

Name of the Event: Visit to Medicinal Plant Conservation Area

Date: 24/11/2022

Report of the event

For educating the students and creating awareness among the students about conservation of medicinal plants, which is of prime importance at this point of time, where many plant species are becoming extinct, due to overexploitation, a visit to the medicinal plants in the MPCA, Savandurga forest, Magadi was arranged by the Dept. of Pharmacognosy, CoPS, DSU. Around 33 students and 2 teaching staff accompanied the students. Mr. Muttaiah led the team into the forest and explained about 60 medicinal plants, their identification, uses and their importance in pharma industry. The trip was very informative, students could acquire the practical knowledge about various medicinal plants than theoretical explanation. The organizers thank the Management, DSU, Dean, SAHS, DSU and Principal, CoPS, DSU for giving an opportunity to visit the MPCA.
