made by Mr. Ahmed Isa Zaweel and Mr. Ahamad Talwar, 4th Semester students in the Department of CST, was presented before the students to show them how the sensors and actuators they are learning are being used in robotics.

To get the adrenalin rush in students before the day's end, Mentimeter was arranged.

Date: 15/03/2024 Time: 1:50 to 4:30

Before starting the day, a quick doubt session was held to clear any doubts of the students. Dr. Arun Ananthanarayanan, the Guest lecturer for the day, started with the day-3 topic of the workshop. The topic for day 3 was Communication. In communication, students learned about, pin-to-pin, Rx-Tx serial, and I2C communication between 2 Arduino boards. Following the theoretical knowledge, students tested it on hardware. A quick introduction to wireless communication was given to students and the Bluetooth module was discussed as an example.

Dr. Jayavrinda Vrindavanam V, Professor and Chairperson CSE (AI & ML), delivered a talk on the advancement of robotics and the importance of intra-disciplinary knowledge. She interacted with the students and also took feedback from them.

A quiz on the discussed topic marked the end of day 3 and the 3-day workshop.

The CSE (AI and ML) department organized a 7-days hands on session placement training workshop in collaboration with the AI Works @ DSU club. This would be extremely useful for students so as to set them straight and clarify doubts they might have regarding placements.

The event started on 9th February 2024, On the first day Arham Asif Syed, an 8th semester student of AIML, Dayananda Sagar University briefed 6th semester students with regard to Placements and Higher Education. Arham emphasized the critical aspects of interpreting placements and deciding on higher studies. He underscored the significance of CGPA, illustrating how it profoundly influences career trajectories.

The key takeaways from his talk were:

placements:

- CGPA significantly influences job opportunities and salary.
- Prepare for placements by focusing on required skills and projects.
- Placement process involves aptitude tests, technical tests, and interviews.
- Start studying to improve CGPA, practice aptitude tests, and coding skills.
- Backlogs negatively impact job prospects.
- Accuracy in CGPA and avoiding duplicate applications is crucial.

Higher Studies:

- Decide on country, qualification, and budget for higher studies.
- Consider agencies for assistance if needed.
- Gather required documents including mark cards, transcripts, LORs, resume, and SOP.
- Agencies like IDP can streamline the process and offer support.
- Differentiate between Masters and PGD, considering specialization and budget.
- Pros and cons of studying in USA, Canada, Australia, New Zealand, and Europe.

Resume Development:

- Keep resume concise (1-2 pages) and impactful.
- Active participation in events and extracurricular activities enhances resume.
- Publishing papers and engaging in extracurriculars demonstrate commitment and skill.

On the second day of this workshop, Interviews and Technical Tests with TCS – an informative session, was conducted on 10th February 2024 from 11:00 AM to 1:00 PM, was an insightful and engaging event aimed at preparing students for job placements. Dr. Vinutha N, the host, introduced the two distinguished speakers, Thippeswamy K M and Lingaraju M J, seasoned professionals in the IT industry with over 10 years of experience, currently working in TCS.

The key takeaways from this talk were:

- Importance of crafting an impressive resume using templates and showcasing achievements effectively.
- Formal dress code and thorough research on companies emphasized for interviews.
- Technical coding practice recommended on platforms like Hackerearth, Hackerrank, and Geeksforgeeks.
- Mock interview questions conducted to refine participants' responses.
- Structuring responses for common questions highlighted.
- Importance of keeping up with latest technology emphasized.
- Group discussion rounds on topics like AI and food delivery encouraged critical thinking and communication skills.
- Participants actively engaged in coding exercises including string manipulation and pattern printing.
- Notable participants showcased problem-solving skills in a productive learning environment.

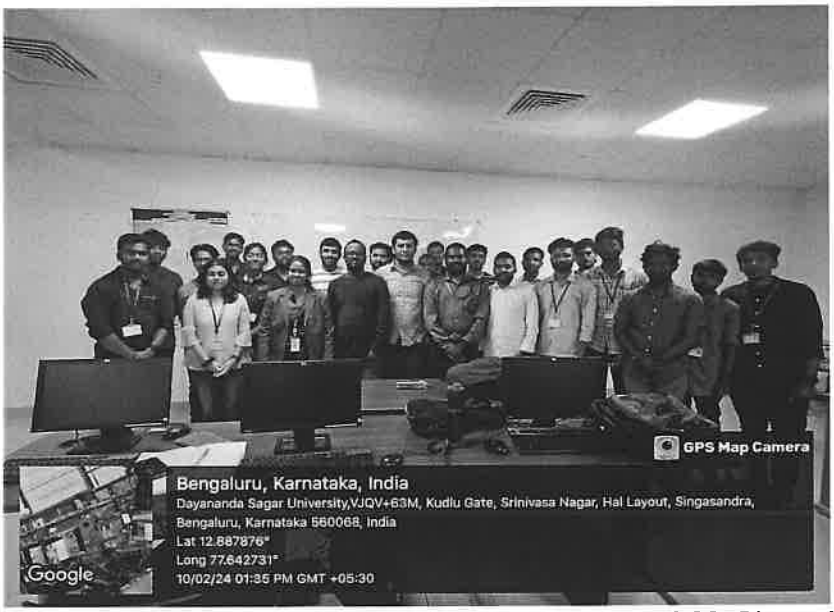

Image 5. A Commematory picture with Dr. Vinutha N, Mr. Thippeswamy K N, Mr. Lingaraju M J and the participants of the event

The Third day of this workshop was a company profiling event, which involved training the students on doing background research about the company before applying for it or joining. This promotes a healthy attitude to the employer, as well as teaching the students the know-hows of the dos and donts before an interview. The event conducted was a competition hosted by Ratan Ravichandran, wherein the crowd was split into teams and each team would be given a company. The team would then have to profile the company in the context of placements and present their findings to the whole class.

The teams and companies were as follows:

1. team 1: Delta X

   members: (lead) Sayli bande, shriyans arkal, sakshi archana

2. team 2: Cyware

   members: (lead) Alisha alias, K nageshwari Durga, Kunjan Singh

3. team 3: Nokia

members: (lead) Adnan K, Gaurav NM, Bhavya Sharma

4. team 4: Aptean

   members: (lead) Anirudh Sajith, rohan john Varghese, diksha Sinha

5. team 5: Impelsys

   members: (lead) Harsh manalel, ashish patil

6. team 6: IBM

   members: (lead) Vinay R, Mohith N, Mokshitha M, Chaitanya Srinivas

The students then documented and presented their findings, highlighting important points such as the relevance of the role to the industry, company's domain, history, mission, values, products/services, competitors, industry trends, and recent news. Each team was given 10 minutes to present about the company.

These presentations were judged by Dr. Udayabhaskara and Dr. Vinutha N based on Coverage of topic, Organization of points, Depth of Information , Clarity and Readability, Accuracy and Reliability, Engagement and Interest, and Overall Quality of Presentation.

The next day of the workshop, on 14th February 2024 featured Vigneshwara C, a seasoned ML Engineer at Aramco, Saudi Arabia. Drawing from his rich career journey, Vigneshwara provided valuable perspectives and advice for aspiring data scientists and ML engineers, offering a glimpse into the dynamic landscape of the field and practical strategies for success.

The key takeaways from this talk were:

- Utilizes ML to monitor, improve, and deploy AI/ML solutions.
- Recommends starting profiling for placements in 6th semester.
- Data-driven approach inspires involvement in data science.
- Essential traits for ML engineers: Iterative, statistical, problem solver, programmer.
- India's domestic market offers abundant opportunities but faces competition.
- Emphasizes importance of upgrading skills as companies adopt advanced technologies.
- Hands-on approach to learning coding; embrace errors for growth.
- Industry workflow involves development, testing, and production sites.
- Tools and applications: MLflow, Kubeflow, Nvidia Jetson, Docker, Informatics.
- Certifications: Professional certificates from company portals carry value.
- Job opportunities abroad offer exposure and competitive salaries.
- Interview preparation includes aptitude, coding, communication, and personality tests.
- ML Ops integrates code development and operations for optimal results.

The 4th day of the workshop was a talk featuring Mithun G, a session on technical skill upgradation and career path. He is a B.Tech (Honors) graduate in Data Science from Jain University, currently serves as a Service Info Developer at Hewlett Packard Enterprise (HP Enterprise) in Bengaluru. Specializing in Telco Solutions, he contributes to the implementation of Intelligent Assurance products, utilizing data analysis and Machine Learning to enhance decision-making processes.

The key takeaways from this talk were:

- The session began with an overview of the exponential growth in the global AI software market, emphasizing its transformative impact on the world economy until 2025.
- Various roles in the AI/ML field were discussed, including Data/Business Analyst, Data Engineer, ML Engineer, AI Engineer, MLOps Engineer, and Data Scientist, highlighting the dynamic nature of the industry and the demand for skilled professionals.
- Trends in AI/ML were outlined, tracing historical developments such as GPUs, TPUs, RNNs, LSTMs, and the BERT model, leading to the current focus on Generative AI. Questions were raised about the future trends in the upcoming decade.
- A practical roadmap for skill development in AI/ML was provided, starting with basics like Python and progressing through Big Data, databases, machine learning, and deep learning using tools like TensorFlow and PyTorch.
- Hands-on projects were recommended to enhance practical experience, covering areas such as time-series forecasting, churn prediction, recommendation engines, applied mathematics, data analysis, and deep learning.
- The industry-academia gap was highlighted, emphasizing differences in project approaches, data handling, collaboration tools, and the importance of aligning academic learning with industry requirements.
- The significance of professional certificates in validating expertise was stressed, with specific recommendations including Google Data Analytics, IBM Data Science, AWS Certified Machine Learning - Specialty, and Microsoft certifications.

- Several online courses were recommended for AI/ML learning, including those from IBM Cognitive Data, Udemy's Pierian Data courses, and the O'Reilly book "Hands-On Machine Learning with Scikit-Learn, Keras, and TensorFlow."
- The introduction of the ATS Resume Checker, a tool for resume review, was shared, offering individuals a way to enhance their resumes and increase their chances in the job application process.
- The session concluded with an emphasis on the importance of continuous learning and practical application in the dynamic field of AI/ML. Mithun thanked the audience for their active participation and encouraged them to explore the suggested online courses and professional certificates.

Department of Computer Science and Engineering
(Artificial Intelligence and Machine Learning)

The final day of the workshop was a talk featuring Sandhi Gupta, a session on using Latex (Hands-on). She is an 8th Semester student from Dayananda Sagar University of the AI/ML Department.

The key takeaways from this talk were:

- LaTeX, a typesetting system, is extensively used for scientific and technical documents due to its proficiency in handling mathematical equations, bibliographies, and cross-referencing.
- It excels in precision and high-quality typesetting, making it a preferred choice for researchers, academics, and engineers.
- LaTeX provides complete control over layout and formatting, allowing personalization without the unpredictability of WYSIWYG editors.
- Automation of tasks like numbering, cross-references, and table of contents generation streamlines the editing process, saving time for actual writing.
- Setting up a LaTeX environment involves choosing a compatible distribution (TeX Live, MacTeX, MiKTeX) and user-friendly editors like TeXMaker or Overleaf.
- LaTeX's document structure includes a preamble defining global settings, a body containing core content, and macro definitions for custom commands.
- Text and equation formatting in LaTeX is accomplished through various commands for bold, italics, font size, spacing, and precise control over mathematical syntax.
- BibTeX simplifies bibliography management, ensuring automatic formatting of citations and references to predefined or custom styles.
- LaTeX allows precise control over tables, including size, columns, rows, and cells, and figures with support for various image formats, scaling, and captioning.
- Collaborative writing on platforms like Overleaf facilitates real-time teamwork, and integrating LaTeX with Git enhances version control.

- Comments within the code, effective time management, staying updated with LaTeX distributions, and maintaining an organized folder system are essential for efficient research article preparation.
- LaTeX's proficiency in mathematical typesetting and its ability to produce professional-standard documents make it a valuable tool in the field of AI and ML.

RESOURCE PERSON INTRO.

Dr. Pavel is an Associate Professor at the Institute of Automation and Computer Science at Brno University of Technology in the Czech Republic. With a distinguished academic background, including a Ph.D. in Chemical and Process Engineering/Technical Cybernetics, he has made significant contributions to research and teaching throughout his career. He brings a wealth of expertise in the fields of Computer Vision, Machine Learning, and Fuzzy Set theory.

He has taught a wide range of courses, from undergraduate to graduate levels, covering topics such as Machine Vision, Automatic Control Instrumentation, and fuzzy logic control. His dedication to excellence is evident in his numerous publications and invited lectures in esteemed institutions across Europe, including Spain, Norway, and Slovakia.

In addition to his academic pursuits, Dr. Pavel has been actively involved in numerous projects and grants, addressing critical challenges in areas such as air quality monitoring, artificial intelligence for Industry 4.0, and radar system development. His interdisciplinary approach and innovative solutions have earned him recognition and support from funding agencies and industry partners.

His proficiency in software tools like MATLAB, Python, and LaTeX further enhances his capabilities as a researcher and educator.

SCHOOL OF ENGINEERING

DAY-1, 25th MARCH 2024

OVERVIEW

The day begins at 8:45 AM with registration and a welcoming ceremony, followed by a session from 9:00 AM to 12:00 PM focusing on radiation-matter interaction, image formation, and industrial computer vision. After a break, the program continued from 01:15 PM to 04:15 PM, delving into the concepts of lighting geometry, radiation sources, and various lighting types.

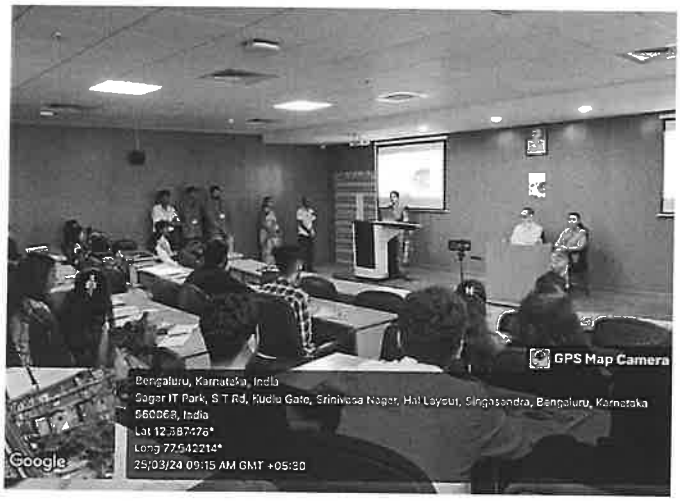

ACTIVITIES - QUIZ

During the workshop, an engaging interactive quiz was organized to test the participants' comprehension of the workshop content. This quiz was conducted in between sessions, allowing all students to participate simultaneously. Each question had a one-minute timeframe, with scores awarded based on the speed of the correct answers given by each participant. After an intense competition, three winners emerged from the quiz participants, who demonstrated both knowledge and quick thinking, adding an element of excitement and fun to the learning experience.

KEY TAKEAWAYS

Day-1 of the workshop provided comprehensive insights into machine vision systems and lighting geometry for industrial applications. Participants learned about the intricate interaction of radiation with matter, crucial for understanding image formation and color perception. Machine vision systems, comprising cameras and sophisticated processing units, were highlighted for their role in tasks ranging from object detection to robot guidance. Lighting geometry discussions emphasized the importance of strategic placement and types of illumination for optimizing contrast and surface inspection. Overall, the day's sessions equipped attendees with essential knowledge to design effective machine vision solutions and employ appropriate lighting techniques for various industrial scenarios.

SNAPS:

DAY-2, 26th MARCH 2024

OVERVIEW

Day 2 of the workshop delved deeply into the intricacies of camera lenses and image acquisition processes. The morning sessions provided participants with a comprehensive understanding of fundamental lens concepts such as focal length, aperture, and field-of-view, while also exploring advanced topics like extension tubes and lens aberrations. Afternoon sessions were dedicated to exploring image acquisition technologies such as photodiodes, CCD, and CMOS image sensors, as well as electronic shutters and quantum efficiency. These sessions aimed to equip attendees with the knowledge necessary for effective image acquisition and processing in industrial applications.

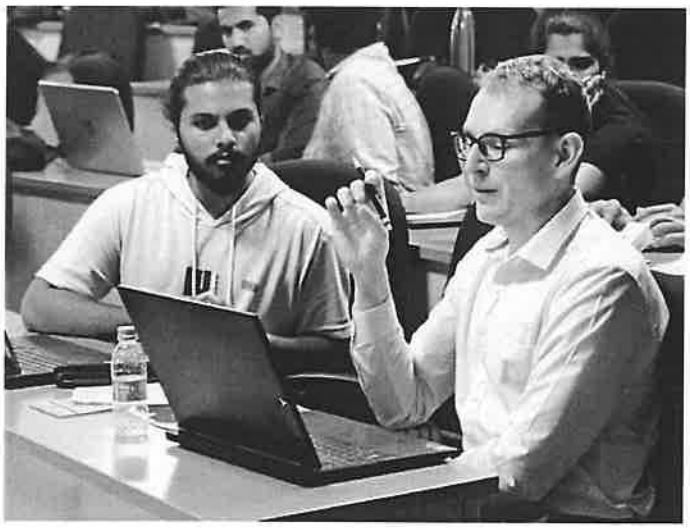

ACTIVITIES - REAL TIME PROBLEMS

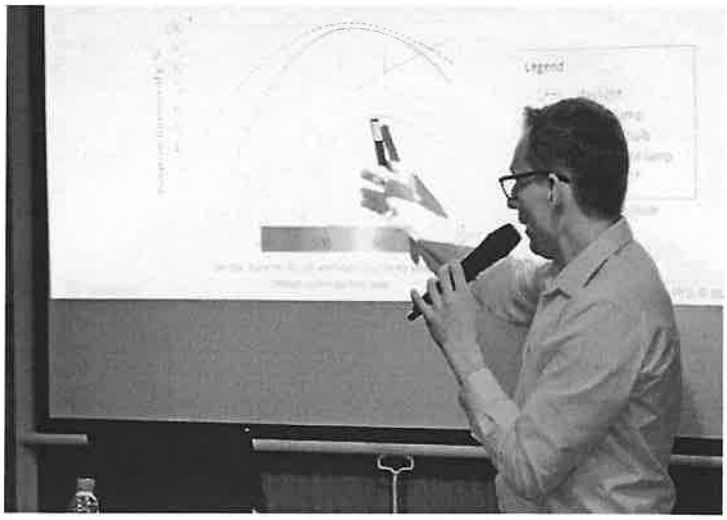

During Day 2, an interactive activity took place featuring Dr. Pavel showcasing scopes of his research work in the field of Computer Vision, highlighting career benefits. Attendees gained insights into practical applications and career opportunities, enhancing their understanding of the workshop's subject matter and its real-world implications.

KEY TAKEAWAYS

Day 2 focused on essential aspects of industrial imaging, covering diffused incident illumination, radiation sources, and camera lens fundamentals. Participants learned about effective lighting techniques, including coaxial and dome-shaped lights, and the characteristics of different radiation sources such as LEDs and xenon lamps. Discussions on visible spectrum, infrared, and ultraviolet lighting provided insights into their unique applications. Additionally, attendees gained a thorough understanding of camera lens basics, including aperture control and magnification. Overall, Day 2 provided valuable insights for optimizing imaging processes in industrial settings.

SNAPS:

DAY-3, 27th MARCH 2024

OVERVIEW

Day 3 of the workshop promises an immersive exploration of essential topics in machine vision and industrial imaging. Participants will delve into the principles and applications of optical filters, multi-bands image acquisition, and the construction of industrial digital cameras, gaining insights into electronics and noise reduction in images. Furthermore, discussions focused on the industrial camera lenses and lighting strategies tailored for small and medium-sized inspection tasks. Attendees learnt about the formation and representation of digital images. Further more, the hands-on training sessions, provided practical experience in enhancing participants' skills in machine vision technologies.

ACTIVITIES - HANDS ON SESSION

ASSIGNMENT - 1 :

Participants were given a hands-on assignment to develop a machine vision system for automating the conversion of damaged printed documents into digital format with 98% character recognition accuracy. They were asked to select appropriate hardware and to design an algorithm for image inspection without using deep learning techniques. This practical exercise offered valuable experience in implementing machine vision solutions for real-world tasks.

ASSIGNMENT - 2 :

Assignment 2 - To develop a machine vision system to automate the cleanliness check on the hand cream tubes. The objective was to identify tubes with cream present on the surface and discard them. Participants were required to select suitable hardware instrumentation for image acquisition and to design an algorithm for inspection without employing deep learning techniques. This assignment provided participants with practical experience in designing and implementing machine vision solutions for quality control applications in manufacturing sectors.

KEY TAKEAWAYS

Day 3 of the workshop provided insights into UV fluorescent imaging and camera lens functionalities. Attendees learned about the application of UV light for detecting organic materials and explored topics such as adjustable aperture, angles of view, magnification, and depth of field in camera lenses. Discussions on spectral transmittance and lens aberrations offered valuable knowledge for assessing lens performance. Additionally, attendees gained understanding of machine vision instrumentation, including photodiodes and CCD image sensors, essential for image acquisition and processing. This session equipped participants with practical skills for implementing machine vision systems effectively.

QUIZ WINNERS:

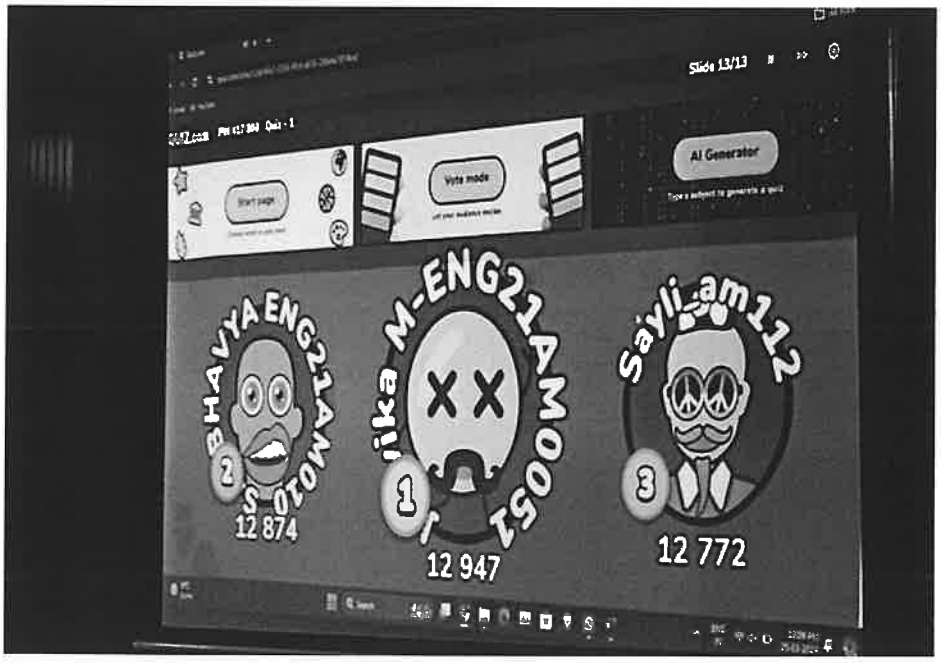

1ST PLACE - JEEVIKA M

Day 1, 18th March 2024

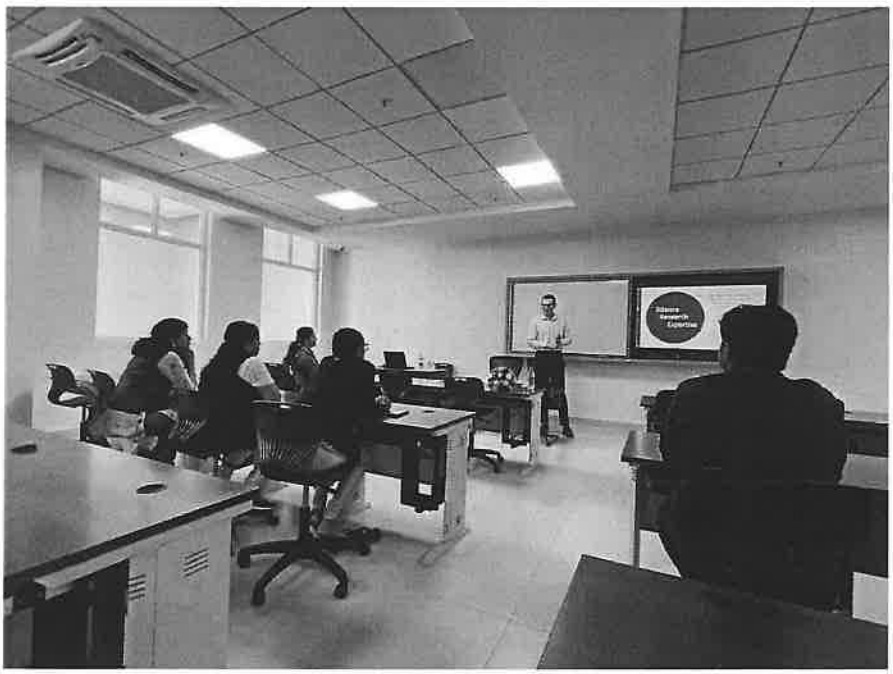

OVERVIEW

The "Workshop on Fuzzy Sets, Fuzzy Logic, and their Applications," orchestrated by Dr. Pavel at Dayananda Sagar University, marked a significant milestone in the academic journey of the second-year students. This enlightening event, specifically tailored for the curious minds of undergraduates, aimed to demystify the complex yet fascinating world of fuzzy logic and its myriad applications across diverse fields. Dr. Pavel, a renowned expert in the realm of fuzzy systems, led the workshop with a blend of profound knowledge and practical insights, turning abstract concepts into tangible learning experiences. From intelligent control systems to advanced decision-making algorithms, students were given a comprehensive overview of how fuzzy logic can be harnessed to tackle ambiguity and imprecision, mirroring the complexity of human reasoning. This report aims to encapsulate the essence of the workshop, highlighting the key learning, discussions, and the palpable enthusiasm that Dr. Pavel ignited among the students, promising to pave new pathways in their academic and future professional endeavors.

Dr Udaya Kumar Reddy K R, Dean welcoming Dr Pavel Skrabánek

During the forenoon session Dr. Pavel interacted with the faculties regarding his research expertise on computer vision. Through an exploration of fundamental principles, practical applications, and insightful discussions, the interaction provided a platform for faculty members to deepen their understanding of computer vision and its implications for research and education. By delving into topics such as problems related to computer vision, projects developed on computer vision, faculties gained valuable insights into the theoretical underpinnings and real-world applications of this dynamic field. Moreover, the interactive nature of the seminar fostered engaging discussions and knowledge sharing among participants, further enriching their learning experience. As academia continues to evolve and embrace interdisciplinary approaches, the significance of computer vision in advancing research, innovation, and pedagogy remains indisputable. This report endeavors to encapsulate the essence of the interaction, highlighting key takeaways and reflections from both Dr. Pavel's expertise and the collective wisdom of the participating faculty members.

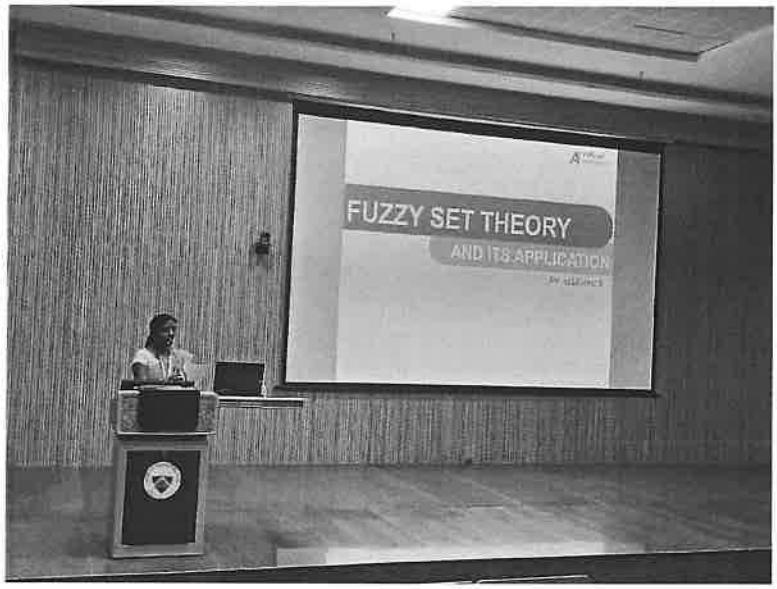

Dr Pavel Skrabánek sharing his experience with the staff.

The students workshop began in the afternoon session and Dr. Jayavrinda Vrindavanam, Chairperson, CSE(AIML) played a crucial role in elucidating the significance of the "Workshop on Fuzzy Sets, Fuzzy Logic, and Their Applications" to the students at Dayananda Sagar University. With a keen understanding of the pivotal shifts in technology and the increasing relevance of fuzzy logic in modern-day problem-solving, Dr.Jayavrinda Vrindavanam provided a compelling introduction to the workshop, setting the stage for a transformative learning experience.

Dr Jayavrinda Vrindavanam V addressing the gathering.

Dr. Vegi Fernando, Associate Professor, took the stage to spotlight Dr. Pavel's remarkable achievements, adding a layer of admiration and anticipation for the workshop at Dayananda Sagar University. Her address served not only as an acknowledgment of Dr. Pavel's contributions to the field of fuzzy logic but also as a beacon of inspiration for the students gathered to learn and explore. Dr Pavel is a profound researcher and academician at the University of Pardubice in the area of Artificial Intelligence (machine learning, fuzzy set theory, genetic algorithms, computer vision), mathematical modeling and simulations of dynamic systems, process control and optimization.

Dr Vegi Fernando sharing Dr Pavel Skrabánek's achievements.

ESSENCE OF DAY-1

- **The essence of fuzzy sets** lies in representing uncertainty by assigning degrees of membership to elements. Unlike traditional binary sets, fuzzy sets allow gradual membership, accommodating imprecise boundaries and facilitating modeling of vague concepts in various fields. Basic fuzzy set operations involve union (combining memberships of corresponding elements), intersection (selecting minimum memberships), complement (inverting memberships), and extension (applying operations to entire sets). These operations enable manipulation of fuzzy sets, facilitating reasoning and decision-making in uncertain environments.

- **Cartesian product:** A set operation combining elements from two sets to form pairs. In fuzzy contexts, it extends to combine degrees of membership from each set, generating fuzzy pairs to represent relationships between elements.

- **Fuzzy relations:** Binary relations allowing gradual degrees of connection between elements, represented by fuzzy sets. They capture uncertain or vague relationships, crucial in modeling imprecise information and decision-making

processes.Intersection and union of fuzzy relations: Operations to combine fuzzy relations. Intersection selects the minimum membership degree for each pair, representing commonality. Union selects the maximum, representing combined relevance or connection between elements.

- **Projection:** Extracting information from a fuzzy relation. It focuses on one set of elements, collapsing the relation to its connection with those elements, aiding in understanding specific relationships within complex data. Cylindrical extension: Expanding a fuzzy relation to include additional dimensions. It broadens the scope of the relation, accommodating more factors or variables, enhancing the representation of complex systems or interactions.

ACTIVITIES

To maintain student engagement and interactivity throughout the session, a quiz was organized across all three days. Professor Pradeep Kumar K led the quiz, which focused on the topic taught by Dr. Pavel. The quiz consisted of five questions aimed at reinforcing key concepts covered during Dr. Pavel's lecture.

Day 2, 19th March 2024

OVERVIEW

Mamdani Type Fuzzy Logic Systems: Mamdani-type systems consist of fuzzification, where crisp inputs are converted into fuzzy sets, rules defining relationships between inputs and outputs, inference using fuzzy logic operators, and defuzzification to obtain crisp outputs.

Fuzzification: This process involves converting crisp inputs into fuzzy sets, allowing for the representation of uncertainty or imprecision in the input variables.Mamdani systems use a set of linguistic rules to define relationships between the fuzzy inputs and outputs. These rules typically take the form of "if-then" statements, where the "if" part corresponds to fuzzy conditions and the "then" part specifies fuzzy conclusions.

Inference: Inference in Mamdani systems involves applying fuzzy logic operators, such as AND, OR, and NOT, to combine the fuzzy sets defined by the input variables according to the rules. This step determines the degree to which each rule contributes to the overall output.

ACTIVITIES

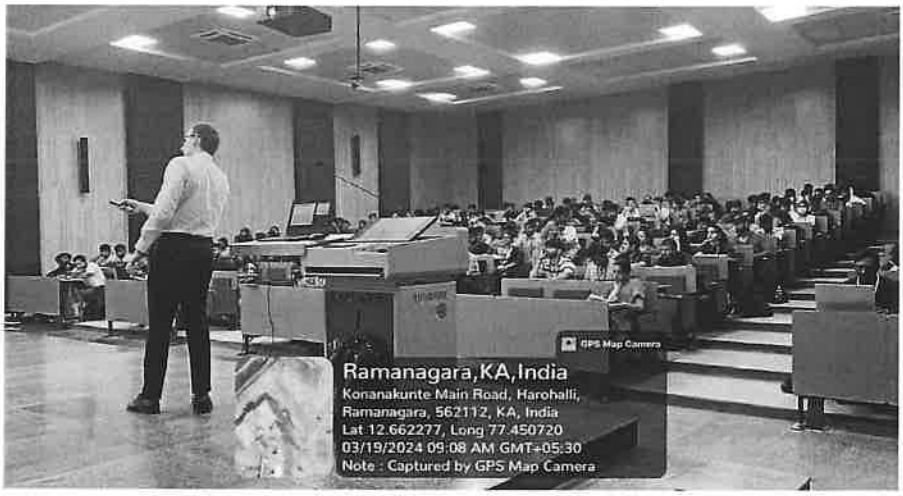

Ms. Gana Sree, II AIML led the quiz, which focused on the topic taught by Dr. Pavel. The quiz consisted of five questions aimed at reinforcing key concepts covered during Dr. Pavel's lecture. This interactive approach not only helped students to actively participate in the learning process but also provided an opportunity for immediate assessment and reinforcement of their understanding. By incorporating quizzes into the session, the organizers ensured that students remained attentive and engaged, enhancing the overall learning experience.

SCHOOL OF ENGINEERING

Day 3, 20th March 2024

OVERVIEW

Defuzzification: Once the fuzzy inference process is complete, defuzzification is applied to obtain crisp outputs. This involves aggregating the fuzzy outputs and converting them back into a crisp value that corresponds to a specific action or decision.

Takagi–Sugeno Type Fuzzy Logic Systems: Takagi–Sugeno systems use fuzzy sets to model input-output relationships directly, incorporating linguistic variables and hedges to express uncertainty, enabling approximate reasoning in decision-making and control applications.

ACTIVITIES

Ms. Gana Sree and Mr. Vishnu Vardan, II AIML led the quiz, which focused on the topic taught by Dr. Pavel. The quiz consisted of five questions aimed at reinforcing key concepts covered during Dr. Pavel's lecture.

SPECIAL EVENT OF DAY-3

During the workshop, Mr. Utpal Kumar, a student, shared insights on implementing fuzzy logic using Python. He demonstrated practical techniques and coding examples to illustrate how fuzzy logic concepts could be applied in real-world scenarios. By leveraging Python's rich ecosystem of libraries and tools, Mr. Kumar showcased how to develop fuzzy logic systems for various applications such as control systems, decision-making processes, and pattern recognition tasks.

Faculty Interaction Session with Dr. Pavel Skrabanek

Date: March 22, 2024
Time: 2:00 PM to 4:30 PM
Venue: 'B' Block, Room G0036

Event Overview:

The AI & ML department organized a Faculty Interaction Session with Dr. Pavel Skrabanek on March 22, 2024, from 2:00 PM to 4:30 PM. The event took place at G0036 'B' Block. The event started by welcoming the resource person and faculties from the School of Engineering by Dr. Vinutha N and Dr. Monika Goyal introduced the guest speaker, Dr. Pavel Skrabanek.

Dr. Pavel commenced the session by providing insights into Fuzzy Regression and Machine Vision Instrumentation. He elaborated on ongoing funded projects, including Monitoring the condition of plants in the greenhouse and Development of smart light for machine vision.

Image 1: Welcoming Dr. Pavel for Faculty Interaction

1. **Research Directions in Computer Vision:**
    - **Previously Solved Problems:**
        - Recognition of defective welds (2017).
        - Recognition of developmental stages of cardiomyocytes (2018).
        - Detection of drones (2019-2021).
    - **Ongoing Research:**
        - Automatic assessment of cardiomyocyte development stages from confocal microscopy images.
        - Automatic evaluation of fermentation degree of cocoa beans.
        - Automatic Identification of Tree Pests.
        - Automatic Classification of Ayurvedic herbs.
        - Training of Regression Models on imbalanced datasets.
        - European Network for assuring food integrity using non-destructive spectral sensors.
        - InsectAI – Using Image-based AI for Insect Monitoring and Conservation.
        - Development of Time-efficient Computer Vision Systems.
2. **Development of Time-efficient Methods:**
    - Dr. Pavel proposed an unconventional approach to express object positions using gradient maps.

- Mentioned that Yolo SqueezeNet yields better results in terms of relative inference time and localization error.
- Presented a paper on the adaptation of a centroid-based object detector on multiclass tasks.

3. **Development of Methods for Processing Hyperspectral Images:**
   - Discussed ongoing work in processing hyperspectral images.

The session concluded with an interactive discussion and Q&A session.

Is Organising

A Session by Placement Cell

"Data Science Futures: Elevate your carrier in Placements- Campus to Corporate"

Resource Person:

Vijay Kumar
Deputy Director
Training, Placement & Skill Development
SOE. DSU

Date : 08.09.2023 at 10:00 am to 11:00 am

Venue : T 303 'B' Block, SOE, DSU

Conveners:

Dr. Amit Bhatt
Pro-Vice Chancellor, DSU
Dr. Udaya Kumar Reddy KR
Dean, SoE
Dr. Shaila S G
Chairperson, Dept. of CSE (DS)

Organizers:

Prof. Shivamma D
Assistant Professor
Dept. of CSE(DS)

Prof. Manjula M
Assistant Professor
Dept. of CSE(DS)

Target Audience : 7th Semester B Tech. CSE (DS) Students

The DataScience@DSU Club, the Department of CSE (Data Science) organized a workshop on **"Data Science Futures: Elevate your carrier in Placements"** held on 8th September 2023 organized by **Prof. Shivamma D,** Assistant Professor, Dept. of CSE (Data Science), and **Prof. Manjula M,** Assistant Professor, Dept. of CSE (Data Science).

Mr. Vijay Kumar, Deputy Director, Placement and Skill Development, SoE DSU gave an insight on resume building, body language, communication, and responses to common interview questions.

The Takeaways of the event are:

1. Guide them on creating a professional and consistent personal brand.
2. Provide insights into different industries and job roles.
3. Teach interpersonal skills, teamwork, adaptability, and problem-solving abilities.
4. Encourage students to pursue certifications or additional training in areas of interest.
5. Help students build their online presence through LinkedIn profiles and personal websites.

Data Science Futures: Elevate your carrier in Placements- Campus to Corporate

Department of CSE (Data Science) organized a session on "Data Science Futures: Elevate your carrier in Placements" on 8th September 2023 for the 7th-semester students.

The session was graced by the esteemed presence of Mr. Vijay Kumar, the placement officer, who shared his wealth of knowledge and experience on how to prepare for a successful career in data science. The session commenced with an overview of the dynamic data science landscape. Vijay Kumar Sir emphasized the rapid growth and ever-increasing demand for data scientists across various industries. He delved into the crucial aspect of creating a standout resume. He provided valuable insights into what employers look for in a data science candidate's resume, including highlighting key skills, projects, and achievements. His tips on tailoring resumes to specific job descriptions were particularly enlightening.

Preparing for interviews can be a nerve-wracking experience. Mr. Vijay Kumar shared effective strategies to conquer this challenge. He emphasized the importance of thoroughly researching the company, practicing technical skills, and mastering the art of storytelling to showcase one's problem-solving abilities.

The session concluded with a glimpse into the promising future that awaits data science enthusiasts. Mr. Vijay Kumar spoke about the myriad of career paths and opportunities that data science offers.

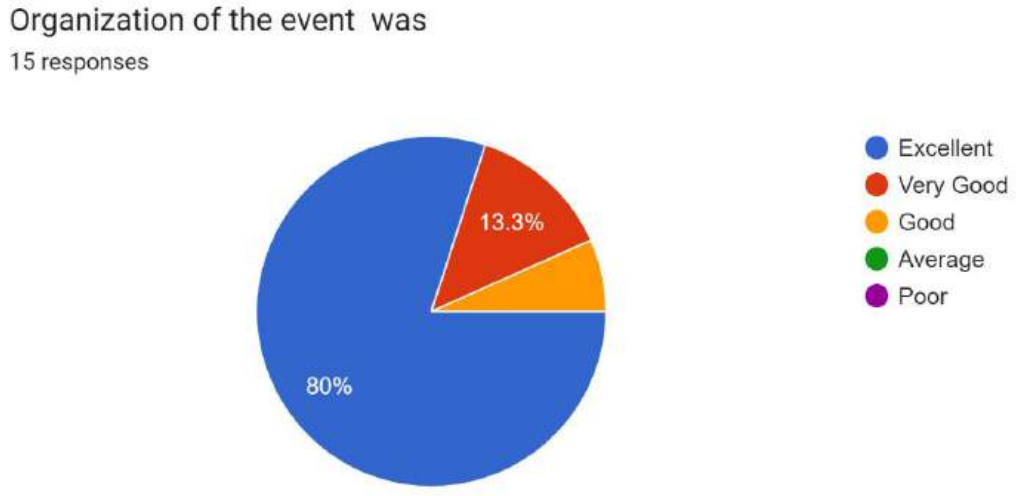

The session left the students motivated and well-prepared for their journey ahead. Armed with invaluable insights from him, they are now ready to embark on their data science careers with confidence, equipped with the knowledge and skills to thrive in the corporate world.

We extend our heartfelt gratitude to Mr. Vijay Kumar for his illuminating session and look forward to more such enriching experiences as we continue our quest for excellence in data science.

Few glimpses of the event:

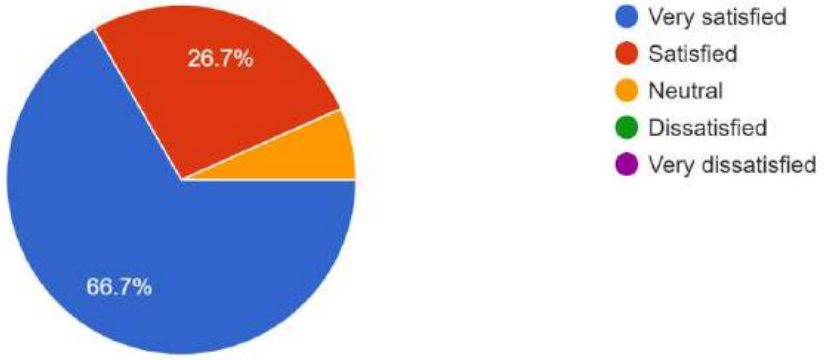

Feedback of the session —

What is your level of satisfaction of the event? (Note: Five is the highest level of satisfaction)

15 responses

The event contents met with your expectations

15 responses

Thank You.

Prof. Manjula M
Assistant Professor
Dept.of CSE (DS), SOE, DSU

The DataScience@DSU Club, the Department of CSE (Data Science) organized a workshop on **"SYNERGIZING DATA SCIENCE: COLLABORATIVE APPROACHES FOR COMPLEX PROBLEMS"** held on 22nd September 2023 organized by **Prof. Monish L,** Assistant Professor, Dept. of CSE (Data Science), and **Prof. Manjula M,** Assistant Professor, Dept. of CSE (Data Science).

Mr. Amruth Raj and Mr. Arun Kumar, Founder & CEO of Nikki.Build has an IT experience of 15 Years and worked in IT and Banking sector, with a German company gave an insight on building prototypes in low cost and joy of building the models with low code with existing built in the libraries.

The Takeaways of the event are:

1. Guide them on creating a professional and consistent personal brand as an entrepreneur.
2. Provide insights into different industries-based prototypes.
3. Incorporate interpersonal skills, adaptability, and problem-solving abilities in rapid prototype building.
4. Encourage students to implement Industry 5.0 human machine interaction models in areas of interest.

SYNERGIZING DATA SCIENCE: COLLABORATIVE APPROACHES FOR COMPLEX PROBLEMS

Department of CSE (Data Science) organized a session on " SYNERGIZING DATA SCIENCE: COLLABORATIVE APPROACHES FOR COMPLEX PROBLEMS " on 22nd September 2023 for the 5th-semester students.

The session was graced by the esteemed presence of Mr. Arun Kumar, the Founder and CEO Nikkibuild, shared his wealth of knowledge and experience on how to prepare for a successful career in industry as an entrepreneur. The session commenced with an overview of the dynamic data science landscape.

A rapid prototype building with low code for industry 5.0 Interaction with every line of coding which makes learning more practical and creative. As the agenda of industry 5.0 for Human machine collaboration is implemented in more than 20 models were demonstrated in the session, such as working of Zomato, self-driving JCB model, oximeter, touch less controls.

Some applications demonstrated to students

- Air drop application using common zoom in and out application
- Easy speech interaction using Anyang library,
- Data collection from Bluetooth made easy using BLE (Bluetooth low energy) library
- Vehicle performance prediction with low cost
- Gesture control with low cost using media.pi library
- Tracking of vehicle in Zomato and Swiggy using leaflet library

Arun Kumar Sir emphasized the rapid growth and ever-increasing demand for prototypes with low cost and affordable across various industries. He delved into the crucial aspect of creating a easy going model for the layman. He provided valuable insights into what employers look for in a data science candidate's, including highlighting key skills, projects, and achievements. His tips on skill development and future as were particularly enlightening.

The session concluded with a glimpse into the promising future that awaits data science enthusiasts. Mr. Arun Kumar spoke about the myriad of career paths as an entrepreneur and opportunities that data science offers.

The session left the students motivated and well-prepared for their journey ahead. Armed with invaluable insights from him, they are now ready to embark on their data science careers with confidence, equipped with the knowledge and skills to thrive in the corporate world.

We extend our heartfelt gratitude to Mr. Arun Kumar for his illuminating session and look forward to more such enriching experiences as we continue our quest for excellence in data science in collaboration with Nikki.Build.

What is your level of satisfaction of the event? (Note: Five is the highest level of satisfaction)

19 responses

Your inputs/suggestions (if any)

It was a very knowledgeable session with lots of good insights and hands on session.

We need an workshop session

Excellent.

Good knowledge for students

Interesting session

very intresting

I would like to be a part of workshop

Very interesting

It was a great session

Good understanding

Thank You

Report on

"Unifying Data Science: Cooperative Strategies for Tackling Complex Problems"

Date: 6th November, 2023 **Time: 11:00 AM – 1:00 PM**

Resource Person:

Mr. Arun Kumar
Founder & CEO, Nikki.Build

Mr. Amruth Raj
Founder, Nikki.Build

Organizers:

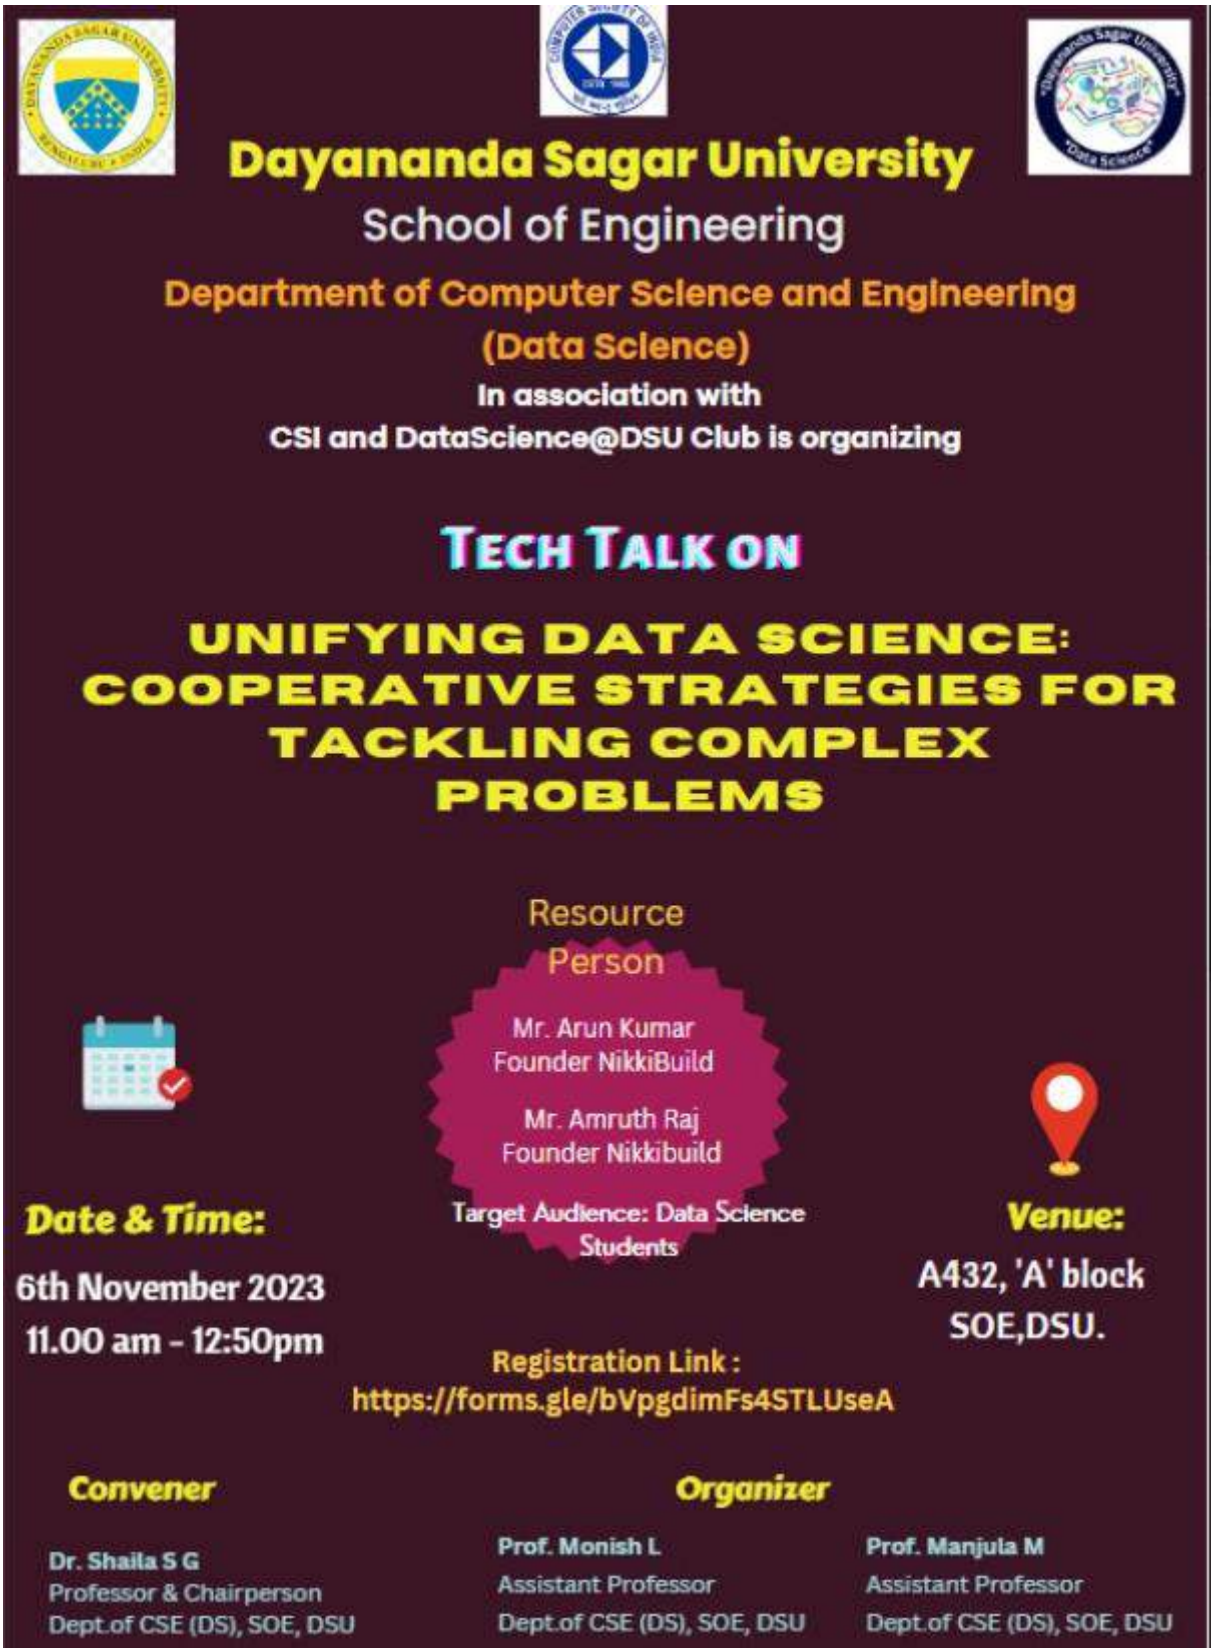

Prof. Manjula M
Assistant Professor
Dept. of CSE(DS)
SoE, DSU

Prof. Monish L
Assistant Professor
Dept. of CSE(DS)
SoE, DSU

Convener:

Dr. Shaila SG
Professor &
Chairperson Dept. of CSE(DS)
SoE, DSU

Target Audiences: 3rd Semester students of CSE (DS)

The DataScience@DSU Club, the Department of CSE (Data Science) organized a workshop on **"Unifying Data Science: Cooperative Strategies for Tackling Complex Problems"** held on 6th Nov 2023 organized by **Prof. Monish L,** Assistant Professor, Dept. of CSE (Data Science), and **Prof. Manjula M,** Assistant Professor, Dept. of CSE (Data Science).

Mr. Amruth Raj and Mr. Arun Kumar, Founder & CEO of Nikki.Build has an IT

experience of 15 Years and worked in IT and Banking sector, with a German company gave an insight on building prototypes in low cost and joy of building the models with low code with existing built in the libraries.

The Takeaways of the event are:

1. Guide them on creating a professional and consistent personal brand as an entrepreneur.
2. Provide insights into different industries-based prototypes.
3. Incorporate interpersonal skills, adaptability, and problem-solving abilities in rapid prototype building.
4. Encourage students to implement Industry 5.0 human machine interaction models in areas of interest.

Unifying Data Science: Cooperative Strategies for Tackling Complex Problems

The Department of CSE (Data Science) organized a session on **"Unifying Data Science: Cooperative Strategies for Tackling Complex Problems"** on 6th Nov 2023 for the 3rd-semester students.

The session was graced by the esteemed presence of Mr. Arun Kumar, the Founder and CEO Nikkibuild, who shared his wealth of knowledge and experience on how to prepare for a successful career in industry as an entrepreneur. The session commenced with an overview of the dynamic data science landscape.

A rapid prototype building with low code for industry 5.0 Interaction with every line of coding which makes learning more practical and creative. As the agenda of industry 5.0 for Human machine collaboration is implemented in more than 20 models were demonstrated in the session, such as working of Zomato, self-driving JCB model, oximeter, touch less controls.

Some applications demonstrated to students

- Air drop application using common zoom in and out application
- Easy speech interaction using Anyang library,
- Data collection from Bluetooth made easy using BLE (Bluetooth low energy) library
- Vehicle performance prediction with low cost

- Gesture control with low cost using media.pi library
- Tracking of vehicle in Zomato and Swiggy using leaflet library

Arun Kumar Sir emphasized the rapid growth and ever-increasing demand for prototypes with low cost and affordable across various industries. He delved into the crucial aspect of creating a easy going model for the layman. He provided valuable insights into what employers look for in a data science candidate's, including highlighting key skills, projects, and achievements. His tips on skill development and future as were particularly enlightening.

The session concluded with a glimpse into the promising future that awaits data science enthusiasts. Mr. Arun Kumar spoke about the myriad of career paths as an entrepreneur and opportunities that data science offers.

The session left the students motivated and well-prepared for their journey ahead. Armed with invaluable insights from him, they are now ready to embark on their data science careers with confidence, equipped with the knowledge and skills to thrive in the corporate world.

We extend our heartfelt gratitude to Mr. Arun Kumar for his illuminating session and look forward to more such enriching experiences as we continue our quest for excellence in data science in collaboration with Nikki.Build.

Few glimpses of the event:

EVENT REPORT

EVENT: CIL Session "You Reap, What you Sow"

REF: COPS-CIL_22052024

Date and time of Event: 22nd of May 2024, 1:00 am to 03:00 pm

Venue: 1st floor Classroom 1.06, COPS, DSU

About the Event:

The Session entitled "You Reap, What you Sow" included activities and components designed to improve students' self confidence, life qualities, and overall personality development. The topic of the session mainly focused 'to sow a character and reap a destiny'. Inculcating moral principles and values in the student life is an initiative of moulding a better society. On note, the session was arranged to improve the progressive thought among students which aid the path of personality development. The ultimate aim of the program was to equip students with motivation and positive attitude. The geotagged photos captured during the session are include in **Fig. 1-4.**

No. of students Participated: 86 Participants

Event Coordinator: Dr. Ashwini Prem Kumar, CIL Coordinator COPS, DSU

CIL- Head Training: Mrs. Praveena S, DSU

CIL-Speaker:

Mrs. Sushma Lingraj, Motivational Speaker, Trainer, Career Counselor, Life Coach and Consultant for Soft skills (Business Communication, Leardership & Management and Personality Development)

Outcomes:

To built self confidence and life qualities in student; Overall personality development

Summary:

The event "*You Reap, What you Sow*" was organized by College of Pharmaceutical Sciences, Dayananda Sagar University for the students of B.Pharm (IV Semester) to build self-confidence and interpersonal skills needed to thrive both in and out of the classroom. Mrs. Sushma Lingraj, Motivational Speaker, Trainer, Career Counselor, Life Coach and Consultant for Soft skills (Business Communication, Leardership & Management and PersonalityDevelopment) was the speaker for the session.

The program centered on positive thinking and self esteemed thoughts, and Teamwork. It aimed to improve work productivity, advance careers, encourage creative thinking and innovation, and enhance interpersonal skills of students. Participants in the program actively involved in a variety of activities, including learning sessions, discussions, role-playing exercises, self-assessment, and feedback sessions.

Over the course of the session, the speaker captivated the participants with the powerful message of self-belief, resilience, and goal-setting. The feedback we've received from students has been overwhelmingly positive, with many expressing a newfound sense of direction and determination.

This initiative was designed to inspire and empower our student. They were strongly encouraged to apply their newfound knowledge to real-life scenarios, enabling the development of practical strategies and techniques that will help them excel both personally and professionally.

EVENT REPORT

EVENT: CIL Session "You Reap, What you Sow"

REF: COPS-CIL_22052024

Date and time of Event: 22nd of May 2024, 1:00 am to 03:00 pm

Venue: 1st floor Classroom 1.06, COPS, DSU

About the Event:

The Session entitled "You Reap, What you Sow" included activities and components designed to improve students' self confidence, life qualities, and overall personality development. The topic of the session mainly focused 'to sow a character and reap a destiny'. Inculcating moral principles and values in the student life is an initiative of moulding a better society. On note, the session was arranged to improve the progressive thought among students which aid the path of personality development. The ultimate aim of the program was to equip students with motivation and positive attitude. The geotagged photos captured during the session are include in **Fig. 1-4.**

No. of students Participated: 86 Participants

Event Coordinator: Dr. Ashwini Prem Kumar, CIL Coordinator COPS, DSU

CIL- Head Training: Mrs. Praveena S, DSU

CIL-Speaker:

Mrs. Sushma Lingraj, Motivational Speaker, Trainer, Career Counselor, Life Coach and Consultant for Soft skills (Business Communication, Leardership & Management and Personality Development)

Outcomes:

To built self confidence and life qualities in student; Overall personality development

Summary:

The event *"You Reap, What you Sow"* was organized by College of Pharmaceutical Sciences, Dayananda Sagar University for the students of B.Pharm (IV Semester) to build self-confidence and interpersonal skills needed to thrive both in and out of the classroom. Mrs. Sushma Lingraj, Motivational Speaker, Trainer, Career Counselor, Life Coach and Consultant for Soft skills (Business Communication, Leardership & Management and PersonalityDevelopment) was the speaker for the session.

The program centered on positive thinking and self esteemed thoughts, and Teamwork. It aimed to improve work productivity, advance careers, encourage creative thinking and innovation, and enhance interpersonal skills of students. Participants in the program actively involved in a variety of activities, including learning sessions, discussions, role-playing exercises, self-assessment, and feedback sessions.

Over the course of the session, the speaker captivated the participants with the powerful message of self-belief, resilience, and goal-setting. The feedback we've received from students has been overwhelmingly positive, with many expressing a newfound sense of direction and determination.

This initiative was designed to inspire and empower our student. They were strongly encouraged to apply their newfound knowledge to real-life scenarios, enabling the development of practical strategies and techniques that will help them excel both personally and professionally.

EVENT REPORT

EVENT: CIL Soft-skill Training

REF: COPS-CIL_21022024

Date and time of Event: 12th, 13th & 15th of February 2024, 09:30 am to 04:00 pm

Venue: CD Sagar Building (4th floor CIL Block)

About the Event: This session included various activities and components designed to improve students' leadership qualities, communication skills and overall personality development. The ultimate aim of such a program is to equip students with necessary skills. Session entitled as "Communication skills, Corporate culture Leadership &Emotional Quotient" (Fig. 1-8).

No. of students Participated: 197 Participants

Event Coordinator: Dr. Chinju Susan Chacko, CIL Coordinator COPS, DSU

CIL- Head Training: Mrs. Praveena S, DSU

CIL-Trainer:

On 12-02-2024 & 13-02-2024, Shekhar Suman, performing as a Full Time Free-Lance Personal & Professional Development Facilitator of Life Skills.

On 12-02-2024, Ravinder Singh Kalsi, He is expert on training Personality Development, Memory Development and soft skills.

On 15-02-2024, Shashirekha. D, counseller and Freelance Placement Trainer in Engineering and Management colleges.

On 15-02-2024, Shwetha. J, Soft skills trainer, Motivational Speaker, Learning Facilitator and ransformational Coach

Outcomes:

To develop leadership qualities, reasoning, communication skills, teamwork, creative thinking, and collaborative abilities.

Summary:

The event was organized by COPS, DSU for the students to enhance an individual's interpersonal and professional skills that are essential for success in today's dynamic and interconnected workspace.

The program, centered around Communication Skills, Corporate Culture, Leadership & Emotional Quotient, Creative Thinking and Problem-Solving Skills, and Teamwork. It aimed to improve communication skills, foster leadership development, increase work productivity, advance careers, encourage creative thinking and innovation, and enhance interpersonal skills of students.

Participants in the program actively involved in a variety of activities, including learning sessions, discussions, role-playing exercises, self-assessment, and feedback sessions. They were strongly encouraged to apply their newfound knowledge to real-life scenarios, enabling the development of practical strategies and techniques that will help them excel both personally and professionally.

In Association with DataScience@ DSU Club

Report on

5 DAY VALUE ADDED COURSE

on **"Data Analytics and Artificial Intelligence Applications using MATLAB-Simulink"**

Date: 2nd, 20th November, 2023,
1st, 7th, 28th December 2023 **Time: 10:00 AM – 4:00 PM**

Organizers:

Prof. Shivamma D
Assistant Professor
Dept. of CSE(DS)

Prof. Monish L
Assistant Professor
Dept. of CSE(DS)

Convener:

Dr. Amit Bhatt
Pro-Vice Chancellor, DSU
Dr. Udaya Kumar Reddy KR
Dean, SoE
Dr. Ramesh R. Galigekere
Dean (Acad) Science and Technology
Dr. Shaila S G
Chairperson, Dept. of CSE (DS)

Target Audiences: B Tech students of CSE (DS)

The DataScience@DSU Club, the Department of CSE (Data Science) organized a Workshop on "Data Analytics and Artificial Intelligence Applications using MATLAB-Simulink" held on 2nd November 2023 to 14 December 2023 organized by Dr. Shaila S G , Professor and Chairperson, Prof. Shivamma D, Assistant Professor, Prof, Monish L, Assistant Professor, Dept. of CSE (Data Science). The targeted audience was 3rd Semester Data Science B.Tech students.

Objectives:

- To introduce participants to the fundamentals of data analytics, artificial intelligence, and the relevance of MATLAB-Simulink in these domains.
- Enable participants to apply machine learning algorithms and AI techniques using MATLAB-Simulink through practical exercises and projects
- Illustrate real-world applications of data analytics and AI through case studies, demonstrating how MATLAB-Simulink has been instrumental in solving industry challenges.

Outcome :

- Participants will gain practical proficiency in utilizing MATLAB-Simulink for implementing data analytics techniques and basic artificial intelligence algorithms.
- To apply learned concepts through hands-on exercises, enabling them to develop and execute small-scale data analytics and AI projects.
- To enhance the problem-solving skills and an understanding of how MATLAB-Simulink can be employed to address real-world challenges in industries leveraging data analytics and artificial intelligence.

Day 1: The resource person Mr. Avinash embarked on an insightful journey through the realms of industry and academia, shedding light on the prevailing trends in data analytics and artificial intelligence. Seamlessly transitioning into the technical domain, he adeptly introduced the participants to the intricate world of MATLAB, deftly navigating through its interface and functionality. The Live Script feature, in particular, captivated the audience, offering a dynamic platform for interactive learning and documentation. Avinash's adeptness in simplifying complex concepts made the initial phase of the workshop a robust foundation for the subsequent technical sessions.
Continuing his compelling discourse, Mr. Avinash meticulously guided the attendees through the essential tenets of MATLAB operations, navigating through the maze of matrix management and visualization techniques. His adept explanations on creating evenly spaced vectors and implementing conditional statements within MATLAB fostered a tangible understanding among participants. His articulate presentation and hands-on approach laid a solid groundwork, nurturing a palpable enthusiasm among participants for the intricate possibilities of MATLAB and its practical applications in data analytics and artificial intelligence.

Day 2: The resource person Mr Rakshith, deep dive into data visualization, the sessions on visualizing data and importing unstructured data exemplified his command over MATLAB's diverse functionalities. participants were introduced to the array of visualization tools available in MATLAB, gaining proficiency in representing complex data sets visually for enhanced comprehension. Furthermore, elucidation of importing unstructured data showcased MATLAB's adaptability in handling various data formats, empowering participants to manipulate and extract insights from diverse data sources. His methodical approach and hands-on demonstrations instilled confidence in the attendees, equipping them with practical skills essential for effective

data handling and visualization using MATLAB.

Day 3 & Day 4; On day four of the immersive journey into machine learning, the focus delved deeper into the foundational pillars of this transformative field. Beginning with an insightful exploration of machine learning's essence, participants uncovered its significance in enabling computers to learn patterns and autonomously make decisions. Delving into unsupervised learning, the session illuminated the power of algorithms to discern hidden patterns within unlabeled data, broadening the understanding of how machines identify intrinsic structures without explicit guidance.

The day's discourse transitioned seamlessly into the realms of classification and regression problems, elucidating the divergent yet complementary roles they play. Classification's art of categorizing data into predefined classes, and regression's ability to predict continuous outcomes, were exemplified through various algorithms like Support Vector Machines and Linear Regression, illuminating their practical applications across industries.

Finally, the session culminated in captivating application demos, showcasing the practical marvels of machine learning across diverse domains.Overall, day four unveiled the multi-faceted landscape of machine learning, empowering participants with foundational knowledge and a glimpse into its vast applications.

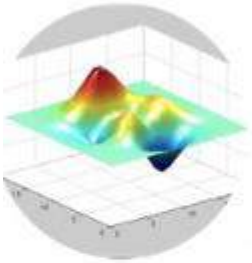

Day 5: Immersive exploration into machine learning delved into the intricate world of deep learning, commencing with a comprehensive introduction to neural networks' complex architecture and their ability to decipher intricate patterns from data. The session seamlessly transitioned to the practical application of pre-trained networks, showcasing their efficiency in accelerating learning and adaptation to new datasets while emphasizing the potency of transfer learning for swift model adaptation across domains. Tackling the challenges of managing extensive data collections, participants gained insights into effective preprocessing and organization techniques crucial for fortifying model efficacy. Transfer learning emerged as a transformative strategy, enabling participants to leverage knowledge from one domain to enhance model performance, especially in scenarios with limited data availability. Additionally, the significance of feature extraction was underscored, unveiling methodologies to distill critical features that enhance model accuracy and efficiency. The session culminated with engaging MATLAB Apps demonstrations, simplifying intricate workflows from data preparation to model deployment and highlighting deep learning's practical applications in image and speech recognition, natural language processing, and autonomous systems across diverse industries.

MATLAB Image Coordinates
CoreEL technologies
MATLAB stores images as matrices
In MATLAB, image pixels are referenced using row, col values
Origin of the coordinate system (1,1) is the top left corner of the image
img
Thus, img(4,3) refers to the pixel at the 4th row and 3rd column.

Training Schedule 2023 - 2024

Department	Department of Engineering
Topic	Pre - Placement Training
Timings	9:30 AM - 4:00 PM
Venue	DSU - SoE (A - Block)

Sl. No.	*Date*	*Semester / Section*	*Strength*
1	2-05-2024	6 AI & ML	150
2	6-05-2024	6 'A' & 'B' CS & E	160
3		6 CS & E (Data Science)	56
4	7-05-2024	6 'C' & 'D' CS & E	160
5	8-05-2024	6 'E' & 'F' CS & E	160
6		6 Mechanical	31
7	9-05-2024	6 Aerospace	60
8		6 CS & T	57
9		6 'G' CS & E	80
10	13-05-2024	6 CS & E (Cyber Security)	56
11	15-05-2024	6 'A' E & CE	90
12	16-05-2024	6 'B' E & CE	90

The DataScience@DSU Club, the Department of CSE (Data Science) organized a online Webinar on "**Cyber Strategies for Cutting-Edge Data Science**" held on 6th March 2024 organized by **Prof. Shivamma D,** Assistant Professor, Dept. of CSE (Data Science), and **Prof. Monish L,** Assistant Professor, Dept. of CSE (Data Science).

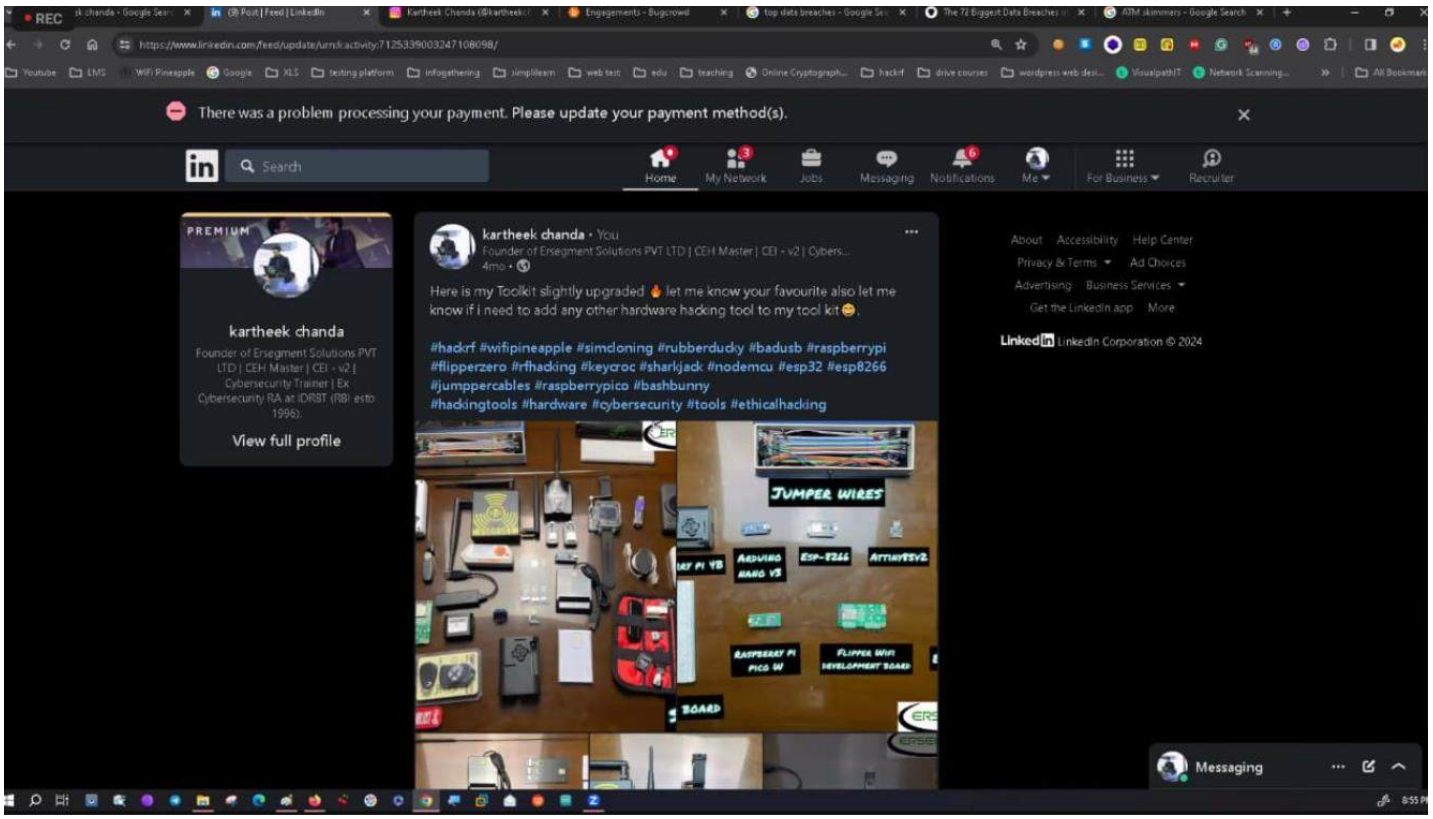

The Takeaways of the event are:

1. **Integration of Cybersecurity and Data Science**: The webinar emphasized the critical need to integrate cybersecurity measures into data science practices right from the outset. This integration ensures that data-driven insights are not only accurate but also secure from potential cyber threats.
2. **Threat Detection and Prevention**: Effective cybersecurity strategies highlighted in the webinar focused on proactive threat detection and prevention techniques. These include advanced analytics, machine learning algorithms, and anomaly detection to identify and mitigate potential cyber threats in real-time.
3. **Data Privacy and Compliance**: Maintaining data privacy and compliance with regulatory standards such as GDPR and HIPAA emerged as paramount concerns. The webinar discussed various strategies and best practices for safeguarding sensitive data and ensuring compliance with relevant regulations.
4. **Continuous Monitoring and Response**: Continuous monitoring of data systems and prompt response to cybersecurity incidents are essential components of a robust cyber strategy. The webinar emphasized the importance of implementing automated monitoring tools and establishing incident response protocols to minimize the impact of cyberattacks.
5. **Collaboration and Knowledge Sharing**: Collaboration among data scientists, cybersecurity experts, and other stakeholders is crucial for developing comprehensive cyber strategies. The webinar encouraged knowledge sharing and interdisciplinary collaboration to address evolving cyber threats effectively.
6. **Adoption of Emerging Technologies**: Embracing emerging technologies such as blockchain, homomorphic encryption, and secure multi-party computation can enhance the security and privacy of data science initiatives. The webinar highlighted the potential of these technologies in mitigating cyber risks and ensuring data integrity.

Detailed Report of **Cyber Strategies for Cutting-Edge Data Science**

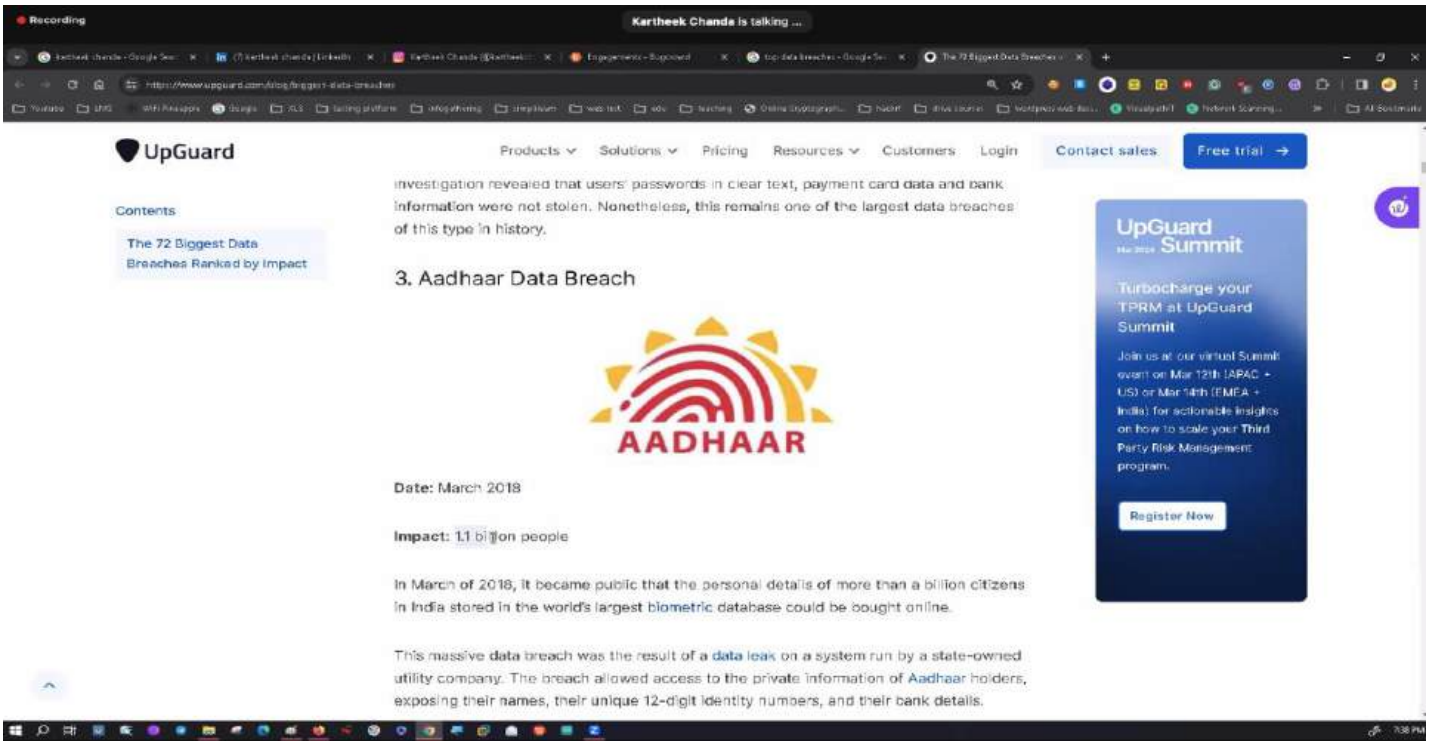

The DataScience@DSU Club, under the Department of Computer Science and Engineering (Data Science), organized an online Webinar on "**Cyber Strategies for Cutting-Edge Data Science**" on March 6th, 2024. The webinar emphasized integrating cybersecurity measures into data science practices and highlighted proactive threat detection, privacy compliance, and collaboration among stakeholders as essential strategies for safeguarding data assets in the digital age. The Webinar was organized by Prof. Shivamma D, Assistant Professor, Department of CSE (Data Science), and Prof. Monish L, Assistant Professor, Department of CSE (Data Science). The Webinar was attended by 42 students.

The DataScience@DSU Club, the Department of CSE (Data Science) organized a Quiz **"AptiPrecision: Fine-Tuning Numerical Abilities"** held on 7th March 2024 organized by **Prof. Shivamma D,** Assistant Professor, Dept. of CSE (Data Science), and **Prof. Monish L,** Assistant Professor, Dept. of CSE (Data Science).

The Takeaways of the event are:

1. Strengths and Weaknesses: Identify areas where you excel and areas where you may need improvement in terms of problem-solving, critical thinking, mathematical reasoning, etc.
2. Time Management: Understand how well you manage your time during the quiz. Did you complete all the questions within the allotted time, or did you struggle to finish?
3. Problem-solving Strategies: Reflect on the strategies you used to solve different types of questions. Determine which strategies were effective and which ones need refinement.
4. Conceptual Understanding: Assess your understanding of fundamental concepts in areas such as mathematics, logic, reasoning, and analytical thinking.
5. Preparation Needs: Identify any gaps in your knowledge or skills that need to be addressed through further study or practice.
6. Confidence Boost: Recognize areas where you performed well, which can boost your confidence in your abilities.
7. Areas for Improvement: Pinpoint specific topics or types of questions where you struggled and make a plan to improve in those areas.

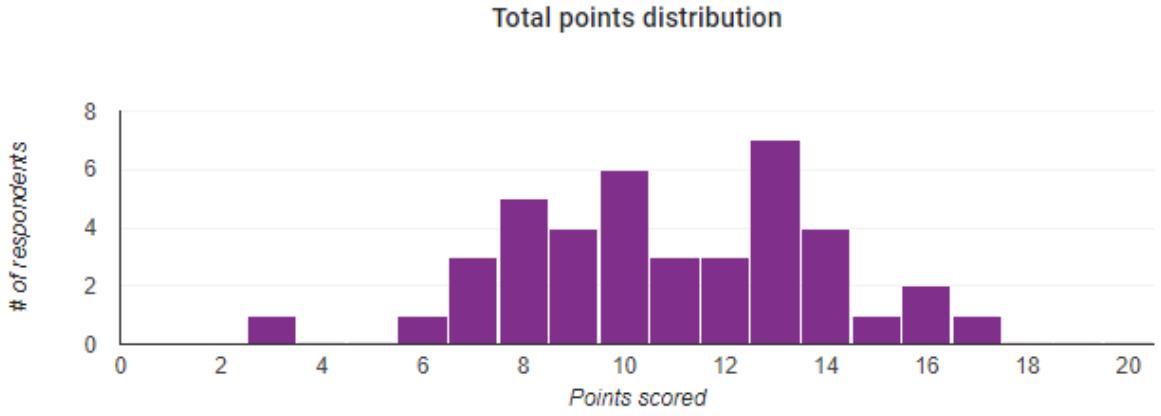

Detailed Report of **QUIZ-VENTURE: Enhance your skills with C**

The DataScience@DSU Club, under the Department of Computer Science and Engineering (Data Science), organized a Quiz event titled "AptiPrecision: Fine-Tuning Numerical Abilities" on March 7th, 2024. "Quiz-Venture" offers skill enhancement through engaging quizzes, fostering continuous learning and personal development. Join to level up your expertise with interactive challenges. The quiz was organized by Prof. Shivamma D, Assistant Professor, Department of CSE (Data Science), and Prof. Monish L, Assistant Professor, Department of CSE (Data Science). The Quiz was taken up by 41 students. The winners of the Quiz were:

Winners	Name	USN	Marks
First Place	Arian Kovacs	ENG22DS0049	17 / 20
Second Place	Sanjana T	ENG22DS0017	16 / 20

" AWARENESS TALK ON THALASSEMIA"

Date: 17th April, 2024 **Time: 11:00 am – 1:00 pm**

Organizers:
Together With Us
Foundation

Resource Person:
Rakesh Dhanya BV
CEO, SANKALP FOUNDATION

Faculty Organizers:

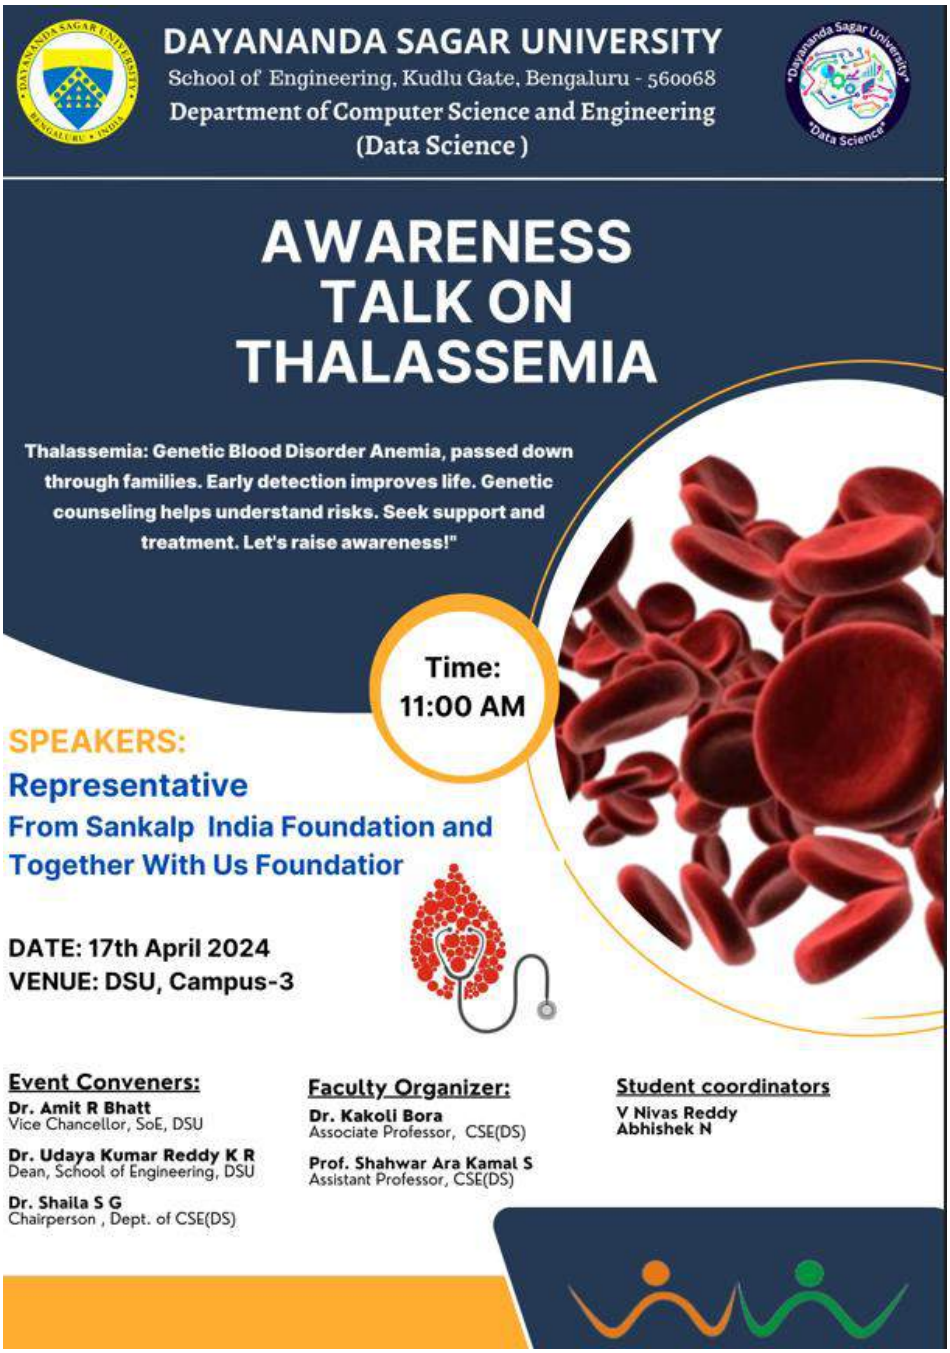

Dr. Kakoli Bora
Associate Professor
Dept.of CSE(DS)
SoE, DSU

Prof. Shahwar ara Kamal S
Assistant Professor
Dept.of CSE(DS)
SoE, DSU

Convener:
Dr. Shaila SG
Professor & Chairperson
Dept. of CSE(DS) SoE, DSU

Target Audience: Students of SoE, DSU

The Department of Computer Science & Engineering (Data Science) has successfully organized an awareness program on **"Awareness Talk on THALASSEMIA"** The targeted audience were the students of School of Engineering, DSU, Campus-3.

Report:

The Department of CSE (Data Science) organized an awareness program on **"Awareness talk on THALASSEMIA"** on 17th April 2024, from 11:00 am to 1:00 pm organized by **Together With Us Foundation** in collaboration with **SANKALP INDIA FOUNDATION.** The **Together With Us** Foundation is dedicated to positively impacting the community by providing aid, support, and hope to those in need, run by youth. The **SANKALP INDIA FOUNDATION** – a charitable trust promoting voluntary blood donation and alleviating blood requirements in patient care in India.

The Speaker of the talk **Mr. Rakesh Dhanya BV,** CEO- SANKALP INDIA FOUNDATION, likely emphasized a few key points:

1. **Understanding Thalassemia:** Explaining the types of thalassemia (such as alpha-thalassemia and beta-thalassemia) and how they affect the body. This might include discussing the genetics behind the disease, the symptoms experienced by those who have it, and the various degrees of severity.
2. **The Role of Blood Donations**: Highlighting how crucial regular blood donations are for the treatment of patients with thalassemia. Since these patients may require frequent transfusions throughout their lives, there is a constant need for a stable blood supply.
3. **Call to Action:** Encouraging the audience to donate blood, highlighting how each donation can save multiple lives and is particularly vital for those living with chronic conditions like thalassemia.
4. **Safe Blood donation:** Discussed about the criterias for the donors. How a donor should prepare herself/himself before donating blood.

The speaker visited all the classrooms of 6th semester, SoE in Campus 3 and delivered the talk to the students.

The Takeaways of the event are:

- Understanding Genetic Blood Disorders
- Importance of Regular Blood Donations
- Challenges with Frequent Transfusions
- Advancements in Treatment Options
- Encouraging Community Participation

Glimpses of the Event:

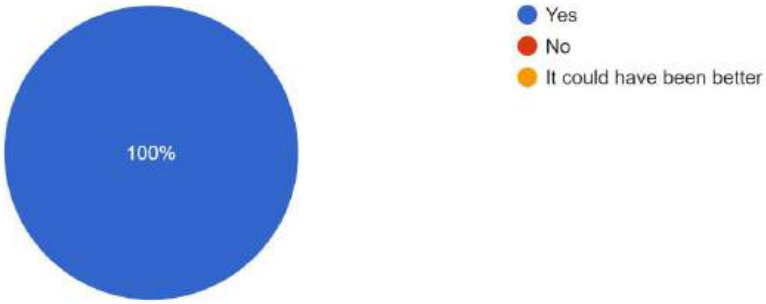

"Thank you, volunteers, for your dedication, we extend our appreciation.

The feedback was taken from the students which turned out to be satisfactory.

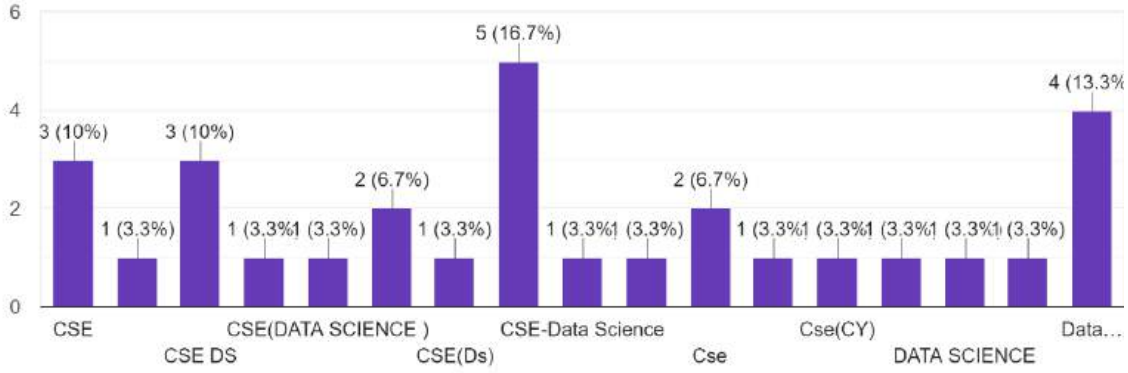

Was the session useful?

Dept. of CSE(DS) SoE, DSU

Target Audience: 4th Students of SoE, DSU

The Department of Computer Science & Engineering (Data Science) has successfully organized the Pre-placement training on **"Working in teams and Interpersonal Skills"** The targeted audience were the 4th semester students of School of Engineering, DSU, Campus-4.

Report:

The Department of CSE (Data Science) organized Pre-placement training on **"Working in teams and Interpersonal Skills"** on 25th April 2024, from 9:00 am to 4:00 pm organized by the Chairperson Dr. Shaila S G, Department of CSE (Data Science), Prof. Shivamma D, Assistant Professor and Prof. Monish L, Assistant Professor in the Department of CSE (Data Science), the event targeted 4th-semester B.Tech students. The purpose of the session was to equip participants with the essential skills and knowledge required to excel in team environments and foster effective interpersonal relationships in professional settings.

The pre-placement training session on "Working in Teams and Interpersonal Skills" provided participants with valuable insights and practical tools to navigate the complexities of teamwork and interpersonal relationships in professional settings. Through interactive discussions, activities, and role-plays, participants gained a deeper understanding of the importance of effective communication, conflict resolution, empathy, and trust-building. The session equipped them with the skills necessary to thrive in collaborative environments and contribute positively to their future workplaces.

Overall, the training was well-received by participants, who expressed appreciation for the practical advice and strategies provided. It is anticipated that the knowledge and skills acquired during the session will serve them well as they embark on their professional journeys.

Resource Person: Arun Ramachandran, Soft skill Trainer, CIL, DSI

Objectives:

1. Understand the importance of teamwork in achieving organizational goals.
2. Develop effective communication skills for collaborating within teams.
3. Enhance conflict resolution and problem-solving abilities.
4. Cultivate empathy and respect for diverse perspectives.
5. Learn strategies for building trust and fostering positive relationships.

The Takeaways of the event are:

1. **Improved communication skills through active listening and clear articulation.**
2. **Acquired conflict resolution strategies for harmonious team dynamics.**
3. **Cultivated empathy and respect for diverse perspectives.**
4. **Fostered trust within teams through integrity and transparency.**
5. **Developed emotional intelligence for navigating interpersonal relationships effectively.**

Report on

"Placement Training Session Module on Resume Writing / Group Discussion / Mock Interviews/ Grooming for interviews"

Date: 06th May, 2024 **Time: 8:45AM-4:45PM**

Resource Person:

Karthik C
CIL DSI

Organizers:

Prof. Vijay Kumar
Placement Director
SoE, DSU

Convener:

Dr. Shaila SG
Professor &Chairperson
Dept. of CSE(DS)
SoE, DSU

Target Audiences: 6th Semester students of CSE (DS)

The placement department in collaboration with the Department of CSE (Data Science) organized a placement training session held on 6th May 2024 organized by Mr. Vijay Kumar, Deputy Director, Placement and Skill Development, SoE DSU. The Resource Person Mr. Karthik C gave an insight on resume building, body language, communication, and responses to common interview questions.

Morning Session:

The session aimed to enhance the participants' skills in presentation, resume building, and group discussion techniques. It focused on aspects such as body language, confidence, language proficiency, eye contact, and the ability to articulate thoughts effectively.

The session commenced with a comprehensive discussion on presentation skills. The facilitator elucidated the key factors that HR personnel typically observe during presentations, including body language, confidence level, language proficiency, and eye contact. Furthermore, the facilitator provided insights into resume building, distinguishing between resumes, CVs, and biodata, and elucidating their respective purposes and formats.Subsequently, a debate was initiated on the topic of whether international or Indian food is preferred by Bengalurians. This debate served as a platform for participants to apply their presentation skills, articulate their arguments persuasively, and engage in constructive dialogue.

Following the debate, the facilitator transitioned to the topic of group discussions (GDs). An introductory discourse emphasized the significance of GDs in various professional settings and outlined the essential attributes for successful participation. These attributes included active listening, critical thinking, and effective communication.

The session culminated in a practical exercise wherein ten participants were invited to engage in a group discussion. Each participant was assigned a topic, providing them with an opportunity to apply the principles discussed earlier and receive real-time feedback on their performance.

Key Takeaways:

1. Understanding the importance of presentation skills in professional settings.
2. Differentiating between resumes, CVs, and biodata.
3. Developing the ability to engage in persuasive argumentation through debate.
4. Recognizing the significance of group discussions and honing essential skills for effective participation.

Afternoon Session:

The afternoon session aimed to equip participants with essential interview skills and strategies to effectively navigate stressful interview scenarios. Key focus areas included appropriate dress code, interview formalities, and techniques for handling stress interviews.

The session commenced with a detailed discussion on interview etiquette, emphasizing the importance of maintaining a professional demeanor and adhering to appropriate dress codes. The facilitator provided insights into the significance of first impressions during interviews and highlighted the role of body language and communication in conveying confidence and competence.

Subsequently, mock interviews were conducted for pairs of participants, allowing them to apply the concepts discussed earlier in a simulated interview environment. Each participant received personalized feedback and guidance from the facilitator, enabling them to identify and rectify any shortcomings in their interview performance promptly.

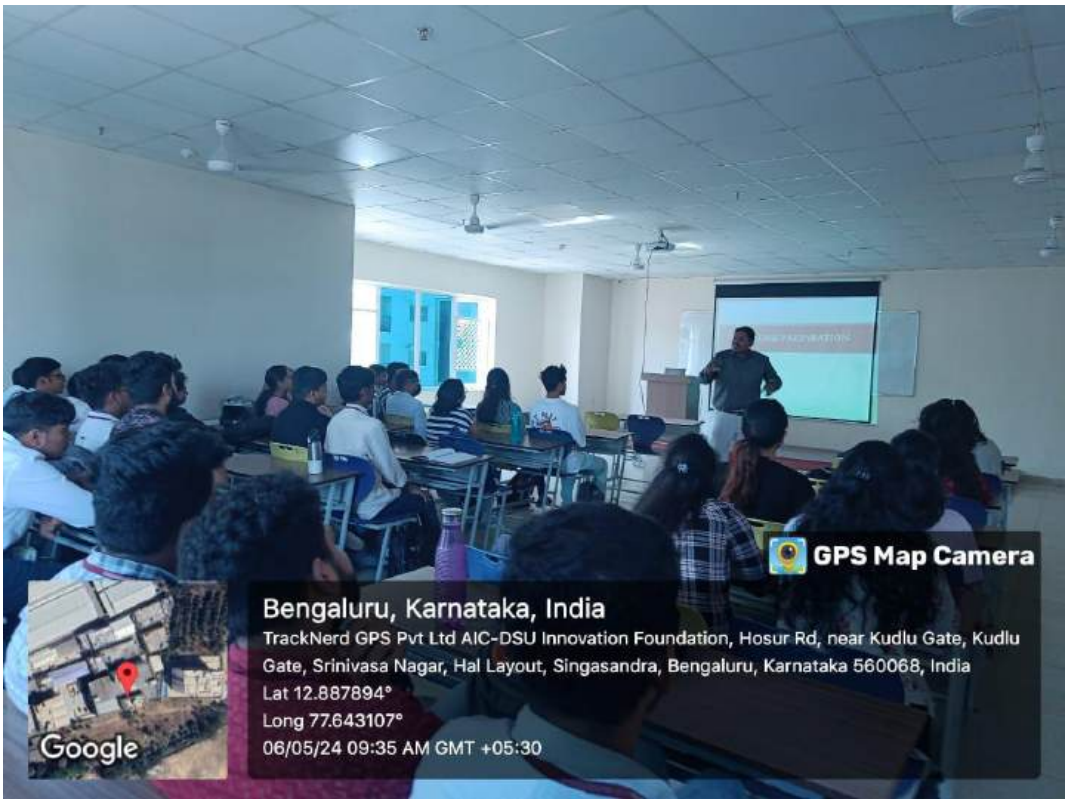

In the final segment of the session, the facilitator elucidated the concept of stress interviews and their role in evaluating candidates' ability to handle pressure. Strategies for managing stress during interviews were discussed, including maintaining composure, reframing challenges as opportunities, and employing relaxation techniques.

Key Takeaways:

1. Understanding the significance of interview etiquette and appropriate dress code.
2. Practicing interview skills through mock interviews and receiving personalized feedback.
3. Developing strategies for managing stress during interviews, particularly in high-pressure situations.
4. Enhancing overall confidence and preparedness for various types of interview scenarios.

Feedback from the students was collected by the placement department which was satisfactory.

Beginner's Guide to Machine Learning and Neural Networks

Date: 08th June, 2024 **Time: 9:00 AM- 1:00 PM**

Resource Person:

Dr. K S Sreedhar

Professor, Dept. of CSE, UBDT, Davanagere

Organizers:

Prof. Shivamma D
Assistant Professor

Prof. Monish L
Assistant Professor

Convener:

Dr. Shaila SG
Professor & Chairperson
Dept. of CSE(DS)
SoE, DSU

Target Audiences: 2nd and 4th Semester students of CSE (DS)

Report

The DataScience@DSU Club, the Department of CSE (Data Science) organized a Workshop on **Beginner's Guide to Machine Learning and Neural Networks** held on 8th June, 2024 at **9:00 AM-1:00 PM** organized by **Dr. Shaila S G**, Professor and Chairperson (DS), **Prof. Shivamma D,** Assistant Professor, Dept. of CSE (Data Science), and **Prof. Monish L,** Assistant Professor, Dept. of CSE (Data Science). More than 40+ students have been registered for the event.

The event began with an overview of AI and neural networks, emphasizing their ability to simulate brain function with billions of interconnected nerve cells. Key topics included Static Neural Networks, their structure, and the role of threshold and activation functions in processing inputs. The seminar also covered Artificial Neural Networks (ANN), explaining their architecture and training processes.
Participants learned about the perceptron model and the importance of multilayer neural networks in capturing complex data patterns. Interactive workshop sessions provided practical experience, enhancing participants' understanding of neural network applications in machine learning.

Conclusion

The workshop offered a thorough introduction to machine learning and neural networks, making complex concepts accessible to beginners. Participants gained a solid understanding of neural networks' functioning, activation functions' importance, and the training processes for effective models. Practical sessions enriched the learning experience, equipping attendees with skills to apply these concepts in real-world scenarios. This seminar significantly fostered interest and knowledge in artificial intelligence among the participants.

Resource Person: Dr. K S Sreedhar
Professor, Dept. of CSE, UBDT, Davanagere

Key Takeaways:

1. Students gained a foundational understanding of neural networks, including their architecture, functioning, and the significance of activation functions, enabling them to grasp complex AI concepts.
2. Students learned how to apply machine learning techniques to real-world problems, preparing them for practical implementation and further study or work in the field of artificial intelligence.
3. Students enhanced their problem-solving skills, equipping them with the tools to tackle complex challenges in AI and data science.

Objectives:

1. To provide participants with a fundamental understanding of artificial intelligence and neural networks, including their architecture, activation functions, and training processes.
2. To encourage a deeper interest in AI and machine learning, equipping participants with the skills and insights necessary for further study or professional work in these fields.

Few glimpses of the event:

Feedback:

Thank You.

Report on

An Expert talk

Titled

"Ashtang AI : AI architecture for complex Ecosystems"

Date: Thursday 14th September, 2023 **Time:** 11:00 am to 01:00 pm

Offline: Gallery Hall 3, Ground Floor, Dayananda Sagar University, Kudlu Gate, Hosur Main Road, Bangalore 560068
Target Audience: 5th Sem CSE Cluster Students and Faculties

Faculty Coordinator

Dr. Vinutha N, AI&ML (CSE)

Convener:

- Dr. Amit Bhatt, Pro-Vice Chancellor, DSU
- Dr. Uday Kumar Reddy K R, Dean, SOE
- Dr. Jayavrinda Vrindavanam, Professor & Chairperson, Dept. of CSE(AI&ML)

"Ashtang AI : AI Architecture For Complex Ecosystems"

Engineers Day Celebration Technical Talk organized by AI & ML Department SoE, Dayananda Sagar University

Date: Thursday 14th September, 2023
11 am to 1.00 pm

Location: Gallery Hall 3 , A BLock , Ground Floor, Dayananda Sagar University, Kudlu Gate, Hosur Main Road, Bangalore 560 068

Dr. Shailesh Kumar
Chief Data Scientist at the Centre of Excellence in AI/ML, Reliance Jio.

Conveners:
- Dr. Amit Bhatt ,Pro-Vice Chancellor, DSU
- Dr. Udaya Kumar Reddy KR ,Dean , SoE
- Dr. Jayavrinda Vrindavanam V ,Chairperson, CSE(AI&ML)

Faculty co-ordinator:
Dr. Vinutha N
Associate Professor CSE(AIML)

Student co-ordinator :
Anuj Dwivedi
Student CSE(AI&ML)

Introductory remarks

The session started by welcoming the Resource Person - Dr. Shailesh Kumar, Pro-Vice Chancellor - Dr. Amit Bhatt, Dean - Dr. Uday Kumar Reddy K R, Chairperson - Dr. Jayavrinda and the student Faculty participants by Adnan, 3rd Year Student, Department of CSE(AI&ML). Followed by this Dr. Vinutha N, Associate Professor, Department of CSE(AI&ML) introduced the speaker for the session.

Resource Person:
Dr.Shailesh Kumar,
Chief Data Scientist at the Centre of Excellence in AI/ML
JIO University.

Dr. Shailesh Kumar began his talk by giving introduction about how brain, Mind, Evolution, Quantum and Planet works? The speaker mentioned about the convergence of various technologies in the different domains that are used for formulating business problems and required for the evolution of products used in day-to-day activities, characteristics of complex ecosystem, Development of Ecosystem products for the next decade like smart cities, connectivity, Refineries, Agriculture, Healthcare. He empathised on the Utilization of AI for

performing various cognitive activities. And explained about the Eight Layers of the AI Stack: Digitization, Interpretation, Causality, Prediction, Explanation, Controllability, Simulation. It is utilised for Building the API which are further used for the digitization, Automation, Democratization, Inclusion, Personalisation. He also empathised on the skills required for modern data scientist and discussed about the various Research Problems: Personalisation of Education, Agriculture, Vision Models for Healthcare, Genomics to Phenomics Mapping, Demand Forecasting of Supply of Energy, Climate Change and Sustainability, Universal Personal Assistance. Finally, the resource person addressed the queries raised by the participants. Then the presidential remarks were given Pro-vice-chancellor and Dean. After the presidential remarks, Pro-vice chancellor - Dr. Amit Bhatt felicitated Dr. Shailesh Kumar. The session was concluded with the vote of thanks by Mokshitha, 3rd Year Student of AIML. and the student's feedback was collected at the end of the session.

Student takeaway from the session : Automation, leveraging artificial intelligence (AI) and other technologies, has opened up new possibilities.

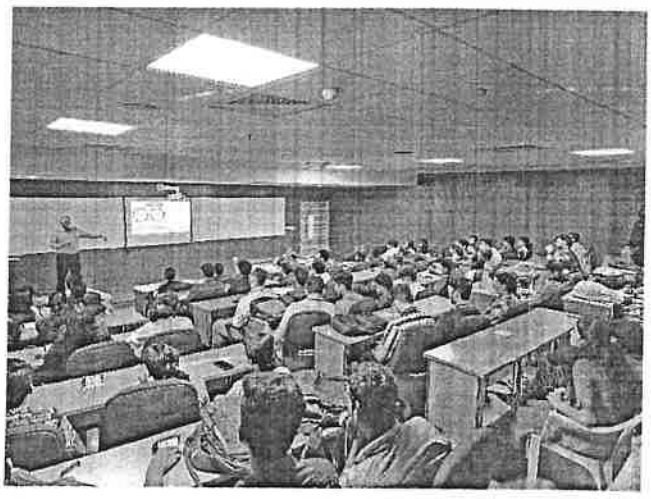

We extend our heartfelt gratitude to Dr. Shailesh Kumar for such an inspirational session and looking forward for more such sessions in the near future.

"IGNITION '23"

SPARKING KNOWLEDGE, CREATIVITY, AND COMMUNITY

Conducted by

AI Works @ DSU Club

DSU X Tempete

20th September 2023

Time: 08:45 AM – 04:15 PM

Convener:

Dr. Jayavrinda Vrindavanam, Professor and Chairperson,

Department of CSE (AI & ML), SoE, DSU- main campus

Faculty Coordinator:

Prof. Pradeep Kumar K, Assistant Professor, Department of CSE (AI & ML)

Prof. Mitha Guru, Assistant Professor, Department of CSE (AI & ML)

Student Coordinators:

Ratan Ravichandran Student, Department of CSE (AI & ML)
Sayli Pankaj Bande Student, Department of CSE (AI & ML)
Sri Bharath Sharma P Student, Department of CSE (AI & ML)
Shubhangee Das Student, Department of CSE (AI & ML)
Shriyans Arkal Student, Department of CSE (AI & ML)
Yudhajit Jana Student, Department of CSE (AI & ML)
Anuj Dwivedi Student, Department of CSE (AI & ML)
Harsh Manalel Student, Department of CSE (AI & ML)
Chirag Anil Student, Department of CSE (AI & ML)
Bhavya Sharma Student, Department of CSE (AI & ML)
Divith BS Student, Department of CSE (AI & ML)
Gaurav Student, Department of CSE (AI & ML)
Adnan Kamran Student, Department of CSE (AI & ML)

IGNITION '23

The AI and ML department organized an event by the AI Works @ DSU club and DSU X tempete club, called IGNITION '23.

About Ignition '23: our annual event dedicated to unleashing the potential and creativity of our 3rd-semester students. Our tagline, "Ignite Your Potential, Unleash Your Creativity, " encapsulates our mission: to provide an inspiring and immersive experience that prepares you for the journey ahead. We've meticulously designed a comprehensive schedule focusing on academic, technical, and personal growth. Our goal is to nurture your talents, spark intellectual curiosity, and create a sense of belonging in our academic community. Join us for an unforgettable day of growth and inspiration!

Three days prior to the event, teams were assigned general themes and required to conduct surface-level research and gather knowledge about the respective domains. These themes were carefully selected to represent emerging backgrounds in E-Commerce, Cybersecurity, and Healthcare.

Formal event was started at 8.50AM sharply, on **20th of September 2023**, the event commenced with a warm **welcome speech** delivered by **Prof. Mary Jasmine E** Assistant Professor, Dept. of CSE (AI&ML),

Opening address by **Dr. Jayavrinda vrindanaman Professor & Chairperson Dept. of CSE (AI&ML)** Dr. Jayavrinda maam has highlighted many key points on introduction to AI&ML Recent trends and Prospects. Dr. Jayavrinda has included about the current trends in the area of Artificial Intelligence, Machine Learning, Deel Learning, Data Science, Natural Language Processing, Health care etc. Maam has also shared her recent Journal Papers on AIML Domain.

During the formal event the department also shown his gratitude by celebrating **Teachers' day & Engineers day.**

Ms. Neha Amin 3rd sem AIML B Section motivated all students by informing about the teacher's day and the vital role of teachers in the field of education.
Mr. Chethan 3rd sem AIML A Section addresses the gathering about the contribution of **Sir M. Visvesvaraya** in the memory of Engineers Day and recall about the hard work carried out by Sir M V during his tenure as Mysuru deewan

To end up with the formal function, **Mr. Ratan Ravichandran Student, Department of CSE (AI & ML) proposed the vote of thanks.**

At 10.05AM Orientation of Department a insight to AIML Department, **Prof. Pradeep Kumar K, Assistant Professor, Dept. of CSE (AI&ML)** briefed about the in and out of

Department explaining the key points on **dress code, discipline, scheme & Syllabus, Department faculty & students' achievements, BoS members, Industrial visit**

After the orientation program, technical activities from the AI Works@ DSU & DSU X Tempete club has been organized in A437 & A438. Team of 5th sem AIML coordinators Ratan Ravichandran, Sayli Pankaj Bande, Sri Bharath Sharma P, Shubhangee Das, Shriyans Arkal, Yudhajit Jana started with the Following events for 3rd sem AIML Students

1. CryptoMath Hunt (Technical): solving the mathematical questions with the help of AI Algorithms.
2. Jeopardy (Technical): an technical quiz on AIML domain was organized
3. Interactive Activities: talk about public speaking, active involvement
4. Aptitude Games: 3rd sem students took keen interest in playing aptitude games.
5. Technical /IQ and Personality Enhancing

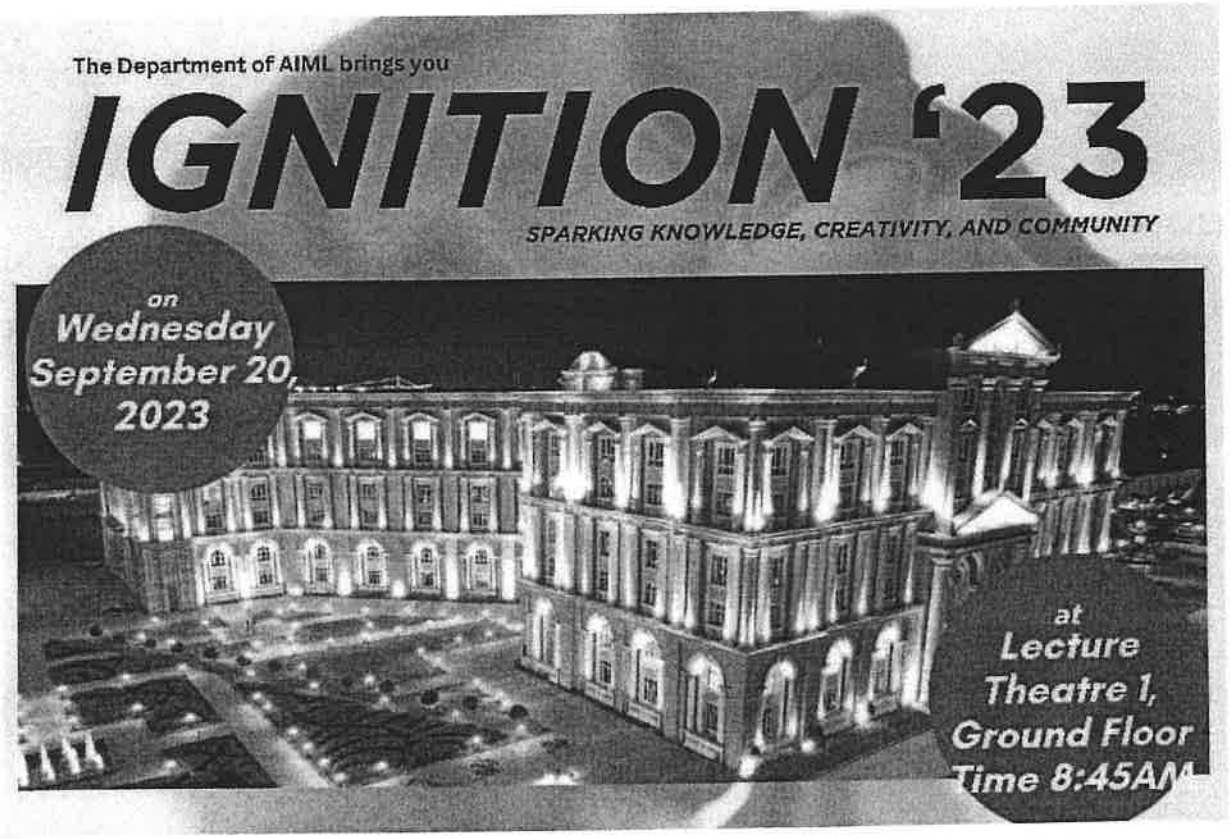

Image1: Invitation for Orientation of 3rd Sem

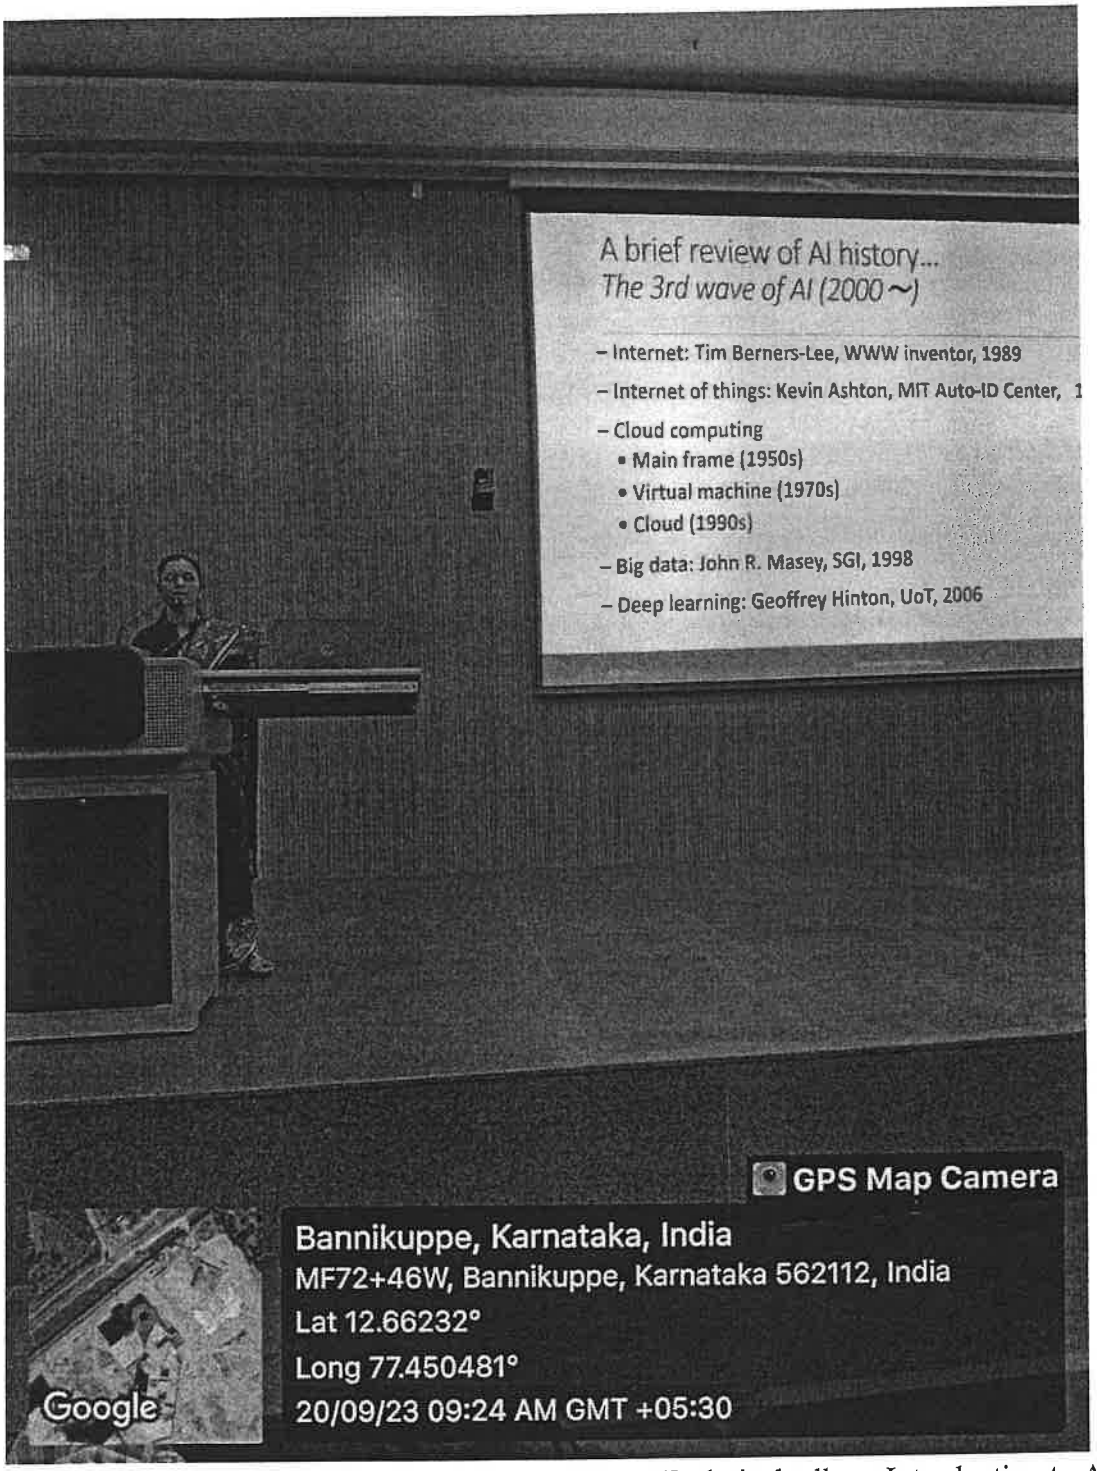

Image2: Dr. Jayavrida V, Professor & chairperson : Technical talk on Introduction to AI&ML Recent trends & prospectus

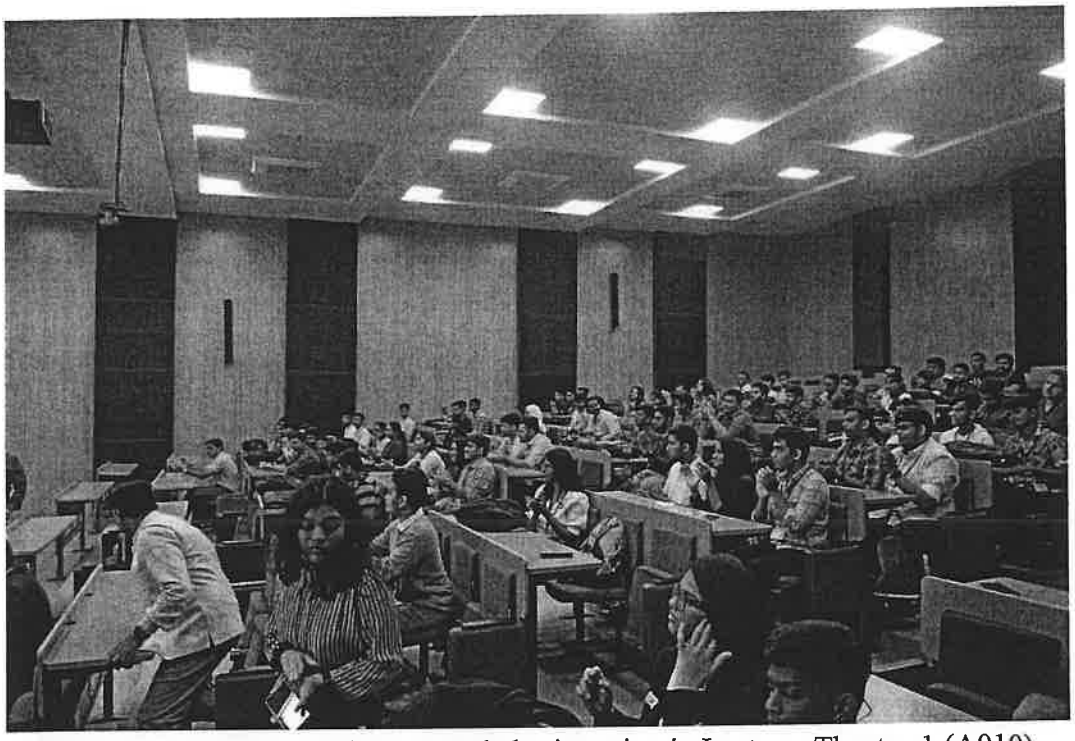

Image3: 3rd sem AIML Students attended orientation in Lecturer Theatre-1 (A010).

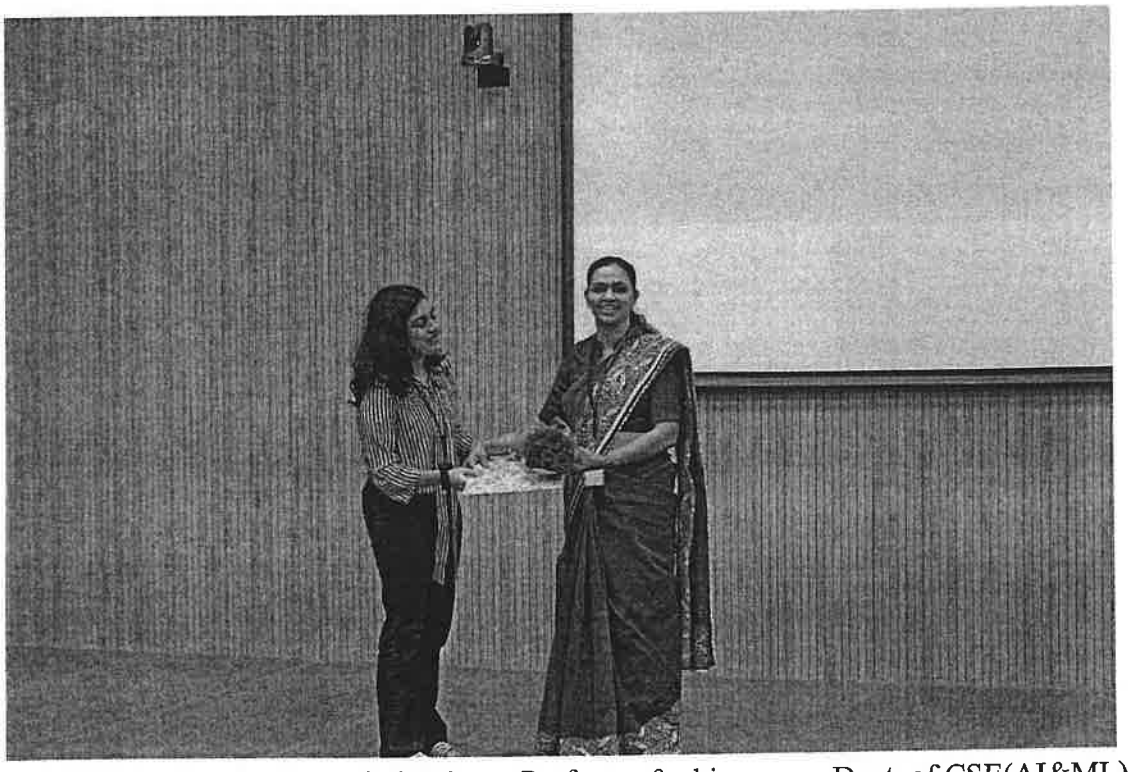

Image4: Greeting Dr. Jayavrinda Maam, Professor & chiarperson Dept. of CSE(AI&ML) for talk on Introduction to Artificial Intelligence & Machine Learning current trends & Prospects.

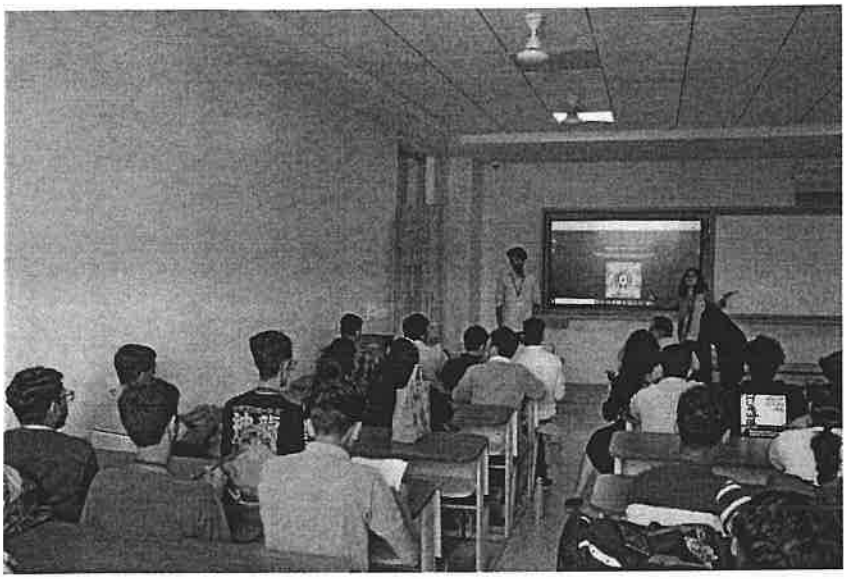

Image5: Classroom activity (A437 & A438) arranged for 3rd sem students CryptoMath hunt

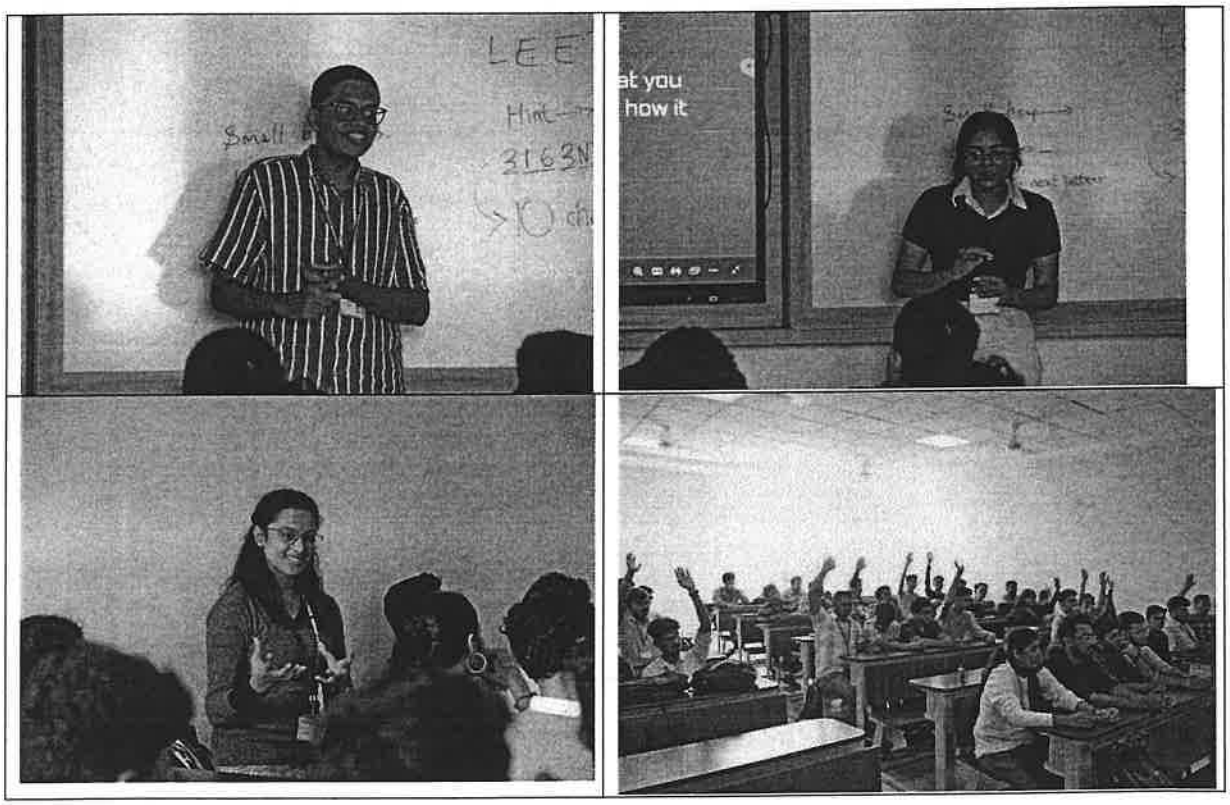

Image6: Student Interaction on events held during orientation day.

Orientation of AIML Department & Technical activities was concluded at 4.15PM and 3rd sem students are allowed to give feed back & asked for the take away from orientation program.

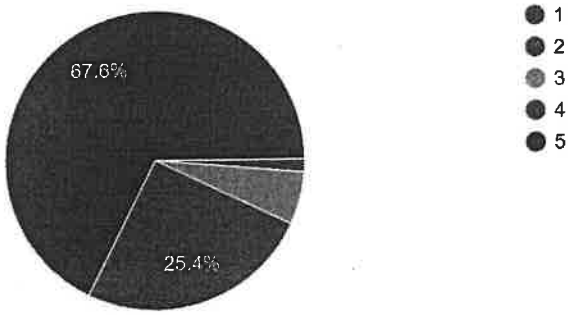

Take aways from Orientation program

1. Do some research
2. Prepare yourself both technically & actively
3. Explore the campus resources
4. Explore the options
5. Be actively social
6. Get to know the community

REPORT ON

"Navigating the Future with NLP: Unraveling the Magic of Natural Language Processing"

Conducted by

AI&ML department on

27th October 2023

Time: 11:00 AM – 01:00 PM

Speaker:

Pooja Aggarwal, Senior Researcher, IBM Research.

Convener:

Dr. Udaya Kumar Reddy K R, Dean, School of Engineering.

Dr. Jayavrinda Vrindavanam, Professor and Chairperson, Department of CSE (AI & ML).

Faculty Coordinator:

Prof. Udayabhaskara N, Assistant Professor, Department of CSE (AI & ML).

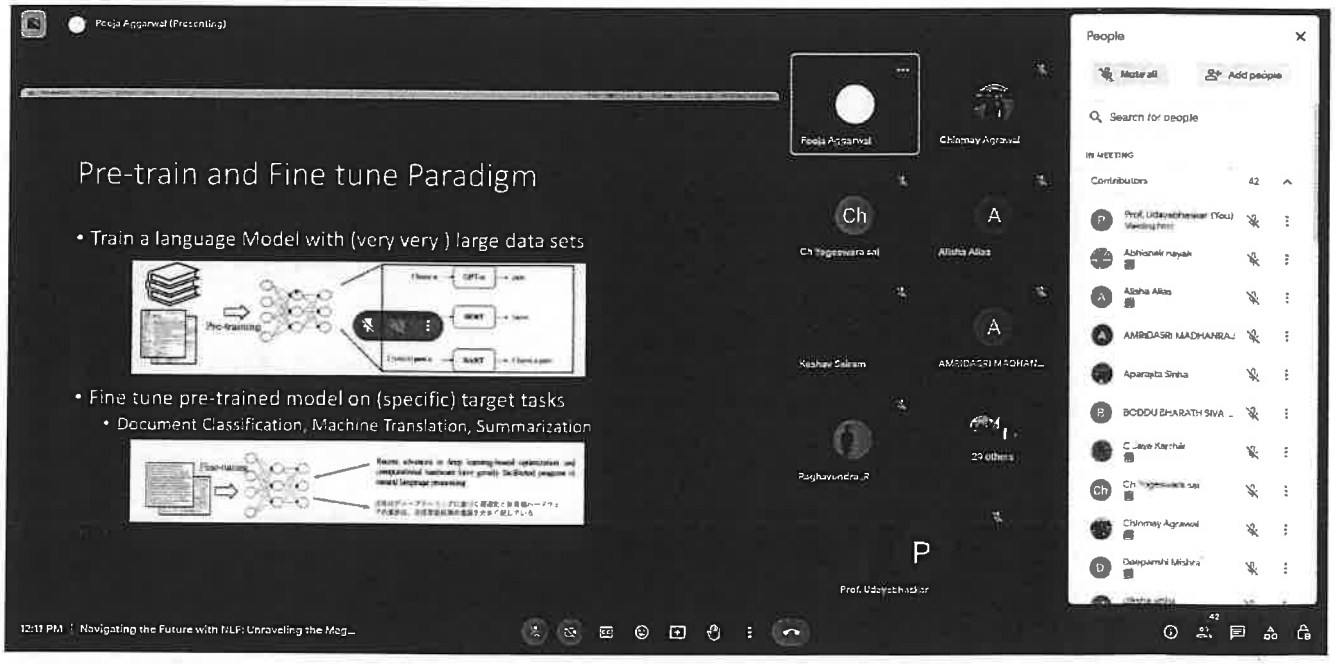

Target Audience:

5th Semester Students, AI & ML Department.

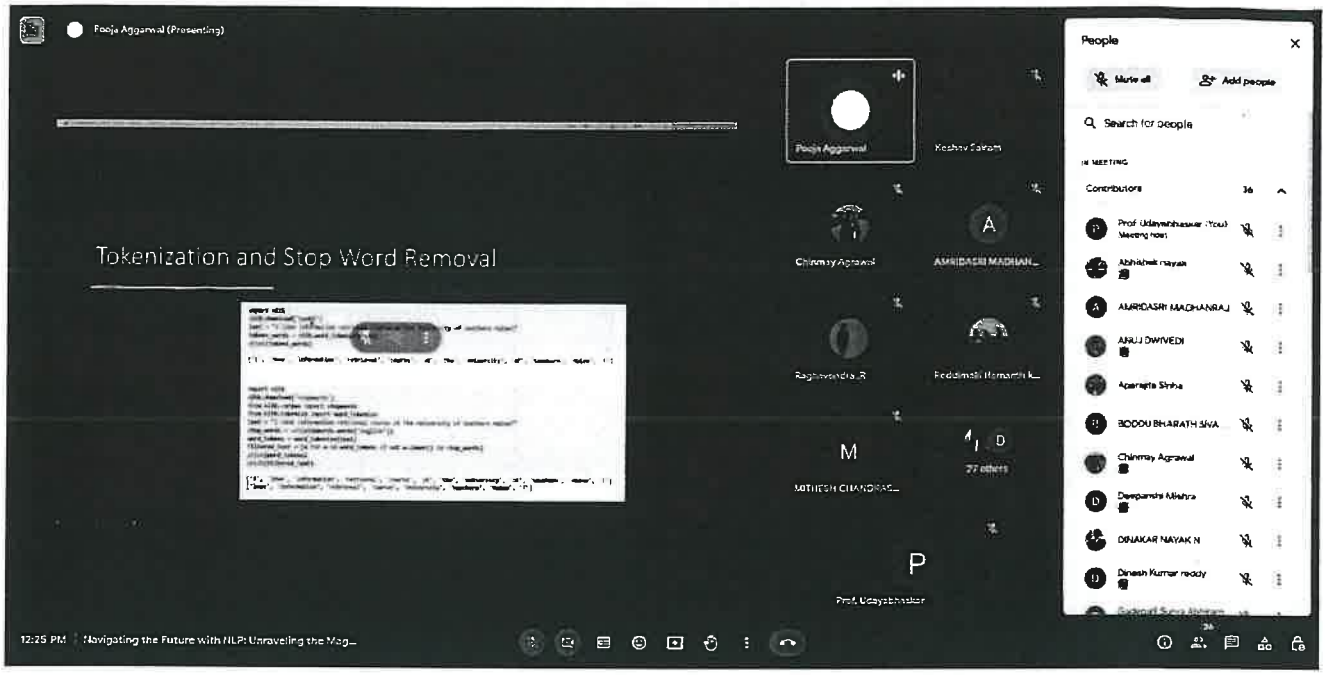

NLP Techniques and Tools

In the second part of the webinar, the speaker delved into the various techniques and tools used in NLP. She discussed the importance of data preprocessing, tokenization, POS tagging, and text classification. Students gained insights into popular NLP libraries and frameworks such as NLTK, spaCy, and TensorFlow, Transfer Learning.

Hands-on Workshop

In the final segment, the resource person demonstrated basic NLTK utilities, such as text preprocessing, including tokenization and stop word removal. This practical session allowed students to apply their newfound knowledge in a practical setting.

Key Takeaways:

Foundational Understanding - Students gained a strong foundational understanding of Natural Language Processing and its importance in the field of AI and machine learning.

Real-World Applications - The session on applications of NLP opened students' eyes to the vast range of real-world use cases for NLP technology.

Ethical Considerations - The discussion on ethical considerations was thought-provoking, prompting students to think critically about the impact of NLP on society.

Q&A Session:

The webinar featured an interactive Q&A session, where students had the chance to ask questions and seek clarifications on NLP concepts, tools, and applications. Pooja Aggarwal expertly addressed their queries, ensuring that all participants left with a clear understanding of the topic.

Report

Day: 17/11/2023 **Time:** 8:45 AM to 02:00 PM

This event was organized to enhance the skills and ideas towards Artificial Intelligence and Robotics for DSU B.Tech Students. Yantrove chapter-1 had a guest lecture by Mr. Harsh Singhal, industry expert. Mr. Harsh shared his knowledge and experience in industry with students. Students had an opportunity to clarify their doubts with Mr. Harsh.

The event was continued by inaugurating Yantrove club and project display by students of AI-ML. Mr. Shaswat Saini explained about his project on hand gesture recognition, followed by Mr. Sujay displayed his non-defensive robotic car, "Jatayu" inspiring students to contribute more projects to Yantrove club.

Students participated in the colloquium on AI and Robotics. Aim of the colloquium was to solve real world problems using Artificial intelligence and robotics. The event concluded with 3 teams being awarded with first, second & third place. Memento along with Certificates were distributed to the winners. An E-certificate was presented to all the participants.

"CrypToGo- 2023 "

Conducted by

AI Works @ DSU Club

09th November 2023

Time: 09:15 AM – 01:15 PM

CrypToGo-2023

The AI and ML department organized an event by the AI Works @ DSU club, called CrypToGo. On the event day, participants found themselves immersed in a digital world, navigating through webpages filled with cryptic messages and challenging puzzles. With ciphers as the main theme, they tackledd a diverse array of cryptographic challenges. They navigated through four stages of increasingly complex puzzles.

This progressive difficulty not only sharpens their analytical thinking but also encourages creative problem-solving, providing a robust platform for skill development.

The goal was to unravel these puzzles as quick as possible, showcasing their aptitude for cracking codes and deciphering secrets.

At 9:15AM On the 9th of November, the event commenced with a warm welcome speech delivered by Ratan Ravichandran, followed by the opening address by Dr. Vinutha N (Deputy Head of Department- AI & ML). Sayli Bande then explained the rules and regulations of the event to the attentive participants.

The event spanned over 3.5 hours, providing participants with ample opportunities to showcase their cryptographic skills. The atmosphere in the room was electrifying, with participants fully engrossed in the challenges presented, fostering a sense of camaraderie among attendees.

A highlight of the event was the announcement of the winners, which added an element of healthy competition to the mix. They were as follows:

1. **First Place**: Diya Sujil and Disha K.
2. **Second Place**: Padmashree P, Mourya JP, Mokka Hema Sai, and Pavithra
3. **Third Place:** S Bhavani Prasad, Eshwar Reddy M, Ranjith Kumar M, Srinivas K, Abhishek A

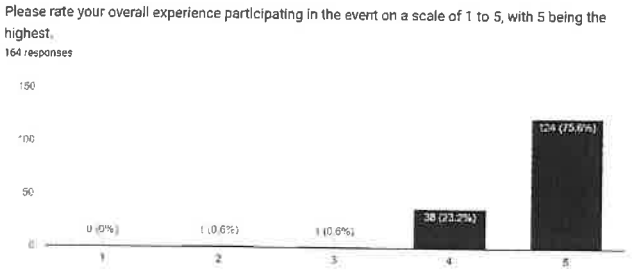

The winners will be recognized with well-deserved cash prizes.

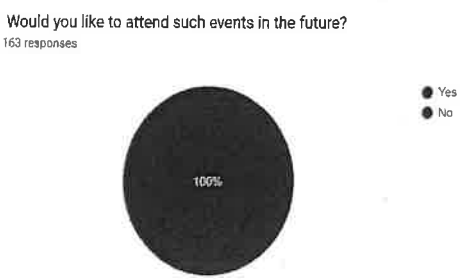

What truly underscored the success of the Cryptography Competition was the overwhelmingly positive feedback received. A staggering 162 participants and observers shared their satisfaction and excitement regarding the event.

REPORT ON

"Future Trends in Augmented Reality and Virtual Reality "

Conducted by

Department of CSE-AI&ML

24th November 2023

Time: 02:00 PM – 04:00 PM

The seminar by Prof. Mohammed Khurram J began with a clear definition of Augmented Reality (AR) and Virtual Reality (VR), establishing the foundation for subsequent discussions on their applications and emerging trends.

Key Seminar Highlights:

- **Applications of AR and VR:**

  To mention a few discussed application:

  Healthcare: Detailed discussions highlighted how AR and VR are revolutionizing healthcare, from surgical simulations to patient treatment and therapy.

  Education: The seminar delved into educational applications, showcasing how AR and VR are transforming traditional classrooms into immersive learning environments.

- **Demos of AR and VR:**

  Engaging demonstrations provided a first-hand experience of the capabilities of AR and VR technologies, emphasizing their potential impact on various sectors.

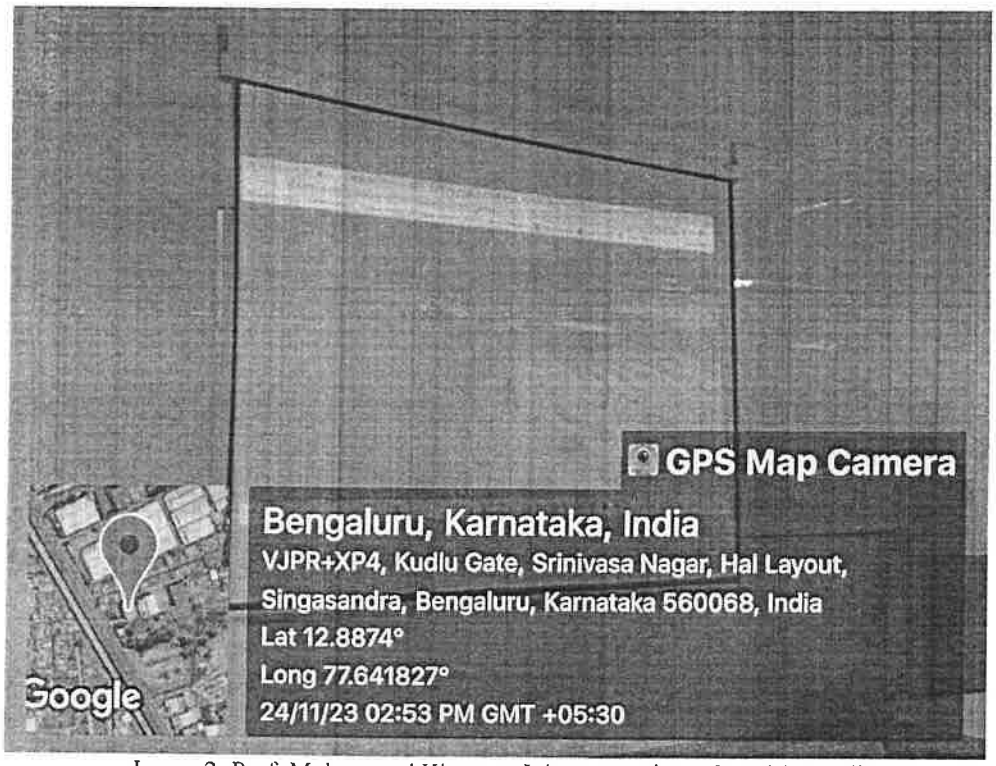

Image 2: Prof. Mohammed Khurram J demonstrating AR and VR online.

- **Subsystems of AR and VR:**

  The presentation explored the underlying subsystems that make AR and VR possible, offering insights into the intricate technologies that power these immersive experiences.

Image 3: Prof. Mohammed Khurram J explains the subsystems of AR and VR.

- **Types of AR:**

  A brief overview of different types of AR, including marker-based and markerless AR, provided a nuanced understanding of the diverse applications within the augmented reality spectrum.

- **How Humans Perceive Depth:**

  Understanding how humans perceive depth is crucial in creating realistic AR and VR experiences. The seminar addressed this aspect, shedding light on the psychology behind depth perception.

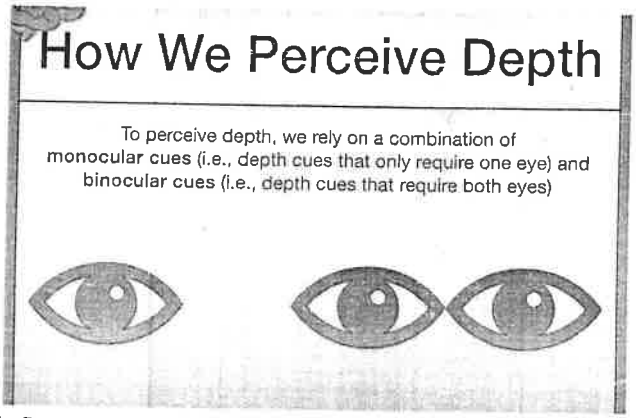

Image 4: Screenshot from the presentation Prof. Mohammed Khurram J used.

The seminar concluded on a high note with a moment of appreciation, as Dr. Vinutha N (Deputy Chairperson, Dept. of AI and ML) presented a token of gratitude to the esteemed speaker. The gesture symbolized the collective acknowledgment of the valuable insights shared during the event and the profound impact they are likely to have on the future of AR and VR technologies.

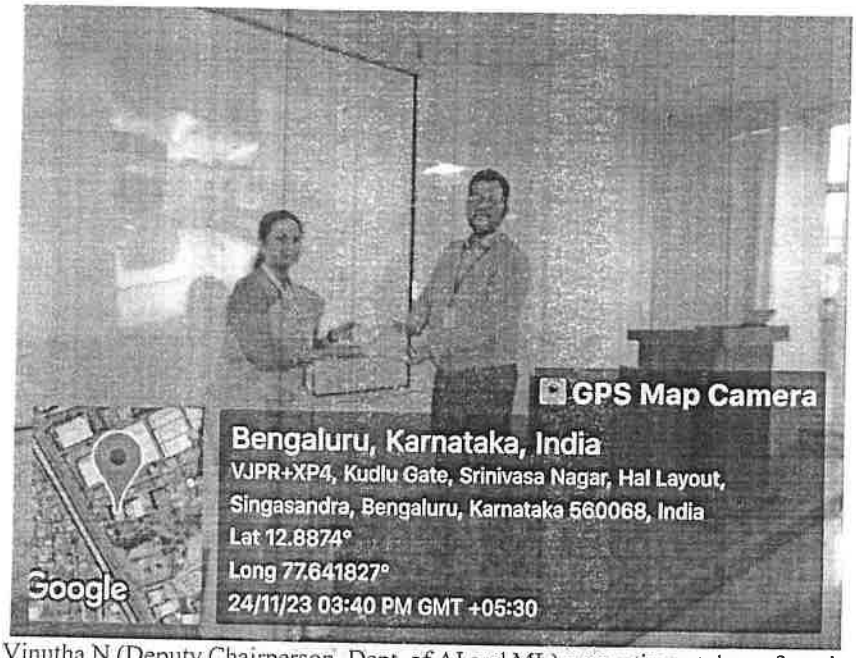

Image 8: Dr. Vinutha N (Deputy Chairperson, Dept. of AI and ML) presenting a token of gratitude to the speaker.

Towards the end of the event, the participants along with the speaker and the faculty gathered for a group picture, capturing the shared enthusiasm and engagement throughout the seminar. This not only marked the end of an intellectually stimulating event but also fostered a sense of community among attendees who shared a common interest in the dynamic field of augmented and virtual reality.

The inaugural ceremony of the "Rapid Tracer" event set a tone of excitement and anticipation as esteemed guests gathered to kick off the proceedings. **Dr. Gopal Sharma Joshi**, renowned for his contributions to the field of robotics, graced the occasion as the Guest of Honor, lending his expertise and encouragement to the participants. Accompanying him were **Dr. Udaya Kumar Reddy K R, Dean, SoE** of the institution, and **Dr. Jayavrinda Vrindavanam V, Chairperson** of the Department, whose presence added prestige to the event. Their collective insight and support underscored the significance of the competition, emphasizing its role in fostering innovation and collaboration within the robotics community.

Figure 2: Dr Gopal Sharma Joshi, Dr Udaya Kumar Reddy and Dr Jayavrinda Vrindavanam at inaugural session.

As the event progressed, the atmosphere buzzed with anticipation and energy, with each round of the competition intensifying the excitement. Line follower robots, meticulously crafted and programmed by their respective teams, took to the arena with precision and determination, navigating through challenging courses with remarkable agility. Ms. Gaana Shree, one of the student coordinators charmed the audience, guiding them through the various segments of the competition with finesse and flair. Dr. Joshuva Arockia Dhanraj, an esteemed Associate Professor, warmly welcomed the gathering, setting the stage for an inspiring and memorable event. With his wealth of knowledge and experience in the field of robotics, Dr. Dhanraj articulated the significance of the "Rapid Tracer" competition, emphasizing its role in nurturing talent and fostering innovation within the realm of engineering and technology. His words of encouragement resonated with participants, instilling a sense of purpose and motivation as they embarked on the challenges ahead.

Dean, Dr. Udaya Kumar Reddy underscored the pivotal role of the "Rapid Tracer" event in nurturing talent and fostering innovation within the realm of engineering and robotics. He emphasized how these competitions serve as crucial platforms for students to showcase their ingenuity and creativity while honing essential technical skills. Dr. Reddy elaborated on how participation in such events cultivates critical thinking, teamwork, and problem-solving abilities, all of which are indispensable in navigating the dynamic and rapidly evolving field of technology. His impassioned address inspired attendees to fully engage in the challenges and opportunities presented by the competition, reinforcing the institution's commitment to excellence and advancement in the field of robotics.

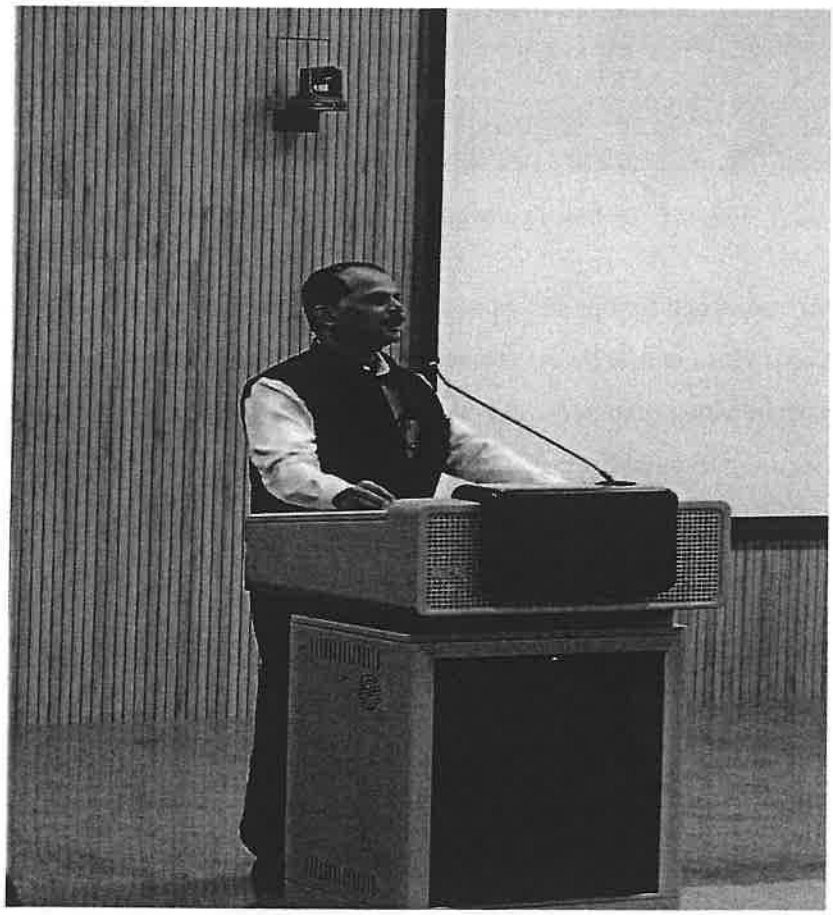

Figure 5: Dr. Udaya Kumar Reddy motivating students.

Dr. Gopal Sharma Joshi, a luminary in the field of robotics, addressed the gathering with wisdom and insight, enriching the atmosphere with his profound understanding of the subject. With a wealth of experience and expertise, Dr. Joshi shared invaluable perspectives on the significance of events like "Rapid Tracer" in fostering innovation and pushing the boundaries of technological advancement. His address resonated deeply with the audience, inspiring them to embrace the challenges of the competition with enthusiasm and determination. Dr. Joshi's words served as a beacon of guidance, encouraging participants to harness their creativity and expertise to drive meaningful change in the realm of robotics.

Part-2 -The Knock-down

Following a short interlude for refreshments, participants returned to the arena, reinvigorated, and ready to resume the competition. With renewed energy and focus, they eagerly awaited the next challenge, poised to showcase their skills and determination.

ROUNDS:

1- Prelims
2- Knock-out part 1
3- Knock-out part 2

The "Rapid Tracer" competition unfolded across three rounds, each utilizing a knockdown format to narrow down the field of competitors. In the opening round, consisting of seven teams, the intensity was palpable as robots navigated through intricate courses. Unfortunately, the challenges proved insurmountable for two teams, leading to their elimination. As the competition progressed into the second round, the remaining teams faced even more demanding tasks. Despite their best efforts, one team faltered, unable to overcome the heightened obstacles. With each round, the stakes grew higher, and the pressure mounted for the remaining participants.

In the climactic third round, the atmosphere crackled with anticipation as the top contenders battled it out for supremacy. The challenges presented in this final round pushed the robots and their operators to their limits, testing their agility, precision, and strategic prowess. After an intense display of skill and determination, the top three teams emerged triumphant, their performance in the third round serving as the decisive factor in their success. With their innovative approaches and flawless execution, these teams secured their places at the pinnacle of the competition, showcasing the culmination of months of preparation and dedication.

RULES:

1. Robots must not possess any external connections for power supply or wiring during the event.
2. A penalty will be imposed if a robot traverses outside the designated track.
3. Calibration of robots is permissible only at the commencement of the traversal.
4. No alterations to the programming of robots are permitted after the map is revealed.
5. It is obligatory for a robot to pass through all primary checkpoints.
6. Secondary checkpoints may only be bypassed after the robot has attempted to traverse them at least twice and failed. Penalties will be applied for each checkpoint skipped.
7. External control or command of robots is strictly prohibited. 8. The judge's decisions are considered final.

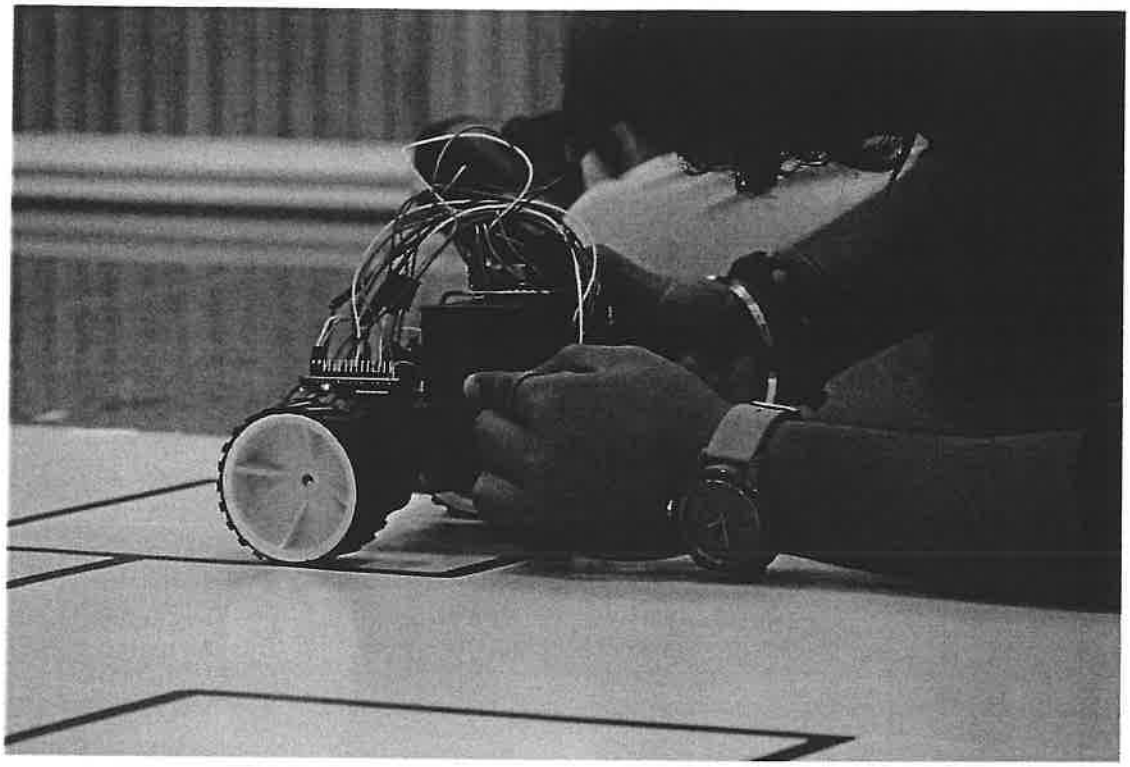

Figure 9: Participants calibrating their robots.

ROUND -2:

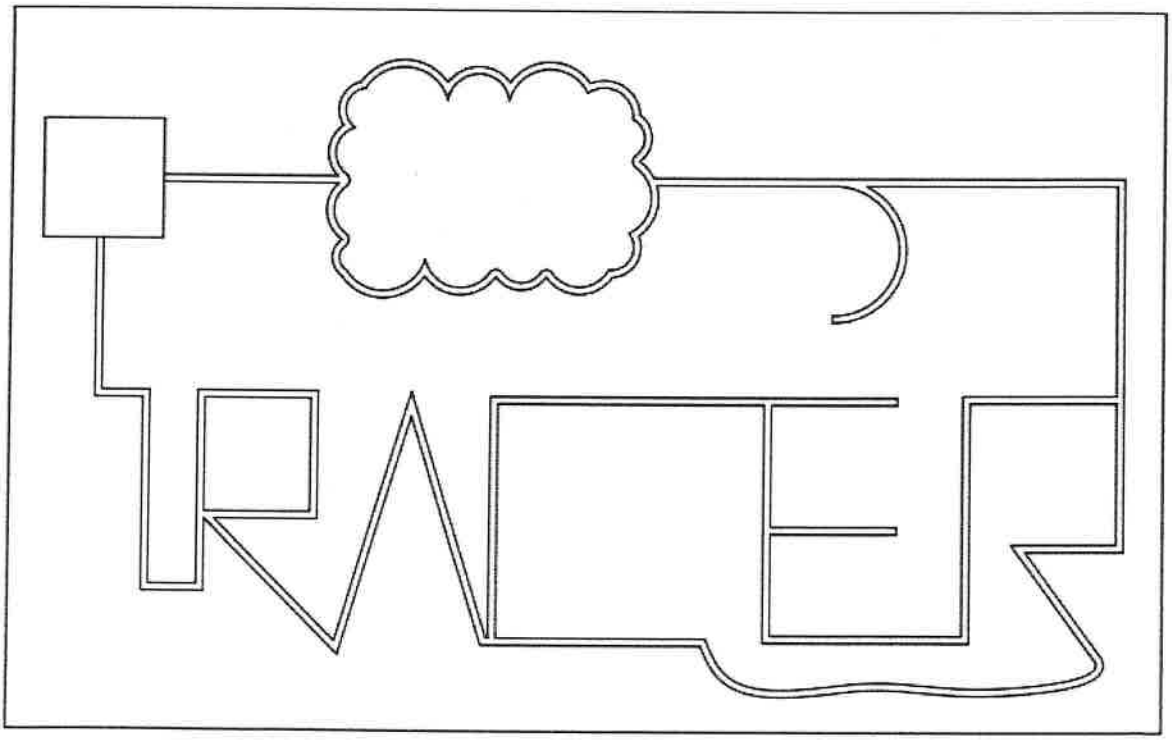

Figure 10: Round 2 Map.

Despite the formidable difficulty level presented in round three, all participants rose to the occasion, demonstrating remarkable skill and perseverance. The challenges in this final round pushed the boundaries of what the robots and their operators could achieve, demanding precise navigation, quick decision-making, and flawless execution. Despite the heightened intensity, each team showcased their expertise and determination, navigating the complex obstacles with grace and ingenuity. The collective performance of all participants in round three was a testament to their dedication and expertise, underscoring the exceptional talent present in the "Rapid Tracer" competition.

Report

Day 1 - 24/04/2024 **Timings: 11:00 am to 12:50pm**

Introduction:

The Copilot Safari event, held on the 24th of April 2024 at Dayananda Sagar University, was a collaborative effort between Microsoft Azure and Reskill, aimed at enlightening students about the revolutionary tool - GitHub Copilot. The event drew a diverse audience, including students from various departments and spanning across different academic years, with notable attendance from 1st and 2nd-year students. The session was expertly coordinated by Prof. Pradeep Kumar K, Assistant Professor in the Department of Computer Science and Engineering, specializing in Artificial Intelligence and Machine Learning. The event was hosted by Ritvik Vasundh and anchored by Neha Amin, both 2nd-year students from the Department of Computer Science and Engineering (Artificial Intelligence and Machine Learning)..

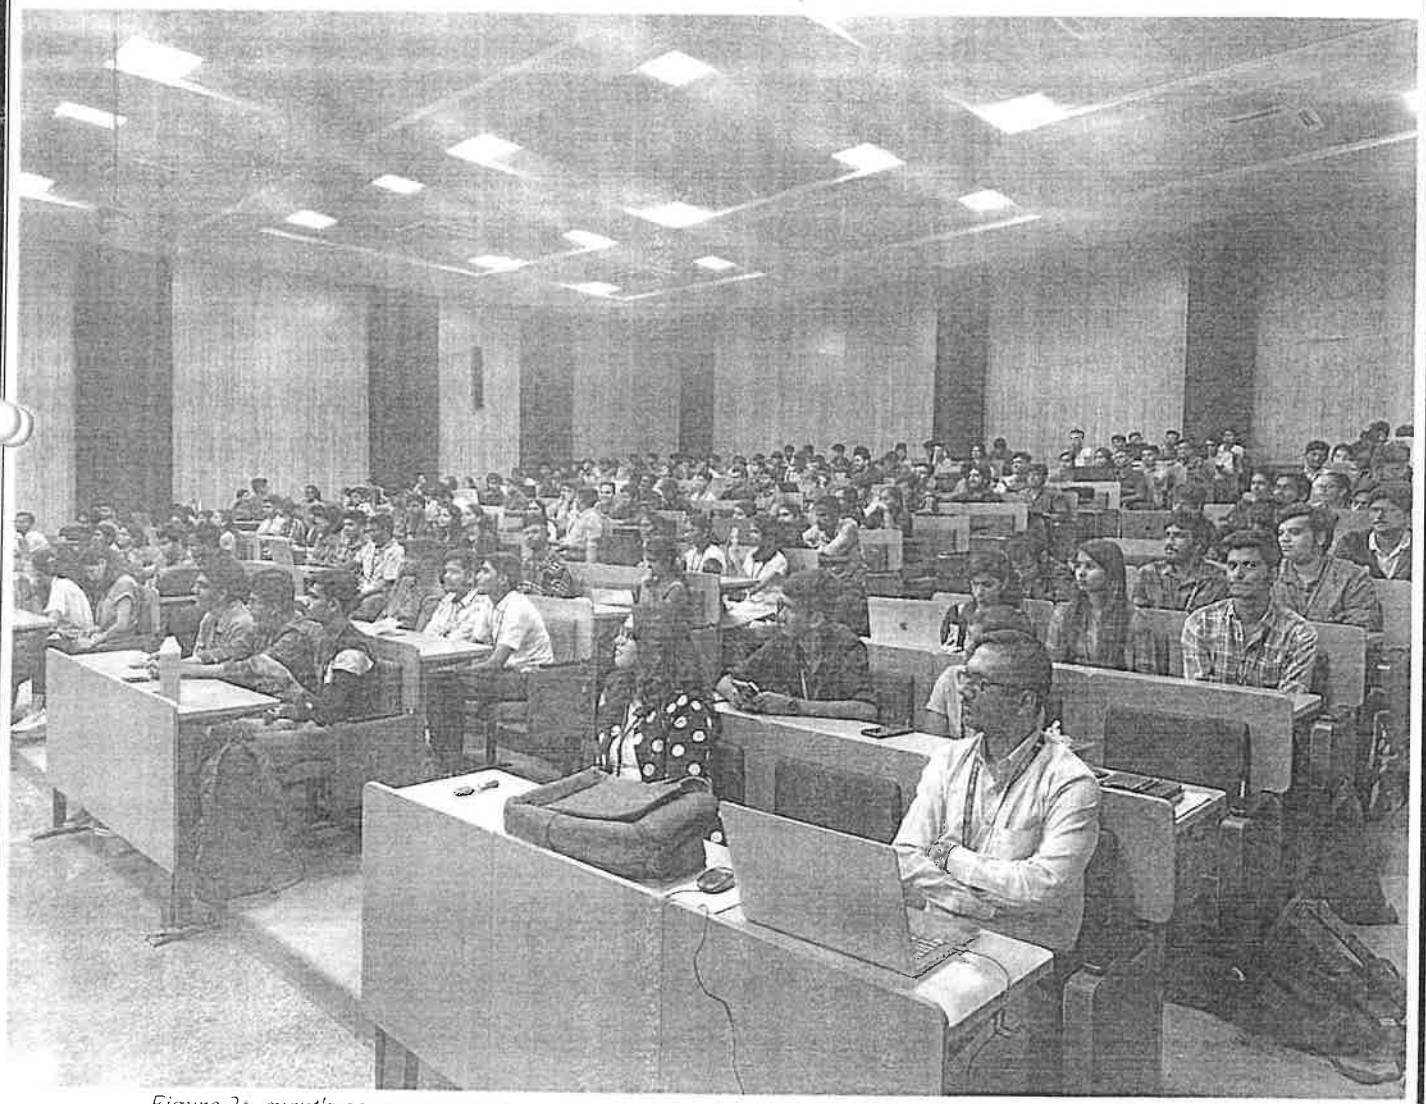

Figure 2: event's commencement.

The Copilot Safari event kicked off with an insightful introduction by Jayavrinda Vrindavana, Head of the Department of Computer Science and Engineering (Artificial Intelligence and Machine Learning), Dayananda Sagar University. She introduced the speaker and emphasized the significance of understanding tools like GitHub Copilot in today's rapidly evolving technological landscape. Following the introduction, Neha Amin, took the stage to introduce the speaker, Shreyan J D Fernandes. She welcomed him and set the tone for the event. The session commenced with a discussion on the domain under which GitHub Copilot falls, highlighting its association with generative AI.

Figure 3: The session begins .

Quizzes on Key Topics:

The quizzes organized during the Copilot Safari event were designed to deepen attendees' understanding of key concepts related to GitHub Copilot and its underlying technologies. These quizzes covered a wide range of topics, including generative AI, machine learning, and the training process of large language models. Attendees were challenged to apply their knowledge to real-world scenarios, demonstrating their understanding of how Copilot fits into the broader landscape of AI-driven development tools.

Furthermore, the quizzes provided attendees with an opportunity to engage actively with the material presented during the event. Through interactive questions and discussions, attendees were able to consolidate their learning and identify areas for further exploration. The quizzes fostered a collaborative learning environment, allowing attendees to exchange ideas and insights with their peers.

Overall, the quizzes served as a valuable component of the Copilot Safari event, reinforcing key concepts and facilitating meaningful dialogue among attendees. By participating in the quizzes, attendees not only tested their knowledge but also gained a deeper appreciation for the capabilities of GitHub Copilot and its potential impact on the future of software developmen

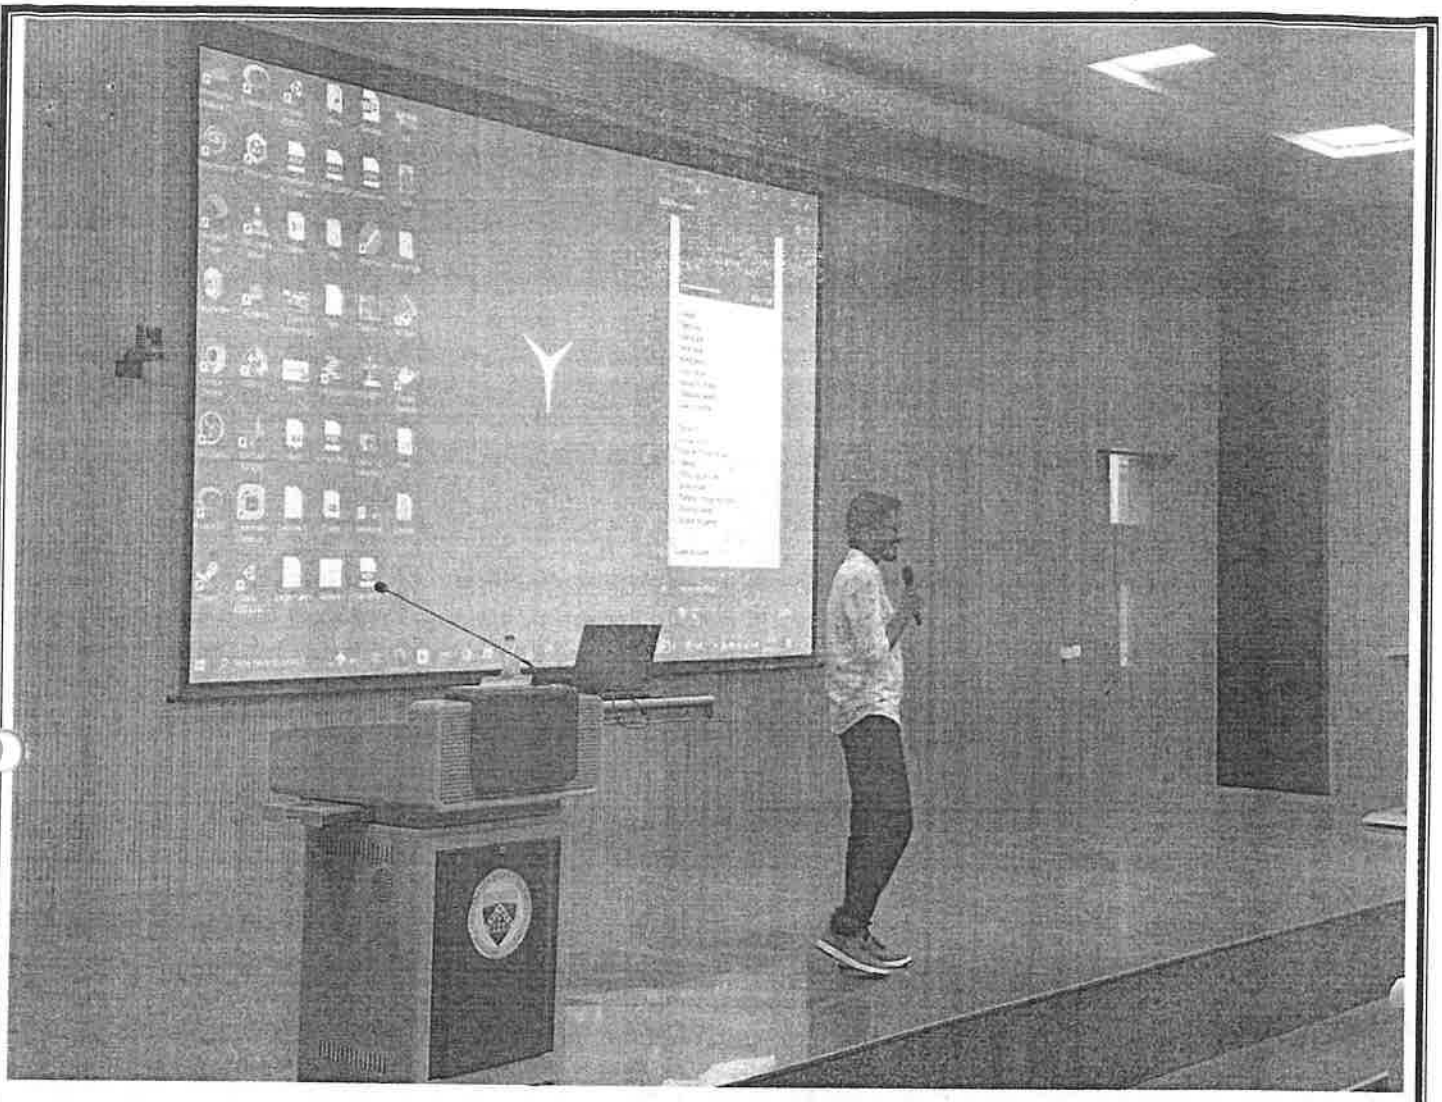

Key Points Covered:

Overview of GitHub Copilot:
Shreyan J D Fernandes, Software Developer Analyst at KPMG India, delivered a comprehensive overview of GitHub Copilot. He elucidated on Copilot's role as an AI pair programmer tool developed by GitHub in collaboration with OpenAI. Attendees gained insights into Copilot's ability to revolutionize code creation by providing intelligent suggestions and completing entire lines or blocks of code based on context.

Advantages and Applications:
Attendees explored the myriad advantages of GitHub Copilot, ranging from increased productivity and code consistency to reduced time spent on coding tasks. Shreyan illustrated practical applications across various domains and industries, demonstrating how Copilot streamlines workflows and enhances productivity in software development. Attendees were particularly intrigued by Copilot's potential to facilitate learning and collaboration among developers.

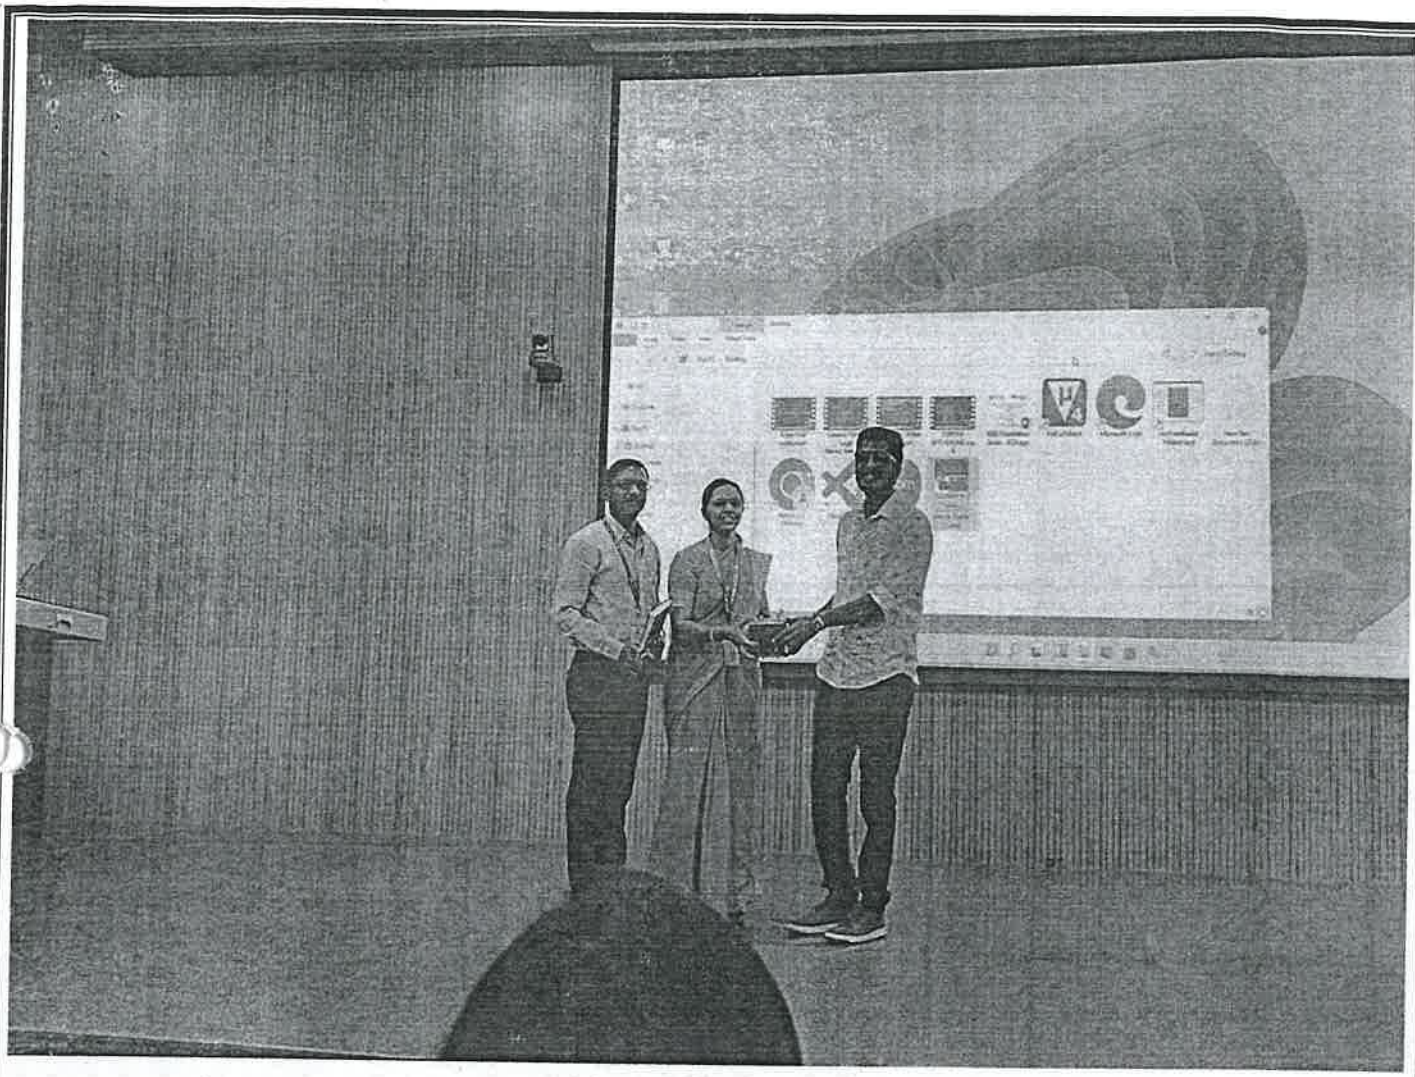

Features and Best Practices:
Shreyan delved into the multifaceted features of GitHub Copilot, providing attendees with a comprehensive understanding of its capabilities. He highlighted Copilot's ability to not only assist in code completion but also to offer intelligent suggestions and generate entire lines or blocks of code based on contextual cues. Attendees learned how Copilot seamlessly integrates with their preferred code editor, allowing for a smooth and efficient coding experience. Moreover, Shreyan emphasized Copilot's adaptability across various programming languages and its support for different development environments, making it a versatile tool for developers of all backgrounds.

Additionally, Shreyan discussed best practices for leveraging Copilot effectively. He stressed the importance of providing clear context when using Copilot, as this enables the tool to generate more accurate and relevant suggestions. Furthermore, he encouraged attendees to review the code generated by Copilot thoroughly, ensuring adherence to coding standards and guidelines. By following these best practices, developers can maximize the benefits of Copilot and enhance their coding workflow.

Conclusion:

The Copilot Safari event proved to be an enlightening and inspiring experience for all attendees. From the insightful introduction by Jayavrinda Vrindavana, setting the stage for the importance of tools like GitHub Copilot, to the engaging presentation by Shreyan J D Fernandes, attendees were immersed in a world of innovative technology and its practical applications. Throughout the event, attendees gained valuable insights into the capabilities of GitHub Copilot and its potential to revolutionize the software development landscape. Shreyan's expertise, coupled with the interactive quizzes and discussions, facilitated a deep understanding of key concepts such as generative AI, machine learning, and the training process of large language models. The event fostered an atmosphere of collaboration, curiosity, and learning, empowering students to embrace emerging technologies with confidence and enthusiasm. As attendees departed, they carried with them not only newfound knowledge but also a sense of excitement for the future of coding and innovation.

Acknowledgments:

We extend our sincere gratitude to all those who contributed to the success of the Copilot Safari event. Special thanks to Microsoft Azure and Reskill for their support and collaboration in organizing this event. We are deeply appreciative of Prof. Pradeep Kumar K for his guidance and coordination throughout the planning process. Our heartfelt thanks to Jayavrinda Vrindavana for her insightful introduction, setting the stage for the event's discussions. We also express our gratitude to Ritvik Vasundh for arranging and hosting the event. We are immensely grateful to Shreyan J D Fernandes for his informative and engaging presentation, which left a lasting impact on all attendees. Additionally, we extend our thanks to all attendees for their active participation, enthusiasm, and curiosity. It is their collective engagement that made the Copilot Safari event a resounding success. As we reflect on this event, we are inspired by the spirit of innovation and collaboration that permeates our community, and we look forward to future endeavors that will continue to push the boundaries of technology and knowledge.

REPORT ON

"ROBOTICS - A PRIMER"

Resource person: Miss Shyni Thomas

Organized by

Department Of Computer Science & Engineering
(Artificial Intelligence & Machine Learning)

In association with
"YANTROVE" Robotics Club & IEEE RAS SBC Society

Dayananda Sagar University
23rd MARCH 2024

Resource person:

Miss. Shyni Thomas,
Senior Scientist, Center for AI and Robotics, DRDO

Conveners:

Dr. AMIT BHATT, In-charge Vice Chancellor, DSU
Dr. PUTTAMADAPPA C, Registrar, DSU
Dr. UDAYA KUMAR REDDY K R, Dean, SoE, DSU
Dr. RAMESH R GALIGEKERE, Dean (Academics), Science & Technology, DSU
Dr. JAYAVRINDA VRINDAVANAM V, Chairperson, and Professor, Department of CSE (AI & ML), DSU

Faculty Coordinators:

Prof. Subhash Mondal, Assistant Professor, Department of CSE (AI & ML)
Prof. Mitha Guru, Assistant Professor, Department of CSE (AI & ML)

of the endless possibilities that this field presents. Overall, Miss Shyni Thomas's technical talk was a resounding success, leaving an indelible impression on the young minds at Dayananda Sagar University and igniting their passion for exploring the fascinating world of robotics.

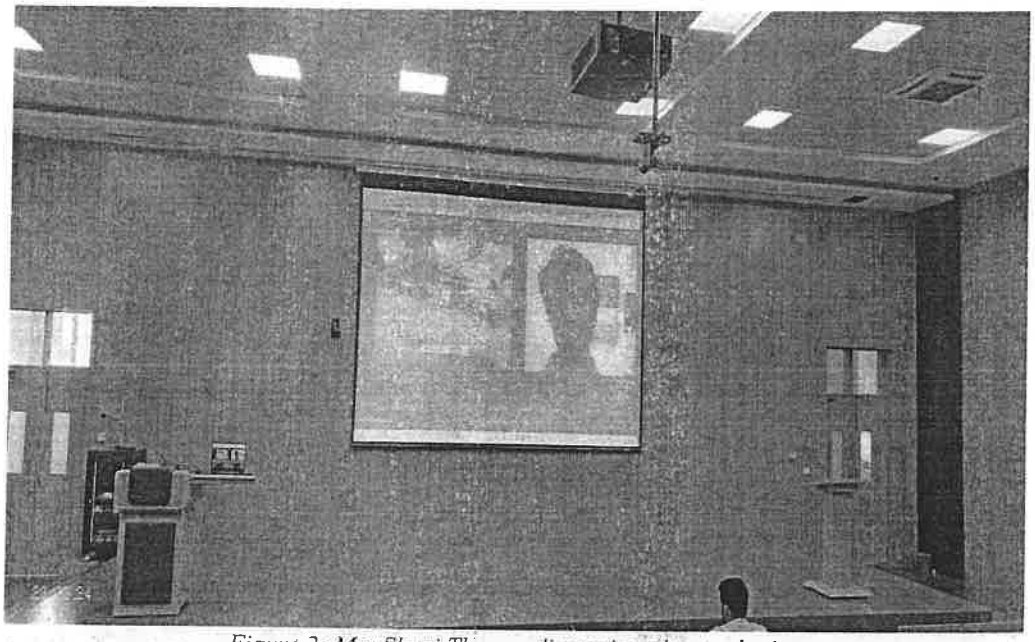

Figure 2: Mrs Shyni Thomas discussing about robotics

Dr. Jayavrinda Vrindavanam, an esteemed figure in the academic landscape, played a crucial role in elucidating the significance of "AI and Robotics " to the students at Dayananda Sagar University. With a keen understanding of the pivotal shifts in technology and the increasing relevance of robotics in modern-day problem-solving, Dr. Jayavrinda Vrindavanam provided a compelling introduction to the workshop, setting the stage for a transformative learning experience.

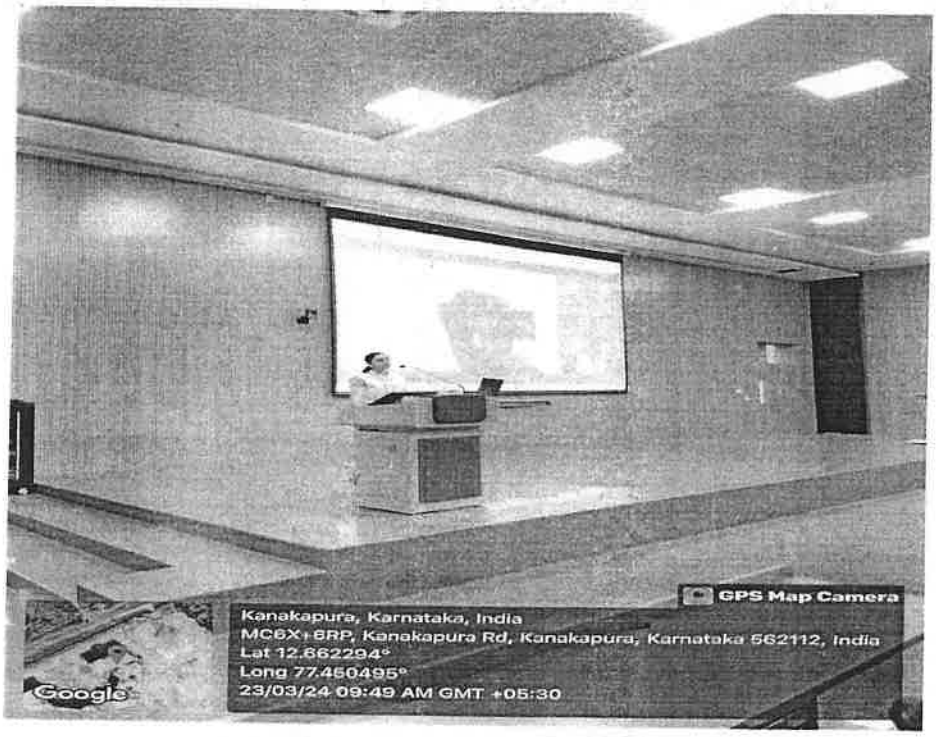

Figure 3: Dr Jayavrinda Vrindavanam welcoming the gathering and Miss Shyni Thomas.

Despite geographical limitations, several students were able to participate in the event remotely via Google Meet (GMeet). Through this online platform, they were able to engage in the workshop sessions alongside their peers, despite physical distance. The integration of GMeet allowed for seamless interaction, enabling remote students to ask questions and contribute to discussions. This inclusive approach ensured that all participants, regardless of their location, could benefit from the knowledge-sharing and collaborative learning opportunities offered by the workshop. Additionally, the utilization of GMeet facilitated the recording of sessions, enabling students to revisit key concepts and materials at their convenience, further enhancing the accessibility and effectiveness of the event.

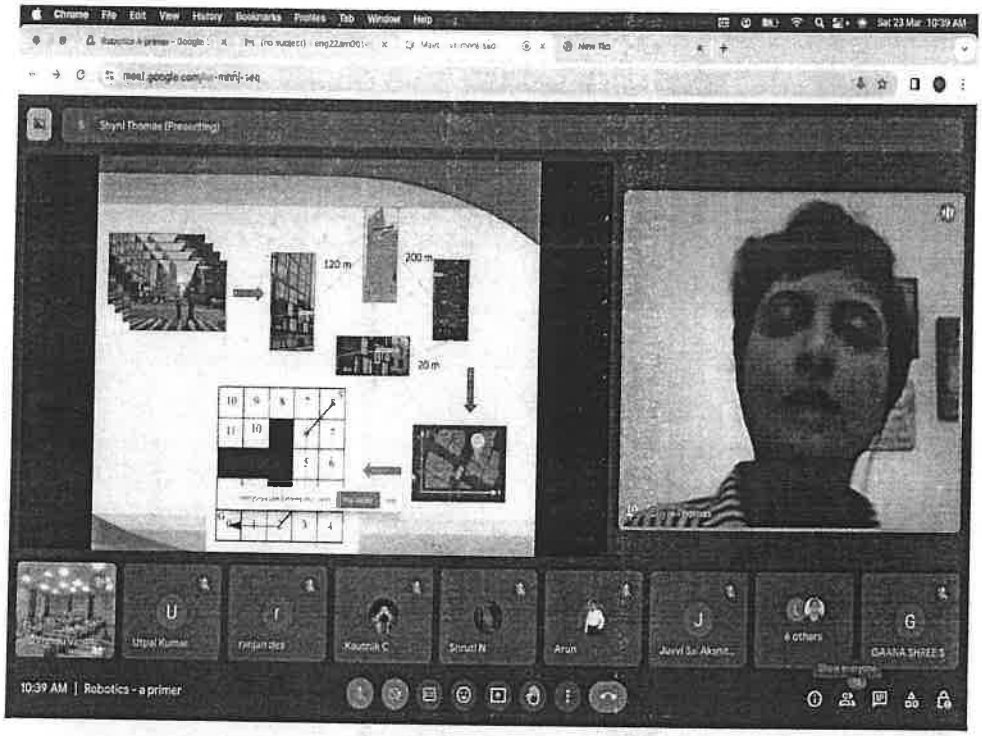

Figure 6: Student participants joined the event through online Google Meet.

Topics discussed during the session: -

- **What are robots?**

  Robots are programmable machines designed to carry out specific tasks autonomously or semi-autonomously. They can be equipped with sensors, actuators, and AI capabilities to interact with their environment and perform various functions, from industrial manufacturing to household chores.

- **Robotics anatomy**

  The anatomy of a robot typically includes a body structure, actuators (such as motors or hydraulics), sensors (like cameras, lidar, or touch sensors), a control system (which can be centralized or distributed), and sometimes an artificial intelligence component for decision-making.

- **Types of robots (based on locomotion)**

  Robots can be categorized based on their locomotion capabilities, including wheeled robots, legged robots (bipedal or quadrupedal), aerial robots (drones), underwater robots

3 DAY WORKSHOP

ON BASIC ROBOTICS SIMULATION

BY

यंत्रRove

Topics:

- ✓ Introduction to Tinker CAD
- ✓ Introduction to basic microcontroller programming
- ✓ Software simulations of basic microcontroller projects

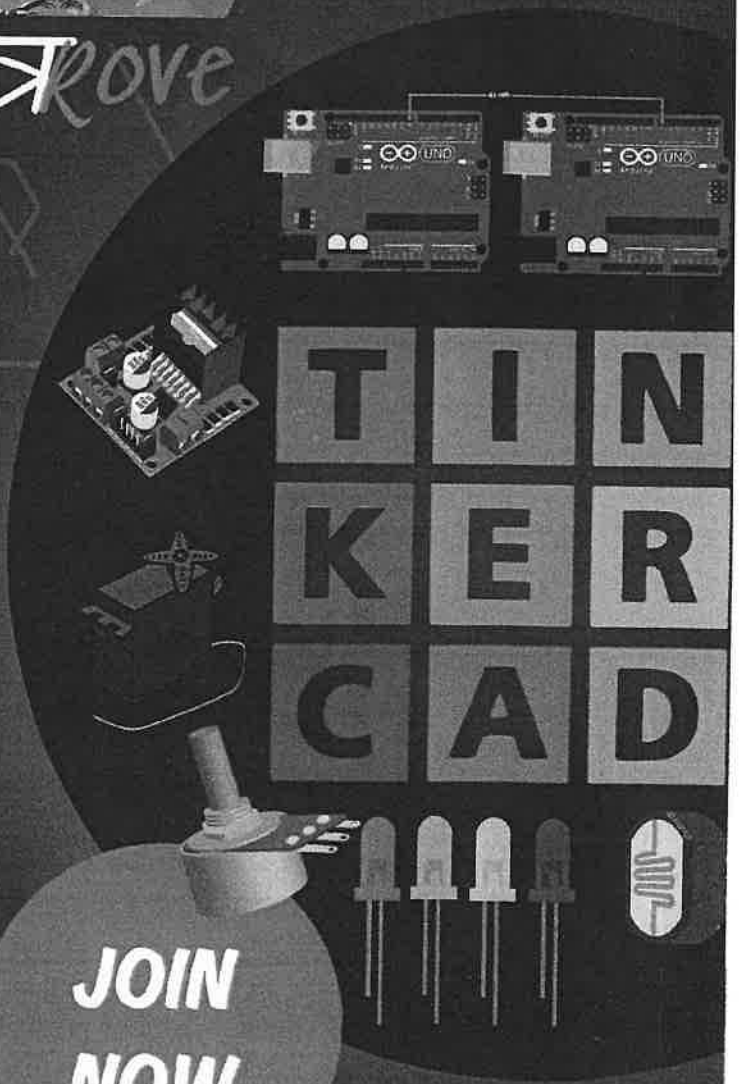

13th–15th March, 2024

1:50pm - 4:30pm

Dive into the world of robotics simulation at our workshop and revolutionize your understanding of innovation!

Report

Date: 13/03/2024 Time: 1:50 to 4:30

13/03/2024 marked the beginning of the of the workshop. Prof. Abhinav Karan, Guest lecturer for the day, introduced the students to the Arduino. He talked about Digital Pins, Analog Pins, Brain of Arduino, and Protocols used in Arduino. He continued by informing students about the advantages of simulations. He introduced TinkerCad, an online platform to simulate and learn electronics, and gave an example of a blinking-led program, explaining the components, their connections, and the program.

After a quick refreshment break, students were given a task to design an LED pattern in the simulation. Multiple creative simulations were submitted.

To ignite the interest of the students, Mr. Akshat Agarwal, 4th Semester Student in the Department of CSE (AI & ML), did a project demonstration of his HanuBot. He talked about the challenges he and his team faced while building the bot and how the students could avoid it.

The day ended with a Mentimeter quiz, whose winner was awarded with goodies.

Date: 14/03/2024 Time: 1:50 to 4:30

The day started with a revision of day 1. Prof. Pradeep Kumar K, the Guest lecturer for the day, introduced students to different sensors and actuators. He explained their work, their uses in robotics, and how to use them with Arduino boards. Hardware was arranged for students to try and learn the discussed topics. Simulation in Tinkercad was also used in the discussion.

A project namely "Spyder Bot", made by Mr. Ahmed Isa Zaweel and Mr. Ahamad Talwar, 4th Semester students in the Department of CST, was presented before the students to show them how the sensors and actuators they are learning are being used in robotics.

To get the adrenalin rush in students before the day's end, Mentimeter was arranged.

Date: 15/03/2024 Time: 1:50 to 4:30

Before starting the day, a quick doubt session was held to clear any doubts of the students. Dr. Arun Ananthanarayanan, the Guest lecturer for the day, started with the day-3 topic of the workshop. The topic for day 3 was Communication. In communication, students learned about, pin-to-pin, Rx-Tx serial, and I2C communication between 2 Arduino boards. Following the theoretical knowledge, students tested it on hardware. A quick introduction to wireless communication was given to students and the Bluetooth module was discussed as an example.

Dr. Jayavrinda Vrindavanam V, Professor and Chairperson CSE (AI & ML), delivered a talk on the advancement of robotics and the importance of intra-disciplinary knowledge. She interacted with the students and also took feedback from them.

A quiz on the discussed topic marked the end of day 3 and the 3-day workshop.

The CSE (AI and ML) department organized a 7-days hands on session placement training workshop in collaboration with the AI Works @ DSU club. This would be extremely useful for students so as to set them straight and clarify doubts they might have regarding placements.

The event started on 9th February 2024, On the first day Arham Asif Syed, an 8th semester student of AIML, Dayananda Sagar University briefed 6th semester students with regard to Placements and Higher Education. Arham emphasized the critical aspects of interpreting placements and deciding on higher studies. He underscored the significance of CGPA, illustrating how it profoundly influences career trajectories.

The key takeaways from his talk were:

placements:

- CGPA significantly influences job opportunities and salary.
- Prepare for placements by focusing on required skills and projects.
- Placement process involves aptitude tests, technical tests, and interviews.
- Start studying to improve CGPA, practice aptitude tests, and coding skills.
- Backlogs negatively impact job prospects.
- Accuracy in CGPA and avoiding duplicate applications is crucial.

Higher Studies:

- Decide on country, qualification, and budget for higher studies.
- Consider agencies for assistance if needed.
- Gather required documents including mark cards, transcripts, LORs, resume, and SOP.
- Agencies like IDP can streamline the process and offer support.
- Differentiate between Masters and PGD, considering specialization and budget.
- Pros and cons of studying in USA, Canada, Australia, New Zealand, and Europe.

Resume Development:

- Keep resume concise (1-2 pages) and impactful.
- Active participation in events and extracurricular activities enhances resume.
- Publishing papers and engaging in extracurriculars demonstrate commitment and skill.

On the second day of this workshop, Interviews and Technical Tests with TCS – an informative session, was conducted on 10th February 2024 from 11:00 AM to 1:00 PM, was an insightful and engaging event aimed at preparing students for job placements. Dr. Vinutha N, the host, introduced the two distinguished speakers, Thippeswamy K M and Lingaraju M J, seasoned professionals in the IT industry with over 10 years of experience, currently working in TCS.

The key takeaways from this talk were:

- Importance of crafting an impressive resume using templates and showcasing achievements effectively.
- Formal dress code and thorough research on companies emphasized for interviews.
- Technical coding practice recommended on platforms like Hackerearth, Hackerrank, and Geeksforgeeks.
- Mock interview questions conducted to refine participants' responses.
- Structuring responses for common questions highlighted.
- Importance of keeping up with latest technology emphasized.
- Group discussion rounds on topics like AI and food delivery encouraged critical thinking and communication skills.
- Participants actively engaged in coding exercises including string manipulation and pattern printing.
- Notable participants showcased problem-solving skills in a productive learning environment.

The Third day of this workshop was a company profiling event, which involved training the students on doing background research about the company before applying for it or joining. This promotes a healthy attitude to the employer, as well as teaching the students the know-hows of the dos and donts before an interview. The event conducted was a competition hosted by Ratan Ravichandran, wherein the crowd was split into teams and each team would be given a company. The team would then have to profile the company in the context of placements and present their findings to the whole class.

The teams and companies were as follows:

1. team 1: Delta X

   members: (lead) Sayli bande, shriyans arkal, sakshi archana

2. team 2: Cyware

   members: (lead) Alisha alias, K nageshwari Durga, Kunjan Singh

3. team 3: Nokia

members: (lead) Adnan K, Gaurav NM, Bhavya Sharma

4. team 4: Aptean

   members: (lead) Anirudh Sajith, rohan john Varghese, diksha Sinha

5. team 5: Impelsys

   members: (lead) Harsh manalel, ashish patil

6. team 6: IBM

   members: (lead) Vinay R, Mohith N, Mokshitha M, Chaitanya Srinivas

The students then documented and presented their findings, highlighting important points such as the relevance of the role to the industry, company's domain, history, mission, values, products/services, competitors, industry trends, and recent news. Each team was given 10 minutes to present about the company.

These presentations were judged by Dr. Udayabhaskara and Dr. Vinutha N based on Coverage of topic, Organization of points, Depth of Information , Clarity and Readability, Accuracy and Reliability, Engagement and Interest, and Overall Quality of Presentation.

The next day of the workshop, on 14th February 2024 featured Vigneshwara C, a seasoned ML Engineer at Aramco, Saudi Arabia. Drawing from his rich career journey, Vigneshwara provided valuable perspectives and advice for aspiring data scientists and ML engineers, offering a glimpse into the dynamic landscape of the field and practical strategies for success.

The key takeaways from this talk were:

- Utilizes ML to monitor, improve, and deploy AI/ML solutions.
- Recommends starting profiling for placements in 6th semester.
- Data-driven approach inspires involvement in data science.
- Essential traits for ML engineers: Iterative, statistical, problem solver, programmer.
- India's domestic market offers abundant opportunities but faces competition.
- Emphasizes importance of upgrading skills as companies adopt advanced technologies.
- Hands-on approach to learning coding; embrace errors for growth.
- Industry workflow involves development, testing, and production sites.
- Tools and applications: MLflow, Kubeflow, Nvidia Jetson, Docker, Informatics.
- Certifications: Professional certificates from company portals carry value.
- Job opportunities abroad offer exposure and competitive salaries.
- Interview preparation includes aptitude, coding, communication, and personality tests.
- ML Ops integrates code development and operations for optimal results.

The 4th day of the workshop was a talk featuring Mithun G, a session on technical skill upgradation and career path. He is a B.Tech (Honors) graduate in Data Science from Jain University, currently serves as a Service Info Developer at Hewlett Packard Enterprise (HP Enterprise) in Bengaluru. Specializing in Telco Solutions, he contributes to the implementation of Intelligent Assurance products, utilizing data analysis and Machine Learning to enhance decision-making processes.

The key takeaways from this talk were:

- The session began with an overview of the exponential growth in the global AI software market, emphasizing its transformative impact on the world economy until 2025.
- Various roles in the AI/ML field were discussed, including Data/Business Analyst, Data Engineer, ML Engineer, AI Engineer, MLOps Engineer, and Data Scientist, highlighting the dynamic nature of the industry and the demand for skilled professionals.
- Trends in AI/ML were outlined, tracing historical developments such as GPUs, TPUs, RNNs, LSTMs, and the BERT model, leading to the current focus on Generative AI. Questions were raised about the future trends in the upcoming decade.
- A practical roadmap for skill development in AI/ML was provided, starting with basics like Python and progressing through Big Data, databases, machine learning, and deep learning using tools like TensorFlow and PyTorch.
- Hands-on projects were recommended to enhance practical experience, covering areas such as time-series forecasting, churn prediction, recommendation engines, applied mathematics, data analysis, and deep learning.
- The industry-academia gap was highlighted, emphasizing differences in project approaches, data handling, collaboration tools, and the importance of aligning academic learning with industry requirements.
- The significance of professional certificates in validating expertise was stressed, with specific recommendations including Google Data Analytics, IBM Data Science, AWS Certified Machine Learning - Specialty, and Microsoft certifications.

- Several online courses were recommended for AI/ML learning, including those from IBM Cognitive Data, Udemy's Pierian Data courses, and the O'Reilly book "Hands-On Machine Learning with Scikit-Learn, Keras, and TensorFlow."
- The introduction of the ATS Resume Checker, a tool for resume review, was shared, offering individuals a way to enhance their resumes and increase their chances in the job application process.
- The session concluded with an emphasis on the importance of continuous learning and practical application in the dynamic field of AI/ML. Mithun thanked the audience for their active participation and encouraged them to explore the suggested online courses and professional certificates.

The final day of the workshop was a talk featuring Sandhi Gupta, a session on using Latex (Hands-on). She is an 8th Semester student from Dayananda Sagar University of the AI/ML Department.

The key takeaways from this talk were:

- LaTeX, a typesetting system, is extensively used for scientific and technical documents due to its proficiency in handling mathematical equations, bibliographies, and cross-referencing.
- It excels in precision and high-quality typesetting, making it a preferred choice for researchers, academics, and engineers.
- LaTeX provides complete control over layout and formatting, allowing personalization without the unpredictability of WYSIWYG editors.
- Automation of tasks like numbering, cross-references, and table of contents generation streamlines the editing process, saving time for actual writing.
- Setting up a LaTeX environment involves choosing a compatible distribution (TeX Live, MacTeX, MiKTeX) and user-friendly editors like TeXMaker or Overleaf.
- LaTeX's document structure includes a preamble defining global settings, a body containing core content, and macro definitions for custom commands.
- Text and equation formatting in LaTeX is accomplished through various commands for bold, italics, font size, spacing, and precise control over mathematical syntax.
- BibTeX simplifies bibliography management, ensuring automatic formatting of citations and references to predefined or custom styles.
- LaTeX allows precise control over tables, including size, columns, rows, and cells, and figures with support for various image formats, scaling, and captioning.
- Collaborative writing on platforms like Overleaf facilitates real-time teamwork, and integrating LaTeX with Git enhances version control.

- Comments within the code, effective time management, staying updated with LaTeX distributions, and maintaining an organized folder system are essential for efficient research article preparation.
- LaTeX's proficiency in mathematical typesetting and its ability to produce professional-standard documents make it a valuable tool in the field of AI and ML.

RESOURCE PERSON INTRO.

Dr. Pavel is an Associate Professor at the Institute of Automation and Computer Science at Brno University of Technology in the Czech Republic. With a distinguished academic background, including a Ph.D. in Chemical and Process Engineering/Technical Cybernetics, he has made significant contributions to research and teaching throughout his career. He brings a wealth of expertise in the fields of Computer Vision, Machine Learning, and Fuzzy Set theory.

He has taught a wide range of courses, from undergraduate to graduate levels, covering topics such as Machine Vision, Automatic Control Instrumentation, and fuzzy logic control. His dedication to excellence is evident in his numerous publications and invited lectures in esteemed institutions across Europe, including Spain, Norway, and Slovakia.

In addition to his academic pursuits, Dr. Pavel has been actively involved in numerous projects and grants, addressing critical challenges in areas such as air quality monitoring, artificial intelligence for Industry 4.0, and radar system development. His interdisciplinary approach and innovative solutions have earned him recognition and support from funding agencies and industry partners.

His proficiency in software tools like MATLAB, Python, and LaTeX further enhances his capabilities as a researcher and educator.

SCHOOL OF ENGINEERING

DAY-1, 25th MARCH 2024

OVERVIEW

The day begins at 8:45 AM with registration and a welcoming ceremony, followed by a session from 9:00 AM to 12:00 PM focusing on radiation-matter interaction, image formation, and industrial computer vision. After a break, the program continued from 01:15 PM to 04:15 PM, delving into the concepts of lighting geometry, radiation sources, and various lighting types.

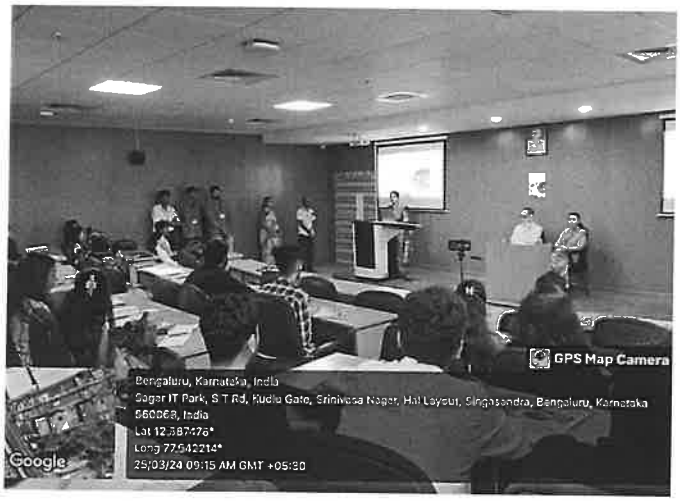

ACTIVITIES - QUIZ

During the workshop, an engaging interactive quiz was organized to test the participants' comprehension of the workshop content. This quiz was conducted in between sessions, allowing all students to participate simultaneously. Each question had a one-minute timeframe, with scores awarded based on the speed of the correct answers given by each participant. After an intense competition, three winners emerged from the quiz participants, who demonstrated both knowledge and quick thinking, adding an element of excitement and fun to the learning experience.

KEY TAKEAWAYS

Day-1 of the workshop provided comprehensive insights into machine vision systems and lighting geometry for industrial applications. Participants learned about the intricate interaction of radiation with matter, crucial for understanding image formation and color perception. Machine vision systems, comprising cameras and sophisticated processing units, were highlighted for their role in tasks ranging from object detection to robot guidance. Lighting geometry discussions emphasized the importance of strategic placement and types of illumination for optimizing contrast and surface inspection. Overall, the day's sessions equipped attendees with essential knowledge to design effective machine vision solutions and employ appropriate lighting techniques for various industrial scenarios.

SNAPS:

DAY-2, 26th MARCH 2024

OVERVIEW

Day 2 of the workshop delved deeply into the intricacies of camera lenses and image acquisition processes. The morning sessions provided participants with a comprehensive understanding of fundamental lens concepts such as focal length, aperture, and field-of-view, while also exploring advanced topics like extension tubes and lens aberrations. Afternoon sessions were dedicated to exploring image acquisition technologies such as photodiodes, CCD, and CMOS image sensors, as well as electronic shutters and quantum efficiency. These sessions aimed to equip attendees with the knowledge necessary for effective image acquisition and processing in industrial applications.

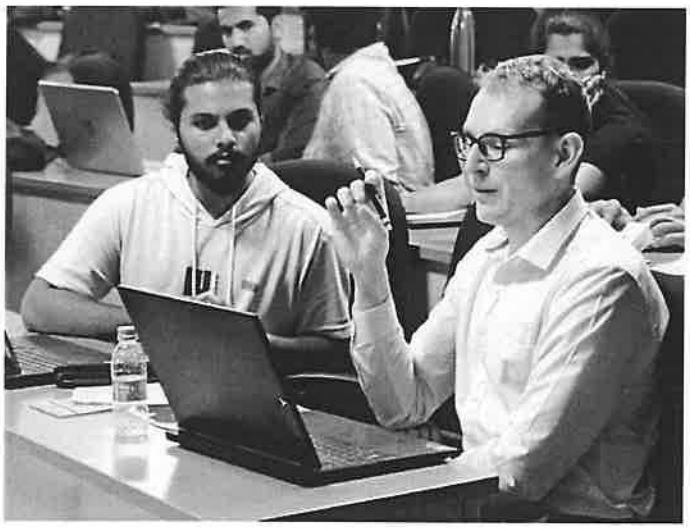

ACTIVITIES - REAL TIME PROBLEMS

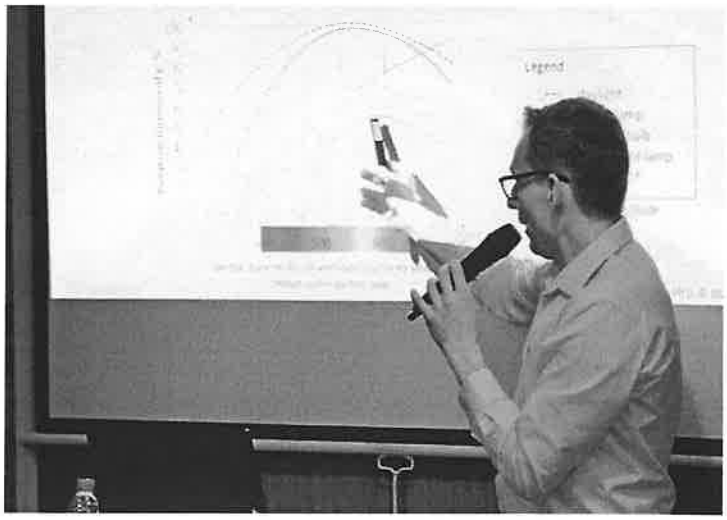

During Day 2, an interactive activity took place featuring Dr. Pavel showcasing scopes of his research work in the field of Computer Vision, highlighting career benefits. Attendees gained insights into practical applications and career opportunities, enhancing their understanding of the workshop's subject matter and its real-world implications.

KEY TAKEAWAYS

Day 2 focused on essential aspects of industrial imaging, covering diffused incident illumination, radiation sources, and camera lens fundamentals. Participants learned about effective lighting techniques, including coaxial and dome-shaped lights, and the characteristics of different radiation sources such as LEDs and xenon lamps. Discussions on visible spectrum, infrared, and ultraviolet lighting provided insights into their unique applications. Additionally, attendees gained a thorough understanding of camera lens basics, including aperture control and magnification. Overall, Day 2 provided valuable insights for optimizing imaging processes in industrial settings.

SNAPS:

DAY-3, 27th MARCH 2024

OVERVIEW

Day 3 of the workshop promises an immersive exploration of essential topics in machine vision and industrial imaging. Participants will delve into the principles and applications of optical filters, multi-bands image acquisition, and the construction of industrial digital cameras, gaining insights into electronics and noise reduction in images. Furthermore, discussions focused on the industrial camera lenses and lighting strategies tailored for small and medium-sized inspection tasks. Attendees learnt about the formation and representation of digital images. Further more, the hands-on training sessions, provided practical experience in enhancing participants' skills in machine vision technologies.

ACTIVITIES - HANDS ON SESSION

ASSIGNMENT - 1 :

Participants were given a hands-on assignment to develop a machine vision system for automating the conversion of damaged printed documents into digital format with 98% character recognition accuracy. They were asked to select appropriate hardware and to design an algorithm for image inspection without using deep learning techniques. This practical exercise offered valuable experience in implementing machine vision solutions for real-world tasks.

ASSIGNMENT - 2 :

Assignment 2 - To develop a machine vision system to automate the cleanliness check on the hand cream tubes. The objective was to identify tubes with cream present on the surface and discard them. Participants were required to select suitable hardware instrumentation for image acquisition and to design an algorithm for inspection without employing deep learning techniques. This assignment provided participants with practical experience in designing and implementing machine vision solutions for quality control applications in manufacturing sectors.

KEY TAKEAWAYS

Day 3 of the workshop provided insights into UV fluorescent imaging and camera lens functionalities. Attendees learned about the application of UV light for detecting organic materials and explored topics such as adjustable aperture, angles of view, magnification, and depth of field in camera lenses. Discussions on spectral transmittance and lens aberrations offered valuable knowledge for assessing lens performance. Additionally, attendees gained understanding of machine vision instrumentation, including photodiodes and CCD image sensors, essential for image acquisition and processing. This session equipped participants with practical skills for implementing machine vision systems effectively.

QUIZ WINNERS:

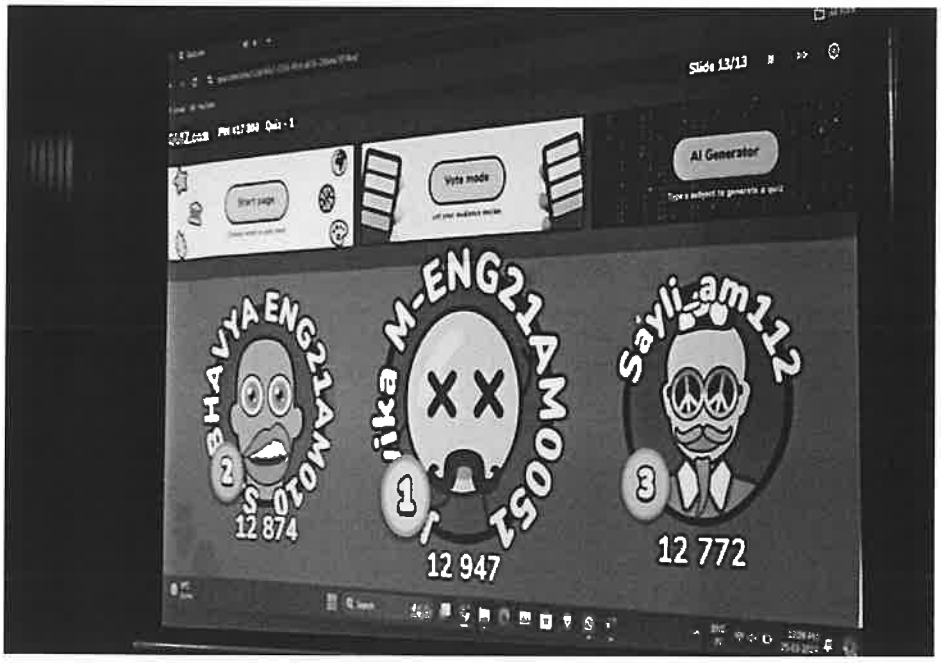

1ST PLACE - JEEVIKA M

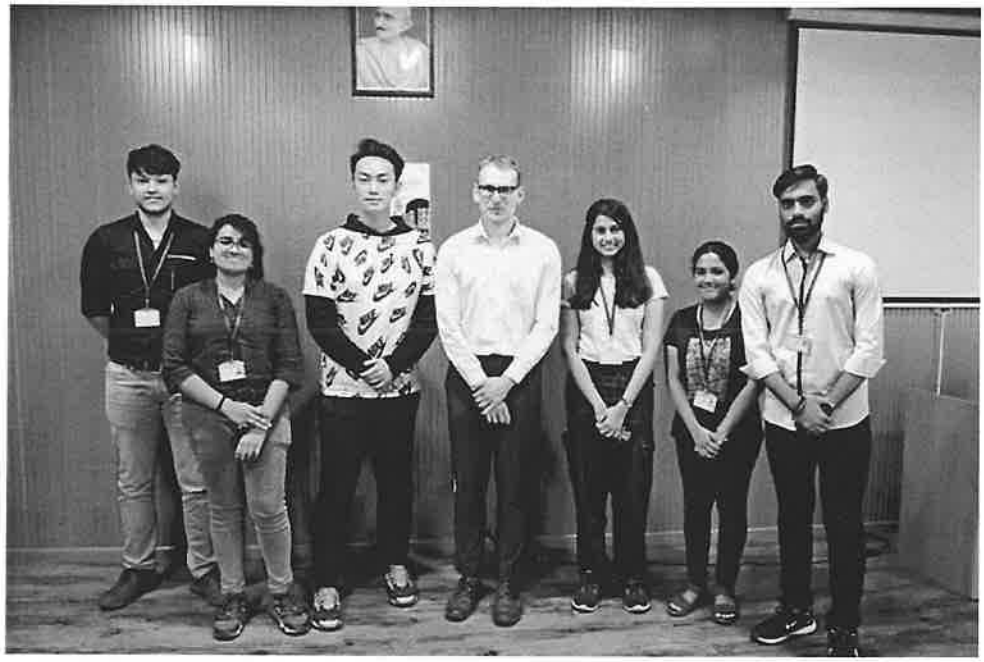

2ND PLACE - SAI BHAVYA SREE N

3RD PLACE - SAYLI PANKAJ BANDE

Day 1, 18th March 2024

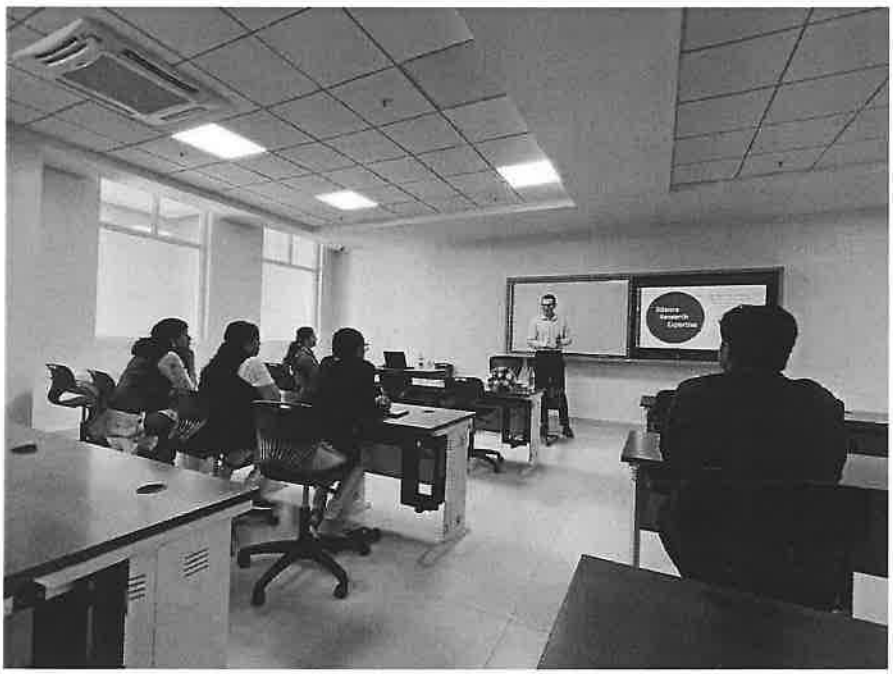

OVERVIEW

The "Workshop on Fuzzy Sets, Fuzzy Logic, and their Applications," orchestrated by Dr. Pavel at Dayananda Sagar University, marked a significant milestone in the academic journey of the second-year students. This enlightening event, specifically tailored for the curious minds of undergraduates, aimed to demystify the complex yet fascinating world of fuzzy logic and its myriad applications across diverse fields. Dr. Pavel, a renowned expert in the realm of fuzzy systems, led the workshop with a blend of profound knowledge and practical insights, turning abstract concepts into tangible learning experiences. From intelligent control systems to advanced decision-making algorithms, students were given a comprehensive overview of how fuzzy logic can be harnessed to tackle ambiguity and imprecision, mirroring the complexity of human reasoning. This report aims to encapsulate the essence of the workshop, highlighting the key learning, discussions, and the palpable enthusiasm that Dr. Pavel ignited among the students, promising to pave new pathways in their academic and future professional endeavors.

Dr Udaya Kumar Reddy K R, Dean welcoming Dr Pavel Skrabánek

During the forenoon session Dr. Pavel interacted with the faculties regarding his research expertise on computer vision. Through an exploration of fundamental principles, practical applications, and insightful discussions, the interaction provided a platform for faculty members to deepen their understanding of computer vision and its implications for research and education. By delving into topics such as problems related to computer vision, projects developed on computer vision, faculties gained valuable insights into the theoretical underpinnings and real-world applications of this dynamic field. Moreover, the interactive nature of the seminar fostered engaging discussions and knowledge sharing among participants, further enriching their learning experience. As academia continues to evolve and embrace interdisciplinary approaches, the significance of computer vision in advancing research, innovation, and pedagogy remains indisputable. This report endeavors to encapsulate the essence of the interaction, highlighting key takeaways and reflections from both Dr. Pavel's expertise and the collective wisdom of the participating faculty members.

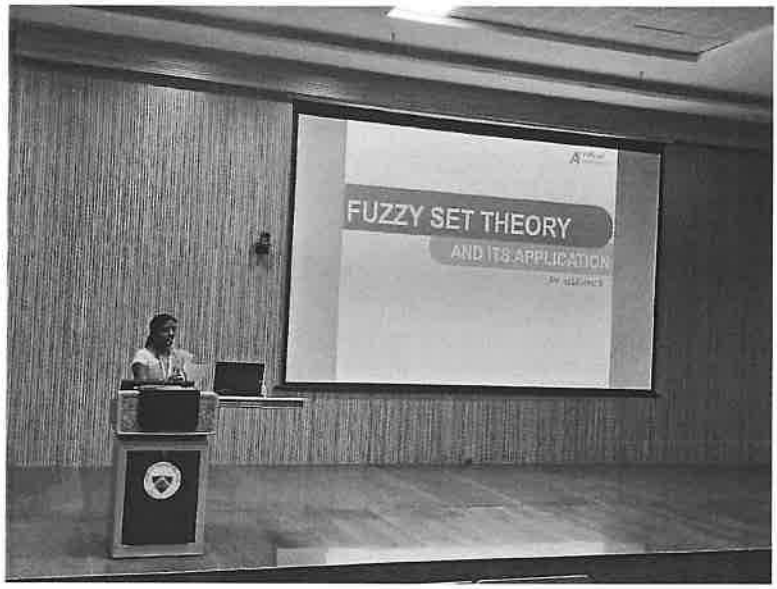

Dr Pavel Skrabánek sharing his experience with the staff.

The students workshop began in the afternoon session and Dr. Jayavrinda Vrindavanam, Chairperson, CSE(AIML) played a crucial role in elucidating the significance of the "Workshop on Fuzzy Sets, Fuzzy Logic, and Their Applications" to the students at Dayananda Sagar University. With a keen understanding of the pivotal shifts in technology and the increasing relevance of fuzzy logic in modern-day problem-solving, Dr.Jayavrinda Vrindavanam provided a compelling introduction to the workshop, setting the stage for a transformative learning experience.

Dr Jayavrinda Vrindavanam V addressing the gathering.

Dr. Vegi Fernando, Associate Professor, took the stage to spotlight Dr. Pavel's remarkable achievements, adding a layer of admiration and anticipation for the workshop at Dayananda Sagar University. Her address served not only as an acknowledgment of Dr. Pavel's contributions to the field of fuzzy logic but also as a beacon of inspiration for the students gathered to learn and explore. Dr Pavel is a profound researcher and academician at the University of Pardubice in the area of Artificial Intelligence (machine learning, fuzzy set theory, genetic algorithms, computer vision), mathematical modeling and simulations of dynamic systems, process control and optimization.

Dr Vegi Fernando sharing Dr Pavel Skrabánek's achievements.

ESSENCE OF DAY-1

- **The essence of fuzzy sets** lies in representing uncertainty by assigning degrees of membership to elements. Unlike traditional binary sets, fuzzy sets allow gradual membership, accommodating imprecise boundaries and facilitating modeling of vague concepts in various fields. Basic fuzzy set operations involve union (combining memberships of corresponding elements), intersection (selecting minimum memberships), complement (inverting memberships), and extension (applying operations to entire sets). These operations enable manipulation of fuzzy sets, facilitating reasoning and decision-making in uncertain environments.

- **Cartesian product:** A set operation combining elements from two sets to form pairs. In fuzzy contexts, it extends to combine degrees of membership from each set, generating fuzzy pairs to represent relationships between elements.

- **Fuzzy relations:** Binary relations allowing gradual degrees of connection between elements, represented by fuzzy sets. They capture uncertain or vague relationships, crucial in modeling imprecise information and decision-making

processes.Intersection and union of fuzzy relations: Operations to combine fuzzy relations. Intersection selects the minimum membership degree for each pair, representing commonality. Union selects the maximum, representing combined relevance or connection between elements.

- **Projection:** Extracting information from a fuzzy relation. It focuses on one set of elements, collapsing the relation to its connection with those elements, aiding in understanding specific relationships within complex data. Cylindrical extension: Expanding a fuzzy relation to include additional dimensions. It broadens the scope of the relation, accommodating more factors or variables, enhancing the representation of complex systems or interactions.

ACTIVITIES

To maintain student engagement and interactivity throughout the session, a quiz was organized across all three days. Professor Pradeep Kumar K led the quiz, which focused on the topic taught by Dr. Pavel. The quiz consisted of five questions aimed at reinforcing key concepts covered during Dr. Pavel's lecture.

Day 2, 19th March 2024

OVERVIEW

Mamdani Type Fuzzy Logic Systems: Mamdani-type systems consist of fuzzification, where crisp inputs are converted into fuzzy sets, rules defining relationships between inputs and outputs, inference using fuzzy logic operators, and defuzzification to obtain crisp outputs.

Fuzzification: This process involves converting crisp inputs into fuzzy sets, allowing for the representation of uncertainty or imprecision in the input variables.Mamdani systems use a set of linguistic rules to define relationships between the fuzzy inputs and outputs. These rules typically take the form of "if-then" statements, where the "if" part corresponds to fuzzy conditions and the "then" part specifies fuzzy conclusions.

Inference: Inference in Mamdani systems involves applying fuzzy logic operators, such as AND, OR, and NOT, to combine the fuzzy sets defined by the input variables according to the rules. This step determines the degree to which each rule contributes to the overall output.

ACTIVITIES

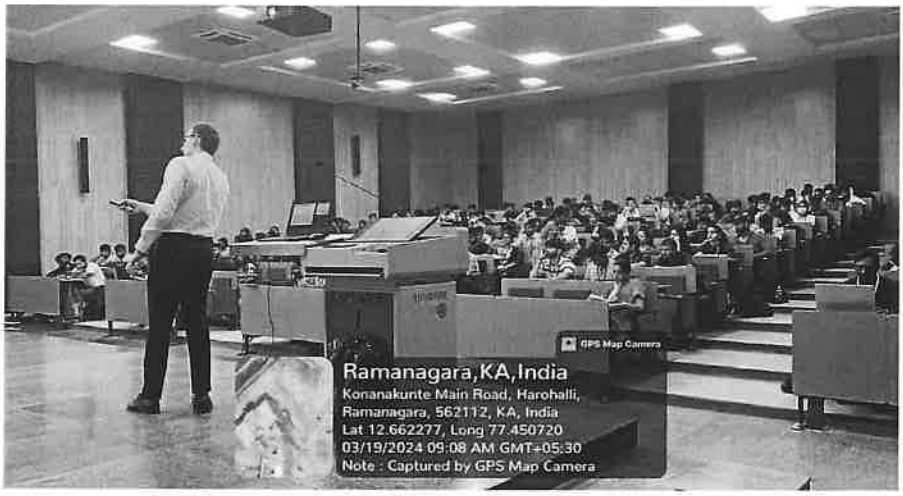

Ms. Gana Sree, II AIML led the quiz, which focused on the topic taught by Dr. Pavel. The quiz consisted of five questions aimed at reinforcing key concepts covered during Dr. Pavel's lecture. This interactive approach not only helped students to actively participate in the learning process but also provided an opportunity for immediate assessment and reinforcement of their understanding. By incorporating quizzes into the session, the organizers ensured that students remained attentive and engaged, enhancing the overall learning experience.

SCHOOL OF ENGINEERING

Day 3, 20th March 2024

OVERVIEW

Defuzzification: Once the fuzzy inference process is complete, defuzzification is applied to obtain crisp outputs. This involves aggregating the fuzzy outputs and converting them back into a crisp value that corresponds to a specific action or decision.

Takagi–Sugeno Type Fuzzy Logic Systems: Takagi–Sugeno systems use fuzzy sets to model input-output relationships directly, incorporating linguistic variables and hedges to express uncertainty, enabling approximate reasoning in decision-making and control applications.

ACTIVITIES

Ms. Gana Sree and Mr. Vishnu Vardan, II AIML led the quiz, which focused on the topic taught by Dr. Pavel. The quiz consisted of five questions aimed at reinforcing key concepts covered during Dr. Pavel's lecture.

SPECIAL EVENT OF DAY-3

During the workshop, Mr. Utpal Kumar, a student, shared insights on implementing fuzzy logic using Python. He demonstrated practical techniques and coding examples to illustrate how fuzzy logic concepts could be applied in real-world scenarios. By leveraging Python's rich ecosystem of libraries and tools, Mr. Kumar showcased how to develop fuzzy logic systems for various applications such as control systems, decision-making processes, and pattern recognition tasks.

Mr Utpal Kumar teaching python code for Fuzzy sets.

Faculty Interaction Session with Dr. Pavel Skrabanek

Date: March 22, 2024
Time: 2:00 PM to 4:30 PM
Venue: 'B' Block, Room G0036

Event Overview:

The AI & ML department organized a Faculty Interaction Session with Dr. Pavel Skrabanek on March 22, 2024, from 2:00 PM to 4:30 PM. The event took place at G0036 'B' Block. The event started by welcoming the resource person and faculties from the School of Engineering by Dr. Vinutha N and Dr. Monika Goyal introduced the guest speaker, Dr. Pavel Skrabanek.

Dr. Pavel commenced the session by providing insights into Fuzzy Regression and Machine Vision Instrumentation. He elaborated on ongoing funded projects, including Monitoring the condition of plants in the greenhouse and Development of smart light for machine vision.

Image 1: Welcoming Dr. Pavel for Faculty Interaction

1. **Research Directions in Computer Vision:**
    - **Previously Solved Problems:**
        - Recognition of defective welds (2017).
        - Recognition of developmental stages of cardiomyocytes (2018).
        - Detection of drones (2019-2021).
    - **Ongoing Research:**
        - Automatic assessment of cardiomyocyte development stages from confocal microscopy images.
        - Automatic evaluation of fermentation degree of cocoa beans.
        - Automatic Identification of Tree Pests.
        - Automatic Classification of Ayurvedic herbs.
        - Training of Regression Models on imbalanced datasets.
        - European Network for assuring food integrity using non-destructive spectral sensors.
        - InsectAI – Using Image-based AI for Insect Monitoring and Conservation.
        - Development of Time-efficient Computer Vision Systems.
2. **Development of Time-efficient Methods:**
    - Dr. Pavel proposed an unconventional approach to express object positions using gradient maps.

- Mentioned that Yolo SqueezeNet yields better results in terms of relative inference time and localization error.
- Presented a paper on the adaptation of a centroid-based object detector on multiclass tasks.

3. **Development of Methods for Processing Hyperspectral Images:**
   - Discussed ongoing work in processing hyperspectral images.

The session concluded with an interactive discussion and Q&A session.

FDP Report 2023

DAYANANDA SAGAR UNIVERSITY

Bengaluru

SCHOOL OF ENGINEERING

A FIVE DAY NATIONAL LEVEL FACULTY DEVELOPMENT PROGRAM ON

MODEL-BASED SYSTEMS ENGINEERING (MBSE)

07-11 AUGUST, 2023

Organised by

DEPARTMENT OF AEROSPACE ENGINEERING

DAYANANDA SAGAR UNIVERSITY (DSU)

A top emerging university in Bengaluru, which has ideally positioned itself in providing value-based education, research and healthcare is now all set to take forward its 6 decades legacy of providing world-class quality education in its sprawling campus at Harohalli, Bengaluru. Being a completely self-contained campus at Harohalli, it is equipped with all the modern state-of-the-art infrastructure, creating a conducive environment for progressive experiential learning and futuristic growth creating next-generation innovators, explorers, leaders, and researchers.

DEPARTMENT OF AEROSPACE ENGINEERING

The Department of Aerospace Engineering (AE) - School of Engineering (SoE) at DSU focuses on the design, analysis, of aircraft and spacecraft followed by cutting-edge research on various aspects. The department trains the students with technical expertise, creativity, and problem-solving skills and plays a vital role in advancing in understanding of the universe.

About FDP

The faculty development program on MBSE using the 3DExperience platform encompasses a range of topics to ensure participants gain a comprehensive understanding of the Aero modelling. The program begins with an introduction to MBSE concepts, emphasizing the benefits of adopting a model-based approach. Participant's will learn about the different types of models used in MBSE through hands on experience

THANKS NOTE

It is our honour to extend heartfelt gratitude to all the dignitaries who have graced us with their presence at this five Day National level Faculty Development Program On MODEL-BASED Systems Engineering (MBSE) - 2023

Firstly, we would like to express our sincere gratitude to our Vice-Chancellor, Dr. K.N.B Murthy has been a constant source of inspiration and guidance. His vision and leadership have been instrumental in making this FDP a grand success.

We also extend our heartfelt thanks to Pro-Vice-Chancellors, Shri R Janardan and Dr. Amit R Batt, who has played a pivotal role in ensuring that this event runs smoothly. The support for this five Day National level Faculty Development Program On MODEL-BASED Systems Engineering (MBSE) - 2023 was a memorable and a great experience for all of us.

Our Chief Guest Cmde. C D BALAJI, (Retd), we were honoured to have you with us for the five Day National level Faculty Development Program On MODEL-BASED Systems Engineering (MBSE) - 2023 and your vast experience and knowledge in this field has inspired us all.

We sincerely thank the Dean of SoE Dr. Udaya Kumar Reddy, who is the driving force in the success of this five Day National level Faculty Development Program On MODEL-BASED Systems Engineering (MBSE) - 2023. Their unwavering support and guidance have been a source of strength for us all. We also request you keep the same spirit to organise many such interdisciplinary programs in future for the sake of encouraging research and possible outcomes in various domains.

We would like to thank our Registrar, Dr. C Puttamadappa, whose contribution to making this five Day National level Faculty Development Program On MODEL-BASED Systems Engineering (MBSE) - 2023 a success cannot be overstated. We would also like to thank all the participants who have made this symposium a lively and scientifically engaging event.

Objectives of FDP

- Familiarity with the 3D Experience platform
- Applying MBSE principles
- Integrating multidisciplinary aspects
- System Modeling Techniques
- Fostering research and innovation
- Application of MBSE in Real-world Scenarios

FDP Topics

- Combining computational and experimental models in engineering structural dynamics
- System identification methodologies using Convolutional Neural networks.
- Digital lean manufacturing solution using DELMIA 3DExperience platform.
- Simulation-driven innovation in Aerospace Engineering
- Introduction to 3DExperience tool overview*
- Introduction to MBSE
- Demonstration of MBSE Process*
- Rudder Actuator model using MBSE*
- Enovia software 3D Experience platform*
- Functional Architecture of Rudder Actuator*
- Logical Architecture of Rudder Actuator*
- Behaviour Modeling in Dymola*
- Physical Architecture & Detailed Design*
- Component Design and Integration*
- Design Verification using MBSE*
- Demonstration of Digital Mock-Up*
- Evaluation Digital Mock-Up*
- Industrial Expert Talk on MBSE
- R&D Expert Talk on MBSE
- Start up & Incubation

* Hands-on experience

Speakers

- Cmde. C D BALAJI, (Retd), Distinguished Scientist, Former Programme Director (Combat Aircraft) & Director, ADA, Government of India
- Dr. Manohar C S, Professor, IISc, Bangalore
- Mr.Ajay Mishra, Collins Aerospace, Bangalore
- Mr.Nikunj Manvar, Quantity Engineering Manager - R&D CATIA Systemes Modeling
- Mr. Sri krishna, Dassault Systemes, Bangalore
- Mr. Mathurthi Murali Krishna Kumar,
- EDS Technologies Bangalore.
- Mr. Ramesh Kumar, KTech, CoE, Bangalore
- Mr. Madhushudan Rao, KTech, CoE,Bangalore
- Mr.Anoop karpur KTech, CoE, Bangalore
- Prof Sripad Kulkarni S, DSU, Bangalore.
- Mr.Ajo George,TUM, Switzerland
- Mr. Vinod Shankar, AIC-DSU

FDP SCHEDULE

Day	9.00am to 10.00 am	10.00 am to 11.00 am	10.45 to 11.00am	11.00 am to 1.00 pm	1.00 pm to 2.00 pm	2.00 pm to 3.00 pm	3.00 pm to 4.00 pm
DAY 1 7th AUG 2023 MON	REGISTRATION	Inauguration of FDP Program Chief Guest: Cmde CD Balaji Distinguished Scientist & Director ADA, Government of India.		Title:Title: Introduction to Systems Engineering & MBSE Resource Person: Mr. Ramesh Kumar, Ktech Aerospace Centre of Excellence		Title: Introduction to Model Based System Engineering Resource Person: Mr. Nikunj Manavar, Quality Engineering Manager, R&D Catia Systems Modelling.	Title: System Identification Methodology using convolution Neural Network. Resource Person: Mr. Ajo Geoerge, TUM, Switzerland
DAY 2 8th AUG 2023 TUE	DEMONSTRATION OF MBSE PROCESS FLOW USING 3DEXPERIENCE TOOL, BRIEFING ON RUDDER ACTUATOR RESOURCE PERSON: MR. MADHUSHUDAN RAO, KTECH AEROSPACE CENTER OF EXCELLENCE.	Title: Requirements using Enovia Software 3D Experience platform Resource Person: Mr. Anoop karpur Ktech Aerospace Center of Excellence Bengaluru & Prof Sripad Kulkarni S, DSU, Bangalore	TEA BREAK	Title: Combining Computational & Experimental models in engineering & Structural dynamics. Resource Person: Dr. Manohar CS, Professor IISc, Bangalores.	lunch break	Title: Functional Architecture 3D Experience platform Resource Person:Mr. Anoop karpur Ktech Aerospace Center of Excellence Bengaluru & Prof Sripad Kulkarni S, DSU, Bangalore	Title: Logical Architecture 3D Experience platform Resource Person:Mr. Anoop karpur Ktech Aerospace Center of Excellence Bengaluru & Prof Sripad Kulkarni S, DSU, Bangalore
DAY 3 9th AUG 2023 WED		Title: Behaviour Modelling using Dymola using 3D Experience platform Resource Person: Mr. Anoop karpur Ktech Aerospace Center of Excellence Bengaluru		Title: Physical Architecture and Detailed design using 3D Experience platform Resource Person:Mr.Anoop karpur Ktech Aerospace Center of Excellence Bengaluru		Title: Digital lean Manufacturing solution using Delmia 3D Experience Platform Resource Person:Mr. Murali Krishna Kumar, EDS Technologies Bangalore	Title: Design verification and Demonstration of DMU creation and verification using 3D Experience platform
DAY 4 10th AUG 2023 THUR		TITLE: SYSTEM DRIVEN INNOVATION IN AEROSPACE DOMAIN RESOURCE PERSON: MR. SRIKRISHNA DASSAULT SYSTEMES BANGALORE		TITLE: MODEL BASED SYSTEM ENGINEERING IN AEROSPACE DOMAIN. RESOURCE PERSON: MR.AJAY MISHRA, COLLINS AEROSPACE		TITLE: MODEL BASED SYSTEM ENGINEERING IN AEROSPACE DOMAIN. RESOURCE PERSON: MR.AJAY MISHRA, COLLINS AEROSPACE	RESOURCE PERSON: MR. ANOOP KARPUR KTECH AEROSPACE CENTER OF EXCELLENCE BENGALURU
DAY 5 11th AUG 2023		Title: Startup & Incubation Resource Person: Mr. Vinod Shankar		OVERVIEW ON MBSE BY DR. SHRATH KUMAR V AND MBSE USING AI TOOLS BY DR. BVN RAMKUMAR			VALEDICTORY

INAUGURATION OF FIVE DAY NATIONAL LEVEL FACULTY DEVELOPMENT PROGRAM ON MODEL-BASED SYSTEMS ENGINEERING (MBSE) - 2023

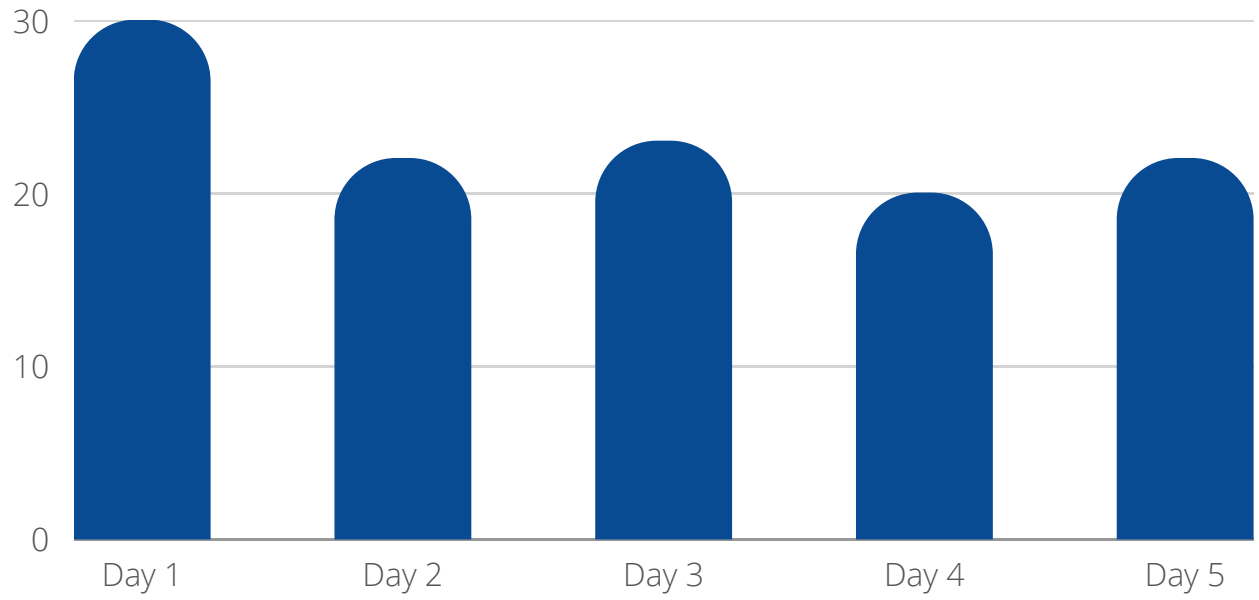

Participants

A Faculty Development Program is designed to enhance the skills, knowledge, and teaching methodologies of faculty members. These programs often cover emerging topics, new technologies, and advanced teaching techniques to keep educators up-to-date and better equipped to deliver quality education to their students.

Day-wise participants

FDP SUMMARY

This Five-Day National-Level Faculty Development Program on Model-Based Systems Engineering aims to provide participants with a comprehensive foundation in MBSE, enabling them to integrate modern systems engineering practices into their teaching, research, and professional activities. By focusing on modeling techniques, requirements management, and collaborative design, the program contributes to the advancement of engineering education and innovation.

Cmde. C D Balaji

Mr. Ramesh kumar

Ajo George

Prof .C S Manohar

PROGRAM HIGHLIGHTS

- Introduction to MBSE: An overview of what MBSE entails, its importance in modern engineering practices, and how it improves system development and management.
- Key Concepts in MBSE: Exploring fundamental concepts such as system modelling, requirements management, architecture design, verification, and validation using models.
- MBSE Tools and Technologies: Introduction to software tools and platforms used in MBSE, including popular modeling languages like SysML (Systems Modeling Language).
- Modeling Languages: In-depth coverage of modeling languages such as SysML for creating system models that capture various aspects of a system's architecture, behavior, and requirements.
- Systems Engineering Process: Understanding how MBSE integrates into the broader systems engineering process and enhances collaboration among multidisciplinary teams.
- Model-Based Design: Exploring how MBSE can be applied to the design phase of a project, helping to visualize and optimize system architecture and behavior.
- Requirements Management: How MBSE helps in effectively managing and tracing requirements throughout the system development lifecycle.
- Case Studies: Real-world case studies from various industries (aerospace, automotive, healthcare, etc.) demonstrating the successful implementation of MBSE in complex projects.
- Hands-on Workshops: Practical workshops where participants get hands-on experience using MBSE tools to create system models, simulate behavior, and analyze architectures.
- Guest Lectures: Inviting experts from academia and industry to share their experiences and insights on the application of MBSE.
- Certification: Participants might receive a certificate upon successful completion of the program, which can be a valuable addition to their professional development.

Value Added Course on 3D experience by EDS Technologies on 3D Experience Catia

A value-added course on 3D Experience Catia was held on 19-21 March 2024 in association with EDS Technologies Bangalore in this training students got hands-on experience on 3D Experience Catia which was mainly on part design assembly and surfacing of different aerospace components. This training was conducted by Mr Sudheer Application Engineer at EDS Technologies and Prof Sripad Kulkarni Asst Prof, Dept of ASE, DSU.

RC PLANEE WORKSHOP

An RC plane workshop was successfully hosted by the Department of Aerospace Engineering at Dayananda Sagar University on March 22nd and 23rd, 2024. Held at the esteemed campus in Harohalli, this event exemplified the unwavering dedication to fostering hands-on learning and innovation within the aerospace field.

This workshop, tailored specifically for 4th, 6th, and 8th-semester students, provided invaluable hands-on experience with RC planes, serving as a platform for them to explore the intricacies of aerospace engineering.This event was orgainsed by Alatus club a trainer by name Mr Ramarao helped to students to train on this worshop and this workshop was coordinated by Prof Sripad Alatus Club Faculty Coordinator and department Faculties.

3D EXPERIENCE WORKSHOP

An RC plane workshop was successfully hosted by the Department of Aerospace Engineering at Dayananda Sagar University on March 22nd and 23rd, 2024. Held at the esteemed Harohalli campus, this event exemplified the department's unwavering dedication to fostering hands-on learning and innovation within the aerospace field.

Tailored specifically for 4th, 6th, and 8th-semester students, the workshop provided invaluable hands-on experience with RC planes, serving as a platform for students to explore the intricacies of aerospace engineering. The event was organized by the Alatus Club, with Mr. Ramarao serving as the trainer and guiding students throughout the workshop. It was coordinated by Prof. Sripad Kulkarni, the Alatus Club Faculty Coordinator, along with other faculty members from the department.

Feedback Form

Department: 1st & 2nd Year B.Design (DSU)

Topic: Communication Skills

Trainer: Sarathy

Date: 23/04/2024

Your feedback is important to us to understand the strengths and weakness of the workshop. Please mark the evaluation score for each item listed with ***1 being the lowest*** and ***5 being the highest***. Please include your brief valuable comments in the space provided just below the listing.

Sl. No.	Query	5	4	3	2	1
1	Did the workshop meet your expectations? If not, why?	☑	☐	☐	☐	☐
2	The presentation of the trainer	☑	☐	☐	☐	☐
3	Relevance of the workshop content with respect to your career development	☑	☐	☐	☐	☐
4	The example(s) set, the module design & sequence	☑	☐	☐	☐	☐
5	To what extent you can implement the concept to your real life situation	☑	☐	☐	☐	☐
6	Things that I learnt ***(after the workshop, these are some of the thoughts that would be staying with me)*** Importance of Communication Way of talking. Tone of talking					
7	Any other suggestions or observations … ***Please feel free to write*** Everything is perfect

Five-day workshop (Virtual) on "Mobile Computing and Application Development"

Department of CSE conducted a Five -day workshop on " Mobile Computing and Application Development" from 22nd August 2023 to 28th August 2023 in virtual mode.

5 th Sem CSE Students were the target audience. Mr. Shesha Shankar Associate Consultant, Cognizant Servian was the Resource person. The objective of the workshop was:

To obtain an overview of mobile operating systems.

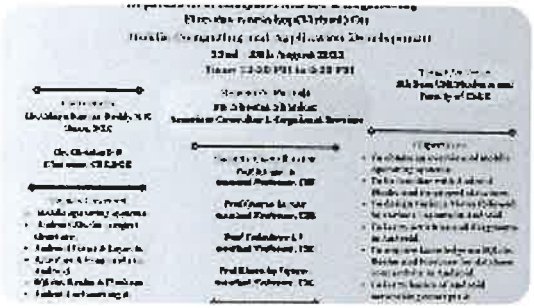

To be familiar with Android Studio and its project structure.

To design various Views followed by various Layouts in Android.

To learn Activities and Fragments in Android.

To acquire knowledge on SQLite, Realm and Firebase for database connectivity in Android.

Activate Windows
Go to Settings to activate Windows.

To learn basics of Android networking concepts,architecture patterns.

To develop simple cross platform apps using Flutter.

Prof. Ranjini K Assistant Professor, CSE,Prof. Gaurav Kumar Assistant Professor, CSE Prof.Vedashree L V Assistant Professor, CSE,Prof Bharathy Vijayan, Assistant Professor, CSE were the faculty organizers.

Target Audience: Satellite Image processing inspired students.

Number of participants: 23

The Dept. of CSE has successfully organized a webinar on "**IMAGE CLASSIFICATION TECHNIQUES USING QGIS**". The targeted audience were 4th year students who chose their major project domain related to satellite image processing. The Workshop was organized in offline mode. Around 23 students attended the workshop. All students were trained on both theoretical and practical knowledge of the satellite image processing. At the end of the seminar feedback was taken from the students and it is found to be satisfactory.

Demonstration by the Speaker

The workshop covered theoretical and practical knowledge on **Image classification and its techniques using QGIS.** Detailed Information of the Session is given below

Introduction

Image classification is a fundamental process in remote sensing and GIS (Geographic Information System) that involves categorizing pixels or objects within an image into predefined classes or land cover categories. These classifications are crucial for various applications, including land use planning, environmental monitoring, and disaster management.

The workshop on Image Classification Techniques Using QGIS, conducted by **Dr. P G Diwakar** and **Varshini**, Research Associate (GIS) at PIXEL SOFTEK and also a former student of Dr. Diwakar, provided participants with a comprehensive understanding of both theoretical concepts and practical implementation using the Quantum Geographic Information System (QGIS). This report presents an overview of the key topics discussed during the workshop, divided into two parts: Theoretical Insights and Practical Hands-On Session.

Part I: Theoretical Insights

Feature Extraction:

- **Importance of Ground Truth**: Dr. Diwakar emphasized the critical role of ground truth data in image classification. Spectral signatures should be validated against real-world data, ensuring accurate classification results.
- **Training and Band Selection**: The image classification process starts with band selection, followed by training the system to recognize spectral signatures. It was emphasized that the quality of training datasets directly influences the accuracy of the classification.
- **Purity of Signatures**: Varshini Ma'am highlighted the importance of pure spectral signatures. These signatures, obtained from high-quality training data, are essential for reliable classification outcomes.

Types of Classification:

- **Parametric Classification**: Dr. Diwakar discussed techniques like Maximum Likelihood Analysis and the Mahalanobis Model, which rely on assumptions about underlying parameter distributions.
- **Non-Parametric Classification**: Varshini Ma'am introduced non-parametric approaches, including Artificial Neural Networks (ANN), Genetic Algorithms, Bayesian Rules, and more, which do not rely on specific parameter assumptions.

Seasonal Variations: Consideration of seasonal variations in land cover, such as leafy and leaf-shedding periods in forests or wet and dry seasons in agriculture, is vital for accurate classification.

Band Selection: The importance of selecting the right spectral bands was highlighted. Bands like shortwave infrared (SWIR) and near-infrared (NIR) were recommended for their unique information content.

Validation and Accuracy Assessment

- **Locational Accuracy**: Dr. Diwakar emphasized the need to validate satellite data with ground data using GPS coordinates. Orthorectified images were discussed as a means to eliminate distortions caused by sensor tilt and topographic relief.
- **Pre-defined Criteria**: Varshini Ma'am explained the importance of predefined criteria in data splitting. Reserving a portion of data for post-classification validation, with a typical split of 20 sets for training and 10 sets for testing and verification, ensures the reliability of the classification.
- **Thematic Accuracy**: It was discussed that thematic accuracy involves assessing the precision of classifying specific themes, such as water bodies, agriculture, or trees, based on the domain and specific objectives.
- **Quantitative Accuracy**: Dr. Diwakar emphasized the need to quantify biophysical parameters like biomass, biodiversity, and water quantity in lakes for accurate resource assessment.

School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggalahalli, Harohalli,
Kanakapura Road, Ramanagara District-562112

Land Cover and Land Use

- **Land Cover vs. Land Use**: Participants learned **that land cover refers to the types of features present on Earth's surface**, while **land use relates to human activities associated with land**. The USGS Land Cover Categories were introduced as a standardized classification system.
- **Subjective Categorization**: Varshini Ma'am discussed the subjectivity involved in land cover and land use classification, including decisions on where to draw boundaries, the level of generalization, and assigning labels to specific classes.
- **Levels of Categorization**:
    - **Level I**: At this level, 55m, 30m, or 20m resolution data is used, providing a coarse overview.
    - **Level II**: 10m or 5m resolution data offers more details.
    - **Level III**: Quick bird (60 cm) and IKONOS (1m) data provide even finer details.
    - **Level IV**: Aerial sensors and drones can be used for the highest level of detail.
- **USGS Land Cover Categories**: Dr. Diwakar and Varshini Ma'am elaborated on the USGS Land Cover Categories, which include classes like:
    - **Open Water**
    - **Perennial Ice/Snow**
    - **Developed**
    - **Barren Land**
    - **Deciduous Forest**
    - **Evergreen Forest**
    - **Mixed Forest**
    - **Shrubland**
    - **Grassland**
    - **Pasture/Hay**
    - **Cultivated Crops**
    - **Woody Wetlands**
    - **Emergent Herbaceous Wetlands**

Image Classification

Types of Classification:

- **Unsupervised Classification**: Dr. Diwakar introduced unsupervised classification, where pixels are grouped into classes without prior labeling. The K-means clustering algorithm was discussed as a common technique.
- **Supervised Classification**: Varshini Ma'am explained supervised classification, which employs labeled training data to classify pixels based on predefined classes or categories. Methods like Maximum Likelihood and Mahalanobis distance were introduced.

Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggalahalli, Harohalli,
Kanakapura Road, Ramanagara District-562112.

Non-parametric Approaches: Participants learned about non-parametric approaches like Artificial Neural Networks (ANN) and Genetic Algorithms, which do not rely on specific parameter assumptions.

Accuracy Assessment Methods: Dr. Diwakar discussed accuracy assessment methods such as Kappa Statistics (Chi-Square test) and Separability Analysis (Distance Measures) to evaluate classification results.

Pattern Recognition

The pattern recognition process, presented by Varshini Ma'am, was divided into several key steps:

1. **Understanding Ground Truth Collection**
2. **Training System to Recognize Typical Ground Features**
3. **Signature Computation for Each Feature**
4. **Signature Separability Analysis to Assess Purity of Classes**
5. **Classification of Ground Truth Areas for Validation**
6. **Classification of Entire Scene Data Based on Final Ground Truth**
7. **Post-classification Validation of Outputs**
8. **Post-classification Smoothing Using Low-pass Filters**
9. **Output as a Thematic Layer in GIS**

Practical Hands-On Session

Preparation

Participants were guided through the practical session, which involved the following steps:

1. **Install QGIS**: Ensure QGIS is installed on your computer from the official website.
2. **Load Remote Sensing Data**: Import remote sensing data, such as satellite imagery, into QGIS using the "Add Raster Layer" option.
3. **Enable the SCP Plugin**: Install and enable the Semi-Automatic Classification Plugin (SCP) through the QGIS Plugin Manager.

Practical Steps

1. Layer Stacking

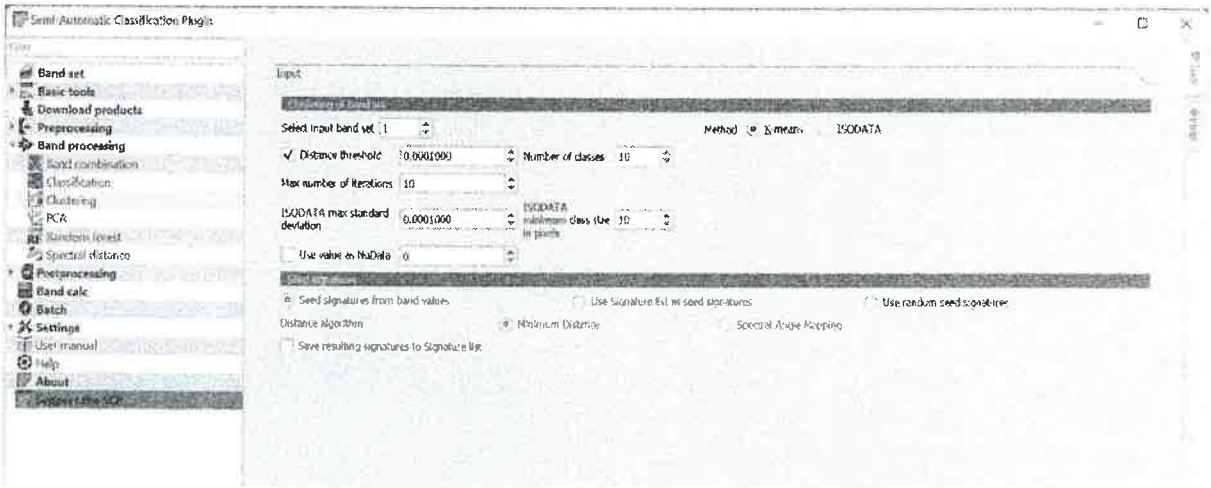

- Participants were introduced to layer stacking at the beginning of the practical session.
- Layer stacking involves combining multiple raster layers into a single composite image.
- This technique enhances the visual interpretation of remote sensing data by providing a comprehensive view of the landscape.

2. False Color Composite

- Following layer stacking, participants were instructed on how to create a false color composite.
- Dr. Diwakar and Varshini Ma'am explained how to generate a false color composite using different spectral bands.
- This composite can reveal unique information about land cover and land use by assigning specific spectral bands to different color channels.

3. Clustering

- Participants performed clustering using SCP: Band Processing -> Clustering.

- They specified the number of classes and Max number of iterations, such as seed signatures and

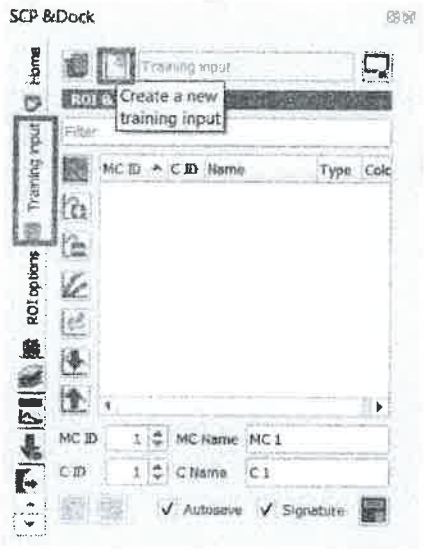

Chairperson
Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggalahalli, Harohalli
Kanakapura Road

Minimum distance algorithms.

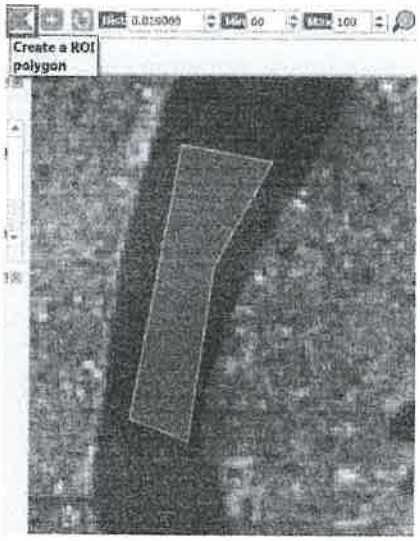

- Clustering was explained as an essential step for grouping similar spectral signatures.

4. Supervised Classification

- Practical training included:
  - Preparing a training input to save spectral signatures.

  - Creating Region of Interest (ROI) polygons to define training areas.

  - Merging signatures for similar classes.

22/9/23

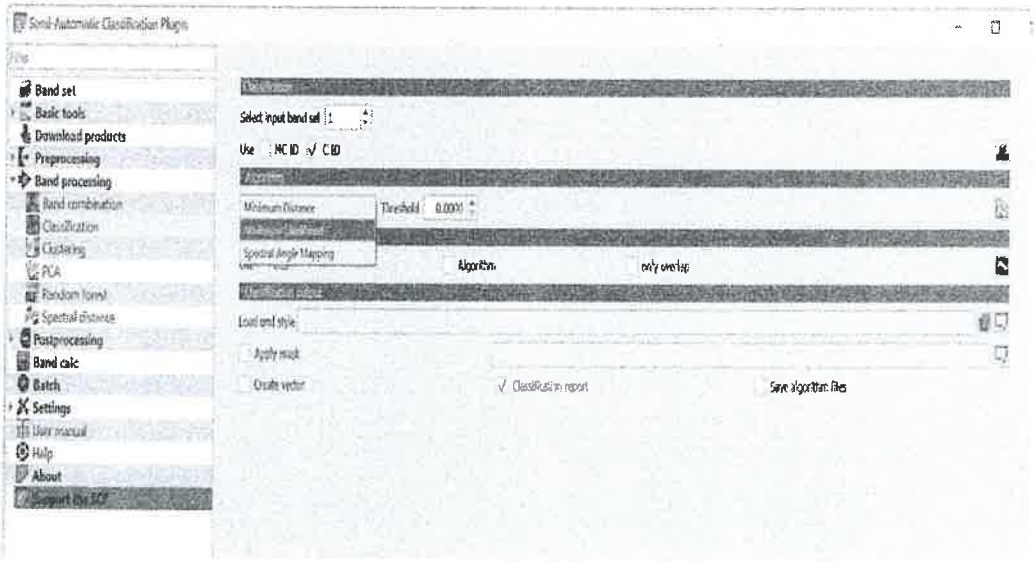

Chairperson
Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggalahalli, Harohalli,
Kanakapura Road, Ramanagara District-562112

- After obtaining the merged signature, delete the single classes

- Performing classification using SCP: Band Processing -> Classification. Select the Classification report to save the output.

Chairperson
Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggalahalli, Harohalli,
Kanakapura Road, Ramanagara District-562112

5. Validation and Accuracy Assessment

- Participants learned about the importance of validation and accuracy assessment:
    - Locational accuracy was discussed, emphasizing the need for GPS coordinates for cross-verification.
    - Predefined criteria for data splitting (e.g., 20 sets for training, 10 sets for testing) were reinforced.
    - Thematic accuracy and quantitative estimation of biophysical parameters were demonstrated.

One-on-One Project Sessions (Post Lunch)

Following the morning's theoretical and practical sessions, the workshop featured valuable one-on-one project sessions. These personalized sessions, conducted after lunch, allowed participants to discuss their major projects and seek expert guidance from Dr. Diwakar and Varshini Ma'am.

In these interactive sessions, participants shared their project progress and challenges, receiving tailored advice and recommendations. These discussions fostered collaborative learning and equipped participants with the skills and confidence needed to excel in their projects.

The one-on-one sessions, held after lunch, enhanced the workshop's overall impact, ensuring participants left with a clear path to apply image classification techniques effectively to their research and projects in remote sensing and GIS.

Session Takeaways

- The workshop emphasized the significance of ground truth data and spectral signature validation.
- Feature extraction, band selection, and training were highlighted as critical steps in image classification.
- The quality of training datasets directly influences classification accuracy.
- Seasonal variations and thematic accuracy were recognized as essential considerations.
- Land cover and land use classification involve subjective categorization and depend on data resolution.
- Image classification methods include both parametric and non-parametric approaches.
- Accuracy assessment methods were introduced for evaluating classification results.
- Pattern recognition involves a series of steps for classification and validation.
- In the practical session, participants gained hands-on experience using the SCP plugin in QGIS for layer stacking, false color composite generation, clustering, supervised classification, accuracy assessment, and post-classification smoothing, as well as thematic layer creation.

Conclusion

The workshop on Image Classification Techniques Using QGIS, conducted by Dr. P G Diwakar and Varshini Ma'am, provided participants with valuable theoretical knowledge and practical skills. It equipped them to perform image classification, an essential task in remote sensing and GIS applications. The combination of theoretical insights and practical implementation using QGIS ensured a comprehensive learning experience for all participants. The detailed coverage of land cover, land use, and USGS categories added depth to the workshop's content.

SEMINAR : UNLOCKING OPPORTUNITIES : TECHNOLOGY TRENDS AND ENTREPRENEURIAL STRATERGIES FOR STARTUPS

Department of Computer Science and Engineering & Research and Innovation Cell has organized a seminar on "Unlocking Opportunities: Technology trends and entrepreneurial Strategies for Startups" on 11th October, 2023 at School of Engineering, Dayananda Sagar University, Kudlu Gate, Bangalore. Mr. Ganesh Nag Doddi, Founder And CEO , Brainovision India Pvt Ltd was the resource person of the event. The seminar was organized for Computer Science and Engineering 3rd year students. The seminar was an enlightening journey, offering valuable insights and actionable ideas for startups navigating the ever-evolving business terrain.Organized by Dr.George Fernandez and Dr. Pramod Kumar Naik,CSE.

Report on INFINITE HORIZONS: CLUSTER COMPUTING WORKSHOP (HANDS-ON)

I am pleased to present this report on the successful completion of the Cluster Computing Workshop jointly organized by the **Computer Science and Engineering (CSE) Cluster and the Electronics and Communication Engineering (ECE)** Department. The workshop, held on **27th October 2023** at DSU, Kudlu Gate, Bangalore was made possible through the collaborative efforts of **Dr. Amit Bhatt**, Pro Vice Chancellor, DSU who played a key role in arranging the esteemed resource person, **Dr Amit Mankodi**, Arm Ltd. **Dr. Revathi V** and I served as workshop coordinators, and the active participation of the dedicated staff and enthusiastic students contributed significantly to the workshop's success.

Workshop Highlights:

The workshop, explored various facets of cluster computing. Participants were introduced to cluster technology and its real-world applications. Hands-on sessions covered the building of Beowulf clusters using traditional PCs and Raspberry Pi devices. Practical demonstrations and interactive sessions illustrated applications execution on clusters. The agenda also included detailed tutorials on setting up master/server nodes, configuring compute/slave nodes, and writing/testing application code.

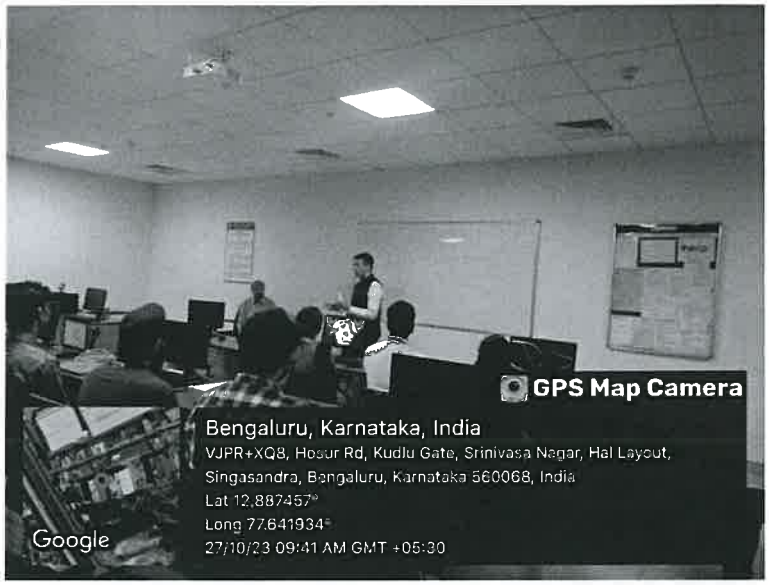

Outcomes and Achievements: The workshop successfully achieved its objectives, equipping participants with a deep understanding of cluster computing technologies. Participants not only set up and configured Beowulf clusters but also executed application codes, demonstrating proficiency in various cluster computing concepts. The practical hands-on sessions allowed participants to apply their knowledge, enhancing their skills and expertise in the field.

INFINITE HORIZONS: CLUSTER COMPUTING WORKSHOP

(HANDS-ON)

27th October 2023
Time: 09:00 AM-04:30 PM
Venue: G036
B Block, CAMPUS-3

in collaboration with ARM Ltd.

Agenda:

1. **Cluster Computing Applications:**
   - **Utilizing Cluster Computing for Advanced Applications**
   - **Real-World Implementations**
2. **Focus on Beowulf Cluster:**
   - **Understanding Beowulf Cluster Technology**
   - **Building Beowulf Cluster: PCs and Raspberry Pi**
   - **Applications Execution on Clusters**
3. **Hands-On Session (2-3 Hours):**
   - **Setting Up Master/Server Node:**
     - **Installing NFS Server**
     - **Sharing Directories via NFS**
     - **Installing Compilers and MPI Library**
     - **Writing and Testing Application Code**
     - **Enabling Passwordless Login Using SSH**
   - **Configuring Compute/Slave Nodes:**
     - **Installing and Mounting NFS Shared Folders from the Server Node**
     - **Testing Application Code from Compute Nodes**

WORKSHOP: LEAN-AGILE FOR PRODUCT DEVELOPMENT & ENGINEERING-AN OVERVIEW

The Department of Computer Science and Engineering has successfully conducted a one day workshop on "Lean-Agile for product development & Engineering-An Overview", on 31st October, 2023 at School of Engineering, Dayananda Sagar University, Kudlu Gate, Bangalore.The objective of the workshop is to train the 5th semester Computer Science and Engineering students who have opted Agile Software Engineering as Elective course. A total of 60 participants have attended the workshop.The session was engaged by Mr. Prakash Bettadapur, CEO-ArchTech Agile Solutions, Silicon Valley, California, USA. Organized by Prof. Naitik and Dr. Mouleeswaran.

Career Launchpad Report of 23rd November 2023.

Conducted by: FSD Student's Club X OS Code

Faculty Coordinator: Dr. Gousia Thahniyath

- **Summary**

The Career Launchpad was successfully conducted on Thursday 23rd November, From 1:30 pm to 4:00 pm. The workshop was organized by Tech Tribe Club and OS Code was facilitated by Dr. Gousia Thahniyath.

The workshop was attended by a total of **250 individuals,** including 2 speakers, **3 organizers and 7 volunteers** who helped with various aspects of the event, such as registration, set up and photography.

The main **objective of the workshop** was to teach participants how to proceed in these 4 years to get the best out of it. The workshop started with an introduction of the speakers:

1. V U Bushra: She spoke from the following ppt: https://drive.google.com/file/d/1DbPwpPiaT1OqFSatSAIuzMHqJy85WJJ7/view?usp=drive_linkhh
2. Harsh Singh: He spoke from the following ppt: https://drive.google.com/file/d/1H-RYwgS9vDlLYFujpAvJe7bbvviZCqun/view?usp=drive_link

The workshop was structured into two main sessions: **V U Bushra** spoke about: CGPA, Resume Building, Hackathons and Entrepreneurship. While **Harsh** spoke about: DSA and LinkedIn. Each session included a presentation, followed by interactive communication. The participants were encouraged to participate actively and ask questions throughout the workshop.

The feedback received from the participants was very positive. They appreciated the clear and concise explanation of career path. The volunteers and organizers also received positive feedback for their efforts in ensuring a smooth and organized event.

In conclusion, the **Career Launch Pad was successful, with positive feedback** from speakers, participants, volunteers, and organizers alike. I believe that this event provided a valuable learning opportunity for all those who attended, and I am grateful for the opportunity to have conducted it.

Tech Talk
on
"Navigating the Linux Landscape: Practical Applications, Emerging Trends, and Career Insights in Programming and Scripting"

1. INTRODUCTION

Department of the Computer Science & Engineering in association with Ganakanveshana Club had Organized a Tech Talk on **"Navigating the Linux Landscape: Practical Applications, Emerging Trends, and Career Insights in Programming and Scripting"**on 2ndDecember 2023 in Online mode.The Tech Talk was delivered by Industry Expert, **Hariharan Venkitachalam, Principle Architect at Kyndryl solutions.**The faculty coordinators were Dr.Basavaraj N Hiremath, Dr. Savitha Hiremath,Prof. Shwetha G S and Prof. Nandini K.

Dr. Girisha G S, Chairperson, Department of CSE welcomed Mr **Hariharan Venkitachalam**, Resource person of the event, Department of CSE, Students and Faculty Members of the Department of CSE.Dr. Basavaraj N Hiremath, Professor, Department of CSE introduced Resource Person Mr.**Hariharan Venkitachalam**to the Participants of the Tech talk.

Hariharan Venkitachalam (Hari) is working as a Principal Architect at Kyndryl Solutions with roles including Cloud Architect and Engineering leader. Hariharan has an overall 25+ years of IT industry experience in architecting solutions, product development, DevSecOps automations, CloudOps principles and practices using a mix of native cloud and cloud agnostic solutions. Have spent 15 years on product development developing

online transaction processing systems predominantly in C/C++, thriving within the Linux eco system. Recognized as a Master Inventor at Kyndryl, Hari's innovation has garnered over 22 patents. In his spare time, Hari's mantra is simple: code, eat, sleep, and code.

The objective of the Tech Talk was:

- Sharing practical insights and examples of how Linux programming and scripting are used in real-world industry scenarios.

- Discuss current trends, emerging technologies, and best practices in Linux programming and scripting.
- Showcasing of real projects or case studies that demonstrate the use of Linux programming and scripting.
- Introduce students to relevant tools and technologies widely used in the industry for Linux programming and scripting.
- Provide insights into potential career paths and opportunities for individuals with expertise in Linux programming and scripting.

Resourse person highlighted on why Linux is the preferred environment for many developers, and scripting languages like Python, Bash, and Perl are commonly used for creating automation scripts, managing dependencies, and facilitating deployment. He also stressed on the reason for why Linux is a common choice for security-focused environments. Scripting skills are valuable for tasks like analyzing logs, implementing security measures, and responding to incidents.Mr. Hariharan gave a overview on emerging Technologies like Docker and Kubernetes have gained prominence for deploying and managing applications on Linux systems, emphasizing the need for skills in container orchestration. He answered all the participants questions and clarified student's queries.

4.ATTENDEES

The workshop included students and Faculty members from CSE department. A total of 98 students attended the tech talk in online mode and gave excellent feedback.

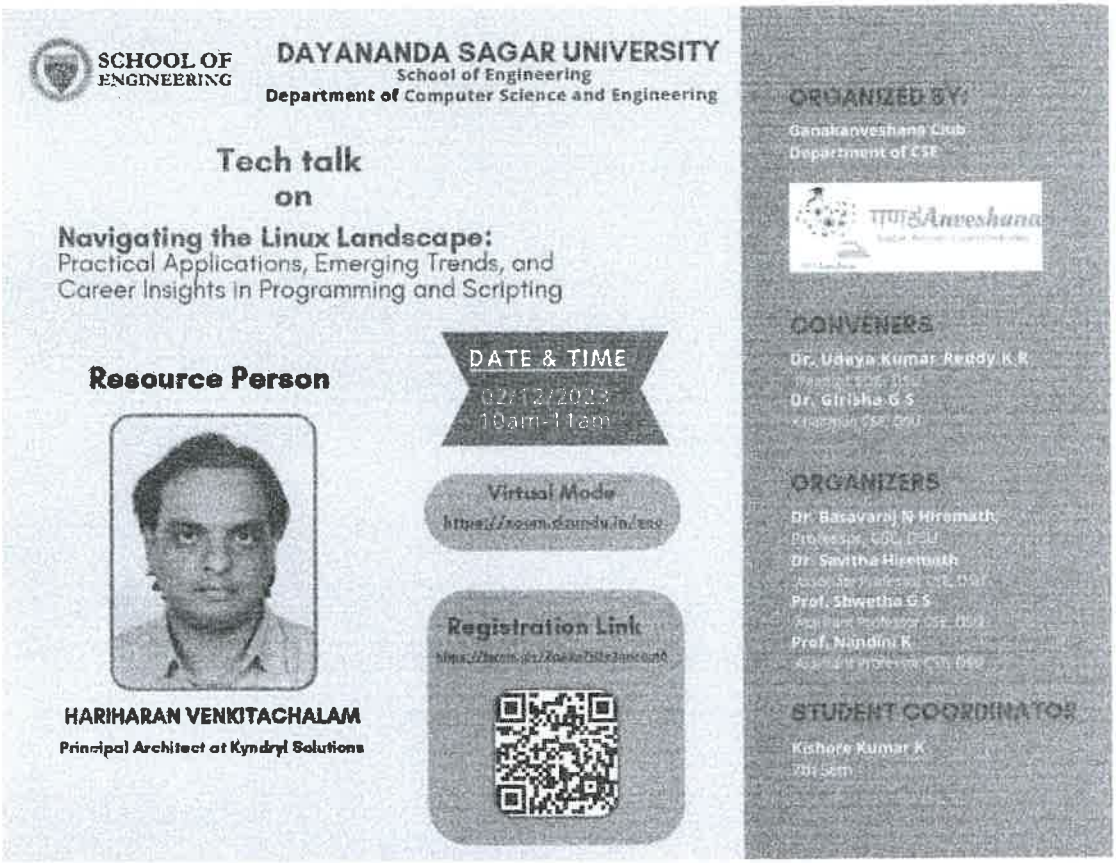

5.CLOSING

As an Organizing committee member Prof. Shwetha G S, thanked the management of DSI, DeanSoE, Chairman Dr.Girisha G S for all his support. She also thanked faculty

Mindful Living For A Healthy Tomorrow: An Event on Life Skills For Students

In the pursuit of academic excellence, it's easy to overlook the importance of holistic well-being. Recognizing the critical role that life skills play in shaping not just successful students but also resilient and mindful individuals, an enlightening event: "Mindful Living for a Healthy Tomorrow" has been organized at the Harohalli Campus on 4th of December, 2023 for the 3rd semester CSE students. The distinguished resource person for this event was Dr. Keerthana N Gowda, Assistant Professor, Department of Community Medicine, Dr. Chandramma Dayananda Sagar Institute of Medical Education and Research, DSU, Harohalli. The event was organized by passionate educators who understand the significance of life skills in a student's journey Dr. Basavaraj N. Hiremath, Professor, CSE,DSU and Dr. Savitha Hiremath, Associate Professor,CSE,DSU. These organizers bring a collective vision for holistic student development and well-being.

Target Audience: 1st /3rd/ 5th - Semester Students, CSE, SoE

Objectives:

1. To create an ecosystem to promote innovation and entrepreneurship.
2. To motivate students for idea generation, express creativity and overcome social obstacles.

About the event:

The event has been started by inviting the dignitaries **Dr. Ramesh G**, Dean academics S & T, **Vaijayanti B Desai**, Director-Communications, Corporate and Government relations, **Mr. Vinod shankar**, CEO, AIC-DSU and0 **Mr. Vivek Tonapi**, Resource person, Chief Nurturer, Potential Tree and **Dr. Girisha G S**, Chairman of CSE department by **Dr. Sridhar S K,** Faculty coordinator.

The welcome address to audience is given by **Dr. Girisha G S**, Chairman of CSE department. **Mr. Vinod Shankar** gave the introduction about the Resource person profile.

On Day-1, the Resource person **Mr.Vivek Tonapi** has delivered the information about the importance of Entrepreneurial Skills, Idea generation, Reflective Thinking, Product versus Technology in two sessions.

On Day-2, the resource person has started with elements of innovation, means report, Design thinking and its 5 phases, different business models, revenue models, business opportunities, and art of idea pitching. In the final session the students were encouraged to pitch their idea on stage and others participants are asked to evaluate the same. A good interaction session has been carried out among students with question and answers. Finally, the students oral feedback on the event was collected and noted.

The event has been ended by proposing the voteof thanks by **Dr. Sridhar S K,** Faculty coordinator. The event was highly appreciated by the participants.

Outcomes:

1. Able to transform to skilled entrepreneurs.
2. Enable to pitch new ideas with design thinking application.
3. Able to understand business and revenue models for startups.

IDEA PITCHING BY STUDENTS:

FEEDBACK BY STUDENTS:

Feedback

1. The session was interactive and eye-opener on dreaming about startups.
2. Paved the way to transform students into skilled entrepreneurs.
3. Need more entrepreneurial workshops on mentoring and working prototypes.

Report on "**10-day IoT project- based idea realization workshop**"

The Department of Computer Science and Engineering in Association with Atal Incubation Center (AIC), DSU organized 10-day **IoT project- based idea realization workshop** from 22-02-24 to 02-03-24, under the guidance of **Dr Girisha G.S**, Chairperson, Dept of CSE,SoE,DSU. The workshop provided students with a great learning experience, covering a wide range of IoT concepts and their hardware implementations.

Throughout the workshop, participants were equipped with essential skills and knowledge under the expert guidance of the instructors Mr Vijay G.H and Mr Madhusudhan, Dlithe Consultant Pvt Limited, Bangalore.

59 Students from CSE cluster were registered from CSE, AIML, Cyber Security.

Workshop Objectives

- To identify and solve problems that have a significant impact on the social and economic growth of the nation.
- To mine innovative ideas, bringing out the latent strengths and talents in the students.
- Train the students to perform research and convert their ideas into innovative projects.
- Paying the way for new products to be introduced in India.

What student learn

- Introduction to IoT
- IoT architecture and protocols
- Embedded C programming concepts
- Interfacing Different types of Sensors Networking concepts with WiFi Dey Modules.
- Overview of cloud Platforms.
- Web server-Setup, configuration Hands-on project with IoT Devkit
- Capstone Projects -Realtime use cases on Agritech, Industrial Automation & Healthcare

Day 1:

The workshop commenced with an inaugural session, followed by hands-on activities introducing participants to fundamental IoT concepts. Utilizing ESP32 boards, attendees gained practical experience in Arduino IDE and sensor integration.

Day 2:

Participants explore into different sensor technologies, with a particular focus on IDR and LDR sensors, and it applications in IoT projects.

Day 3:

The exploration continued on day 3 with temperature sensors and practicals on Wi-Fi access points.

Chairperson
Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY

4/3/24

Days 4-6:

The workshop emphasized on writing the data in to Thingspeak via ESP32 boards.

Day 7:

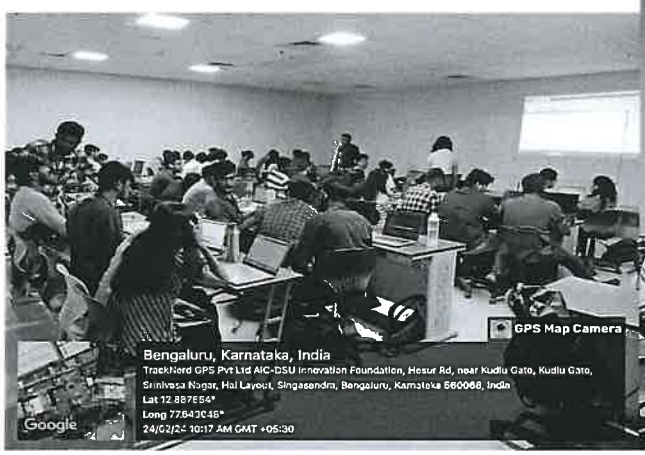

Deeper insights into IoT concepts were discussed, including wired communication protocols and OTA updates.

Days 8-10:

Students individually started working on projects and explored on different problem statement and built multiple projects which were converted to Projects and displayed today.

Use cases implemented:

- Physical computing basic applications: LED, Buzzer, Relay, Touch GPIO
- GPIO, Digital, Analog and Usage
- Interfacing Sensors: DHT 11, Ultrasonic, Touch,
- Controlling and actuating relay and buzzers based on sensor data (Pre-processing at Device)
- Controlling and actuating AC appliances Bulb and Electric fan using relay

4/3/24
Chairperson
Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggalahalli, Harohalli,

- Establishing web server through local wifi host (AP and STA Modes)
- Controlling peripherals using web calls
- Data Communication between two circuits (SPI, I2C, UART)
- Device logic updation using OTA
- Spiff memory and LittleFS application

Workshop Outcomes

- Learn how to choose research topics, identify and overcome the issues gaps in the existing systems.
- Learn how to convert their innovative ideas into projects/products/patents.
- Have better chances to get internships in productbased companies.
- Get prepared to participate in many National/lnternational competitions like Hackathons, Ideations and IoT based projects with societal impact.
- Work towards final year major projects. Understanding Networks.
- Introduction to Cyber Security and Penetration testing. Ports & Vulnerability Scanning, Exploiting Windows Machines, Exploiting Unix Machines.
- Exploiting Web applications, e-commerce & banking attacks, wireless exploitation. Hacking IoT devices, Defensive security mechanisms.

One-Day Workshop
on
"Interview Skill Enhancement"

1. INTRODUCTION

Department of the Computer Science & Engineering in association with Ganakanveshana Club had Organized a One Day Workshop on **"Interview Skill Enhancement"** on 24th February 2024 in offline Mode. The Workshop was conducted by Industry Expert, **Mr. Mekala V Reddy,** Business Development Leader, IBM/Kyndryl**.** The faculty coordinators were Dr. Savitha Hiremath, Prof. Nandini K and Research Scholar Ms. Manjusha Kulkarni.

Workshop started at 10.30 AM and Dr. Savitha Hiremath, Associate Professor, Department of CSE welcomed Mr. Mekala V Reddy, Resource person of the workshop, Participants and Faculty Members of the Department of CSE. Dr. Savitha introduced Resource Person Mr. Mekala V Reddy to the Participants of the Workshop.

Resource Person Profile:

Mekala V Reddy, worked as Development Leader, Kyndryl is having 27+ years (25 years with IBM/Kyndryl) of IT experience working with various domains & teams across IBM/Kyndryl: Kyndryl Labs, Customer facing SWG Lab Services, AP Cloud Innovation Labs and leading the solution development area's. His expertise in Revenue, Cost/Recovery, Hiring, Project Management, Team Skill building (up skill & cross skill), Business Partner eco-system and utilizing the team effectively. Mekala Reddy is Certified Scrum Master (SCM) and PMP (PMI), living in Bangalore.

Kanakapura Road, Ramanagara District-562112

As part of Givebacks, he working with Academia to create Industry readiness (>5K faculty & Students), across 70+ campuses via various programs like Smarter talks, Industry visits.

The objective of the Workshop:

- To make students efficient in Job Search Process and Selection Process
- To give overview about Industry Demands and Concepts of Emerging Technologies
- Enhancing Interview Skills with the technical Proficiency and Problem -Solving abilities

Minutes of the Workshop:

In the Pre-lunch Session, Mr. Mekala V Reddy commenced the workshop by highlighting the significance of job interviews in the hiring process. He emphasized the role of interviews as a platform for candidates to showcase their competencies and suitability for a particular role. Participants engaged in interactive sessions focusing on verbal and non-verbal communication techniques. Through role-playing exercises and group discussions, they learned how to articulate their thoughts clearly, maintain eye contact, and exude confidence during interviews. Mr. Reddy provided valuable insights into the types of questions typically asked during interviews and strategies for crafting compelling responses. Participants practiced responding to behavioural, situational, and competency-based questions to enhance their interview readiness.

Understanding the perspective of employers was crucial to the workshop. Mr. Reddy shared insider tips on researching companies, understanding job descriptions, and aligning one's skills with organizational needs. Additionally, participants learned about interview etiquette, including appropriate attire, punctuality, and post-interview follow-up.

In the Post-lunch Session, from 1.30 to 3:30PM, Mr. Mekala V Reddy explained the intricacies of profile writing, stressing the importance of presenting oneself effectively in professional contexts. Participants learned how to structure their profiles, highlight key skills and experiences, and tailor content to suit specific audiences and objectives. Practical exercises and case studies were incorporated to help participants identify and articulate their achievements, skills, and strengths effectively. They learned how to quantify achievements, use action-oriented language, and align content with industry standards and expectations. The workshop also addressed the significance of personal branding and maintaining a professional online presence. Participants received guidance on leveraging

social media platforms, optimizing LinkedIn profiles, and networking effectively in the digital age.

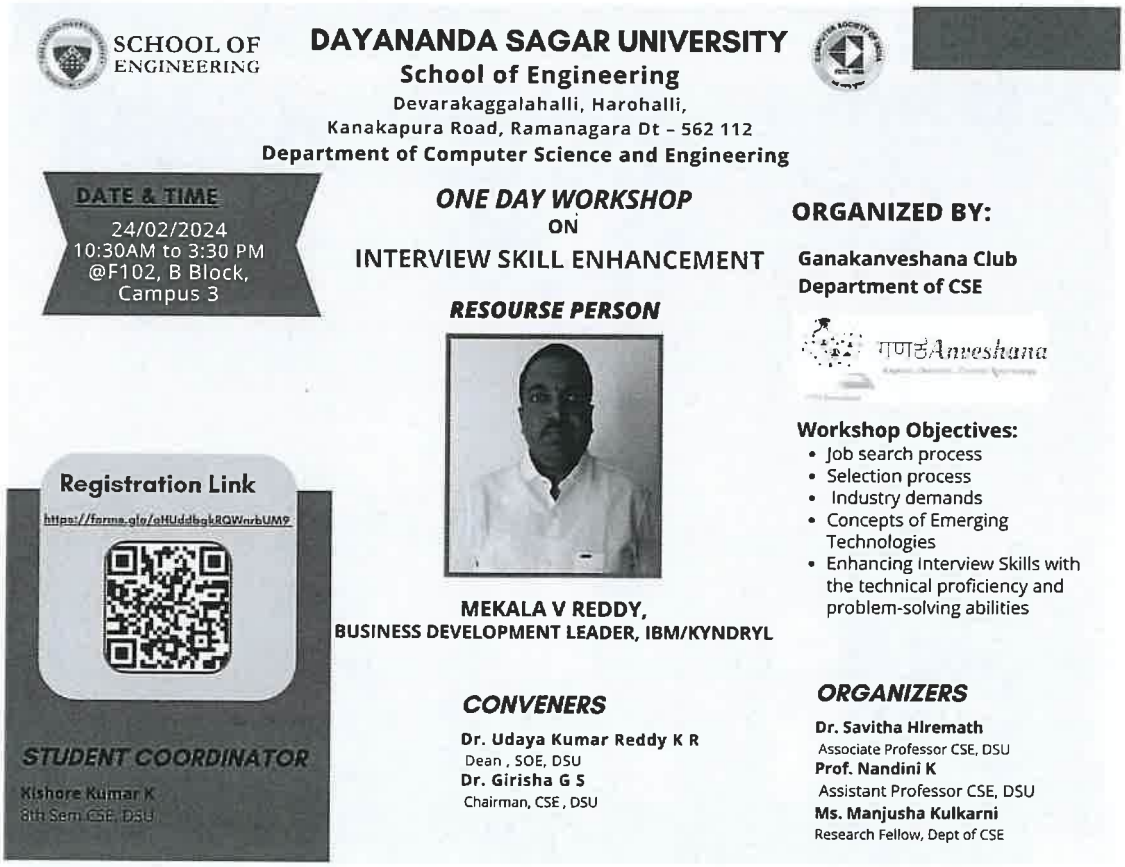

4.ATTENDEES

The workshop included students of 8th semester and 6th semester. A total of around 50 students attended the workshop in offline mode and gave excellent feedback.

5.CLOSING

As an Organizing committee member Research Scholar Ms. Majusha Kulkarni, thanked Resource Person, Mr. Mekala V Reddy, the management of DSI, Dean SoE, Chairman Dr. Girisha G S for all his support. She also thanked faculty coordinators and all the participants for the great support and participation leading to knowledge sharing.

Event Report: "Mastering ReactJS: From Development to Deployment with GitHub"

Hosted by the FSD Club on March 13 & 14, 2024

The FSD Club and the CSE Department collaborated to organize an enriching and engaging event titled "Mastering ReactJS: From Development to Deployment with GitHub" on March 13 & 14, 2024. The two-day session included technical workshops, interactive games, and a project review session, fostering learning, collaboration, and fun.

Day 1: Getup Session and React Basics

The event began with a Getup Session to energize participants and create a collaborative atmosphere. Attendees introduced themselves and formed teams to participate in the interactive sessions that followed.

ReactJS Workshop

- **Content Covered:**
  - **Introduction to ReactJS**
  - **Setting up the development environment**
  - **Understanding JSX, components, and props**
  - **Hands-on exercises for building simple React components**
- **Objective:**
  To provide a solid foundation for participants to build dynamic web applications using ReactJS.

Day 2: Advanced React and Deployment

Technical Sessions

- **Advanced concepts:**
  - **React Hooks, Context API, and state management**
  - **Integration with APIs**
  - **Deployment with GitHub and Vercel**

Reaction Session

15/3/24

Chairperson
Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggelahalli, Harohalli,
Kanakapura Road, Ramanagara District-562111

Participants shared their thoughts and questions on ReactJS and deployment. Mentors and peers collaboratively solved doubts, discussed best practices, and reflected on the journey from development to deployment.

Games and Activities

- **Guess the Number:**
  - **Developer: Nandeesh P Math (USN: ENG21CS0263)**
  - **Link: guess-the-number-puce.vercel.app**
  - **A fun interactive game using ReactJS to engage participants.**
- **Form Bugged:**
  - **Developer: Sree Vibha G (USN: ENG21CS0412)**
  - **Link: form-bugbounty.vercel.app**
  - **A unique project where participants identified and fixed bugs in forms.**

Project Review and Showcase

Reviewed Projects:

1. **To-Do List**
   - **Developer: Mathew Jacob (USN: ENG21CS0226)**
   - **Link: todo-bug-solved.vercel.app**
2. **Calculator**
   - **Developer: Jasmitha JK (USN: ENG21CS0168)**
   - **Link: calculator-debugged.vercel.app**
3. **Form Bugged**
   - **Developer: Sree Vibha G (USN: ENG21CS0412)**
   - **Link: form-bugbounty.vercel.app**
4. **Guess the Number**
   - **Developer: Nandeesh P Math (USN: ENG21CS0263)**
   - **Link: guess-the-number-puce.vercel.app**

Winning Team: "WE COOKED"

Members:

- **Sree Vibha G (USN: ENG21CS0412)**
- **Naindeep Singh (USN: ENG21CS0261)**
- **KVS Balaji (USN: ENG21CS0195)**

Project: Demonstrated technical expertise and creativity across multiple tasks.

Date of Announcement: March 14, 2024

Acknowledgments

Special thanks to the FSD Club and the CSE Department for their unwavering support and dedication. Their efforts ensured the event was not only educational but also fun and engaging for all participants.

This event was a great success, and we look forward to hosting more such events to foster innovation and learning among students!

One Day Workshop on "UI/UX Design "

INTRODUCTION

Department of the Computer Science & Engineering in association with Ganakanveshana Club organized A session on **"UI/UX Design Workshop"** for the 4th sem students on 23rd March 2024 at 11.00AM. Venue was A521, 5th Floor, A block, Main Campus. Speaker of the event was **Mr. Kishore Kumar K,** B.Tech- 8th sem Student **and Mr. JayKumar** ,M.Tech-4th semester students, CSE, DSU.

The Session was Organized by Dr. Basavaraj N Hiremath, Professor, Dept. of CSE, SOE., Dr. Savitha Hiremath, Associate Professor, Dept. of CSE, SOE and Prof. Nandini K, Assistant Professor, Dept. of CSE, SOE, DSU.

Session started at 11 AM and the session was attended by around 30 students in offline mode. Prof. Nandini K, Assistant Professor, Dept. of CSE, SOE welcomed Resource Person of the session and all the participants to the session. Dr. Basavaraj N Hiremath briefly introduced the experience and achievements of the Resource person **Mr. Kishore Kumar K and Mr. JayKumar R** to the participants.

Session by Mr. Kishore Kumar K and Mr. JayKumar

Mr. JayKumar, in his talk gave comprehensive introduction to the fundamental principles and practices of User Interface (UI) and User Experience (UX) design. The workshop commenced with an overview of UI/UX design concepts, emphasizing the significance of creating intuitive, visually appealing interfaces that enhance user satisfaction. Through interactive sessions and Mr. Kishore Kumar K has shown hands-on exercises, attendees

gained practical experience in wireframing, prototyping, and usability testing, equipping them with essential skills for designing engaging digital experiences.

Furthermore, the workshop shed light on the industry's evolving needs and dynamics, emphasizing the crucial role of UI/UX design in modern product development cycles. Participants explored real-world case studies and learned about the iterative design process, emphasizing adaptability and user-centricity. Understanding how industries operate, participants were encouraged to align their design strategies with business objectives and user expectations, fostering a holistic approach to UI/UX design.

CLOSING:

Dr. Savitha Hiremath thanked the Resource person **Mr. Kishore Kumar K and Mr. JayKumar** for the wonderful session. She also thanked the management of DSI, Dean Dr. Uday Kumar Reddy K R, Chairperson Dr. Girisha G S for all the support and guidance to conduct the event. Thanks to all the Participants for actively participating in the session. Thanked all the organizers for organizing the event. Feedback of the event was given by the participants and the feedback is very good.

Report on World Health Day

The Data Analytics and Visualization Club at Harohalli Campus took a proactive step in raising health awareness by organizing a session titled "Health is my Personal Right" on April 10, 2024, commemorating World Health Day. The event, spearheaded by Dr. Basavaraj N Hiremath, Professor CSE, and Prof. Shilpa Sudheendran, Assistant Professor CSE, aimed to enlighten attendees about the significance of health as an individual's fundamental right.

Venue: Lecture Hall 2 A Block
Date 10th April 2024

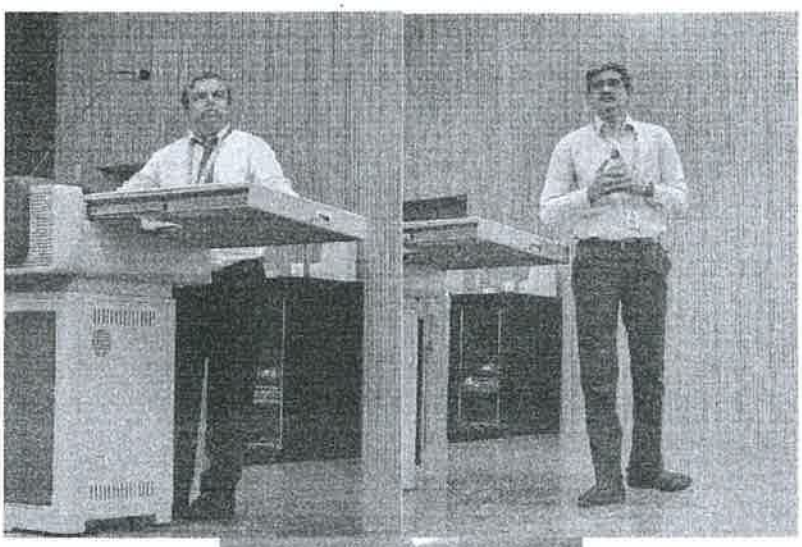

The highlight of the session was the keynote address delivered by Dr. Gopal Das C M, Professor and Head of the Department, Department of Psychiatry(CDSIMER), whose expertise added invaluable insights into the subject matter. Dr. Gopal Das C M shared profound perspectives on personal health management, emphasizing the importance of proactive measures and informed decision-making in maintaining optimal well-being.
Attendees gained comprehensive knowledge of various aspects of healthcare, including preventive measures, lifestyle choices, and the utilization of data analytics for health management. Through engaging discussions and interactive sessions, participants were encouraged to take charge of their health and make informed choices toward a healthier lifestyle. The event not only underscored the significance of World Health Day but also served as a platform for fostering a culture of health consciousness within the academic community.

REPORT ON

Expert talk: ENTREPRENEURSHIP

Organized by CSE Department

Event Name: Expert talk: Entrepreneurship

Date: April 24, 2024 **Time:** 2:00 PM to 4:00 PM

Venue: LT-02, Ground Floor, A Block, Dayananda Sagar University, Harohalli Campus.

Speaker:

Mr. Satyanarayana B V, CEO DERBI |Bengaluru.

Conveners:

Dr. Uday Kumar Reddy K R, Dean - SOE, DSU.
Dr. Girisha G S, Professor and Chairman, CSE, SoE, DSU.

Chairperson
Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggalahalli, Harohalli,
Kanakapura Road, Ramanagara District-562112

Faculty Coordinator:

Dr. Sridhar S K, Associate Professor, Department of CSE, SoE, DSU.

Target Audience:

4th - Semester Students, CSE, SoE

Objectives:

1. To create an awareness of incubation model of DERBI foundation
2. To expose to students to programs such as NIDHI Prayas Shala, bootstrapping to transform themselves into skilled entrepreneurs.

About the event:

The event has been started by welcoming the dignitaries **Mr. Satyanarayana B V**, Resource person, CEO, DERBI Foundation and **Dr. Girisha G S**, Chairman of CSE department by **Dr. Sridhar S K,** Faculty coordinator.

The welcome address to audience is given by **Dr. Girisha G S**, Chairman of CSE department.

The Resource person **Mr. Satyanarayana** has delivered the information about the importance of Entrepreneurial Skills, DERBI Foundation Incubation model, Type of Firm entities, Bootstrapping, startup ecosystem and Nidhi Prayas Shala program impact.

The event has been ended by proposing the vote of thanks by **Dr. Sridhar S K,** Faculty coordinator. The event was highly appreciated by the participants.

Outcomes:

1. Able to transform to young minds to think of creativity and innovation
2. Enable to pitch new ideas in health care area.
3. Able to understand business and revenue models for startups.

ABOUT THE EVENT:

One Day Technical Writing Workshop, an immersive one-day workshop hosted by the CSE Department of Dayananda Sagar University! Dive into the world of technical writing and master the art of crafting clear, concise, and impactful documentation. From creating user manuals to drafting research papers and technical reports, participants will navigate a series of hands-on sessions designed to hone their skills. Compete for recognition and elevate your technical writing prowess to new heights!

OBJECTIVES:

- *Learn to identify and select many types of writing frequently required in a variety of careers*
- *Practice audience analysis*
- *Be more in-tune with the language required for Technical writing*
- *Understand the requirements for documenting a software product*
- *Introduction to Agile*
- *Harness the power of AI for documentation*
- *Be aware of the career opportunities in technical writing*

Number of Participants: 162

The program commenced with the hosts, Sharon and Jaysurya from the 4th semester, warmly welcoming the crowd and the guest of honour. They welcomed the guests and dignitaries to the dais, where they were felicitated.

Chairperson
Dept. of Computer Science and Engineering

Kanakapura Road, Ramanagara District-562112

.Following that, our Head of the Department, Dr.Girisha G.S., took the stage to deliver the

presidential address.

After this, Dr. Rajesh T.M. introduced the guest of honor, Ms. Varsha Venkataraman, highlighting her accomplishments. She was then felicitated with a memento and a diary.

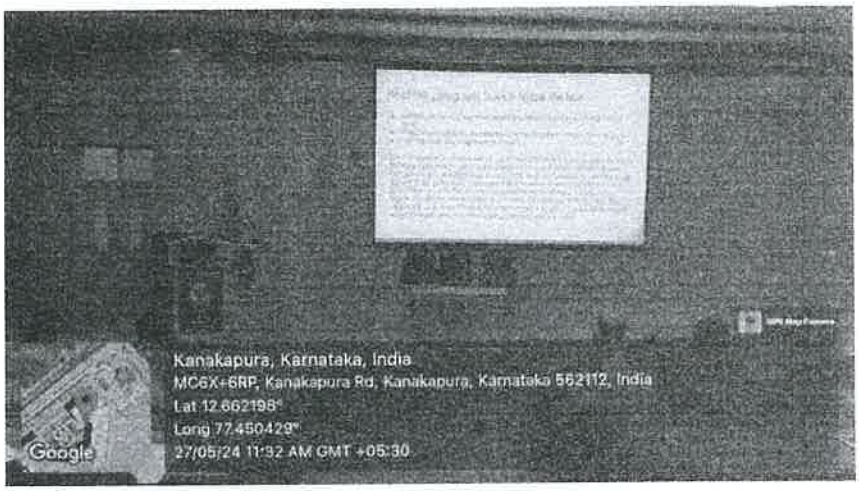

Following this, Ms. Varsha Venkataraman took the stage to commence the workshop. She began by emphasizing the significance of technical writing, delving into each aspect and

Chairperson
Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY
Devarakaggalahalli, Harohalli

providing valuable insights to students. Ms. Venkataraman elaborated on the importance and necessity of technical writing, elucidating the requisite skills, various types of writings, the 5 C's of technical writing, and strategies for aligning content with audience perception.

Ms. Varsha Venkataraman maintained an engaging atmosphere by actively involving the audience in small activities related to technical writing. Guiding us through the writing process, she addressed common obstacles encountered and explored the vast scope of this field. Ms. Venkataraman also provided valuable insights on skill enhancement techniques. To deepen our understanding, she curated various interactive games and hands-on events, fostering a dynamic learning experience. We also had her team accompany her – Mr. Agarsh

and Mr. Anirudh.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
WORKSHOP ON

LATEX FUNDAMENTALS: CRAFTING RESEARCH ARTICLES, PRESENTATIONS AND REPORTS.

TOPICS

- Learn benefits over traditional word processors
- Document Structure and Formatting
- Include and format images, graphs, and figures
- Create and customize tables
- Typeset equations, symbols
- Handling References and Citations
- Create presentations with Beamer class

INSTRUCTIONS

- Please carry your laptops, it is a hands-on session.
- Registration links would open by 1:50 pm until 2:00 pm. Students must register for the event during that time frame in order to receive the participation certificate.

RESOURCE PERSON

DR. SAVITHA HIREMATH
ASSOCIATE PROFESSOR ,
CSE , DSU

DATE: 3RD JUNE, 2024
VENUE: LH2 A011
TIME: 2PM TO 4PM

CONVENERS:

ABOUT THE EVENT:

The Department of Computer Science and Engineering at Dayananda Sagar University hosted a hands-on workshop titled **"LaTeX Fundamentals: Crafting Research Articles, Presentations, and Reports"** on June 3rd, 2024. The workshop, led by Dr. Savitha Hiremath, an Associate Professor at DSU, provided participants with practical insights into using LaTeX for professional document preparation. Attendees learned about the structure and formatting of LaTeX documents, incorporating images and tables, typesetting equations, and creating presentations with the Beamer class. The event was well-organized and received positive feedback, offering valuable skills to students and faculty alike.

OBJECTIVES OF THE WORKSHOP:

1. To introduce participants to the benefits of using LaTeX over traditional word processors.
2. To provide hands-on experience in structuring and formatting documents using LaTeX.
3. To teach the inclusion and customization of images, graphs, and figures in LaTeX documents.
4. To demonstrate the creation and customization of tables within LaTeX.
5. To guide participants in typesetting mathematical equations, symbols, and managing references and citations effectively.
6. To equip participants with the skills to create professional presentations using the Beamer class in LaTeX.
7. To enhance participants' ability to produce high-quality research articles, presentations, and reports using LaTeX.

The Department of Computer Science and Engineering at Dayananda Sagar University, School of Engineering, successfully organized a highly informative workshop titled **"LaTeX Fundamentals: Crafting Research Articles, Presentations, and Reports"** on the 3rd of June, 2024. The workshop took place in room LH2 A011 from 2:00 PM to 4:00 PM, gathering a diverse group of participants, including students, faculty, and research scholars, all eager to enhance their document preparation skills using LaTeX.

Resource Person

The workshop was conducted by **Dr. Savitha Hiremath**, an Associate Professor in the Department of Computer Science and Engineering at DSU. **Dr.SavithaHiremath** is known for her expertise in LaTeX and has extensive experience in guiding students and researchers in crafting professional documents. Her engaging teaching style and in-depth knowledge made the session both informative and enjoyable.

Event Overview

The workshop was designed with the objective of providing a comprehensive understanding of LaTeX, a powerful typesetting system that has become the standard for producing technical and scientific documents due to its precision and efficiency. Unlike traditional word processors, LaTeX allows users to focus on content rather than formatting, making it especially valuable for researchers and professionals involved in producing high-quality academic papers, theses, reports, and presentations.

This workshop was strategically planned to bridge the gap between basic knowledge of word processors and the advanced capabilities offered by LaTeX. By the end of the session, participants were expected to be proficient in using LaTeX to create well-structured, professionally formatted documents that adhere to the rigorous standards of academic publishing.

Topics Covered

Throughout the workshop, the following topics were discussed:

- **Benefits over traditional word processors**: The session began with an introduction to LaTeX, highlighting its advantages over conventional word processors like MS Word.
- **Document Structure and Formatting**: Participants were introduced to the basic structure of a LaTeX document and how to format various elements.
- **Including and Formatting Images, Graphs, and Figures**: The workshop demonstrated how to incorporate and manipulate visual elements in LaTeX documents.
- **Creating and Customizing Tables**: Attendees learned to create tables and customize them to meet their specific needs.
- **Typesetting Equations, Symbols, and Handling References and Citations**: The session covered the correct methods to typeset complex mathematical equations and symbols. Additionally, proper referencing and citation techniques were also discussed.

Dept. of Computer Science and Engineering
School of Engineering
DAYANANDA SAGAR UNIVERSITY

- **Creating Presentations with Beamer Class:** The final segment focused on creating presentations using the Beamer class, a popular LaTeX package for designing presentation slides.

Hands-on Session

The workshop was highly interactive and hands-on, allowing participants to apply the knowledge gained immediately. Attendees were encouraged to bring their laptops to practice coding in LaTeX as the workshop progressed. This practical approach ensured that participants could follow along with the examples and develop confidence in using LaTeX for their future projects.

Conclusion

The workshop on LaTeX was a resounding success, providing participants with the skills needed to produce high-quality documents for academic and professional purposes. The combination of theoretical knowledge and hands-on practice made the event highly effective in achieving its objectives. Feedback from participants was overwhelmingly positive, with many expressing their appreciation for the clarity and depth of the instruction provided. Overall, the workshop was a valuable learning experience for all attendees.

REPORT ON

ENTREPRENEURSHIP CELL: IDEATION TO PRODUCTION

Organized by CSE Department

Event Name: Expert talk: Entrepreneurship

Date: June 05, 2024

Time: 10:00 PM to 4:00 PM

Venue: LT-02, Ground Floor, A Block, Dayananda Sagar University, Harohalli Campus.

Speaker:

Dr. Madanmohan Rao |Co-founder|MXR World
Mr. Vinay Dora |founder | Crowd product

Conveners:

Dr. Uday Kumar Reddy K R,
Dean - SOE, DSU

Dr. Girisha G S
Professor and Chairman, CSE, SoE, DSU

Faculty Coordinator:

Dr. Sridhar S K,
Associate Professor, Department of CSE, SoE, DSU

Target Audience:

Aspiring Young Entrepreneurs of SOE

Objectives:

1. To create an awareness of incubation model of DERBI foundation
2. To expose to students to programs such as NIDHI Prayas Shala, bootstrapping to transform themselves into skilled entrepreneurs.

About the event:

The event has been inaugurated by the **Chief Guest, Dr. Madanmohan Rao** acting as Research director, Your story.

Dr. Sridhar S K, E-Cell Lead, has officially announced the **E-Cell, SOE** existence with its objectives and future goals.

Dr. Madanmohan Rao has delivered,
1. Opening address: **'The Entrepreneurship Opportunity in India'**

2. Masterclass on **'From Problem-spotting to Product Launch - The Startup Journey'.**

Prof. Osama Manzar has delivered Virtual session on **Tech and sustainability.**

Mr. Vinay Dora, Founder, Crowd product has delivered session on **Tech tools for Startups.**

The 8 student teams have delivered their Market potential Startup pitches in front of expert panel members and received a great appreciation.

Outcomes:

1. Able to transform to young minds to think of creativity and innovation
2. Feedback for new pitch deck ideas
3. Able to understand business and revenue models for startups.

Report

Department of Computer Science and Engineering organized an One day Workshop on **"Essential computing skills in research methodology"** for Bachelors and Masters students of physiotherapy on June 20, 2024 at Lecture hall 2, A Block, DSU campus, Harohalli, Bangalore. The workshop was graced by Dr. Uday Kumar Reddy, Dean- SoE, Dr. Girisha, Chairperson -CSE and Dr.Satyaguru Prasad, Principal - College of Pharmacy, DSU. The resource persons were Dr. Seema Tharannum, Professor-Biological sciences and Dr. Savitha - Associate Professor-Computer Sciences and Engineering. The Lab session was supported by instructors Ms. Pallavi H R, Mr. Sachin K B, Ms. Roopashree R , Ms. Kavya B K and Ms. Sahana G.

The program started with invocation rendered by Ms. Aditi, student of Masters of Physiotherapy. Dr. Savitha welcomed the gathering and compered the program, Dr. Seema gave an overview on intention of hosting the workshop. Dr. Girisha expressed his support in collaborative research with health sciences. Dr. Satyaguru Prasad expressed gratitude for hosting such workshop for their students. The presidential remarks were given by Dr. Uday Kumar Reddy, Dean SOE, who appreciated the concept of inter school and departmental interactions and expressed happiness in collaborations that utilizes the facilities and resources.

Resource person Dr. Seema Tharannum gave a talk on Introduction to computers, advancement in physiotherapy instrumentation, hardware-software and importance of data compilation -data analysis using computer knowledge in research methodology followed with resource person Dr. Savitha who gave a detailed orientation and practical demonstration of usage of MS office covering MS word , MS excel and MS power point. Their importance in field of documentation, thesis writing , research article writing and instrument handling. Forenoon a session of hands on assignment was given to students to practically work on computers and they successfully completed the documentation by applying all the parameters of MS word and excel and created documents of proof. Feed back from students was taken and certificate of participation were issued.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

REPORT ON

One day online hands-on workshop on Django

Organized by the Department of Computer Science and Engineering

Event Name: **One day online hands-on workshop on Django.**

Date: 27-July-2024.

Time: 9:30 AM to 4:15 PM.

Venue: Online using Google Meet.

Resource Persons

1. **Mr. Chandrashekar Rao Kuthyar,**
   Lead Consultant at SangamOne Connected Services Pvt. Ltd.

Conveners:

Dr. Uday Kumar Reddy K R,
Dean - SOE, DSU

Dr. Kousalya G,
Professor & Dean, R&D, CSE, SoE, DSU.

Dr. Girisha G S,
Professor and Chairman, CSE, SoE, DSU.

Faculty Coordinator:

Prof. Deepak H G, CSE, SOE, DSU.

Objectives:

1. **Understanding the Django Web application development framework:**
   a. Installing Python and Django.
   b. Understanding the concept of Request and Response.
2. **Hands-on Experience to develop web applications using Django :**
   a. Developing the Django web application using HTML forms.
   b. Developing the Django web application using HTML input controls and Django models.
   c. Developing the Django application using HTML forms, Django models and Admin Dashboard.

About the event:

The event has been started by inviting the dignitaries **Dr. Girisha G S**, Chairman of CSE department, **Mr. Chandrashekar Rao Kuthyar,** Lead Consultant at SangamOne Connected Services Pvt. Ltd.

The introduction and importance of the workshop was given by Dr. Girisha G S, Chairman of CSE department. Prof. Deepak H G welcomed the participants and introduced the resource person.

Topics Covered:

1. Python and Django installation and configuration.
2. Developing the first Django application.
3. Developing the Django application using HTML controls.
4. Developing the Django application using HTML Input controls and iteration.
5. Developing the Django application using HTML input controls and Django models.
6. Developing the Django application using HTML forms, Django models and Admin Dashboard.

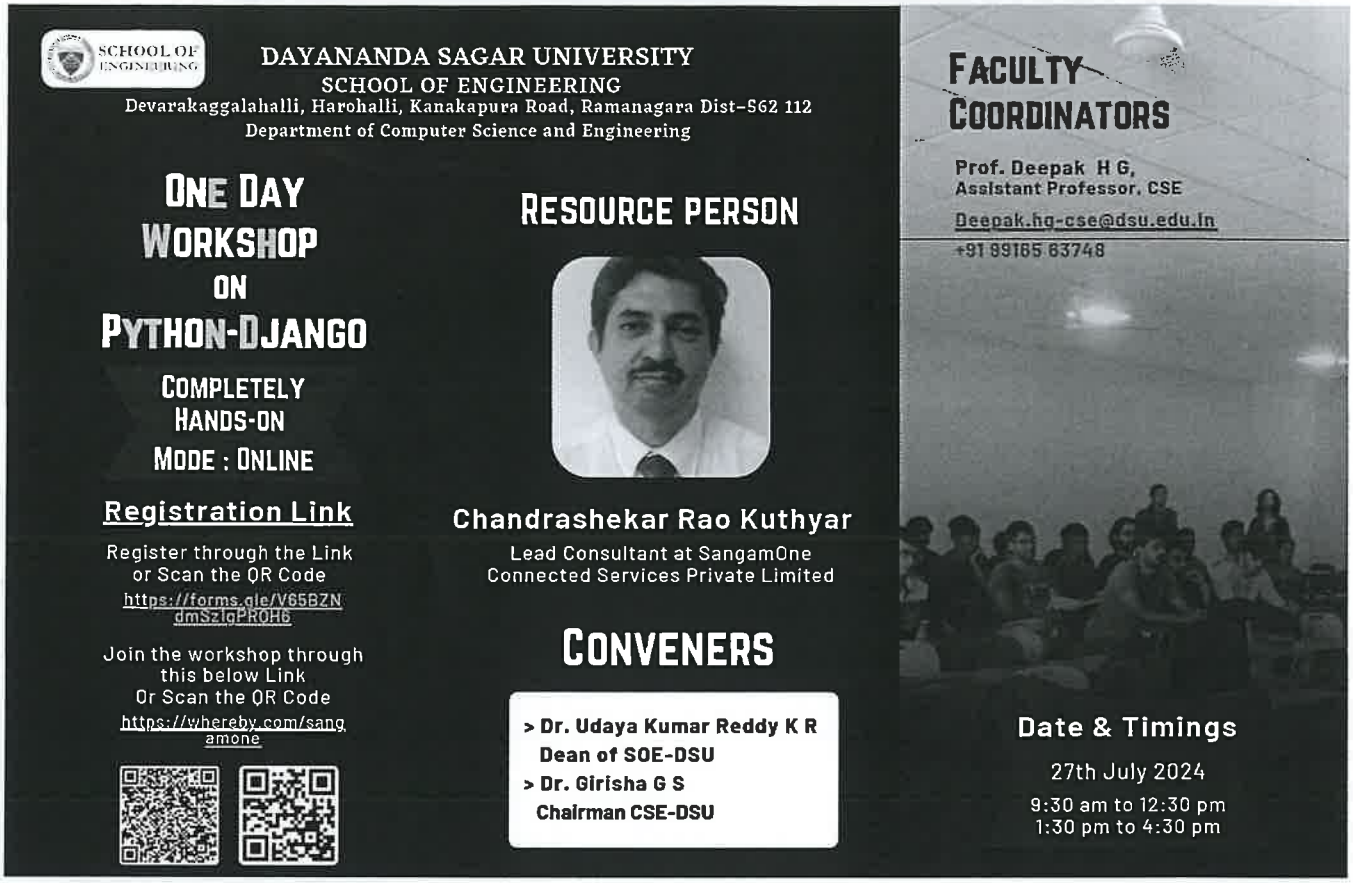

Outcomes:

1. Participants learnt the concept of Client-Server architecture.
2. Participants learnt the concept of http request and response objects.
3. Participants learnt to install Python and Django web application framework.
4. Participants Created the Django web application project and added the applications to the project.
5. Participants developed the Django web application using HTML elements and form controls.
6. Participants developed the Django web application using HTML form input controls and Django models.

Report on seminar

Event Name: "Sustainable Web Development"

Date:08/11/2023

Time: 02:00 PM to 03:30 PM

Venue: G-016, B- Block, DSU, Kudlu gate, Bengaluru - 560 068

Brochure

Objectives:

- Understand the current challenges and issues facing a specific industry or sector, with a focus on sustainability-related problems.
- Discuss and explore potential solutions and strategies for addressing the identified challenges through sustainable development practices.
- Provide students with an opportunity to develop skills relevant to sustainable development, such as problem-solving, innovation, project management, and communication.

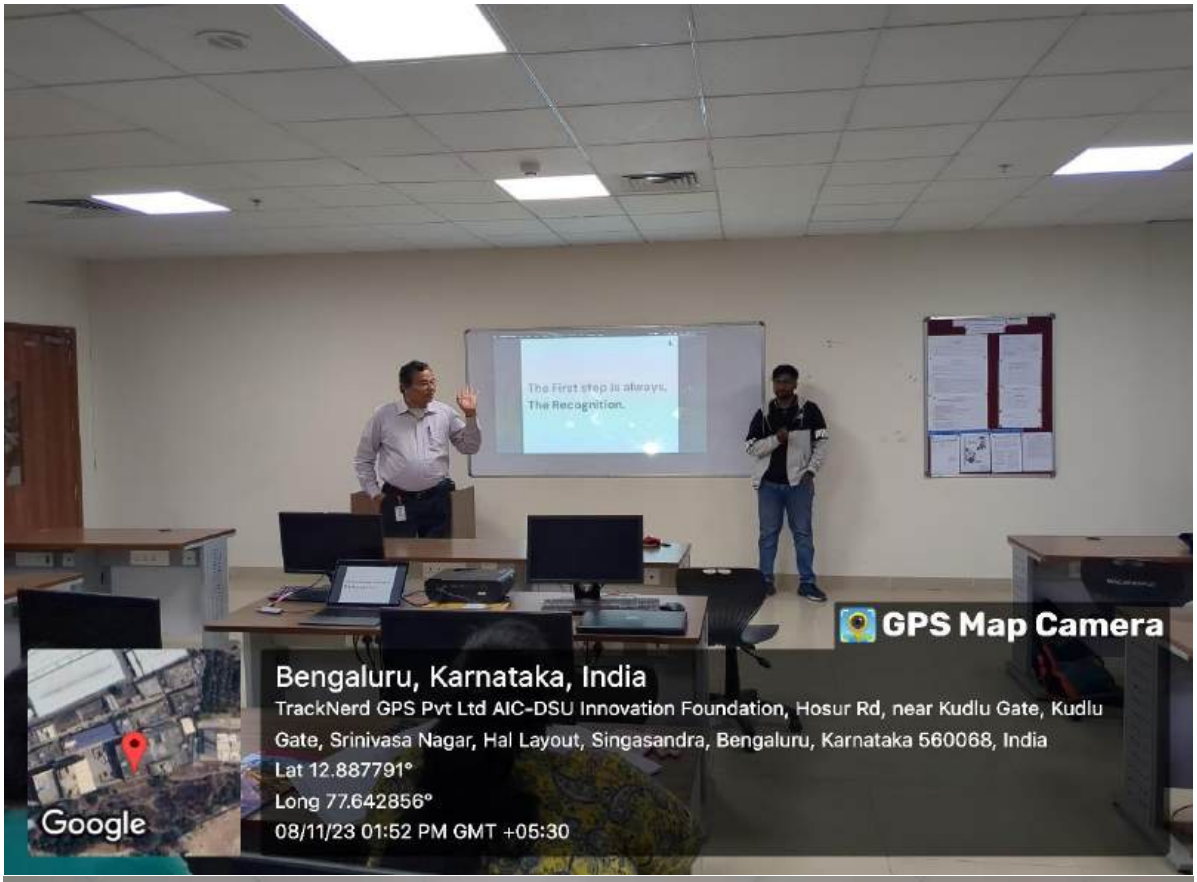

Outcomes:

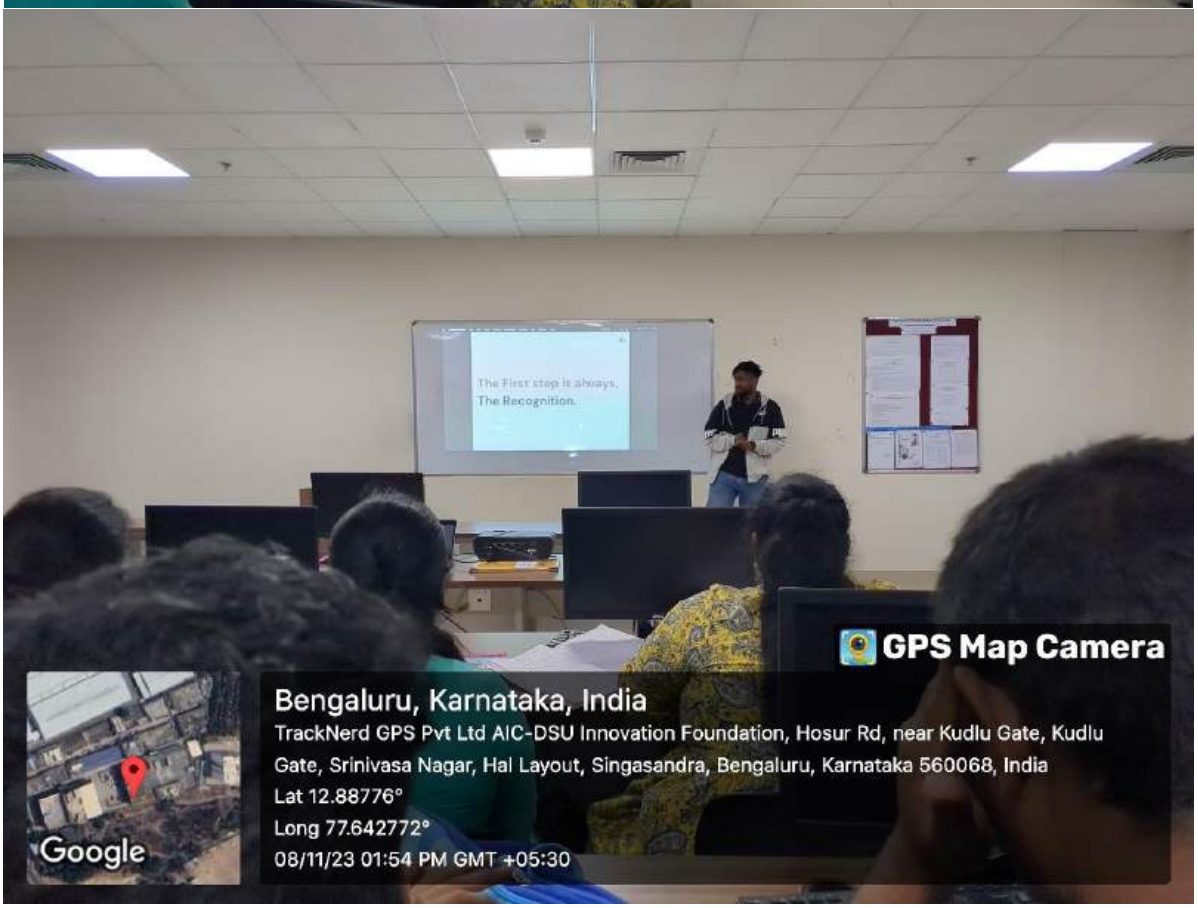

- Students will be able to identify and articulate specific challenges and issues within the industry they are discussing.
- Students should come up with creative and practical sustainable solutions to address the identified challenges.
- Provide information on internships or practical opportunities in the industry or with organizations that focus on sustainable development, giving students a clear path to apply their knowledge and gain hands-on experience.

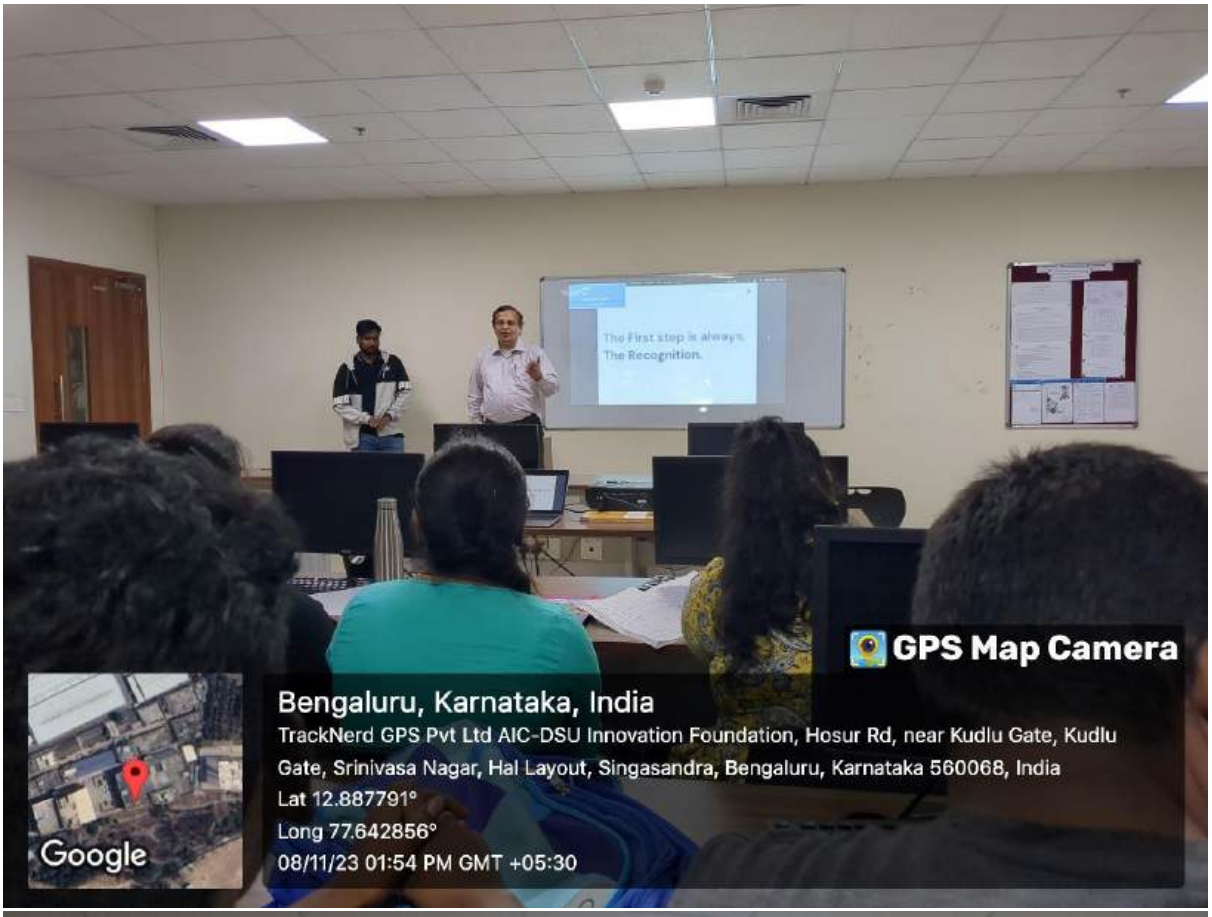

Summary:

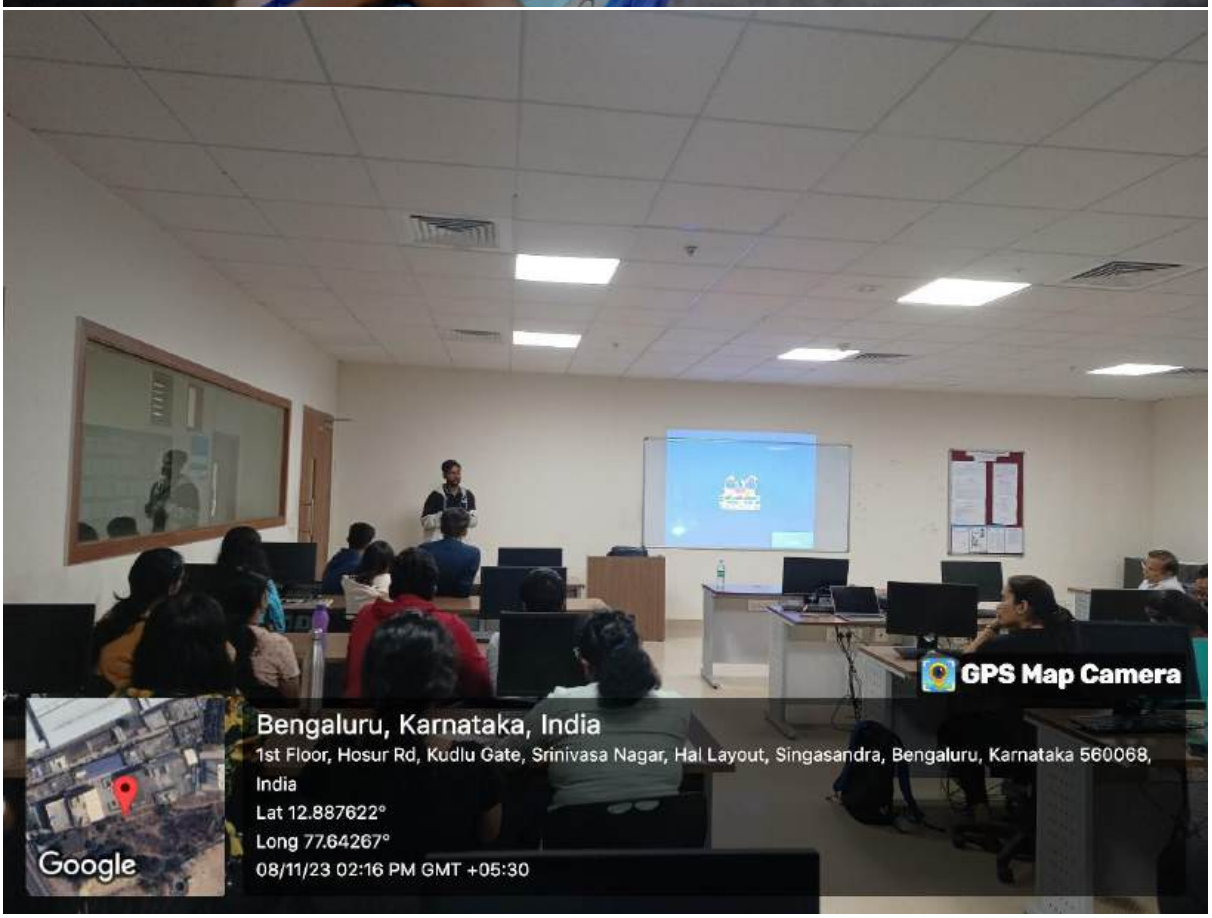

The "**Sustainable Web Development**" seminar, which commenced on November 8, 2023, at 2:00 PM, was initiated with a warm welcome from the department. Professor Baskar, introduced the distinguished speaker, Mr. Trishal Dhaynanda who was an **alumnus of 2021 batch**. This session was attended by approximately 46 students from the third year of the CST department. Mr. Trishal Dhaynanda discussed about strategies for designing websites that minimize energy consumption and reduce the carbon footprint, the role of web hosting providers in sustainable web development, highlighting the importance of selecting eco-friendly hosting options and data centers. The seminar on sustainable web development provided a valuable platform for understanding the importance of sustainable practices in web development. Students gained insights into the principles, tools, and best practices that can be applied to create eco-friendly web solutions. Mr. Trishal Dhaynanda has given an opportunity for to students to apply for internship in his own company. Session concluded by thanking the guest, faculty and students for attending the session.

Department of Computer Science and Technology

Report on Guest Lecture

Event Name: "Unlocking the Power of Classification Algorithms"

Date:09/11/2023

Time: 09:30 AM to 10:30 AM

Venue: G-016, B- Block, DSU, Kudlu gate, Bengaluru - 560 068

Brochure :

Objectives:

- Understand fundamentals of classification algorithms, explaining how they work and their importance in data science and machine learning
- Demonstrate the diverse applications of classification algorithms in various fields, such as healthcare, finance, marketing, and more.
- Understand how to choose the right classification algorithm for different problems based on data characteristics and objectives.

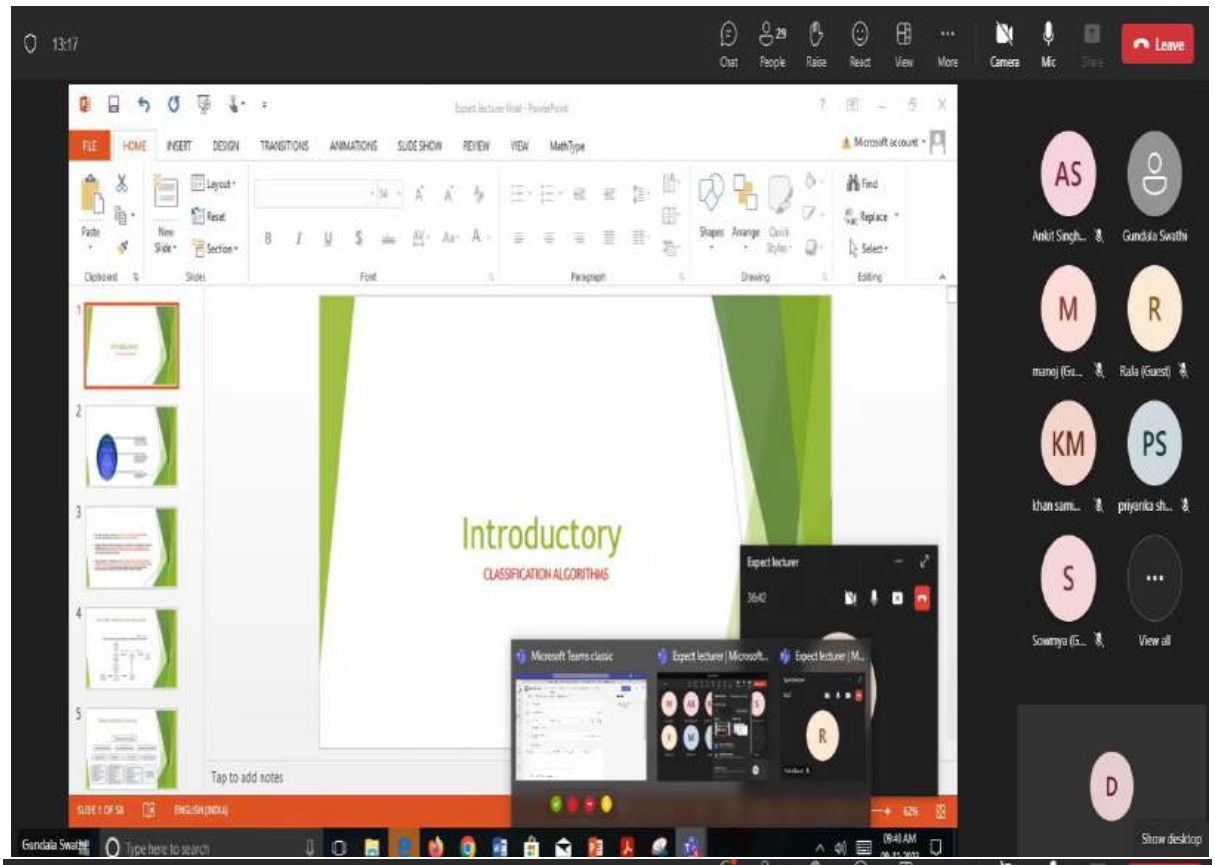

Outcomes:

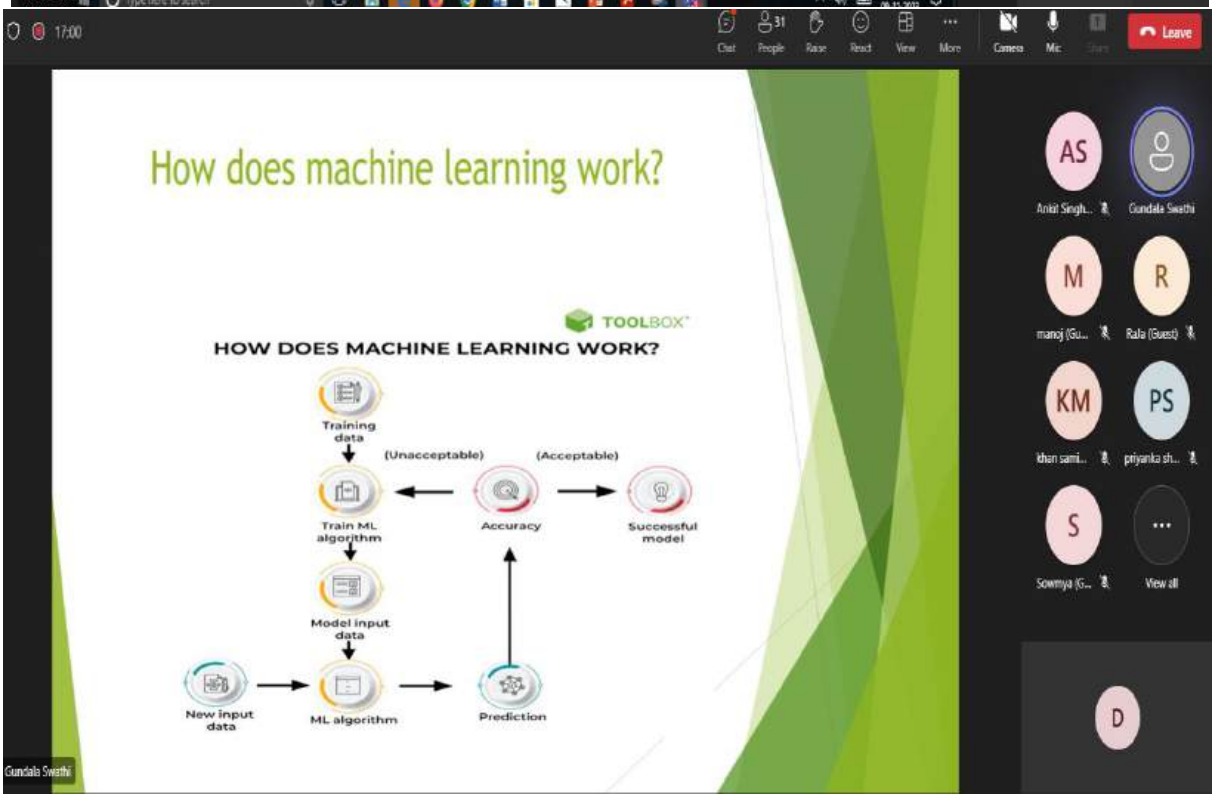

- Understanding of classification algorithms and their practical applications.
- Utilize skills and knowledge needed to apply classification algorithms effectively in real-world scenarios.
- Gain the ability to approach classification problems systematically, from data preprocessing to model selection and evaluation.

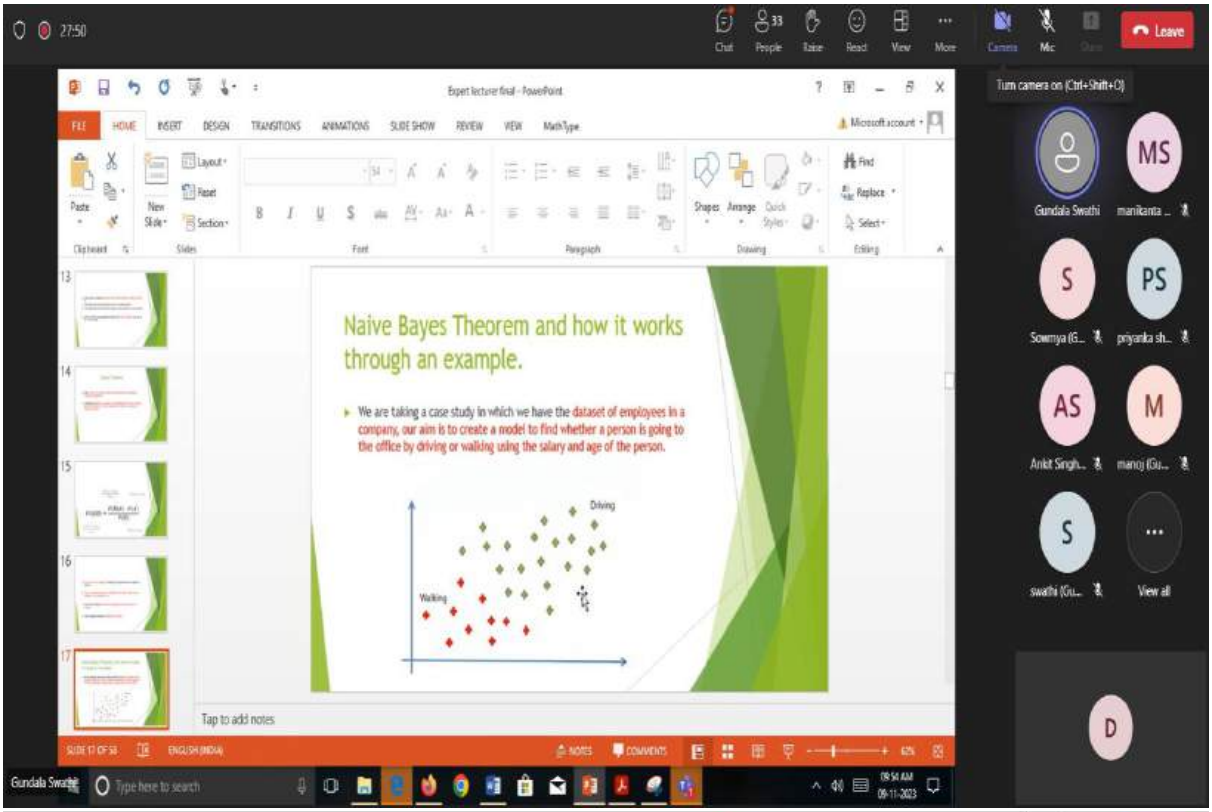

Summary:

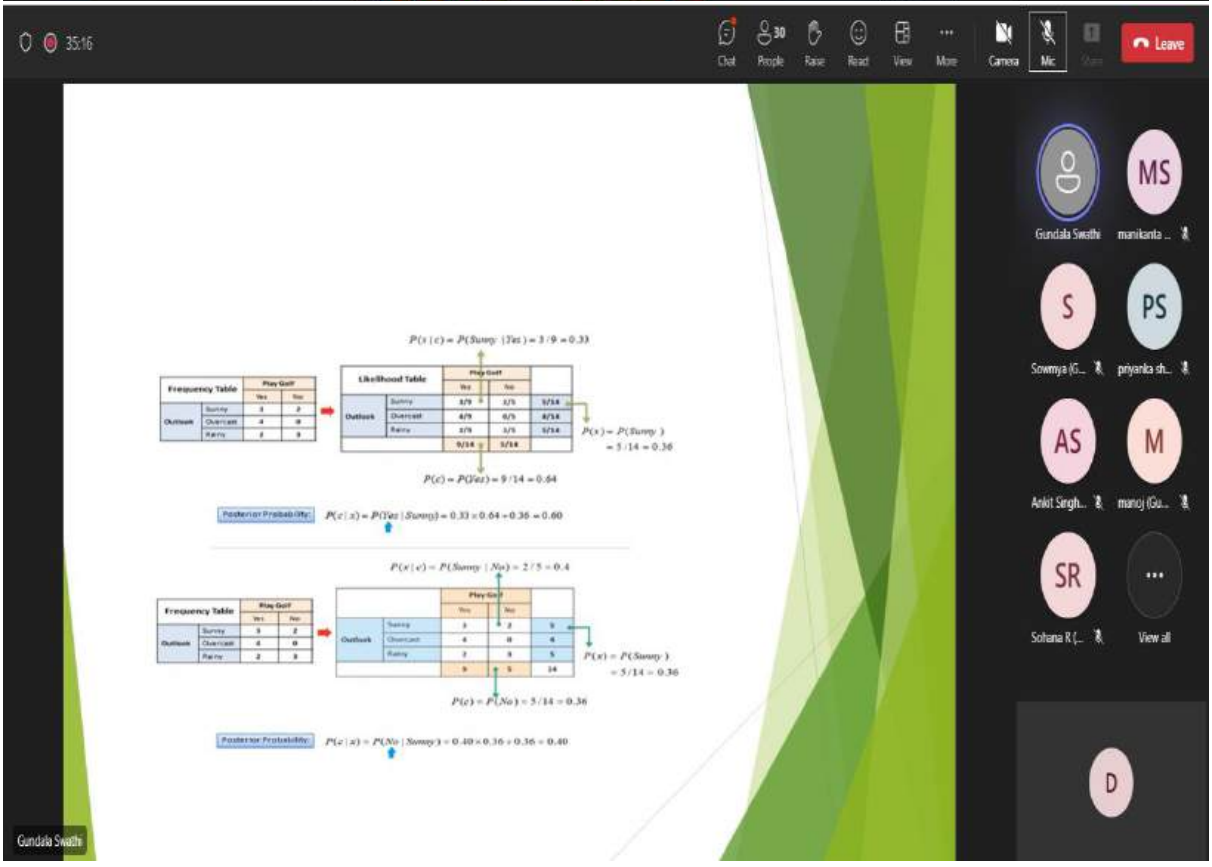

The guest lecture titled "Unlocking the Power of Classification Algorithms" was held on 9th November 2023 @ 09:30 AM at G-016, B- Block, Dayananda Sagar University. was initiated with a warm welcome from the department. Dr. Sudha, introduced the distinguished speaker, Dr. G. Swathi, Associate Professor, VIT-Vellore. This session was attended by approximately 35 students from the third year of the CST department. Dr. Swathi discussed about the importance of classification with real world examples. The seminar aimed to provide students with a deep understanding of classification algorithms and their practical applications in various fields. Students gained a clear understanding of what classification algorithms are and how they work, including their role in supervised learning. The seminar also covered various types of classification algorithms, such as logistic regression, decision trees, and support vector machines, providing insights into their strengths and weaknesses. The real-world applications discussed, including image recognition, spam email detection, and medical diagnosis, highlighted the importance and versatility of classification algorithms. Session ended with question and answers and thanking the speaker, students and faculty members.

Department of Computer Science and Technology

Report on Preplacement Talk

Event Name: " "Corporate Culture""

Date:02/11/2023

Time: 09:30 AM to 04:00 PM

Venue: G-016, B- Block, DSU, Kudlu gate, Bengaluru - 560 068

Brochure

Objectives:

- To improve email and telephone etiquette by following the best practices.
- To demonstrate corporate values and ethics by adhering to the company's code of conduct and policies, and by participating in regular training sessions and workshops on ethical issues and dilemmas.
- To understand the corporate ladder by learning about the different roles and responsibilities of each level of management and staff.
- To enhance basic grooming skills and work attitude by dressing professionally and appropriately for the work environment.

Outcomes:

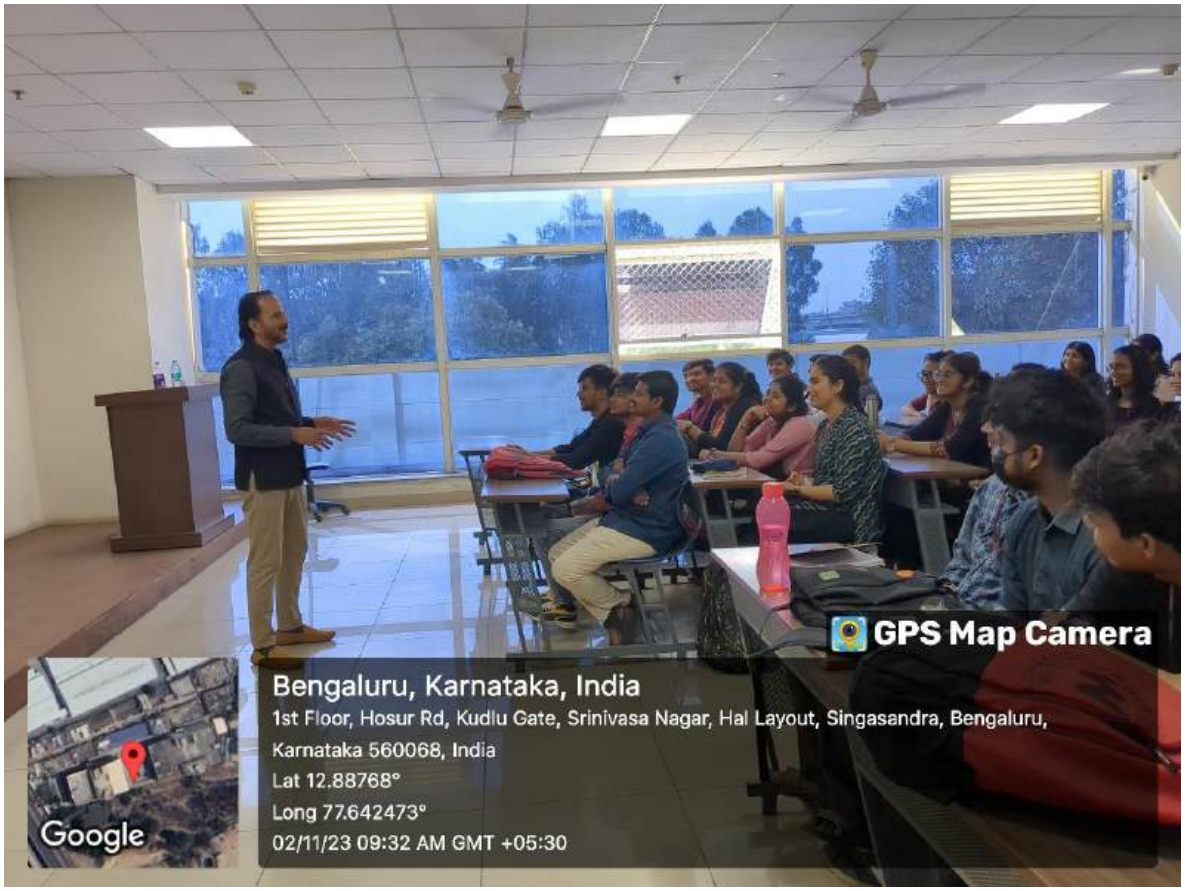

- Improve various skills relevant to their roles, such as communication, leadership, problem-solving, and technical skills.
- Learn how to prioritize tasks and manage their time effectively.
- Enhanced resilience and adaptability in the face of challenges.

Summary:

The "**Corporate Culture**" session, which commenced on November 2, 2023, at 9:30 AM, was initiated with a warm welcome from the department chairperson, Dr. M. Shahina Parveen, as she introduced the distinguished speaker, Mr. Ravinder Singh Kalsi. This session was attended by approximately 46 students from the third year of the CST department. Mr. Ravinder Singh Kalsi provided valuable insights and training to the students across several critical domains. Specifically, he focused on memory development, personality enhancement, and the cultivation of essential soft skills. During the course of the session, Mr. Kalsi engaged the students in various interactive activities designed to bolster their skills in these areas. For memory development, students took part in exercises involving word memorization and repetition. These activities aimed to enhance their memory retention and recall abilities. In the realm of personality development, a group activity was conducted to encourage self-discovery and personal growth among the students. This activity fostered self-awareness and promoted the development of a well-rounded personality. In the context of soft skills, Mr. Kalsi led the students through activities that encompassed communication skills, retail training, sales techniques, and email etiquette. These exercises were tailored to equip the students with the practical skills needed for professional success. The students actively participated in all the activities orchestrated by the trainer, displaying enthusiasm and a thirst for learning. As a result of their active engagement, they acquired a wealth of knowledge and valuable insights across various facets of placement training. Session concluded by collecting feedback from students and thanking the speaker, participants, faculty and organizers of the event.

Nothing

None

-

Importance of verbal and non verbal communication

No

Change my mind set

Can come up with Mock interview as activity

Nothing

More industrial related knowledge

more sessions like these

Good Communication Skills, Well-dressed.

It should happen more frequently

,

More breaks.

.

Everything's fine

May be some insights about internships would be appreciated

More Frequent Sessions

Skills and knowledge required for the target job roles.

teamwork

Confidence , compatibility, understanding and listening skill

More technical related training

I have learned a lot about behaviour and etiquette

Resume creation

Resume writing,Technical skills,Tech talk from alumni who placed with good CTC

About the behavior in the office and dress codes which we havr to follow and how to maintain relationships with colleagues in office

No change

Team building, memorization

Longer sessions

Increase frequency of these programs

1. Needs Assessment: It's like making sure you have all the right ingredients before cooking a delicious meal. Take time to understand exactly what skills and knowledge your participants

need for their upcoming jobs.

2. Clear Learning Objectives: Think of this as setting a clear destination on a road trip. Participants should know what they're aiming to achieve by the end of the program.

3. Customized Curriculum: Just like tailoring a suit to fit perfectly, design a curriculum that's specific to the industry and job roles your participants are aiming for.

4. Interactive and Practical Learning: Make the training hands-on and engaging, like learning to drive by actually driving, not just reading the manual.

5. Soft Skills Training: Remember that soft skills are like the seasoning in a dish; they add flavor to the recipe. Include communication, teamwork, and problem-solving training.

6. Mentorship and Coaching: It's like having a seasoned traveler show you the ropes during a journey. Provide mentors who can share their real-world experiences.

7. Industry-Relevant Tools and Technologies: Equip your participants with the tools they'll actually use in their industry.

8. Assessments and Feedback: Think of these as progress checkpoints, like getting report cards in school. Regular assessments and feedback help you gauge how well participants are doing.

9. Continuous Improvement: Just like you'd update your wardrobe with the latest fashion, update the program based on feedback and industry changes.

10. Evaluation Metrics: These are like measuring how well your garden is growing. Set specific goals to track the program's success.

11. Flexible Delivery Methods: Think of this as offering a menu with various dishes to cater to different tastes. Some people prefer online, others like in-person – give them options.

12. Resources and Support: Provide participants with tools, just like a mechanic needs wrenches, to help them succeed.

13. Clear Communication: Keep the communication lines open and straightforward, like giving directions on a map.

14. Alumni Network: Connect participants with those who've already walked the path. Alumni can be like trusted friends offering advice.

15. Compliance and Certification: Ensure your program meets the rules and standards of the industry.

16. Data Analytics: Think of this like checking your health regularly with a doctor. Data helps you see how well the program is doing.

17. Cultural Sensitivity: In our diverse world, it's like respecting different flavors in a potluck dinner. Promote understanding and inclusivity for all backgrounds.

In a nutshell, make the program as engaging and practical as possible, keep an open feedback loop, and be open to tweaking it along the way. It's all about ensuring your participants are well-prepared for their upcoming roles and have a great learning experience in the process.

Team work

Personalized Learning: Many participants appreciate training programs that allow for more personalized or tailored learning experiences. They often wish for the opportunity to focus more on their specific areas of interest or need.

Soft Skills: People often feel that soft skills like communication, emotional intelligence, and leadership should be emphasized more. These skills are increasingly important in the workplace and personal development.

Real-World Application: Participants frequently desire a stronger connection between what they learn in training and how it applies to their day-to-day work or industry-specific challenges.

Advanced Topics: Some participants, particularly those with prior experience, may seek more advanced content to continue their professional growth. They may feel that certain subjects should be covered in greater depth.

Feedback and Interaction: A desire for more interaction and feedback from instructors and

peers is a common sentiment. Active engagement can enhance the learning experience.

Practical Exercises: Hands-on practice, such as real-world projects or case studies, is often appreciated. Participants often wish for more opportunities to apply what they've learned.

Emerging Trends: As industries evolve, some individuals may feel that training programs should stay updated with the latest trends and technologies to remain relevant.

Networking Opportunities: Building professional connections can be a key value for many. Participants might wish for more networking events, workshops, or opportunities to connect with industry experts.

Time Management and Productivity: Skills related to managing time effectively and increasing productivity are often seen as valuable in both professional and personal life.

Inclusivity and Diversity: Some participants might feel that more attention should be given to creating an inclusive and diverse learning environment to reflect the realities of today's global workforce.

Report on Preplacement Talk

Event Name: "Elevating Ambition: Motivating and Preparing Students for Placement Success"

Date:06/09/2023

Time: 09:30 AM to 11:00 AM

Venue: F-146, B- Block, DSU, Kudlu gate, Bengaluru - 560 068

Brochure

Objectives:

- To boost participants' self-confidence and self-belief in their abilities to secure and thrive in their placement opportunities.
- To focus on the development of essential soft skills, such as communication, interpersonal skills, teamwork, adaptability, and problem-solving.
- To ensure that individuals have realistic expectations about their placement opportunities, job market conditions, and potential challenges.
- To emphasize the importance of continuous learning and skill development to stay competitive and adaptable in the evolving job market.
- To empower students to make informed decisions about their career paths and placement choices.

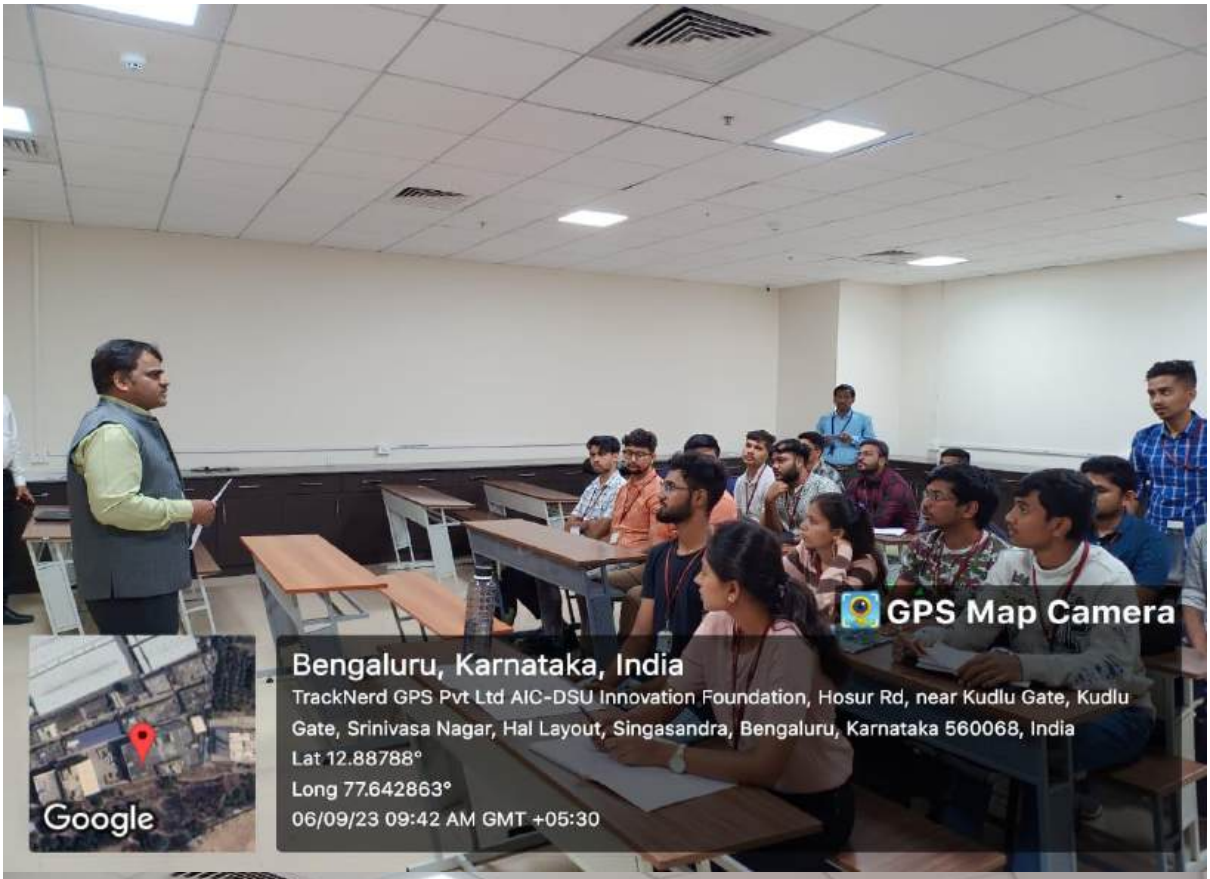

Outcomes:

- Individuals should have a higher level of self-confidence in their abilities to secure a placement and perform well in interviews and professional settings.
- Students should have a better grasp of essential soft skills such as communication, teamwork, adaptability, and problem-solving, which are crucial for success in getting the placement.
- Students should be empowered to make informed decisions about their career paths and the placement opportunities that align with their goals.

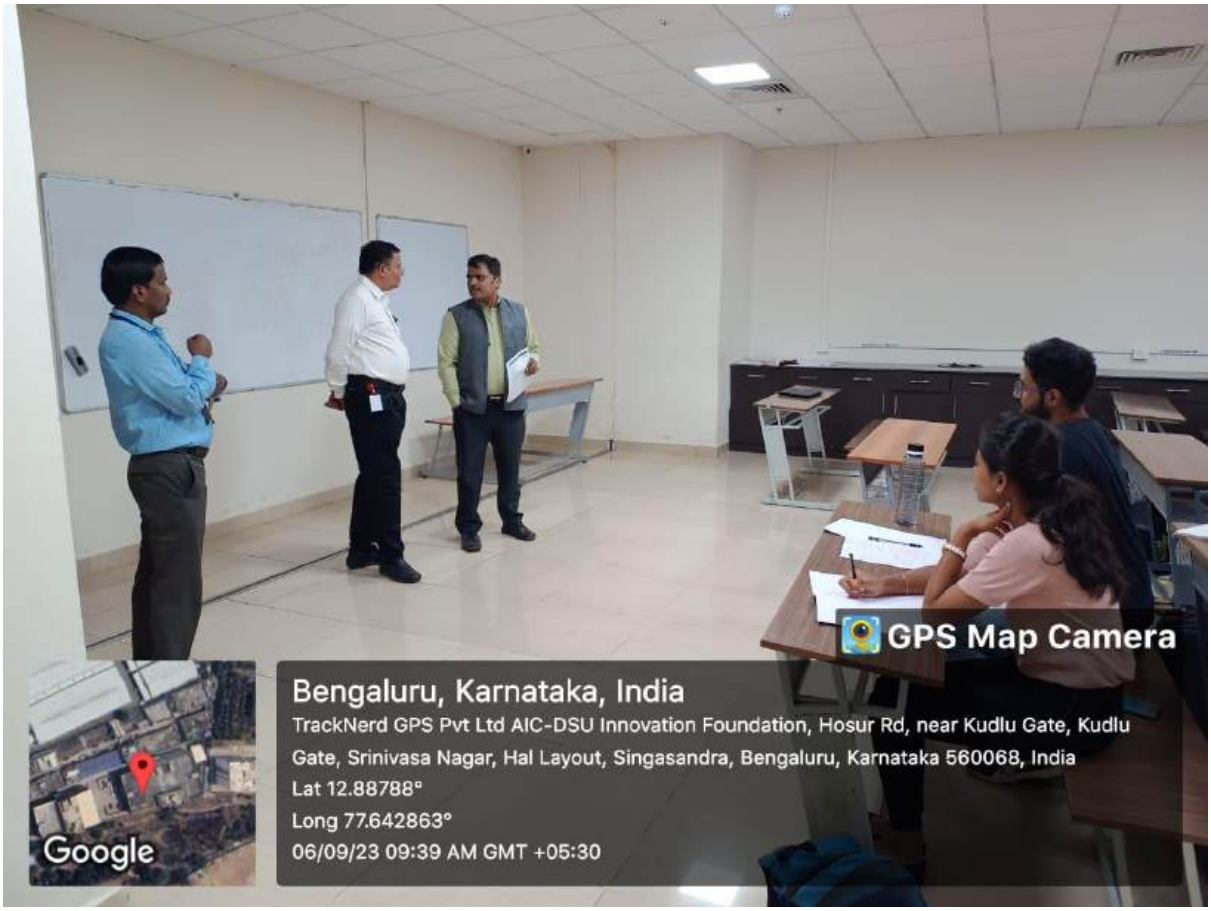

Summary:

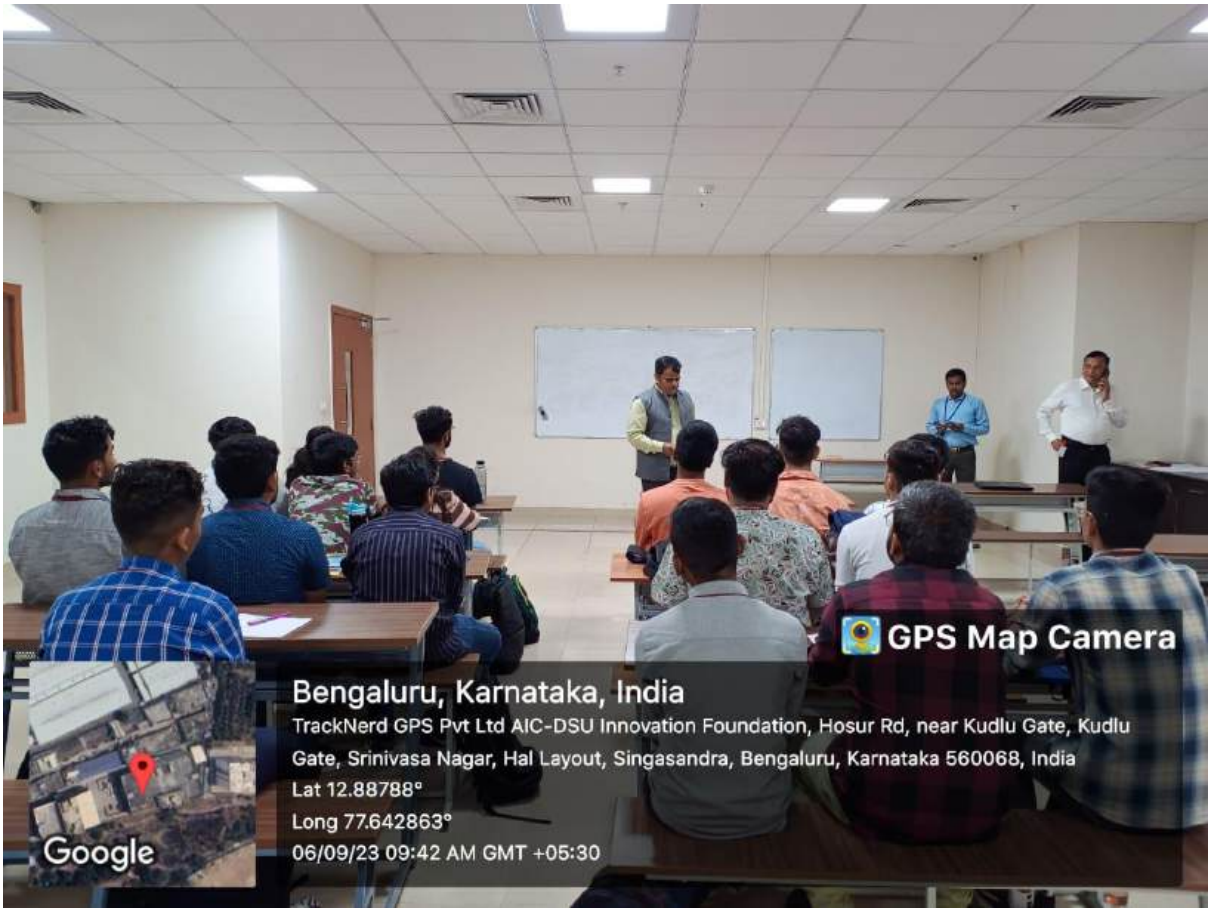

The session on " **Elevating Ambition: Motivating and Preparing Students for Placement Success"** started at 9:30 AM dated 06/09/2023 by welcoming the speakers Prof. Vijay Kumar S & Prof. Baskar V . Around 19 students from final year attended the session. Prof. Vijay Kumar S and Prof. Baskar has given insights about how to prepare for their placements and motivated the students . This talk for placement was a highly impactful event, leaving students inspired and well-prepared for their career placement journeys. The session succeeded in boosting participants' motivation and self-confidence, emphasizing the importance of thorough preparation, and highlighting the significance of soft skills and effective networking. Attendees gained a realistic understanding of the placement process and acquired practical knowledge on crafting compelling resumes, excelling in interviews, and utilizing available resources. The talk encouraged a positive mindset and empowered individuals to make informed career decisions while fostering a commitment to lifelong learning and continuous improvement. Overall, the event provided invaluable guidance and inspiration, equipping participants with the tools and motivation needed for successful transitions from education to the professional world. Students actively participated in the session, clarified their doubts and provided their feedback on session. Session concluded by thanking the resource persons.

DEPARTMENT OF COMPUTER SCIENCE & TECHNOLOGY

3-day workshop on

"Game Development"

Event Name: 3-day Hands-on workshop on "Game Development"

Date: from 15th April to 18th April 2024

Time: 09:00 AM – 01:00 PM

Venue: F-140

Brocher:

Objectives:

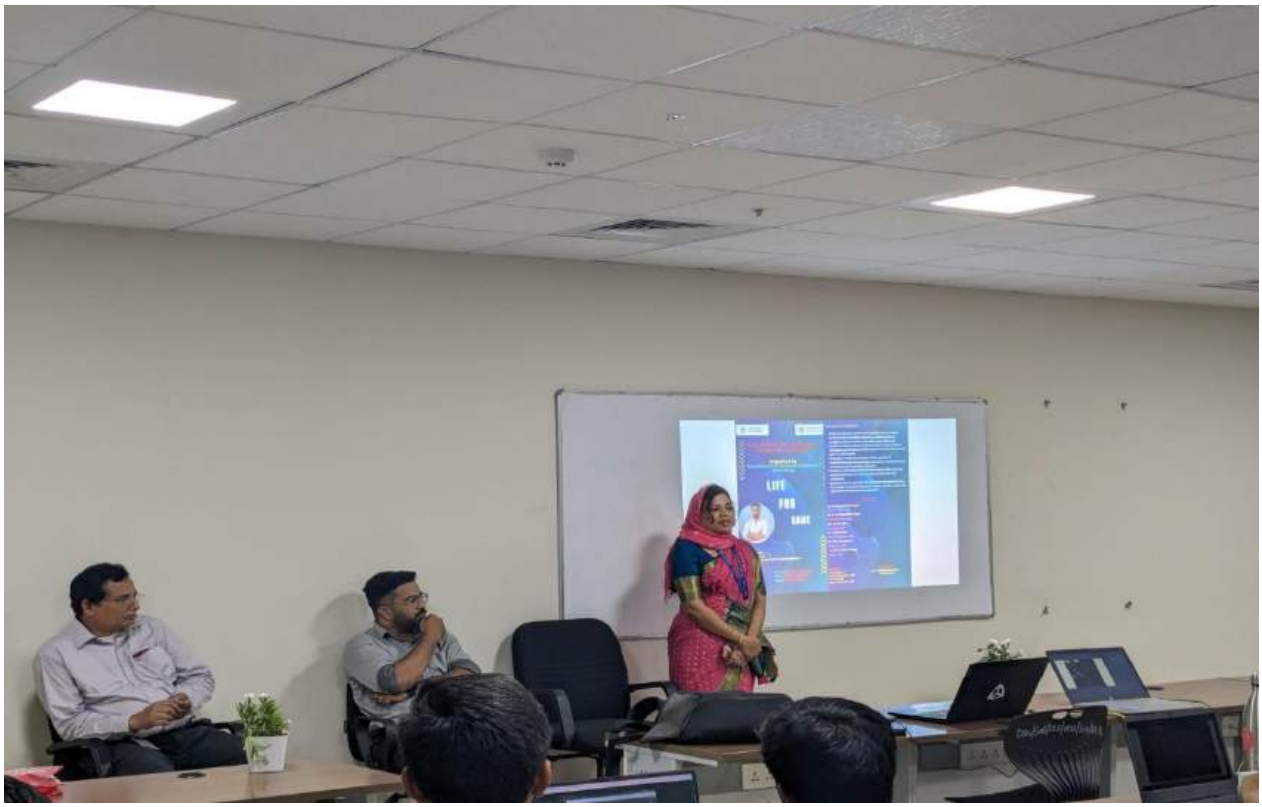

- The objective for students in this workshop is to gain a comprehensive understanding of game development through Unity 3D.
- Beginning with an introduction to game engines and the fundamentals of game design, students will progress through key concepts such as level design, terrain creation, lighting techniques, and C# scripting for gameplay mechanics.
- Students will also delve into advanced topics including AI implementation and user interface design tailored to enhance player experience.
- Students will have the knowledge and skills necessary to create and publish their own games, equipped with the ability to navigate Unity interface, develop engaging gameplay mechanics, implement AI behaviors, and prepare their projects for distribution across multiple platforms.

Outcomes:

- Students will gain a solid understanding of game engine fundamentals and Unity& interface, enabling them to navigate various windows and utilize tools effectively.
- Students will be proficient in level design, terrain creation, and lighting techniques, facilitating the creation of immersive game environments.
- Through C# scripting, students will be capable of implementing diverse gameplay mechanics, including player movement and interactive elements.
- Students will develop user interface design skills, creating intuitive interfaces to enhance player interaction and experience.
- Students will emerge from the workshop equipped with the knowledge and skills necessary to create, publish, and iterate upon their own games using Unity 3D.

Summary:

The Department of Computer Science & Technology has organized a 3-days hands on workshop on "Game Development" from 15th April 2024 to 17th April 2024 in F-140. The resource person for this session was Prathviraj, Program Lead at Seamedu - School of Pro-Expressionism. Session started by welcoming & introducing the resource person and Dr. M. Shanina Parveen, Chairperson, Department of CST addressed the gathering about the importance of the workshop and handed over the session to the resource person.

Workshop Objective for Day 1 (15th April 9:00 AM to 01:00 PM):

To provide students with a comprehensive introduction to game development using Unity 3D, covering the essential tools, features, and concepts necessary to create projects in both 2D and 3D environments.

Workshop Outcome for Day 1:

By the end of Day 1, students will be able to:

- Define the concept of game engines and understand their role in game development.
- Successfully install Unity 3D and Unity Hub on their systems.
- Differentiate between various versions of Unity 3D and select the appropriate version for their projects.
- Create a new project in Unity 3D, selecting either 3D or 2D as per project requirements.
- Navigate and utilize different windows within the Unity 3D interface, including Inspector panel, Tool bar, Project Window, Hierarchy Window, and Scene Window.
- Understand the basics of materials and physics in game development.
- Access and explore the Unity Asset Store for additional resources and assets.
- Implement terrain creation and lighting techniques within Unity.

Workshop Objective for Day 2 (16th April 9:00 AM to 01:00 PM):

To introduce students to C# scripting in Unity and empower them with the knowledge and skills required to implement player movement, scene management, and interactive user interfaces for their games.

Workshop Outcome for Day 2:

By the end of Day 2, students will be able to:

- Understand the basics of C# scripting and its lifecycle within Unity.
- Implement fundamental C# scripting concepts in Unity, including variables, functions, and control structures.
- Develop and implement player movement mechanics using C# scripting.
- Manage scenes dynamically through scripting for better game flow and organization.
- Create interactive user interfaces (UI) for games, including buttons, menus, and text elements.

Workshop Objective for Day 3 (17th April 9:00 AM to 01:00 PM):

To delve deeper into game development concepts by introducing students to artificial intelligence (AI) implementation, animation, and the process of game publishing.

Workshop Outcome for Day 3:

By the end of Day 3, students will be able to:

- Understand the basics of AI for games, including pathfinding using Navmesh and waypoint systems.
- Implement AI behaviors and movement patterns within their games.
- Utilize animation and Animator Controller to create dynamic character movements and
- interactions.
- Gain insight into the process of game publishing, including testing, debugging, and packaging for different platforms.

Session ended by questionaries and thanking the resource person for enlightening the students in gaming domain

How would you rate the overall organization and structure of the workshop?

Copy

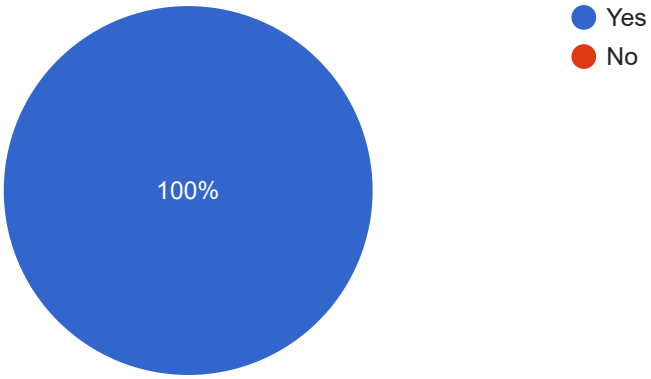

44 responses

Were the topics covered in the workshop aligned with your expectations and interests?

Copy

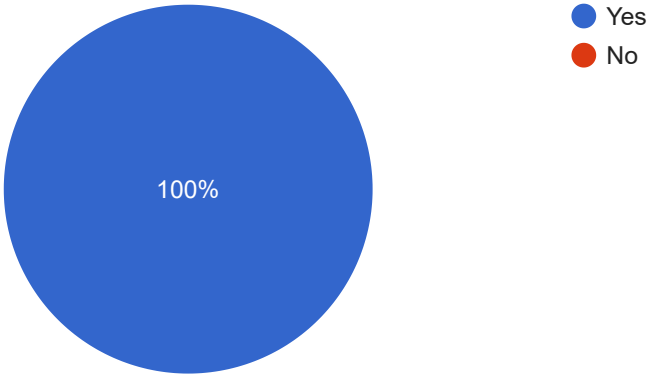

44 responses

Did the workshop effectively cater to participants with varying levels of experience in game development?

Copy

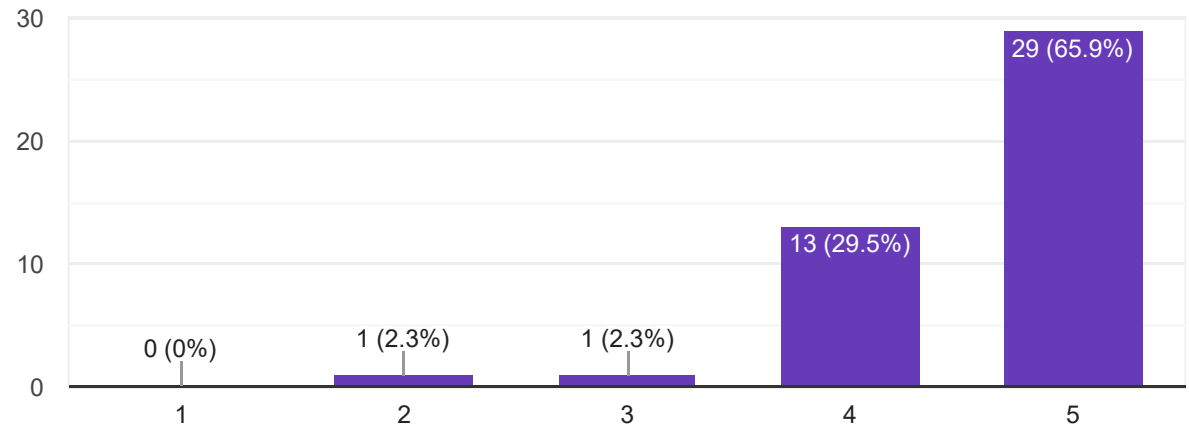

44 responses

How would you rate the clarity and effectiveness of the presentations and demonstrations during the workshop?

Copy

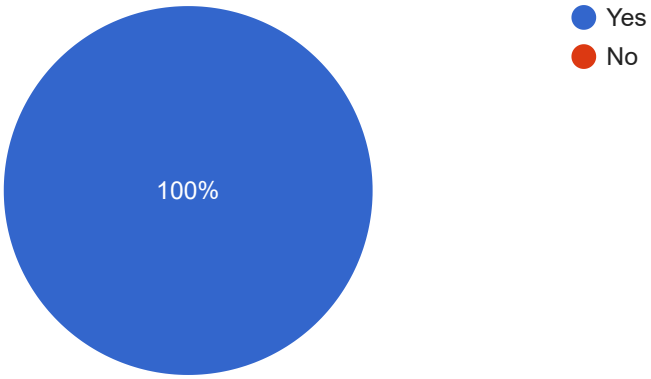

44 responses

Did the workshop provide sufficient hands-on activities and opportunities for practical learning?

Copy

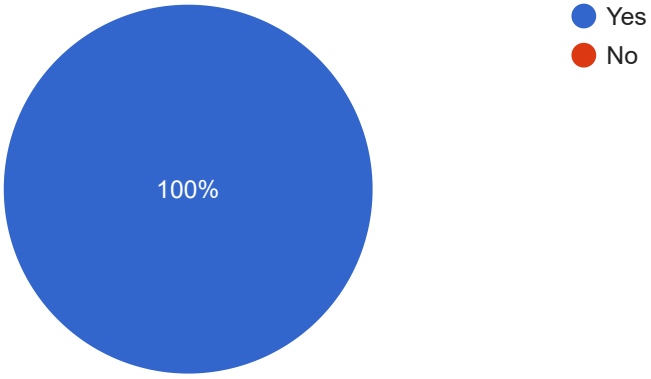

44 responses

Did the workshop adequately cover both technical aspects (e.g., coding, software tools) and creative aspects

Copy

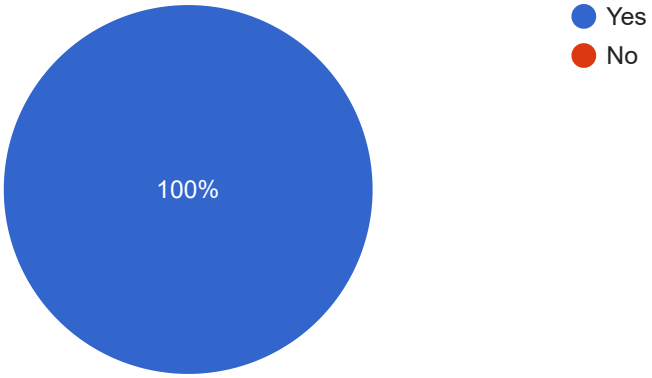

44 responses

Do you feel that the workshop has equipped you with valuable skills and knowledge that you can apply to your own game development projects?

Copy

44 responses

Overall, how satisfied are you with your experience at the workshop?

44 responses

Very satisfied

Good

It was good

Yes

It was fun and also we get to learn how utility works and how we can develop a game and how the ui/ux of it works

Learned a lot of new things about game development and unity software.

It great experience about how to develop the game or designing and i enjoy a lot and i learnt a lot from this workshop

This workshop is very valuable for me I have learned about unity game development and coding in c sharp.

Truly helpful and successful workshop, really happy with our department workshop organiser.

Satisfied I guess

It was a really good experience.

Very much

Good

Gooooooooooooooooooooooood

Next level satisfied

Very satisfied

Very satisfied and got new ideas to make a animation using unity hub

I learned many things related to the Game Development. How to add characters in the 2-D and many more things which we can add in the 2-D format.

Nothing

Satisfied but I was not able to keep up with the pace of developing the game

-

Very satisfied, wish there was more time

I really liked the work also I learnt new things ,it really go me interested i would really more workshop on the same gaming topic

Was a nice introduction to a new domain. It was also too much information in a single session. Hope it would be more spaced out like one session a week over three weeks so that we can have a refined understanding of one concept before moving onto the next.

it was great

Highly

It was overall good experience and there should be more workshops like this

crafted a mini-game from scratch, fostering creativity and collaboration.

It was helpful in learning unity. Thankyou sir

Well satisfied

Satisfied

Excellent

Overall a good experience

Very good

I was amazing & got practical implications

Yes it was good...we want more workshops like these

Very

It was very nice and interesting, I hope our clg will provide again this particular workshop

Great Teaching & Nice Workshop

Department of Computer Science and Technology

Report on

Report on
Product Design and Development
Peer to Peer teaching Guidance Session by Senior's

Event Name: Tech talk and discussion.

Date: 14/03/2024

Time: 11:00 AM – 3:00 PM

Venue: LH 4.

Objectives:

- Talk aims to foster product design and development process stages.
- Peer to peer discussion for developing the product.
- Confidence building to words developing product
- Highlight the importance of product sustainability in market.
- Provide step-by-step guidance on design procedures.

CST Department students had a guidance session taken by the third-year students – Sohana and team on how to go about the Product design and development project. It was a very informative session. We got insights on the roles that are to be taken up by the team members and also the tools that have to be used in each role, for example PyTest for testing and cloud services for data storage.
We were also given suggestions on the number of members per team and on our problem statement too. Sohana the Product owner gave us insights on their whole project while Keertish gave us insights on Tools used for testing, Niharika briefed us on how they are carrying the project forward currently.

They gave information about CI/CD pipeline and dev-ops life cycle, insights on how to arrange the crew for product design. They also explained the process of identifying a problem statement, for those who needed clarifications regarding the same. They had used a PowerPoint presentation to show the visual representation of a few tools and concepts.

Few other topics that the team of third year students had touched upon include: Docker, Kubernetes, IaC tools, Linux etc.

Introduction: Peer-to-peer teaching, also known as peer tutoring or collaborative learning, is a pedagogical approach where students learn from and teach each other under the guidance of a facilitator or instructor. This report provides an overview of peer-to-peer teaching, its benefits, challenges, implementation strategies, and best practices.

Benefits of Peer-to-Peer Teaching:

- Enhanced Learning: Peer teaching encourages active engagement and participation, leading to deeper understanding and retention of concepts.
- Improved Communication Skills: Students develop communication and interpersonal skills by explaining concepts to their peers.
- Increased Confidence: Both the tutor and the tutee gain confidence in their abilities as they take on the roles of teacher and learner.
- Promotion of Critical Thinking: Peer teaching promotes critical thinking as students analyze, evaluate, and synthesize information to teach others.
- Fostering a Positive Learning Environment: Peer interaction creates a supportive and collaborative learning environment where students feel comfortable asking questions and seeking clarification.

Challenges of Peer-to-Peer Teaching:

- Unequal Knowledge Levels: Variations in students' prior knowledge and understanding may pose challenges in peer teaching.
- Effective Group Dynamics: Maintaining positive group dynamics and ensuring equal participation among group members can be challenging.
- Training and Preparation: Proper training and guidance are required to prepare students for their roles as peer tutors.
- Assessment: Assessing the effectiveness of peer teaching and providing feedback to students can be complex.
- Time Constraints: Peer teaching may require additional time and resources for planning, implementation, and evaluation.

Implementation Strategies:

- Training Programs: Offer training programs or workshops to equip students with the necessary skills and strategies for effective peer teaching.
- Structured Activities: Design structured activities and assignments that promote peer interaction and collaboration.
- Feedback Mechanisms: Establish feedback mechanisms to monitor student progress, address concerns, and provide constructive feedback.
- Peer Evaluation: Implement peer evaluation processes where students assess each other's performance as tutors and tutees.
- Integration with Curriculum: Integrate peer teaching activities into the curriculum to reinforce key concepts and learning objectives.

Best Practices:

- Clear Expectations: Clearly communicate expectations, roles, and responsibilities to students participating in peer teaching activities.
- Peer Selection: Consider students' interests, strengths, and learning styles when selecting peer tutors and tutees.
- Reflection: Encourage students to reflect on their experiences as both tutors and tutees to identify areas for improvement.

- Instructor Support: Provide ongoing support, guidance, and feedback to students and facilitate discussions to address challenges and promote learning.
- Continuous Improvement: Continuously evaluate and refine peer teaching practices based on student feedback and outcomes.

Conclusion: Peer-to-peer teaching is a valuable pedagogical approach that promotes active learning, enhances communication skills, and fosters a positive learning environment. By leveraging the expertise and resources within the student community, peer teaching has the pot ential to enrich the educational experience and empower students to become lifelong learners.

References: [Include relevant references and resources supporting the information presented in the report.]

This comprehensive report provides insights into the principles, benefits, challenges, implementation strategies, and best practices of peer-to-peer teaching, offering guidance for educators interested in integrating this approach into their teaching practices.

DAYANANDA SAGAR UNIVERSITY

Devarakaggalahalli, Harohalli, Ramanagara – 562 112

Department of Computer Science and Technology

Report on

New Product Design and Development workshop

CST students

Event Name: Workshop

Date: 23/03/2024

Time: 11:00 AM – 3:00 PM

Venue: LH 3.

Objectives:

- Talk aims to foster creativity, encourage innovative thinking, and promote product design and development concepts.
- Students will learn how to design unique products.
- Educate students about Product design and development cycle.
- Highlight the importance of product sustainability in market.
- Provide step-by-step guidance on design procedures.
- Equip participants with practical knowledge to successfully register their designs.
- Industry standers process.

The Department of Computer Science & Technology conducted Workshop on new product design and development on 23/03/2024 at Lecture theatre No 3.

Students learnt about new product design process and some activities to identify the potential and self-confidence of students in building products and beyond thinking, critical high level thinking as per industry requirements.

Resource person:

Santosh Bhoosthali

Pre-Placement Training

Event Name: Pre-Placement Training

Date: 30th -March-2024 (Saturday)

Time: 11:30 AM – 12:30 PM

Brochure:

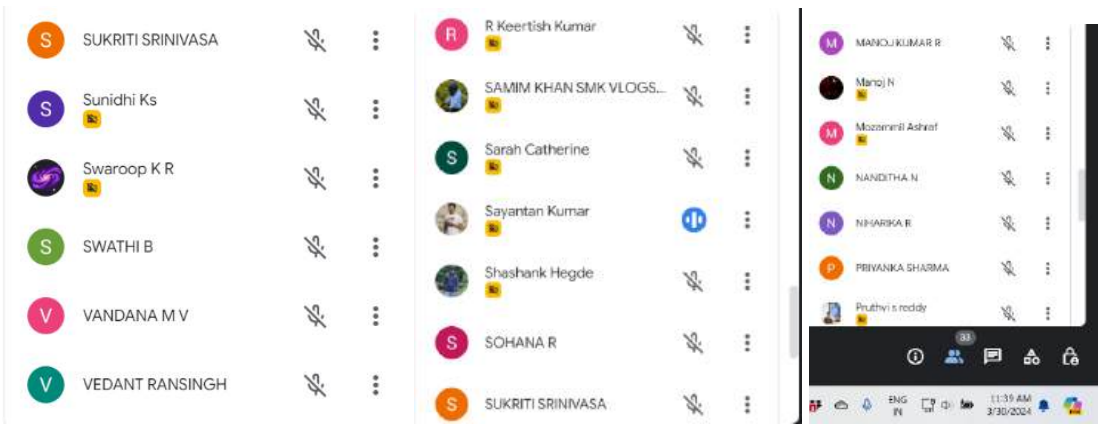

Summary:

The Department of Computer Science & Technology has organized a Pre-Placement series for 6th-semester students. The training was organized by Prof. Baskar Venugopalan, Associate Professor, CST and Prof. Ramandeep Kaur, Assistant Professor, CST. This training is started as a series where the alumni of CST department share their experience with current students and provide them with necessary knowledge about the training. The first session of this training was delivered by Mr. Sayantan Kumar, Backend Developer, Societe Generale

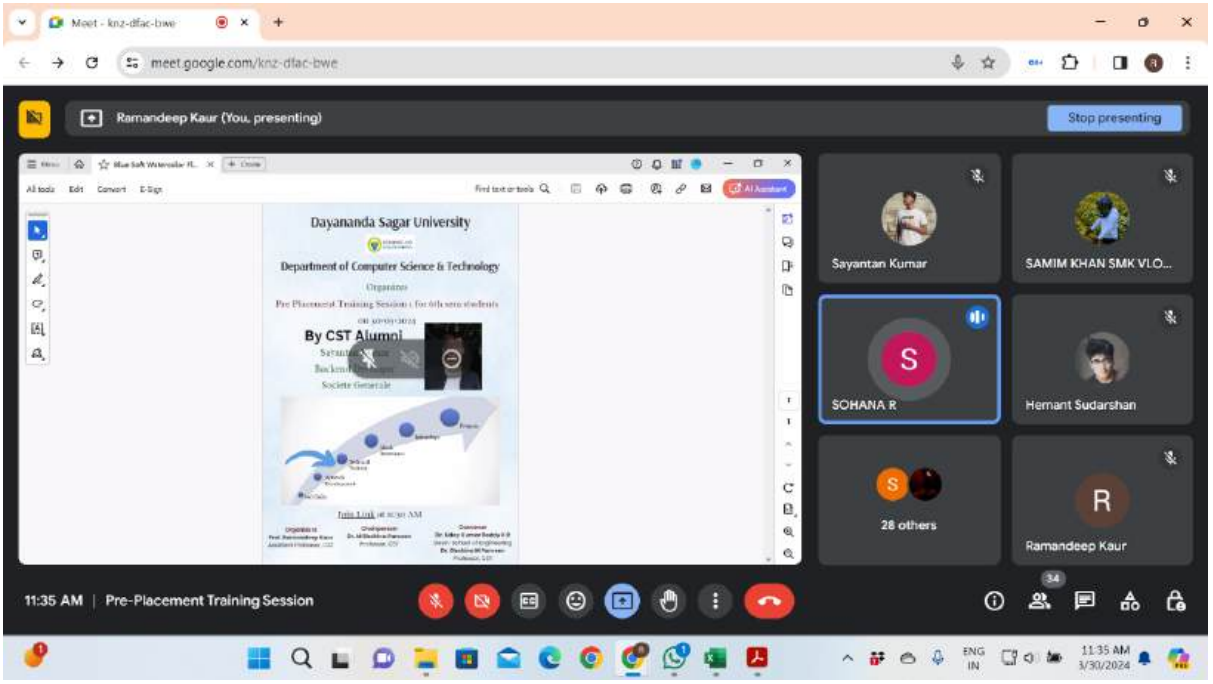

The training started at 11:30 am with a welcome to Mr. Sayantan Kumar by Prof. Ramandeep Kaur and student Sohana introduction and hand over the session to the speaker. Mr. Sayantan started his session with a small interaction with students and later he explained how to prepare for placement and why it is important. This training armed students with essential skills, from REST APIs to client-server architecture and CRUD operations. As they embark on their professional journey, these foundational concepts pave the way for success.

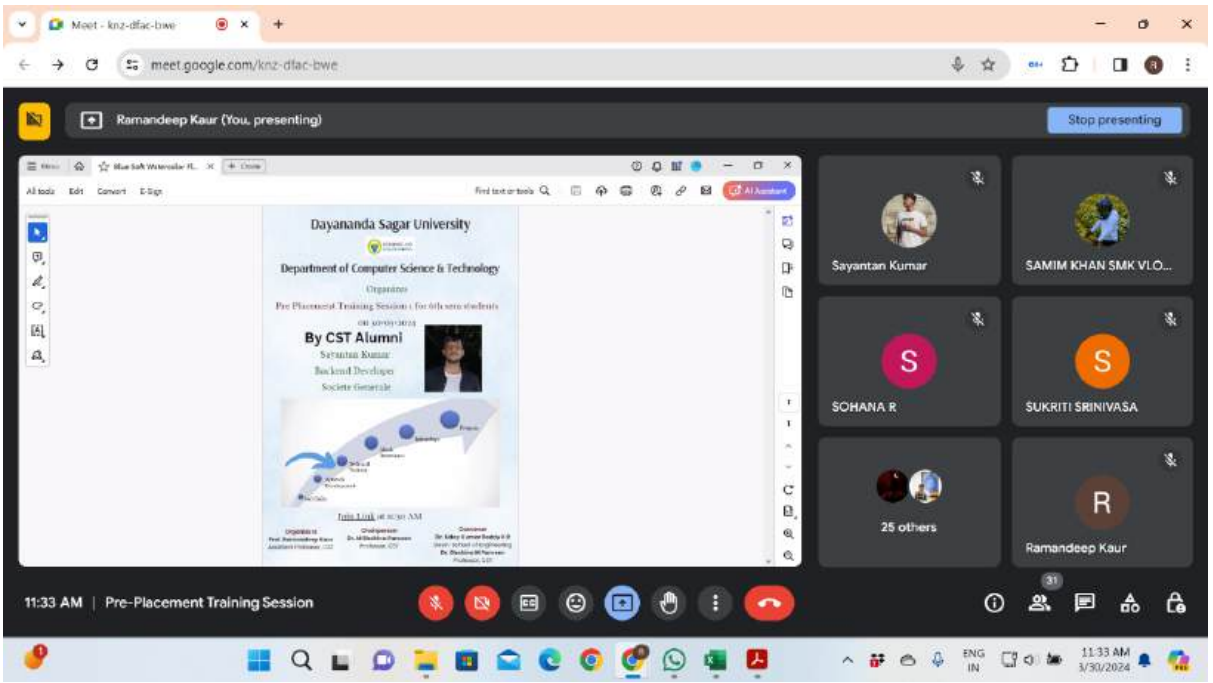

A total of 37 students attended this training and gave very good feedback about the training and the topics covered in it.

Department of Mechanical Engineering

Autodesk Innovation Lab

A Value-added course on

"Generative Design with Autodesk Fusion 360"

25th Sep–7th Oct 2023

Timings: 01:45 pm to 04:45 pm

What is Generative Design?

Generative design harnesses the power of artificial intelligence (AI) to generate design iterations based on constraints identified by the designer or engineer. Typically, generative design is used to reduce weight, reduce manufacturing costs, and optimize part performance. Unlike topology optimization, the software explores all the possible permutations of a solution, quickly generating design alternatives.

Course Coordinator:
Dr. Shashidhar L C,
Autodesk Lab Manager, DSU

Venue:
Autodesk Innovation Laboratory,
Dayananda Sagar University,
Kudlu Gate, Hosur Main Road,

"Generative Design with Autodesk Fusion 360"

25th September – 7th October 2023

Timings: 01:45 pm to 04:45 pm

Course Overview:
Generative design harnesses the power of artificial intelligence (AI) to generate design iterations based on constraints identified by the designer or engineer. Typically, generative design is used to reduce weight, reduce manufacturing costs, and optimize part performance. Unlike topology optimization, the software explores all the possible permutations of a solution, quickly generating design alternatives.

Course Coordinator:
Dr. Shashidhara L C
Asst. Professor,
Dept of Mechanical Engg.
Dayananda Sagar Univerity

Course Objectives:
1. To understand the generative design principles, features and applications.
2. Discuss how trends such as generative design concepts are influencing innovation and how things are made.
3. Develop a deep understanding of key concepts of generative design
4. Demonstrate creative confidence and practice generative design using Autodesk Fusion 360 software.
5. Creating optimized complex shapes and internal lattices
6. Open ended projects on generative design

Certification:
Certificate of participation will be issued to participants who have attended all the sessions.

Location:
Autodesk Innovation Laboratory,
Dayananda Sagar University,
Kudlu Gate, Hosur Main Road, Bengaluru – 560068

Duration: 30 Hours

Target Students:
B.Tech, Mechanical Engg. 5th Semester

Dayananda Sagar University
School of Engineering
Department of Mechanical Engineering

AUTODESK

What is Generative Design?

Generative design a technique for discovering new and optimized designs. Designer or engineer; Enter design objectives using criteria including performance, material, cost, and production process. The program computes all potential outcomes of the solution and creates design alternatives using the computing power of the cloud. At each iteration, the outcome is tested to determine what works and what doesn't.

With the help of this technology, users of productive design can resolve complex engineering issues like: Assembling parts by lowering the overall number of parts and components; Reducing the weight of parts and components by using the least amount of material to make the parts as effective as possible; and Increasing performance by designing stronger parts and components.

Course Objectives:

1. To understand the generative design principles, features and applications.
2. Discuss how trends such as generative design concepts are influencing innovation and how things are made.
3. Develop a deep understanding of key concepts of generative design
4. Demonstrate creative confidence and practice generative design using Autodesk Fusion 360 software.
5. Creating optimized complex shapes and internal lattices
6. Open ended projects on generative design

Course Contents:

Introduction to generative design, The Difference Between Topology Optimization and Generative Design, The Changing Role of the Engineer in Generative Design, Applications of Generative Design, Benefits of Generative Design, Software Tools for Generative Design, Generative Design and 3D Printing, Why Generative Design and 3D Printing Work Well Together, Case Studies: Generative Design and 3D Printing in Action, Getting Started With Generative Design, Generative Design: Innovating the Future.

Using Generative Design in Fusion 360, Examining the Features of the Target Design, creating a New Generative Design Project, Preserve Geometries, Obstacle Geometries, Starting Shape and its Features, Specifying Constraints, Specifying the Forces Affecting the Part, Specifying Criteria for Generative Design, Generative outcomes, Solving a generative design study. Viewing outcomes, selecting an appropriate iteration, and creating a design that can be further manipulated in Fusion 360. Work with a generative design outcome in Fusion 360.

Course Outcomes:

1. Describe the generative design principles, features and applications.
2. Summarize how trends such as generative design concepts are influencing innovation and how things are made.
3. Demonstrate a deep understanding of key concepts of generative design
4. Demonstrate creative confidence and practice generative design using Autodesk Fusion 360 software.
5. Create optimized complex shapes and internal lattices
6. Analyse the generative design outcomes

Date: 14-03-2024 to 05-04-2024

Venue: G037, Block B- DSU- Kudlu Gate

Organized by Department of Mechanical Engineering, SoE-DSU in Association with BETA SIMULATION SYSTEMS-Bangalore

Distinguished Speaker

Dr. Aruna M N

Beta CAE Systems Pvt. Ltd.

Bangalore, Karnataka, India.

Brief Introduction

Dr. Aruna M N obtained his PhD degree from NIT Karnataka in the filed of Metallurgical and Materials Engineering. He was awarded M Tech from VTU in Computational Analysis in Mechanical Science. He has diverse experience both in academics as well as in industry. He is interested in characterization tools such as Rheometer, X Ray diffraction, VSM, FTIR, SEM and UTM. Currently he is training coordinator at BETA CAE Systems, Bangalore.

Advisory Committee

- Dr. Amit Bhatt, Vice Chancellor, DSU
- Dr. C.Puttamadappa, Registrar, DSU
- Dr.Udaya Kumar Reddy K R, Professor & Dean-SoE, DSU
- Dr. Vinayak Hemadri -Chairman Mechanical Engineering Department

Convener: Dr. Kamalbabu, Assistant Professor- ME
Co-Conveners: 1) Dr. P. M. G. B. Asdaque, Assistant Professor -ME 2) Prof. Karthik Tandel -Aerospace

Day_02 (Friday)	Geometry healing -Using Classic Topo,Prepartion and Design Tool using Topo Sets	Middle Surf. Extraction (i.e.: Skin, Midle single and multi)		Hands on Practice	Hands on Practice
Week_02					
Date (21/03/24 to 22/03/2024)	**Session - I (10:00 - 11:00)**	**Session -II (11:15 - 1:00)**	**Lunch Break (1:00-2:00)**	**Session -III (2:00-3:00)**	**Session -III (3:00-4:00)**
Day_01(Thursday)	Surface Meshing-Main terms of classic Mesh Mesh parameter and quality criteria	Surface Meshing-Main terms of classic Mesh Mesh parameter and quality criteria		Hands on Practice	Hands on Practice
Day_02 (Friday)	Surface Meshing-Main terms of shell Mesh parameter and quality criteria	Surface Meshing-Main terms of shell Mesh Mesh parameter and quality criteria		Hands on Practice	Hands on Practice
Week_03					
Date (28/03/24)	**Session - I (10:00 - 11:00)**	**Session -II (11:15 - 1:00)**	**Lunch Break (1:00-2:00)**	**Session -III (2:00-3:00)**	**Session -III (3:00-4:00)**
Day_01(Thursday)	Batchmeshing - Batchmesh filters, Mesh parameters ,reports and statistics	Introduction to ANSA GUI- Main terms and GUI		Hands on Practice	Hands on Practice
Week_04					
Date (04/04/24 to 05/04/2024)	**Session - I (10:00 - 11:00)**	**Session -II (11:15 - 1:00)**	**Lunch Break (1:00-2:00)**	**Session -III (2:00-3:00)**	**Session -III (3:00-4:00)**
Day_01(Thursday)	Handling of Sheetmetal features Identification of features like holes, stamps, beads etc, and definition of design actions, mesh treatment	Handling of Sheetmetal features Identification of features like holes, stamps, beads etc, and definition of design actions, mesh treatment		Hands on Practice	Hands on Practice
Day_02 (Friday)	Introduction to Part Manager, Property and Material assignment	Introduction to Part Manager, Property and Material assignment		Hands on Practice	Hands on Practice

Week_05(ANSA TRAINING BETA CAE SYSTEMS)					
Date (11/04/24 to 12/04/2024)	Session - I (10:00 - 11:00)	Session -II (11:15 - 1:00)	Lunch Break (1:00-2:00)	Session -III (2:00-3:00)	Session -III (3:00-4:00)
Day_01(Thursday)	Plastic Mid Extraction (Manual)	Plastic Mid Extraction (Manual)		Hands on Practice	Hands on Practice
Day_02 (Friday)	Casting - Align manager - Area and perimeter definition	Casting - Align manager - Area and perimeter definition		Hands on Practice	Hands on Practice
Week_06					
Date (18/04/24 to 19/04/2024)	Session - I (10:00 - 11:00)	Session -II (11:15 - 1:00)	Lunch Break (1:00-2:00)	Session -III (2:00-3:00)	Session -III (3:00-4:00)
Day_01(Thursday)	Casting - Align manager - Area and perimeter definition	Casting - Align manager - Area and perimeter definition		Hands on Practice	Hands on Practice
Day_02 (Friday)	Casting - Align manager - Area and perimeter definition	Casting - Align manager - Area and perimeter definition		Hands on Practice	Hands on Practice
Week_07					
Date (25/04/24) to 26/04/2024	Session - I (10:00 - 11:00)	Session -II (11:15 - 1:00)	Lunch Break (1:00-2:00)	Session -III (2:00-3:00)	Session -III (3:00-4:00)
Day_01(Thursday)	Tetrahedral and Hexahedral mesh generation Overview of map, extrude, solid build options and mesh quality corrections	Tetrahedral and Hexahedral mesh generation Overview of map, extrude, solid build options and mesh quality corrections		Hands on Practice	Hands on Practice
Day_02 (Friday)	Morphing module for design modifications using DFM	Morphing module for design modifications using DFM		Hands on Practice	Hands on Practice
Week_08					
Date (02/05/24 to 03/05/2024)	Session - I (10:00 - 11:00)	Session -II (11:15 - 1:00)	Lunch Break (1:00-2:00)	Session -III (2:00-3:00)	Session -III (3:00-4:00)
Day_01(Thursday)	Boundary condition for static load case Analysis	Boundary condition for modal analysis		Hands on Practice	Hands on Practice
Day_02 (Friday)	Coupling of ANSA with optimizers Creation of parameters, DOE (Design of Experiments) for linear cases	Coupling of ANSA with optimizers Creation of parameters, DOE (Design of Experiments) for linear cases		Hands on Practice	Hands on Practice

ANSA Course Content for Universities

Course Objectives:

- To enable students to learn and apply ANSA – a finite element pre-processor for industry problems
- To enable students to learn the process for complex FEM (Finite Element Modelling) for structural and CFD analyses using 2D & 3D elements for selected industry problems, including how to model mechanical joints (welds, bolts, rivets etc.), mid-surface extraction, joining of different sub-systems, basic quality checks etc.
- Full model checks as per the industry standards

Course Achievements:

At the end of this course, the student will be able to:

- Explain current trends pertaining finite element modelling and analysis of industry problems
- Understand the quality requirements of complex finite element models per industry standards
- Able to use ANSA for meshing of FE (Finite Element) analyses – structural and CFD
- Able to provide complex loads and boundary conditions
- Able to provide material inputs for linear and non-linear materials
- Able to run basic FE (Finite Element) analyses

Unit 1: 20 Hours

- Introduction to FEA
  Overview of FEA with some basic examples and explaining the importance of mathematical model generation to carry out different analyses
- Reading and translation of CAD files and introduction to TOPO menu
  Main terms of TOPO Menu, changing FEM disciplines between different menus, Geometry clean up, preparing model for surface meshing, switch to Mesh menu and explain about some basic options in Mesh menu ex: perimeters, macros, mesh generator etc.
- Meshing for Sheetmetal and plastic parts
  Middle Surface Extraction approach like Skin and Casting, Mesh generation and Quality corrections

Unit 2: 20 Hours

- Introduction to Part Manager, Property and Material assignment
  Creating parts, groups and meta data carried from CAD software, assigning property and materials for entities
- Handling of Sheetmetal features
  Identification of features like holes, stamps, beads etc, and definition of design actions, mesh treatment. Collaboration of feature manager with morphing module.
- Connections of Parts
  Overview of connection manager, different types of weld representation (seam weld, spot weld), and bolt definition (both 1D and 3D)
- Boundary condition for static load case
  Preparing model to carry out linear load case like SPC, load definition (point load and distributed load), header creation and output the file in industry standard solver format

Unit 3: 4 Hours

- Tetrahedral and Hexahedral mesh generation
  Typical solid parts demonstration to generate 2D tria mesh and convert them to tetra mesh. Overview of map, extrude, solid build options and mesh quality corrections.

Unit 4: 5 Hours

- Hybrid mesh generation for CFD external aerodynamics
  Geometry healing, batch mesh scenarios, quality corrections, mesh refining process like size box and layer generation. Overview of interfaces using property cards. 3D model generation with solution details.

Unit 5: 6 Hours

- Morphing module for design modifications
  DFM (Direct Fit Morphing) options like rotate, translate, glide, sweep etc for external aerodynamics 2D mesh model
- Coupling of ANSA with optimizers
  Creation of parameters, DOE (Design of Experiments) for linear cases
